Awesome....thanks Nikkia!

Hey our plotter is fully operational. If you need print outs, send them my way and I'll run them over.

Also, can someone point me to the right direction on the Water Service Line Lead Layer on the AGOL? I've checked under Groups, Layers, and Files but am not seeing it. Can someone guide me to the data? Or if it's not up there, I can bring a flash drive over.

Good morning,

I've attached the MTA bus routes and bus stopsshapefiles. I received this data from the MTA some time ago and used it once, so I'm not incredibly familiar with it.

I verified the bus routes in mid-2015 and they all seemed correct but I was told the bus stops aren't accurate.

On Fri, Jan 29, 2016 at 10:07 AM, MSP-SEOCGIS <MSP-SEOCGIS@michigan.gov> wrote:

Hey Calix,

Do you have information on the public transit infrastructure? They were hoping to have it available for planning of locations.

If it does not exist, we can work with what ever you have to flesh it out and get it in AGOL. It could be nice for you to have long term.

Subject: Re: AGOL Accounts for Federal Partners

I don't see any issues with that. If you want to forward the requests to me I can make them.

I had a call yesterday with GIS staff from HHS, EPA, CDC, and FEMA about how we were going to share data and some operations they are carrying out. I was thinking I'd just add them to a AGOL group like we did originally. Brett Beardsley from FEMA has been my main point of contact and was hoping to do a call with me and MSP sometime next week when you have time.

On Fri, Jan 29, 2016 at 10:58 AM, MSP-SEOCGIS <MSP-SEOCGIS@michigan.gov> wrote:
Calix,

We are getting a lot of requests to create AGOL accounts for federal personnel. In order to streamline this process, we were thinking it would be beneficial to establish an AGOL administrator account for a point of contact within the federal group that could manage/create these accounts. Do you see any issues with that? Any suggestions?

Thanks

Hey Calix,

I wanted to touch base as a result of a meeting we had this morning with the Center for Shared Solutions.

For background, they are the centralized resource here at the state for GIS. It's a very large group of GIS professionals with a wide range of skill sets and resources.

They asked how they could get involved and I recommended to them that they could potentially be of great benefit to you with regards to getting local resources optimized or built out that can be used to help manage infrastructure within the city long term. I know that they have standing relationships with ESRI and City Works (which I think is what the DPW is using). They could easily get representatives to the table from these vendors and start helping to build out a plan that is sustainable for the City of Flint that ensures you are getting the best from the software you have.

I don't want to push too far down this route unless you are comfortable with it. But, I think if we orchestrated a meeting with them they could really be helpful.

Please let me know your thoughts.

Subject: Yesterdays statistics for Residential Properties

AS OF 1/26/2016 AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking 38,238 residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- 34589 (90.5%) of the parcels have been engaged as part of response efforts
- 22356 (58%) of the parcels have been confirmed have some form of filter
- 10607 (28%) of the parcels have volunteered for water testing
- 5030 (13%) of the parcels have not had personal contact (not home or did not visit a POD)

We are also tracking that there are 29994 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are 26673 residential parcels that have the ability to use the Flint Water System. Of these

- 25305 (95%) of the parcels have been engaged as part of response efforts
- 19433 (73%) of the parcels have been confirmed have some form of filter
- 9461 (35.5%) of the parcels have volunteered for water testing
- 3790 (14%) of the parcels have not had personal contact (not home or did not visit a POD)

Please let me know if you need anything else.

Subject: RE: GIS Information - Deadline 5 p.m. 1/28/16

I hope this is comprehensive enough. I wrote it really fast and likely missed some things. I can refine further if needed.

- What have we done on the GIS side of things? Include the partners we have collaborated with.
  - Overall coordination
    - Coordinated the initial response of GIS staff from city (Calix Martinez), county (Ken Koleda) and state government
    - Inventoried GIS resources and conducted an onsite visit with Flint GIS staff who brought in Department of Public Works specialists to explain data and hand off data that would be critical to the incident
    - Build the GIS strategy for the response efforts of the Flint Water Emergency
    - Coordinated the integration of DNR and DTMB/CSS staff into SEOC operations
    - Coordinated the sharing of information with federal partners
    - Synchronized the efforts of approximately 25 GIS specialists supporting the Flint Water Emergency
    - Engaged the ESRI Disaster Response
  - Web-Based Tools
    - Built the plan to digitize field information and lead the initial deployment of iPADS from the City of Flint in coordination with Calix Martinez (City of Flint GIS Administrator)
    - iPAD deployment to install needed apps and configure accounts
    - Installed and configured apps for field teams, and worked with DTMB during each
    - Coordinated trainings with the field teams through the City of Flint GIS Coordinator (Calix Martinez)
    - Created several Collector Apps for field teams and PODS to push live updates to our databases for resource distributions
    - Created live dashboards for display in EOC's and ECC's that show live numbers from field teams and PODS and live track where teams have been during the day
    - Configured and assisted in the administration of the City of Flint's online GIS to act as a single platform for GIS information sharing
    - Created web-based map layers and published them to apps and the GIS website to facilitate field team activities (e.g. ~ the Vulnerable Populations app)
    - Live validated location information entered into the system when teams were in the field
    - Archived data and finished validating data for phases of the operation
  - Support to planning
    - Developed methods to tie field team activities to parcels so that statistics could be run on a per parcel basis
    - Developed field team areas and supplied maps by team area for field use and planning use that show areas to target by parcel
    - Provide metrics for completion as a percentage of the total parcels in the form of total number contacted, total number confirmed as having filters, total being tested, etc.
    - Created a layer of active water subscribers as it relates to parcels for use in analysis
    - Generated the methods used to quickly transfer old printed drafting maps of lead service lines to parcels and tied lead status to parcels for the highest risk areas of the city as it relates to the study conducted by Dr. Dr. Mona Hanna-Attisha and provided target areas for teams of known lead service lines (we completed 50% of the city and DNR completed remaining 50%)

        - Coordinated with U of M Flint to assist in the completion of their lead mapping initiatives and are planning a session to cross validate results against our findings from the maps developed during the emergency response
        - Cross validate addresses from state systems to confirm if they reside within the affected area
    - Generated printed maps for situational awareness
        - Maps of incident facilities (PODS, Warehouse, EOC, JIC, etc.) as they relate to specific local and state operations
        - Map key facilities from state agency and local databases related to the incident (e.g. ~ restaurants, health facilities, schools, etc.)
        - Maps of lead distributions from service line data
        - Maps of parcels broken down by field team data (e.g. ~ filter present, contacted, etc.)
        - Map out water test kit results and update heat maps of the affected area to show overall lead distributions and compare them to lead service lines data
    - Data
        - Coordinated the building of a centralized GIS repository at the SEOC and guided various entities in generating content in support of the incident from local, state, and federal partners
        - Build content from address lists to map out facilities in flint
        - Maintain statistics for percent parcels contacted
    - Accomplishments
- What are we currently doing?
    - Refining the numbers used to evaluate what parcels still need to be contacted
    - Working with recovery unit to streamline collection of data on multi-tenant commercial properties
    - Validating incoming field data
    - Maintaining apps and web-based GIS
    - Providing data to partnering GIS and coordinating GIS efforts for the response
    - Providing Field teams with lists and maps of parcels to target in the upcoming operational period by team area
    - Providing wall maps and hand out maps in support of planning and other initiatives
    - Maintaining databases
    - Coordinating with local GIS to build a long term plan for how the city will manage DPW resources into the future in coordination with DTMB/CSS and DNR
- *What needs to be done?*
    - We need to fully refine our numbers to flesh out areas of the city still need assistance
    - We need to empower Flint GIS and Public Works with tools and training to use modern technology to maintain their water infrastructure
        - CRITICAL TO LONG TERM RECOVERY
    - Develop a mechanism in conjunction with Flint and DEQ to track plumber activities so infrastructure changes are properly documented in City Asset Management Systems
        - CRITICAL TO LONG TERM RECOVERY
    - Continue to help plan SEOC resources and begin transitioning tasks that will be recurring for the foreseeable future to state departments responsible the respective content (water testing mapping to DEQ, infrastructure mapping to Flint DPW, etc.)
- What is the baseline information that other state and federal agencies need reference GIS?
    - Service lines
    - Water mains
    - Water valves
    - The Flint Water Infrastructure Report
    - Dr. Mona's Report (heatmap)
    - Water test kit heat maps
    - Full parcel information for the city (up to date)
    - Franchise customer locations (140 customers outside of Flint)
    - Team assignment areas used by the field

- Layers for CIKR that are being addressed by state agencies (restaurants, schools, daycares, etc.)
- Locations of multi-tenant

- What are the performance outcomes we need to meet individually and collectively?
  - Filter every active water users tap or account for gaps in coverage (knowing we will never reach 100%)
  - Build a plan to deploy an asset management solution for Flint DPW and train their public works persons to properly use it
  - Check all CIKR on the water system with an inspector
  - *Build a plan to populate changes to local infrastructure conducted as a result of response efforts into Flint* DPW tracking systems
  - Remediate the effects of lead at (1) positive water test sites and (2) confirmed lead line locations (with water testing first)

Subject: GIS Information - Deadline 5 p.m. 1/28/16

By 5 pm today I need the following for a meeting with the Governor's Staff:

- What have we done on the GIS side of things? Include the partners we have collaborated with.
  - Accomplishments
- What are we currently doing?
- What needs to be done?
  - Hurdles?
- What is the baseline information that other state and federal agencies need reference GIS?
- What are the performance outcome we need to meet individually and collectively?
  - How do we get there?

Essentially this is an informational briefing I need to provide.

Capt. Chris A. Kelenske
Deputy State Director/Commander
Emergency Management and Homeland Security Division
Michigan State Police

PLEASE NOTE Effective February 1, 2016, the Emergency Management and Homeland Security Division is moving.

My new contact informaiton will be:

Fax: 517-284-3857

Physical Address:
7150 Harris Drive
Dimondale, Michigan 48821

Mailing Address:
PO Box #30634
Lansing, MI 48909

Subject: Bullets

Importance: High

Good afternoon all,

This is your reminder to send me your daily activity bullet points.

ACTIONS:

1. Compile a short list (5-7) of bullet pointed major activities for today.
2. Email the completed bullet points to msp-seocda1@michigan.gov.

Bullet points are due by 5p.m.

Thank you,

Audrey Walter, PEM
Situation/Documentation Unit Leader, State Emergency Operations Center
Michigan State Police/Emergency Management and Homeland Security

To: MSP-SEOCGIS; MSP-SEOCGIS2; Martinez, Calix
Subject: Request from EOC/OPs

I have had a vague request for a map with ALL churches on it. At least that is what I believe they are saying. They call, and I have been down there three times and each time only one of the two requestors is there.

Anyway is this a layer you guys have? If you get this request and make a map I can always easily print the PDF here (as you know).

What is the problem with apartment buildings and the data?

The parcel data does not tell us where the apartment building are located nor how many people are in each building.

Additionally, there are potentially multiple buildings within the same parcel.

The collection process does not have any spot for collecting apartment information. Apartment/Building numbers are entered into comments and address fields.

What is the data cleanup process? What is the cause and what is the fix?

1. Data entry of paper records
2. Checking/correction of both data entry and field entry points
3. Consolidation of multiple versions of form questions.

Causes:

- Paper forms slow to process, difficult to read, often are incomplete
- Bad address information from paper forms or PODS data entry
- Addresses that exist physically but are not in parcel data
- Variety of formats
- Multiple versions of questionnaires: multiple types of paper forms, multiple types of spreadsheets, multiple ArcGIS forms
- Questions are phrased differently. Yes/No responses were changed to Quantity and Type. This means there are unknown quantities initially distributed, though some assumptions can be made.
- Technology that works on laptops but not iPads and vice versa
- Technical and environmental difficulties such as temporary unavailable networking, cold temperatures

Fixes:

- Use iPad/Collector for ArcGIS for all data collection
- Improved training for field teams and data entry teams
- Quality Assurance/Quality Control teams

What are we doing regarding the mapping of water lines and the issue of lead lines to the curb?

EMHSD had begun digitizing paper maps from Flint Water Department. This project was passed to FEMA and finally to the DNR for completion.

The results will allow us to use this information in our GIS, maps, and future analyzes.

Who are the non-subscribers with filters and why do they need filters? Could they be subscribers at any time?

People who picked up filters from PODS
Bad address information
Out of date billing and parcel data

What is the # of potential non-contacted parcels in red zone?

If the red zone is Dr Mona, ...

Hey Calix,

I wanted to touch base as a result of a meeting we had this morning with the Center for Shared Solutions.

For background, they are the centralized resource here at the state for GIS. It's a very large group of GIS professionals with a wide range of skill sets and resources.

They asked how they could get involved and I recommended to them that they could potentially be of great benefit to you with regards to getting local resources optimized or built out that can be used to help manage infrastructure within the city long term. I know that they have standing relationships with ESRI and City Works (which I think is what the DPW is using). They could easily get representatives to the table from these vendors and start helping to build out a plan that is sustainable for the City of Flint that ensures you are getting the best from the software you have.

I don't want to push too far down this route unless you are comfortable with it. But, I think if we orchestrated a meeting with them they could really be helpful.

Please let me know your thoughts.

Subject: AGOL Account and Service Line Data

Hello David,

I have set you up with a publisher account for flint.maps.arcgis.com

This is a clearinghouse for data that people want to exchange. It's also used for our live field operations and ongoing data collection efforts.

There are quite a few files we have local that have not made it into AGOL. So please touch base if you feel you are missing something.

There is an AGOL group called "Lead Mapping Work Group" where we will be pushing data for you. The MXD within for geo-referencing is likely going to need the paths to be fixed.

All initial files are pushed as a zip. The two major folders are:

- Basemap Files: Gathered from Genesee County and City of Flint GIS to act as a root for building maps. Contains basic water infrastructure, parcels, parks, and other common datasets.
- Curb Box Maps: The root for lead mapping. The "Curb Box Maps" actually show the lead service lines for houses. We have georeferenced most of the images in these files. The actual geodatabase with the features being manipulated from the curb box maps is in Basemap Files > Parcels > Parcels.gdb . The "Service_Line_Index_Part_1_2" is the total points we worked prior to handing to FEMA. It is a domained point layer that shares its domain with the Parcels themselves so that the field matching is pretty seamless with the parcel layer found in the parcels.gdb using a spatial join.

Please give it a look and let us know if you have any questions.

Note, I've CC'd the FEMA GIS person who has been doing work on this for the past few days if you have questions on any of the newer entries that we will be loading to AGOL separately.

Hey Calix,

I wanted to touch base as a result of a meeting we had this morning with the Center for Shared Solutions.

For background, they are the centralized resource here at the state for GIS. It's a very large group of GIS professionals with a wide range of skill sets and resources.

They asked how they could get involved and I recommended to them that they could potentially be of great benefit to you with regards to getting local resources optimized or built out that can be used to help manage infrastructure within the city long term. I know that they have standing relationships with ESRI and City Works (which I think is what the DPW is using). They could easily get representatives to the table from these vendors and start helping to build out a plan that is sustainable for the City of Flint that ensures you are getting the best from the software you have.

I don't want to push too far down this route unless you are comfortable with it. But, I think if we orchestrated a meeting with them they could really be helpful.

Please let me know your thoughts.

> We inspected the 44,000 index cards the City of Flint has and decided not to use them as part of a data conversion project we have ongoing with the City to identify lead service line connections. Many of the cards were initially written in pencil, and their information is not legible. Instead, we found out the City has over 240 files of jpegs that depict all of the parcels, and a text indicator for each parcel specifying the service connection; e.g., "lead" or "lead to galvanized". Since these are separate jpeg files and not in a GIS (Geographic Information System) file format, we wrote a proposal to the City to combine these separate files into one, and transfer the text string with the service line connection information to a digital GIS parcel file. The proposal was accepted by the City and we will begin work on this project early next week.

Subject: Yesterdays statistics for Residential Properties

AS OF 1/26/2016 AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking 38,238 residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- 34589 (90.5%) of the parcels have been engaged as part of response efforts
- 22356 (58%) of the parcels have been confirmed have some form of filter
- 10607 (28%) of the parcels have volunteered for water testing
- 5030 (13%) of the parcels have not had personal contact (not home or did not visit a POD)

We are also tracking that there are 29994 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are 26673 residential parcels that have the ability to use the Flint Water System. Of these

- 25305 (95%) of the parcels have been engaged as part of response efforts
- 19433 (73%) of the parcels have been confirmed have some form of filter
- 9461 (35.5%) of the parcels have volunteered for water testing
- 3790 (14%) of the parcels have not had personal contact (not home or did not visit a POD)

Please let me know if you need anything else.

Subject: GIS Information - Deadline 5 p.m. 1/28/16

Importance: High

By 5 pm today I need the following for a meeting with the Governor's Staff:

- What have we done on the GIS side of things? Include the partners we have collaborated with.
  - Accomplishments
- What are we currently doing?
- What needs to be done?
  - Hurdles?
- What is the baseline information that other state and federal agencies need reference GIS?
- What are the performance outcome we need to meet individually and collectively?
  - How do we get there?

Essentially this is an informational briefing I need to provide.

Capt. Chris A. Kelenske
Deputy State Director/Commander
Emergency Management and Homeland Security Division
Michigan State Police

PLEASE NOTE Effective February 1, 2016, the Emergency Management and Homeland Security Division is moving.

My new contact informaiton will be:

To: MSP-SEOCGIS; Katarsky, Anthony (MSP)
Cc: Badgero, William (MDOS)
Subject: RE: Question Regarding Request for Addresses

All

That request obviously came from me, having access to address data will help us map out what parcel data we may have missed from the original file given to us by the City of Flint.. The more data we can see the better chance we have of ensuring we've documented all areas of concern.

From: MSP-SEOCGIS
Sent: Thursday, January 28, 2016 11:02 AM
To: Katarsky, Anthony (MSP)
Cc: Badgero, William (MDOS); Weston, Tom (DNR)
Subject: RE: Question Regarding Request for Addresses

Sir,

I'm not sure what this request was in reference to. Bill may have highlighted something that may be duplicative.

I can say that we met yesterday with DNR GIS and DTMB GIS to streamline efforts and prevent anything duplicative.

My understanding from that point is that the primary tasks assigned to DNR from the SEOC are:

- Provide maps of lead service lines with raw data to SEOC
- Provide maps of water testing results with raw data to SEOC
- Coordinate the collection of future data on water infrastructure with SEOC (plumber activities, service line replacements, main replacements, etc.)
- Provide support to DEQ/DNR ECC efforts

As part of this we are going to coordinate a meeting between DNR GIS, DTMB GIS, and local GIS to develop a long term strategy for GIS. This is tentatively scheduled for mid-next week. As part of this meeting we are looking to leverage DTMB GIS to take the lead in determining how we can enable Flint to manage all of this data long term and develop a proposal to optimize the data management resources for City of Flint Department of Public Works resources into the future.

Tony,

Per your reminder on the 0930 call this morning, I believe I have received a request similar to what you are talking about – that there are multiple groups working on things...

My boss received a request yesterday from the DNR GIS guy, Tom Weston, for all of our addresses we have. She is seeking approval from our Chief of Staff, Mike Senyko, to expend the resources from other projects to approve this.

I wanted to let you and the Logistics chief know about this to see if this is something going on outside of the SEOC, or if this should be something I put in a SitRep?

Thanks,
Bill

Thanks James.

As I suspected, it could just be an effort to support this request, as we do have a lot of addresses. That was the first thought I had when I had heard Tom called Rose.

With that said, we are able to look into providing these addresses if the request does come through the Mi-CIMs process as a possible data source.

Thank you,
Bill

Thanks for the update James,

I think that'd be great. You're definitely correct. We want to make sure we're getting all we can from our current resources and want to build a sustainable framework moving forward.

On Wed, Jan 27, 2016 at 2:57 PM, MSP-SEOCGIS2 <MSP-SEOCGIS2@michigan.gov> wrote:

Hey Calix,

I wanted to touch base as a result of a meeting we had this morning with the Center for Shared Solutions.

For background, they are the centralized resource here at the state for GIS. It's a very large group of GIS professionals with a wide range of skill sets and resources.

They asked how they could get involved and I recommended to them that they could potentially be of great benefit to you with regards to getting local resources optimized or built out that can be used to help manage infrastructure within the city long term. I know that they have standing relationships with ESRI and City Works (which I think is what the DPW is using). They could easily get representatives to the table from these vendors and start helping to build out a plan that is sustainable for the City of Flint that ensures you are getting the best from the software you have.

I don't want to push too far down this route unless you are comfortable with it. But, I think if we orchestrated a meeting with them they could really be helpful.

Please let me know your thoughts.

James,

Can you get us some numbers related to this map as far as what the water lead level refers to, such as what puts it in the below verses the above actionable level? WE need to have this today for DEQ's Jim Sygo.

Thanks,

Brian Maki

I have also received an offer from a fellow in Florida.

=======

Hi Ken,

My name is JJ Moran and I was watching the news about Flint this evening. I understand that the lead pipe locations are on old cards and that they have address data on them.

I'd like to help, are you interested in a temporary GIS volunteer? I'm not looking for credits or anything like that, I just thought that I would offer up my services for free. Call it good karma :)

I've been in the GIS business for about 8 years and work/live in Orlando, FL. I also have a 5 years in data entry and database management.

I can contribute a few hours each week so if you're interested let me know.

Thanks,
JJ

Gentlemen;

From all of the stories about the City Flint water crisis, I'll bet that you need some help.

I'm willing to provide ***limited pro bono work***. I work in a ESRI shop and can access the Michigan GIS Open Data portal. I am willing to help you remotely with any project that you may need. I'm also a member of Texas Emergency GIS Response Team(EGRT), a volunteer organization that aids local communities during disasters, so I know that bad thing happen to good people.

Call if you need me.

Subject: Totals from Todays Activities

AS OF **1/27/2016** AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38238** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **34849 (91%)** of the parcels have been engaged as part of response efforts
- **22939 (60%)** of the parcels have been confirmed have some form of filter
- **10723 (28%)** of the parcels have volunteered for water testing
- **4918 (13%)** of the parcels have not had personal contact (not home or did not visit a POD)

We are also tracking that there are 29994 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **26673** residential parcels that have the ability to use the Flint Water System. Of these

- **25457 (95%)** of the parcels have been engaged as part of response efforts
- **19677 (74%)** of the parcels have been confirmed have some form of filter
- **9561 (36%)** of the parcels have volunteered for water testing
- **3718 (14%)** of the parcels have not had personal contact (not home or did not visit a POD)

Please let me know if you need anything else.

Subject: Follow up from today's meeting

Hi James,

As a follow up to our meeting this morning here is information that I was to provide to you.

Here is Scott Noldy's availability next week. Please contact him to finalize a time to meet about SDE data management discussion. If next week does not work for MSP, we can provide additional availability for other dates.

Monday – Free until 1:00pm
Tuesday – Free until 2:00pm
Thursday – Free after 10:30am
Friday – Open all day

For the conference call that you are going to set up for regular communication, please add the following people from CSS. We may not all be on each call but that way everyone has the meeting appointments for the recurring call.

Rob Surber
Mark Holmes
John Clark
Josh Ross
Scott Noldy

We can continue to discuss address cleansing scenarios for existing database sources.

John Clark and I will make ourselves available for future discussions with the City and/or County to support their current needs and looking at longer term needs.

Thanks for taking the time to meet with all of us this morning and just let us know where we can continue to support the response.

Subject: RE. EM-3375 211 Call Maps & Data

Good afternoon Michigan State Police,

I just logged into my AGOL account and do not have an invitation. My username is agoldblatt and my email is Andrew.goldblatt@fema.dhs.gov.

Thank you very much, I appreciate you're assistance in this matter. Please let me know if you need anything else from me.

Also, I would like to invite you to join a daily GIS coordination call we are having from 2:00-3:00 each afternoon. If interested, please let me know and I will send the meeting invite.

Thanks again,

Andy

Brett,

Hi, my name is Rob Shankman and I am the GIS team lead for HHS GIS. Would it be simpler to give the HHS GIS a single account for the team to use instead of granting one account for each of us as Phil has requested? The group account can be associated with the email (GISSupport@hhs.gov) and then we could all gain access to this data. If you'd rather each of us have our own connection we have 3 GIS staff here that would need an account. Robert.Shankman@hhs.gov, Jeffrey.Marion@hhs.gov and Philip.Quach@hhs.gov.

Thanks and look forward to working with you,

Rob Shankman

Hi MI SP GIS,

I know you are extraordinarily busy, but, if possible, I would really appreciate it if you could give Phil Quach from HHS access to your AGOL viewer for Flint when you have the chance. His contact information is below:

Philip Quach

GIS Analyst

Secretary's Operations Center / Fusion Division

U.S. Department of Health and Human Services

202-619-7846 (o)

Philip.Quach@hhs.gov<mailto:Philip.Quach@hhs.gov>

GISSupport@hhs.gov<mailto:GISSupport@hhs.gov>

We (FEMA) also have a liaison, Andy Goldblatt, that's working with HHS at their Secretary Operations Center (SOC) that would like access if possible. His contact information is below:

Andy Goldblatt, GISP

Geospatial Information Unit Leader

FEMA National IMAT East 2

andrew.goldblatt@fema.dhs.gov<mailto:andrew.goldblatt@fema.dhs.gov>

Again, I know how busy you all are from speaking to Scott, but you are by far the best source of data on Flint.

Thanks,

Brett

Subject: Yesterdays statistics for Residential Properties

AS OF 1/26/2016 AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking 38,238 residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- 34589 (90.5%) of the parcels have been engaged as part of response efforts
- 22356 (58%) of the parcels have been confirmed have some form of filter
- 10607 (28%) of the parcels have volunteered for water testing
- 5030 (13%) of the parcels have not had personal contact (not home or did not visit a POD)

We are also tracking that there are 29994 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are 26673 residential parcels that have the ability to use the Flint Water System. Of these

- 25305 (95%) of the parcels have been engaged as part of response efforts
- 19433 (73%) of the parcels have been confirmed have some form of filter
- 9461 (35.5%) of the parcels have volunteered for water testing
- 3790 (14%) of the parcels have not had personal contact (not home or did not visit a POD)

Please let me know if you need anything else.

Subject: Clarification

Just so that I'm clear and we're all on the same page. I am sending the below response to my Director. Is this correct?

WRTs and RRTs are going to all (8) zip codes within the City Limits in addition to homes that are just outside the city Limits IF AND ONLY IF the residents are verified to be on Flint Water, to include a small portion of Burton (zip codes listed below). Although we pulled emPower data for the whole County, WRTs and RRTs operations are limited ONLY to those residences on Flint water. The LEOC is working diligently to ensure hot shot calls are vetted for this purpose.

Residences within the following zip codes are within the City Limits, on Flint Water, and have bee canvassed by WRTS/RRTs:
48502
48503
48504
48505
48506
48507
48529
48532

Residences in the following zip codes are outside the city limits and are ONLY being visited if they are on Flint Water:
48509
48519

Thank you everyone for your help with this request.

Subject: RE. Flint Metro Area Zip Code Map

Importance: High

Ok....now I am really confused. We are only hitting these 8 zip codes, yet there are 600 homes in Burton on Flint Water? And the RRTs are going there?

Kathy was originally given 16 zip codes for the Flint area and MDARD has 10 zip codes they are working from. Ops thought 9 zip codes, and now GIS is saying 8.

I really need clarification please.

Thank you,
Jennifer

Subject: AGOL Account and Service Line Data

Hello David,

I have set you up with a publisher account for flint.maps.arcgis.com

This is a clearinghouse for data that people want to exchange. It's also used for our live field operations and ongoing data collection efforts.

There are quite a few files we have local that have not made it into AGOL. So please touch base if you feel you are missing something.

There is an AGOL group called "Lead Mapping Work Group" where we will be pushing data for you. The MXD within for geo-referencing is likely going to need the paths to be fixed.

All initial files are pushed as a zip. The two major folders are:

- Basemap Files: Gathered from Genesee County and City of Flint GIS to act as a root for building maps. Contains basic water infrastructure, parcels, parks, and other common datasets.
- Curb Box Maps: The root for lead mapping. The "Curb Box Maps" actually show the lead service lines for houses. We have georeferenced most of the images in these files. The actual geodatabase with the features being manipulated from the curb box maps is in Basemap Files > Parcels > Parcels.gdb . The "Service_Line_Index_Part_1_2" is the total points we worked prior to handing to FEMA. It is a domained point layer that shares its domain with the Parcels themselves so that the field matching is pretty seamless with the parcel layer found in the parcels.gdb using a spatial join.

Please give it a look and let us know if you have any questions.

Note, I've CC'd the FEMA GIS person who has been doing work on this for the past few days if you have questions on any of the newer entries that we will be loading to AGOL separately.

Subject: RE: EM-3375 211 Call Maps & Data

Good Afternoon,

The MI State Police GIS Team has a ArcGIS Online viewer for Flint that has the data you are requesting.

MI SP GIS,

HHS is the lead federal agency for this event and Phil is working the GIS side for them. Would it be possible to grant him access to the MSP Flint AGOL?

Thanks,

Brett

Brett,

Hi, my name is Rob Shankman and I am the GIS team lead for HHS GIS. Would it be simpler to give the HHS GIS a single account for the team to use instead of granting one account for each of us as Phil has requested? The group account can be associated with the email (GISSupport@hhs.gov) and then we could all gain access to this data. If you'd rather each of us have our own connection we have 3 GIS staff here that would need an account. Robert.Shankman@hhs.gov, Jeffrey.Marion@hhs.gov and Philip.Quach@hhs.gov.

Thanks and look forward to working with you,

Rob Shankman

Subject: AGOL Account and Service Line Data

Hello David,

I have set you up with a publisher account for flint.maps.arcgis.com

This is a clearinghouse for data that people want to exchange. It's also used for our live field operations and ongoing data collection efforts.

There are quite a few files we have local that have not made it into AGOL. So please touch base if you feel you are missing something.

There is an AGOL group called "Lead Mapping Work Group" where we will be pushing data for you. The MXD within for geo-referencing is likely going to need the paths to be fixed.

All initial files are pushed as a zip. The two major folders are:

- Basemap Files: Gathered from Genesee County and City of Flint GIS to act as a root for building maps. Contains basic water infrastructure, parcels, parks, and other common datasets.
- Curb Box Maps: The root for lead mapping. The "Curb Box Maps" actually show the lead service lines for houses. We have georeferenced most of the images in these files. The actual geodatabase with the features being manipulated from the curb box maps is in Basemap Files > Parcels > Parcels.gdb . The "Service_Line_Index_Part_1_2" is the total points we worked prior to handing to FEMA. It is a domained point layer that shares its domain with the Parcels themselves so that the field matching is pretty seamless with the parcel layer found in the parcels.gdb using a spatial join.

Please give it a look and let us know if you have any questions.

Note, I've CC'd the FEMA GIS person who has been doing work on this for the past few days if you have questions on any of the newer entries that we will be loading to AGOL separately.

Subject: EM-3375 211 Call Maps & Data

I was tasked (by FEMA RV IMAT) to map the information in the attached spreadsheet (top 5 totals - total, disaster related drinking water, water filters, tap water testing, water quality assurance).

Also, this information is from January 9th – 14th. Once updated information is available I'll pass along.

Layer package is attached too.

MI is using an AGOL viewer in conjunction w/collector to obtain field data.....i've been told verbally that I would receive access but am still waiting. If/when I do, I will pass info along.

MSP-SEOCGIS

From: Katarsky, Anthony (MSP)
Sent: Saturday, January 23, 2016 10:45 AM
To: MSP-SEOCGIS; MSP-SEOCGIS2
Subject: Action Items

Following are directives from Capt Kelenske that require immediate attention. If you require clarification, please let me know.

-I need the map with all the test data we received from DEQ. I provided a map before but I also need the data with it so the Governor has it. Jen Wolf was providing me bullets as to what the data means and what it may not mean -- what concerns do we have with the data (e.g. We are relying on the citizens to provide us the sample ... Did they follow the right procedures.). Not sure she sent it to me yet.

Do we have blood lead level data maps? From testing?

-The numbers of homes on the system needs to be firmed up:

- 26,673 water subscribers in Flint (not including franchise).
  We need the franchise numbers included.
  - § Water Subscribers with a Filter = 15,399 (57.7%)
  - § Water Subscribers without a Filter = 11,274 (42.2%)
    - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
      What exactly is this number? Does it include homes that are habitable and just do not have tenants? I need more information on this number to put more context to it. 42% is a lot but if 20% are vacant homes waiting for a tenant than that changes things.
- 11,471 Non-Water Subscribers in Flint. **What does this mean in laymans terms? What is a non subscriber? How do they get their water if they do not subscribe?**
  - § Non Water Subscribers with a Filter = 2,196 (19%)
  - § Non Water Subscribers without a Filter = 9,275 (81%)

I need more analysis done on the numbers so we can provide solid information to the Governor.

MI GIS,

Attached is the Service Line Index Points layer that I've been working on the past 2 days.

I batched Water Service Location Cards sites (that had not been previously completed) by joining to parcels and populating attributes . Thus, the parcels/points added are scattered throughout the city. Tomorrow I'll focus on the parcels near & NW of the river that are not complete.

Note, these are all sites I've added and do not include sites previously created. So append these to your master list. Let me know if you have any questions.

Subject: Parcel Filter Status
Attachments: 20160122_1700_Parcels_Contacted pdf; 20160122_1700_Parcels_Filter_Status.pdf

Attached are two maps.
The first one indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.

The second map indicates the status of residents that have or have not received a filter. As noted, be wary of multi-tenant as it will be misrepresented. A parcel may be marked but we do not have accurate information on how many units exist on the parcel. Per GIS, the data used is about 90% cleansed. More coverage will be added as they continue to cleanse field team data.

Subject: Re: Matching City of Flint Parcels and Water Customer data base
To: MSP-SEOCGIS <MSP-SEOCGIS@michigan.gov>

I've re-uploaded the Flint Parcels v6 feature service with 6 additional attributes.

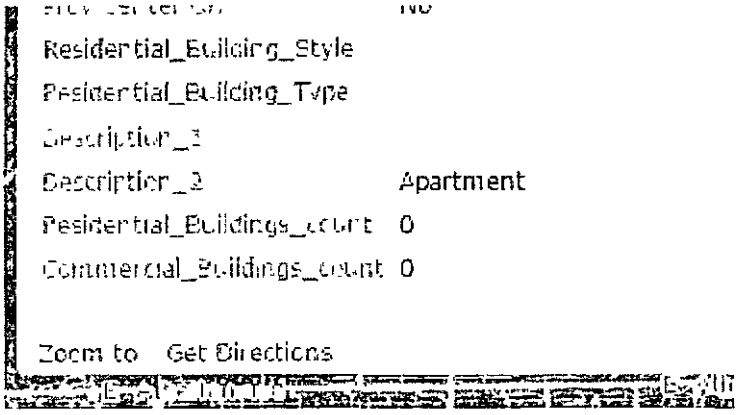
The new fields are below:

"Residential_Building_Style" - You should be able to determine how many units are on the property; For example "Two Unit" and "Three Unit".
"Residential Building_Type" - This doesn't specifically with the amount of units, or buildings on a property, but it does tell you if it's a single family, mobile home, duplex, or town home.
"Description 1" - This field doesn't give you a unit or building account, but some of the parcels have an "Apartment" value.
"Description 2" - This field doesn't give you a unit or building account, but some of the parcels have an "Apartment" value.
"Residential_Building_Count" - This field has the amount of residential buildings on the parcel.
"Commercial_Building_Count" - This field has the amount of commercial buildings on the parcel.

An already existing field is "Rental". Values of "0" show that the property is not a rental and "1" says it is.

I'd like to point out I haven't verified the reliability of this data; I've found data from the Assessors database to be hit or miss in a lot of cases. I think there are enough fields where you can make some assumptions as to if a property has more than one unit or building.

A good example would be parcel "41-21-327-020" which is part of a low income housing development. If you look at the image below, all the new fields I added are blank and zero except for "Description_2", which is "Apartment".



If you have any questions let me know.

To: MSP-SEOCGIS
Subject: Re: Matching City of Flint Parcels and Water Customer data base

Could we do a call at 4 about the properties and parcels?

Also, I ran into a few issues today.

- 4 of the iPads are unable to login and need to have their passwords set to "Flintse0". The users are MSP_58, MSP_59, MSP_60, and MSP_56.

- I think there are too many maps available for tablet users when they login into collector. It's unclear on which map to use. It might be useful putting all the MSP tablet logins into a new group and only having the field map shared to that group.

- The map "Dashboard Teams/Pods Tracking Sheet-V2" seems to crash in operations dashboard and on AGOL and seems to be running really poorly. I've tried it on a few computers and have received similar results. Is there a different dashboard I should be using? Some of the dashboards at the County EOC seemed to be having issues.

Captain,

FYI on the Filter numbers from the UAW folks. They estimate they installed about 800 faucet filters between January 12th through the 21st. Since the IPads with the updated fields rolled out (1/21/16) we are now able to track this. I am working on getting you a number on that.

Gabe

To: MSP-EOC-MDSP
Cc: Kuzera, Michelle (MSP); Roach, Billie Jo (MSP); Kaiser, David (MSP)
Subject: Filter Installation Data Request

Per Captain Kelenske's request in the SEOC conference call this morning to obtain daily data for filters being installed by WRT, I contacted the union representative for the pipefitters and plumbers who have been embedded with our teams since combining with the Genessee County Sheriff's office on January 12, 2016.

Since introducing iPads into data tracking on January 12th, the union workers have tracked installations on paper (as there was not an iPad category to capture this information), and estimate that they have installed approximately 800 filters. Most of these facilities were multi-unit dwellings and/or vulnerable population residences. Beginning yesterday (1/21/16) with the additional battery of questions being captured via iPad, these vocational "embeds" are installing filters at any residence indicating a YES answer to the question, "Do you require assistance installing a filter?". In addition these workers are also continuing to focus on multi-unit dwellings and vulnerable populations identified by either the SEOC and local EOC.

As the SEOC is able to see the same data, it will be possible for you to see the number of installs daily, given that the YES answer is now a trigger for an installation.

Let me know if you have any questions.

MICHIGAN'S

REINVENTION NEWS

GOVERNOR RICK SNYDER | LT. GOVERNOR BRIAN CALLEY

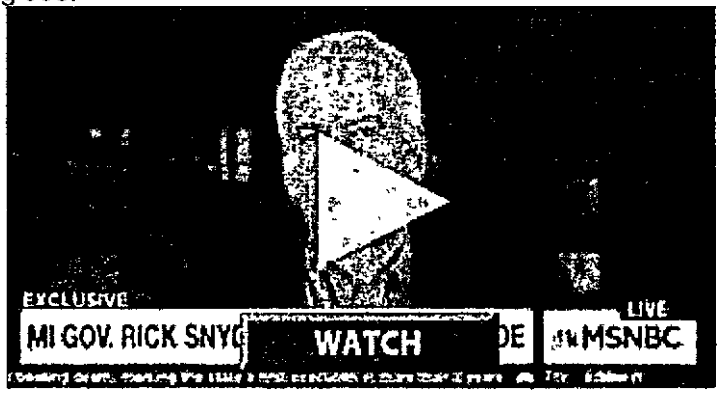
HOME | BLOG | CONTACTS | FACEBOOK | TWITTER | INSTAGRAM

How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



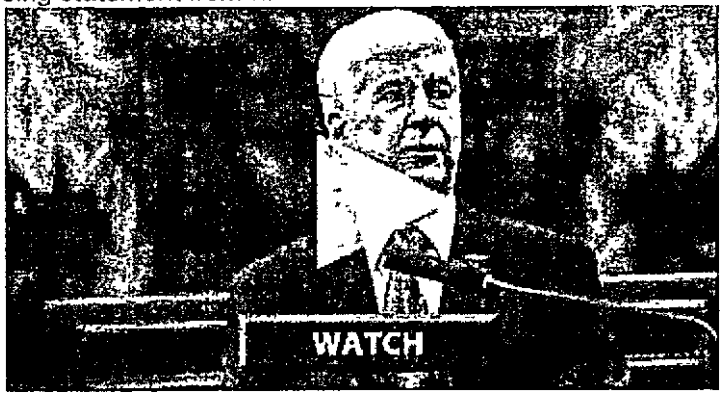
Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." **Click here to read the Governor's full op-ed.**

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. **Click here to read the full story in the Washington Post.**

Subject: iPad info

Sir,
I have all the iPad numbers listed by fire station/POD below. I do not know when we received each iPad by number, but, I have the bulk data of when we received 'chalks' of them. When we first arrived, each station has (1) iPad. On Sunday 22JAN16 each station received (2) more iPads. And then yesterday, Thursday 21JAN16 each station received (2) more. Let me know if you have questions or concerns:

Station #1: MSP34, MSP 87, MSP28, MSP89, MSP91 Station #3: MSP90, MSP53, MSP79, MSP29, MSP66 Station #5: MSP85, MSP82, MSP64, MSP65, MSP30 Station #6: MSP84, MSP62, MSP26, MSP49, MSP69
Station #8: MSP27, MSP73, MSP27, MSP92, MSP80

That should be fine. We have now disabled editing on the feature services of concern and are using a new feature service to collect data.

Lets consider this issue resolved.

Hello Matt,

This is Darrin from Esri Support Services, writing in regards to your premium support case. I wanted to let you know that the analyst you are currently working with is out of the office today, due to the inclement weather conditions in the area. If you need assistance with your issue today, please let me know and I can arrange a transfer of this case to an analyst in another location. We apologize for the inconvenience and appreciate your understanding in this matter.

Best Regards,
Darrin C.

Subject: Esri Case #01729978 - How to make fields non-required for a feature layer i

Hi Matt,

This is Gabe from Esri Premium Support Services writing in response to your support case (#01729978). I am a senior analyst with the Desktop team and have taken ownership of the case. I understand you have hosted feature services that contain fields that currently do not allow null values that need to be changed to allow null values.

Unfortunately, the field 'nullable' property is a part of the schema of the feature service and the feature class it was originally published from and cannot be changed. This is true both in ArcGIS Online and Desktop. This is why the change was not taking effect when you were using the updateDefinition operation in REST.

In general, the typical procedure to alter this field property is to create a new field that allows null values, copy over the data from the original field to the new field (so you don't lose any new data), and then delete the original field. I realize this is a convoluted workflow but there is no way to directly change this property on a field once it is created. This is traditionally done in Desktop by bringing in a local copy of the service from AGOL as a feature class (to capture any data additions since you originally published), making the necessary changes to the feature class, and then overwriting the original service in AGOL when republishing. If you are comfortable with editing services via REST, it may be possible to accomplish this directly on the service using a few different REST operations (i.e., 'addToDefinition' to add a new field, 'calculate' to copy between fields, and deleteFromDefinition to remove the original field). I have not tested the REST appro!
ach so I am not sure what issues you may encounter and I would highly recommend backing up the service or creating a copy for testing if you were to try this approach.

I did notice one interesting thing during my testing that you might take a quick look at to see if you observe the same thing on your end. I found that if I went to the Item Details page of one of my feature services where fields did not allow null values and used the Export option to export the service to a FGDB, the resulting feature class fields were all automatically set to allow null values. I then simply republished the feature class without making any changes and overwrote the original feature service in the process. This seemed to address the issue in a more simplified fashion in my testing scenario so you may want to try out the Export option to an FGDB to see if you observe the same behavior (i.e., field property changed to allow null values).

Let me know your thoughts on the above information and if you have any questions or would like more details about any of it.

Thanks,

Gabe

- Updated the Field Team Support maps to gridded area
- Updated the Field Team Support maps to use township and range rather than gridded area
- Provided updated map of vulnerable populations for MDCH
- Provided list of vulnerable individuals to local EOC through local situation unit leader
- Released V3 of the field data collection app with new form data for second round of home visits
- Updated JIC Map
- Provided data for Recovery Team of Field Team Activity
- Cross referenced health facilities and adult foster care to identify facilities in the affected area
- Provided list of franchise customers beyond City of Flint limits to public safety branch
- MSHDA was provided a map of active water subscribers
- Provided updated lead data to U of M Flint and coordinated with FEMA GIS to complete lead service line mapping
- Updated operational dashboard for field team activity (still need to provide updated dashboard for PODS)
- FEMA Logistics recommended inventory management be integrated into the dashboards and GIS web-developers are actively researching a strategy for this

Also, CPT asked that we maintain a master map list and provide it to you for the situation report daily. It is attached.

To: Dehner, Amy (MSP)
Cc: Kish, Thomas (MSP); Sims, Shannon (MSP); FEDERALSEOC; Roach, Billie Jo (MSP); MSP-EOC-MDSP
Subject: IPAD Count

Lt. Dehner,

At the end of the day, could you have someone count the IPAD's that are being used for the door to door operations? The SEOC Recovery Unit is advising there should be 54. That number does not include the additional 30 IPAD's that are being sent this evening. Apparently the location has been turned off on some of the IPAD's, so the SEOC can't see them in the field. Could you also make sure all the teams have their locations turned on for tracking and security.

Also, could someone from this point forward conduct this count daily.

Thank you !!!
Spl/Lt. Mardella Horhn

Subject: Data from APP
Attachments: Flint_Data_Entry_Form_20160121_1648.csv

"Creator" 26-30 are the pods. You can delete anything from them for measures of field team activity.

I strongly recommend getting a list of who has the ipads daily by person, mission, and agency here at the SEOC so that we can cross reference it if you are seeing data issues.

Walter,

You will need to create an account on Dropbox (its free and easy to sign up). Then there will be a button to click to upload the file. Then hover over the file once you upload it, and you will see a share button. Click the share button and

then click invite people to collaborate. Put my email address in and make sure that it says "can edit". Dropbox will then send me a link so I can download it. Thanks.

Subject: Resource Request Geoform
Attachments: Untitled.png

I had an idea I mentioned to Matt earlier, and I threw together a rough draft of it for everyone to check out.

Essentially if someone in the city wants water resources, they fill out this GeoForm, and submit it. Then the icon pops up on an operation dashboard somewhere and someone responds to it. Let me know your thoughts.

Subject: RE: City of Flint Water Contamination: Active Water Customers

Walter,

You have been tremendously helpful to me with this information. I have done a basic comparison and the data is looking really good for me.

The list provided are active water customer addresses. There could be other addresses in the future that could receive City of Flint water, but they would not be included in this list. Correct?

What I am verifying is that this list does not have every address within the City of Flint water district - only active address accounts? Therefore, we could have someone move into a new home that is not on this list, but they could receive City of Flint water so we should verify they have a filter.

Thank you again!

The list provided are active water customer addresses. There could be other addresses in the future that could receive City of Flint water, but they would not be included in this list. Correct?

What I am verifying is that this list does not have every address within the City of Flint water district - only active address accounts? Therefore, we could have someone move into a new home that is not on this list, but they could receive City of Flint water so we should verify they have a filter.

Thank you again!

Lisa:

I have attached a file you can read with MS Excel that describes addresses of water customers for the City of Flint. Let me know if you have any problems reading the file. Thank you.

Subject: RE: Updated Sample Results

Attached is all of the data available when I ran the query earlier today. It includes lead and copper since I am trying to have one report fill multiple purposes.

Linda,
Here is the updated information and there are two tabs. On one tab the data is sorted by concentration and on the other tab the data is sorted by zip code.

Mel,
I think we need to remove the address if we post this to the website, that is how we handled the November data that was posted. I believe that we should protect the privacy of the individuals that submitted samples when it comes to publishing personal information (addresses) on a website. There are no names but I just want to be sensitive to the issue.

Director, I leave the final decision to you as to yea or nay with respect to addresses on the website.

Subject: Major Changes to Collector App and Dashboards

A new Collector app is being launched on Thursday 1/21.

- Create a new group called "Flint Data Collection" and assigned all the mspXX_seo accounts to it

- Created a new Feature Service
  - Flint Tracking Sheet V3

- Created new maps for PODS and Teams
  - Teams-Flint Tracking Sheet-V3
  - PODS-Flint Tracking Sheet-V3
  - These maps have the existing Flint Canvas Tracking Form and Flint Canvas Tracking Form V2 data available on them in view only mode.

- Created new maps for new Dashboards for PODS and Teams
  - Dashboard-PODS-Flint Tracking Sheet-V3
  - Dashboard-Teams-Flint Tracking Sheet-V3

- Created new Dashboards (not yet complete)
  - V3 PODS Dashboard
  - V3 TEAMS Dashboard

- New maps and feature service have been shared with the Flint Data Collection group

- Disabled Editing on Flint Canvas Tracking Form and Flint Canvas Tracking Form V2. Please do not enable editing yet. More info to follow.

In the morning, Teams and PODS will need to log out and log back in to Collector and refresh the maps. The forms work similarly although there are many new questions.

Regards,
Matt McCormick

Hi James,

I've been getting asked if we have access to impacted houses, houses visited by field teams, and those that have received water filters.

Is this information captured in your AGOL? If so, I can wait to see it until I obtain access.

Or you have it as a ready to use service, would you be able to pass that along?

Also, we're told that our plotter won't arrive until tomorrow now. Sorry.

Subject: Data Question

Hi James,

I've been getting asked if we have access to impacted houses, houses visited by field teams, and those that have received water filters.

Is this information captured in your AGOL? If so, I can wait to see it until I obtain access.

Or you have it as a ready to use service, would you be able to pass that along?

Also, we're told that our plotter won't arrive until tomorrow now. Sorry.

Kathy – Attached is the de-identified list of clients from the EMPower database to be GIS mapped in conjunction with the Flint Water response. We would like to see the data displayed as separate colors for those on dialysis, enteral feedings and home care. The thought is that the LHD might find it useful to work in the future with the home care agency versus individual clients. Please let us know if there are any questions or additional assistance is needed. Thank you. Linda

Subject: Target Area Maps

In addition to the request to have the border roads on the target area maps a larger print font, is it possible to get the target maps for the next day before 6:00 pm?

This will give the field team leadership time to get the maps printed and coordinated and make assignments. Further, when we have out 6:00 pm call, the field team leadership will have access to the planned target areas.

Lt. Dehner, if you could reply all with the email addresses for the Guard command, that will help us add them directly to the distribution list.

Matt

Ken:

We define the assignment areas last night and we will upload that data to ArcGIS online and let you know when it is there. We are currently revising the assignment maps and will produce PDF's for route planning by 3:30pm today. Assignment areas changed yesterday afternoon at the request of command. Previously American Red Cross and Michigan State Police had separate Assigned Areas but yesterday afternoon the assigned areas were unified. Most areas are the same but new areas were created in the center of the city.

They are asking me to print a lot of maps for the teams in the field.
This is fine, but it looks like the maps/assignment areas are coming from you guys.

It would be handy if I had a layer of the assignment areas or a full set of the maps so I could print them on demand.

A large overview map is nice so these guys can mark it up.

Also the changing assignment areas has caused some confusion here.

They are printing these maps here on letter size paper. The road names are unreadable due to the scale.
Due to the many people in the field unfamiliar with the area they (field operations) are saying it would be helpful to be able to give them small maps.

Subject: Target Areas for Distribution

Good Morning,
I apologize for the delay. The team assignment maps for today are attached. Red Cross is responsible for areas 1-9 and the MSP is responsible for areas 10-18.

Please let me know if there are any questions.

Thank you
Lauren

Sent: Wednesday, January 20, 2016 7:41 AM
To: MSP-SEOCGIS
Subject: Re: Matching City of Flint Parcels and Water Customer data base

After I sent the previous email about the attributes I added, I sent an email to our Assessors office to see if there is a field I'm missing in their database that could help. I'll follow up when I get a reply.

On Jan 19, 2016 6:13 PM, "Calix Martinez" <cmartinez@cityofflint.com> wrote:
I've re-uploaded the Flint Parcels v6 feature service with 6 additional attributes.

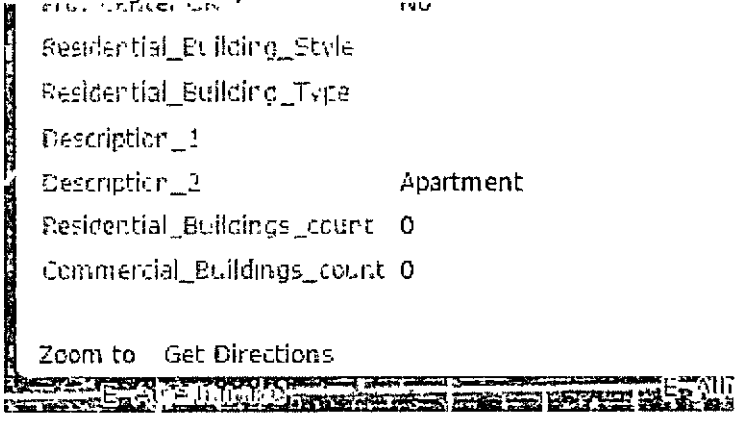
The new fields are below:

"Residential_Building_Style" - You should be able to determine how many units are on the property; For example "Two Unit" and "Three Unit".
"Residential Building_Type" - This doesn't specifically with the amount of units, or buildings on a property, but it does tell you if it's a single family, mobile home, duplex, or town home.
"Description 1" - This field doesn't give you a unit or building account, but some of the parcels have an "Apartment" value.
"Description 2" - This field doesn't give you a unit or building account, but some of the parcels have an "Apartment" value.
"Residential_Building_Count" - This field has the amount of residential buildings on the parcel.
"Commercial_Building_Count" - This field has the amount of commercial buildings on the parcel.

An already existing field is "Rental". Values of "0" show that the property is not a rental and "1" says it is.

I'd like to point out I haven't verified the reliability of this data; I've found data from the Assessors database to be hit or miss in a lot of cases. I think there are enough fields where you can make some assumptions as to if a property has more than one unit or building.

A good example would be parcel "41-21-327-020" which is part of a low income housing development. If you look at the image below, all the new fields I added are blank and zero except for "Description_2", which is "Apartment".



If you have any questions let me know.

Can you guys check today's map compared to yesterday's to ensure it looks like we made progress. On my laptop screen (which I recognize is not the best equipment for viewing this stuff), yesterday's map appears darker blue, as well it looks to me to actually include more dots than today's map. I can't easily identify where the teams made ground today.

Does today's map include the backlogged POD data and the paper forms from ARC and Hotshot? Those numbers are being reported today, which is showing a big jump in action and I don't think the map supports that

Thank you,
Shanon

To: MSP-SEOCGIS
Subject: Re: Matching City of Flint Parcels and Water Customer data base

I've re-uploaded the Flint Parcels v6 feature service with 6 additional attributes.

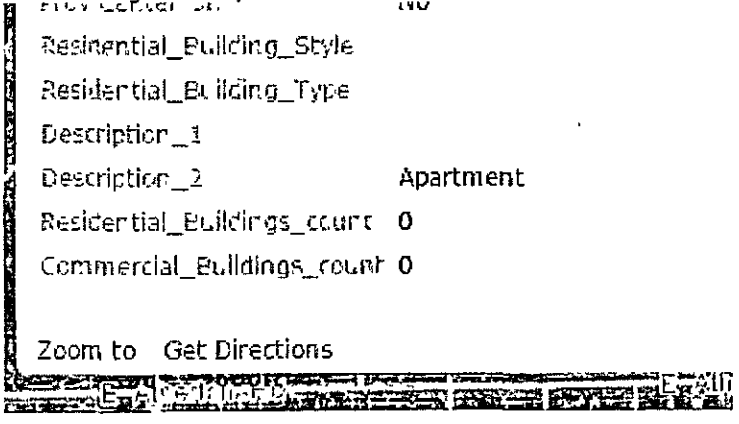
The new fields are below:

"Residential_Building_Style" - You should be able to determine how many units are on the property; For example "Two Unit" and "Three Unit".
"Residential Building_Type" - This doesn't specifically with the amount of units, or buildings on a property, but it does tell you if it's a single family, mobile home, duplex, or town home.
"Description 1" - This field doesn't give you a unit or building account, but some of the parcels have an "Apartment" value.
"Description 2" - This field doesn't give you a unit or building account, but some of the parcels have an "Apartment" value.
"Residential_Building_Count" - This field has the amount of residential buildings on the parcel.
"Commercial_Building_Count" - This field has the amount of commercial buildings on the parcel.

An already existing field is "Rental". Values of "0" show that the property is not a rental and "1" says it is.

I'd like to point out I haven't verified the reliability of this data; I've found data from the Assessors database to be hit or miss in a lot of cases. I think there are enough fields where you can make some assumptions as to if a property has more than one unit or building.

A good example would be parcel "41-21-327-020" which is part of a low income housing development. If you look at the image below, all the new fields I added are blank and zero except for "Description_2", which is "Apartment".



If you have any questions let me know.

Subject: HSIP Gold Request for State of MI under EM-3375

HIFLD Support Team,

Walter Chomentowski (MI GIS Coordinator) is attempting to request HSIP Gold 2015 under EM-3375.

Currently, the only available sponsor from our Region is Anthony Adduci (see message below), who left FEMA in October.

I would like to sponsor Walter and MI for this request.

Let us know what additional steps need to be taken.

Regards,

Scott Bailey
GIS Specialist

Jason,

Yes, they should have access to the full version (via HSIN) since this a disaster declaration.

If they have an HSIN account they can request HSIP Gold following these steps:

1. Go here: https://gii.dhs.gov/HIFLD/ and login w/your HSIN credentials in the upper left.
2. On the next page select "Submit HSIP Request"
3. On the next page go down to step 4 and select "GOLD" rather than Freedom, which is a subset of Gold (~65%)

Have them use me as the sponsoring agency when prompted.

If they do not have an HSIN account, they need to follow these steps:

1. Request account here: http://www.dhs.gov/how-join-hsin
2. Use my contact info below if a sponsor is required.

If they have any issues let me know and I'll reach out directly to the HIFLD/HSIP team.

Subject: Esri Case #01729978 - How to make fields non-required for a feature layer i

Hi Matt,

This is Gabe from Esri Premium Support Services writing in response to your support case (#01729978). I am a senior analyst with the Desktop team and have taken ownership of the case. I understand you have hosted feature services that contain fields that currently do not allow null values that need to be changed to allow null values.

Unfortunately, the field 'nullable' property is a part of the schema of the feature service and the feature class it was originally published from and cannot be changed. This is true both in ArcGIS Online and Desktop. This is why the change was not taking effect when you were using the updateDefinition operation in REST.

In general, the typical procedure to alter this field property is to create a new field that allows null values, copy over the data from the original field to the new field (so you don't lose any new data), and then delete the original field. I realize this is a convoluted workflow but there is no way to directly change this property on a field once it is created. This is traditionally done in Desktop by bringing in a local copy of the service from AGOL as a feature class (to capture any data additions since you originally published), making the necessary changes to the feature class, and then overwriting the original service in AGOL when republishing. If you are comfortable with editing services via REST, it may be possible to accomplish this directly on the service using a few different REST operations (i.e., 'addToDefinition' to add a new field, 'calculate' to copy between fields, and deleteFromDefinition to remove the original field). I have not tested the REST approach so I am not sure what issues you may encounter and I would highly recommend backing up the service or creating a copy for testing if you were to try this approach.

I did notice one interesting thing during my testing that you might take a quick look at to see if you observe the same thing on your end. I found that if I went to the Item Details page of one of my feature services where fields did not allow null values and used the Export option to export the service to a FGDB, the resulting feature class fields were all automatically set to allow null values. I then simply republished the feature class without making any changes and overwrote the original feature service in the process. This seemed to address the issue in a more simplified fashion in my testing scenario so you may want to try out the Export option to an FGDB to see if you observe the same behavior (i.e., field property changed to allow null values).

Let me know your thoughts on the above information and if you have any questions or would like more details about any of it.

Thanks,

Gabe

Subject: RE: HSIP Gold Request for State of MI under EM-3375

Hi Walter-

The HSIP Gold package will arrive tomorrow (Wednesday) morning by 10:30am. You will receive a note from FedEx with the tracking number once it ships.

In the meantime, we would like to make you and Scott aware that HSIP Gold data is also available on the Geospatial Information Structure (GII) found at <https://gii.dhs.gov>. We can provide you with a secure token to immediately access the data, and please let us know if we can set up this afternoon.

Please note that HSIN credentials are required to fully access the GII, and we can nominate you for a HSIN account if needed.

Kind regards,

Julie Sokol

Greetings Scott-

Please pardon the delay. We will process the HSIP request manually and prepare the HSIP shipment via FedEx for Walter Chomentowski immediately. The request will identify Scott Bailey as the sponsor, and both Scott and Walter will see automated emails from the HIFLD website confirming the request process.

Could we confirm the shipping address as:

Attn. Walter Chomentowski
Emergency Management and Homeland Security Division Michigan State Police
4000 Collins Road
Lansing, MI 48910

Thank you very much, and please contact us with any questions.

HIFLD Support Team,

Walter Chomentowski (MI GIS Coordinator) is attempting to request HSIP Gold 2015 under EM-3375.

Currently, the only available sponsor from our Region is Anthony Adduci (see message below), who left FEMA in October.

I would like to sponsor Walter and MI for this request.

Let us know what additional steps need to be taken.

Subject: RE: Michigan EM-3375 Dec Map

Jason,

Yes, they should have access to the full version (via HSIN) since this a disaster declaration.

If they have an HSIN account they can request HSIP Gold following these steps:

1. Go here: https://gii.dhs.gov/HIFLD/ and login w/your HSIN credentials in the upper left.
2. On the next page select "Submit HSIP Request"
3. On the next page go down to step 4 and select "GOLD" rather than Freedom, which is a subset of Gold (~65%)

Have them use me as the sponsoring agency when prompted.

If they do not have an HSIN account, they need to follow these steps:

1. Request account here: http://www.dhs.gov/how-join-hsin
2. Use my contact info below if a sponsor is required.

If they have any issues let me know and I'll reach out directly to the HIFLD/HSIP team.

Jason,

Yes, they should have access to the full version (via HSIN) since this a disaster declaration.

If they have an HSIN account they can request HSIP Gold following these steps:

1. Go here: https://gii.dhs.gov/HIFLD/ and login w/your HSIN credentials in the upper left.
2. On the next page select "Submit HSIP Request"
3. On the next page go down to step 4 and select "GOLD" rather than Freedom, which is a subset of Gold (~65%)

Have them use me as the sponsoring agency when prompted.

If they do not have an HSIN account, they need to follow these steps:

1. Request account here: http://www.dhs.gov/how-join-hsin
2. Use my contact info below if a sponsor is required.

If they have any issues let me know and I'll reach out directly to the HIFLD/HSIP team.

Jason,

Unfortunately, our in-house data (predominantly HSIP) does not contain that level of detail. However, maybe you could put me in touch with Michigan's or Genesee County's GIS Specialist supporting this event to see if they have the distribution data? If so, I could overlay it with our educational and utility data.

HIFLD Support team,

I checked in with Mr. Chomentowski and his staff today regarding their attempted HSIP 2015 request but they have not received any information up to this point.

Can we get an update on this request?

Also, to expedite this process would it be possible for me to transfer the data from our Regional Server to theirs?

Subject: HSIP Gold Request for State of MI under EM-3375

HIFLD Support Team,

Walter Chomentowski (MI GIS Coordinator) is attempting to request HSIP Gold 2015 under EM-3375.

Currently, the only available sponsor from our Region is Anthony Adduci (see message below), who left FEMA in October.

I would like to sponsor Walter and MI for this request.

Let us know what additional steps need to be taken.

Subject: Re: Matching City of Flint Parcels and Water Customer data base

Could we do a call at 4 about the properties and parcels?

Also, I ran into a few issues today.

- 4 of the iPads are unable to login and need to have their passwords set to . The users are

- I think there are too many maps available for tablet users when they login into collector. It's unclear on which map to use. It might be useful putting all the MSP tablet logins into a new group and only having the field map shared to that group.

- The map "Dashboard Teams/Pods Tracking Sheet-V2" seems to crash in operations dashboard and on AGOL and seems to be running really poorly. I've tried it on a few computers and have received similar results. Is there a different dashboard I should be using? Some of the dashboards at the County EOC seemed to be having issues.

Subject: Esri Case #01729978 - Assist ID: 2401 Michigan State Police

Hello Matt,

This is Puneet from ESRI Premium support services regarding the case# 01729978 I have been assigned this case and will be working with you to reach a resolution.

1. Are you working with ArcGIS online Geoform applications(hosted locally or online) or any other application?
2. If yes, then are you consuming feature service hosted in ArcGIS online or ArcGIS Server?
3. When you talk about making the fields non-required, are you referring to the display fields that we have to choose while configuring the application, please confirm the workflow.

Also, it would be great if you could provide me the description of the workflow you are trying to implement, please share the screenshots or a video.

Please let me know if you have any questions.Looking forward to your response!

Thank you,
Puneet

Subject: Vacant Lots

Calix,

Captain Kelenske was asking if we could visualize vacant lots on the Collector App? I was looking around the flint parcel layers and did not see the "Structure" field we've been using with the flint parcel data we have in EMHSD. The values appeared to be Structure=Structure Present or Structure=Vacant Lot.

Perhaps this could be added after the training? If it is something I can help with, please let me know.

My desk phone today is 517-324-2345

Subject: active water user data

Hi, Commissioner Curtis provided me with a thumbdrive with what he described as "current active" customers on the Flint water system. He feels it is the best data to use. Please advise if you would like me to provide this to the GIS unit. Thanks, BJ

Subject: ArcGIS Online Collector App

Hello Sir,

During the meetings we had on Friday with the local GIS staff we determined that ArcGIS Online is an ideal mechanism to share and exchange GIS data related to this incident. As such, we have begun configuring apps and data to be put into the City of Flint's ArcGIS Online web page (http://flint.maps.arcgis.com/home).

This is a cloud based service with many powerful features that all participating GIS specialists can manage through our desktop GIS software. The core functions of ArcGIS Online are:

- The ArcGIS Online website (seen above): Used to build and share apps
- ESRI Maps for Office: Directly links excel data to ArcGIS online to allow users to keep spreadsheets and publish them for sharing The ArcGIS
- Explorer App: Same as website for all major mobile devices
- The ArcGIS Collector App: Specialized app for field data collection
- The ArcGIS Operations Dashboard: Customizable interface to pull metrics from any data being entered into ArcGIS online

Tomorrow we will begin using the Collector App to survey the public and will be getting real time metrics through the site from the field. They are currently utilizing Flint's cache of mobile devices (30 Android Tablets), but to reiterate, any mobile device could be used in the future. We have already configured an operational dashboard for tracking which will be displayed in the SEOC. We can make a link to this site available to anyone else who needs it.

Right now all of the data is secured to the logins and cannot be viewed by the public. That said, it is very easy to setup apps in this tool and any and all the data within can be shared with the citizens of Flint with limited effort.

I imagine there will be some issues that arise during tomorrows usage of these tools, but I think we need to remain diligent about collecting clean digital data and avoid paper forms if at all possible.

As a last note, we have also submitted a request to ESRI (vendor for ArcGIS Online) for professional support. They often offer services for free during emergencies. I'll let you know what other tools they think they can bring to the table as they present them.

Subject: GIS Update

Today we:

- Updated distribution sites map
- *Submitted a request for assistance to ESRI (GIS vendor) to supplement our technology and provide professional services in support of the incident*
- Updated Flint DDACTS (crime analysis) hotspots
- Coordinated getting additional staff due to operational hour increase from DTMB (Currently only one additional expected, will request more tomorrow)
- Setup ArcGIS in conjunction with Flint GIS staff
- Configured mobile app for field data collection during MSP neighborhood visits
- Updated filters database and generated maps
- Began mapping lead service lines (anticipated to have rough idea of lead service lines by Friday)
- Coordinated with local IT managers overseeing Filter tracking system to streamline data collection

Cc:	Martinez, Calix
Subject:	Filter distribution maps
Attachments:	FlintWaterEmergencyFilterDistributionMapbook_1-11-2016.pdf

I am attaching a PDF of the maps that I made for the sheriff and MSP to use to organize where they go in the field.

These polygons are based on precincts. However, due to the orientation and shape of some precincts they would be at a scale where the property addresses are too small so I have cut a few into A/B parts and rotated some. I focused on the ones they wanted to go to tomorrow. It will take a little time to get through them all.

Do you have resources to complete this?

-Ken

Walter,

We are almost finished generated an excel list with approximately 1400 addresses for seniors living in Flint who receive in-home services.

Are you our GIS point of contact to receive this list or is there someone else?

1. Our list is sorted by service category to make it easier to for MSP to prioritize residents by level of needed service. Seniors receiving Care Management, Home Delivered Meals, Personal Care, and going to Adult Day Centers are most likely to have the higher physical or cognitive functional deficits.

2. Valley Area Agency on Aging (Valley)'s Executive Director, Kathy Boles is generating an additional list of Flint seniors and adults under age 60 who receive MiChoice Waiver services. Valley will forward that list to AASA and We will forward it to MSP.

3. Ms. Boles is contacting the Genesee Senior Millage Care Management provider to request a list of their In-Home Services clients. She estimates Senior Millage about serves another 1,400 older adults as well.

4. We also working with our APS friends to generate addresses for APS's Home Help and Adult Community Placement clients over age 60 living in Flint. We hope to have something by Wednesday at the earliest.

Subject: RE: 2015-10-01-City of Flint-Water Contamination / Shortage: mapping aged population (Older Adults)

Good Morning Walter,

We think we can generate an excel report from our National Aging Program Information System (NAPIS) database listing the addresses of I older adults receiving all In-Home services or one or more specific programs from grant funding this office provides to the Valley Area Agency on Aging. These programs serve a population age 60 and older that meet varying levels of functional loss up to and including being eligible for admission to a nursing home.

Please keep in mind, the list we can generate cannot be exhaustive of all older adults with functional loss because there are families that pay privately for home supportive services or may be receiving in home rehab covered by their insurance.

Specific In-Home Service Programs would include seniors who've enrolled for the following services:

Home Delivered Meals (HDM)
Care Management (CM)
Case Coordination and Support (CCS)
Chore
Homemaking
Medication Management
Personal Care
In Home Respite
Adult Day Services

Valley Area Agency on Aging is also the Medicaid MiChoice Waiver (Waiver) agent for Genesee County and can generate a list of addresses for seniors in that program. The Waiver program provides in home services to seniors and persons with disabilities who are nursing home eligible.

We would pull addresses based on the address provided by the senior or their caregiver at time of assessment/enrollment. Postal zip codes often but not always recorded.

We can start with the City of Flint and then on a 2nd run we could pull from the other communities that are also fully or partially served by the Flint Water System.

Thoughts?

Jim,

Hopefully I didn't do too much violence to your memo, but I tried to bullet it out to individual tasks and action items. Would it be possible to get an update on these action items daily with a percentage complete?

Message:	On 01/05/2016 Governor Rick Snider declared a state of emergency for the City of Flint and surrounding areas due to high lead levels in the local water system. The State Emergency Operations Center was activated and state GIS staff surveyed the local GIS resources that can be mobilized for the incident. It was identified during the survey that the local government does not have the requisite resources to manage data in support of this event. The current strategy is to use the City of Flint's ArcGIS Online environment to host all incident data and build tools to assist in responding to the emergency. However, the city only has 30 named users for ArcGIS Online and does not have a very large credit load to manage the large quantity of data that will be required for this incident. In order to effectively use this tool we would need to significantly increase the number of named users and credits. Additionally, the city noted they have issues training local users of the ArcGIS Online Collector App as there is only one GIS person in city government and they are new to the city and they are very new to GIS. Additionally, they have had long periods of vacancy in their GIS department and have been unable to maintain accurate GIS data on their local infrastructure. Currently, the only data the city has available is parcel data, census data, and imagery, and it is in shapefile format and stored on a single desktop machine. The only data for water infrastructure is on 3x5 index cards and old analog printed maps showing where lead pipes exist. Migrating this data into a digital

format is a significant undertaking that the local GIS staff is grossly under-staffed to accomplish. We would like to know what resources are available to expedite this task.

Subject: RE: 2015-10-01-City of Flint-Water Contamination / Shortage: mapping aged population (Older Adults)

Good Morning Walter,

We think we can generate an excel report from our National Aging Program Information System (NAPIS) database listing the addresses of I older adults receiving all In-Home services or one or more specific programs from grant funding this office provides to the Valley Area Agency on Aging. These programs serve a population age 60 and older that meet varying levels of functional loss up to and including being eligible for admission to a nursing home.

Please keep in mind, the list we can generate cannot be exhaustive of all older adults with functional loss because there are families that pay privately for home supportive services or may be receiving in home rehab covered by their insurance.

Specific In-Home Service Programs would include seniors who've enrolled for the following services:

Home Delivered Meals (HDM)
Care Management (CM)
Case Coordination and Support (CCS)
Chore
Homemaking
Medication Management
Personal Care
In Home Respite
Adult Day Services

Valley Area Agency on Aging is also the Medicaid MiChoice Waiver (Waiver) agent for Genesee County and can generate a list of addresses for seniors in that program. The Waiver program provides in home services to seniors and persons with disabilities who are nursing home eligible.

We would pull addresses based on the address provided by the senior or their caregiver at time of assessment/enrollment. Postal zip codes often but not always recorded.

We can start with the City of Flint and then on a 2nd run we could pull from the other communities that are also fully or partially served by the Flint Water System.

Thoughts?

Subject: UM-Flint & State GIS contact information
Importance: High

Hello Everyone,
You'll find below the email addresses of the UM-Flint professors who have been engaged by the City of Flint to digitize its water infrastructure data. The additional address is for the State's GIS team in the State Emergency Operations Center.

martyk@umflint.edu
grybar@umflint.edu
rosencra@umflint.edu
msp-seocgis@michigan.gov

The goal in sharing this information is to ensure that the State, the City of Flint and the University of Michigan-Flint have a common understanding of the time needed to complete this digitization effort, given current resources.

In addition to my UM-Flint position, I'm a SEOC liaison/external relations lead for the Michigan Region of the American Red Cross. Should you wish to contact me, you can reach me 24/7 at linda.dintenfass2@redcross.org and 734.476.6294.

If I can assist in any way, I would be glad to.

> We inspected the 44,000 index cards the City of Flint has and decided not to use them as part of a data conversion project we have ongoing with the City to identify lead service line connections. Many of the cards were initially written in pencil, and their information is not legible. Instead, we found out the City has over 240 files of jpegs that depict all of the parcels, and a text indicator for each parcel specifying the service connection; e.g., "lead" or "lead to galvanized". Since these are separate jpeg files and not in a GIS (Geographic Information System) file format, we wrote a proposal to the City to combine these separate files into one, and transfer the text string with the service line connection information to a digital GIS parcel file. The proposal was accepted by the City and we will begin work on this project early next week.

James:

Marty Kaufman at UofM Flint can meet tomorrow at 11am. It would be good in you can attend this meeting. Can you request resources for a for a trip to UofM Flint tomorrow?

Nicole Lisbeth (PIO) mentioned in the morning brief that Google will donate services. GIS would like to request unlimited access to the Google geocoder.

Regards,
Walter

Hi Walter:

I can meet at 11:00 A.M. on Monday (tomorrow). My office is in 516 Murchie Science. If you are not familiar with our campus, we are located on the west side of the Murchie Science Building. Visitors can park on the top level of the Mill Street Parking structure. I have copied our GIS Center director and manager; as they may be present to help answer your questions about this project.

Hi Walter:

We inspected the 44,000 index cards the City of Flint has and decided not to use them as part of a data conversion project we have ongoing with the City to identify lead service line connections. Many of the cards were initially written in pencil, and their information is not legible. Instead, we found out the City has over 240 files of jpegs that depict all of the parcels, and a text indicator for each parcel specifying the service connection; e.g., "lead" or "lead to galvanized". Since these are separate jpeg files and not in a GIS (Geographic Information System) file format, we wrote a proposal to the City to combine these separate files into one, and transfer the text string with the service line connection information to a digital GIS parcel file. The proposal was accepted by the City and we will begin work on this project early next week.

The contact person at the City Water Dept. for information about these data, and the index cards is shown below.

Subject: GIS Strategy

Jim T,

One of our assigned tasks is to develop a GIS Strategy. I don't know if you'd received that or not. For the sake of completing the task, could you draft up something, I think less than a page would suffice? But with general strategies for achieving the mapping goals and objectives that Cap has been looking for? I'm thinking if we could provide that to Cap sometime Monday, he'd be able to report that achievement to the Governor.

From: Mona Hanna-Attisha [mailto:MHanna1@hurleymc.com]

Subject: Update from Hurley Flint Research Group

Please do not publicly share the below information and attached map. It is only meant as a FYI for resource prioritization.

Last Friday afternoon, we finally did receive the raw blood lead level data from MDHHS. We geocoded the data to focus on the Flint city limits and analyzed it identically to our first study with Hurley-processed labs. As the state mentioned at their press conference, the results are consistent with our initial findings. Our team did share our geocoded results with MDHSS Dr Wells and her team yesterday.

Some details:
No CHANGE in the Elevated Blood Lead Level % **outside of Flint**
Pre-Switch EBL% (n=2970) 2.2%
Post-Switch EBL% (n=2142) 2.3%

Focus on high risk **ZIP CODES** (48502-48504) where the highest water lead levels were seen
Pre-Switch EBL% (n=584) 5.2%
Post-Switch EBL% (n=427) 9.2%

Focus on high risk **WARDS** (5, 6, 7) where the highest water lead levels were seen
Pre-Switch EBL% (n=408) 6.6%
Post-Switch EBL% (n=291) 9.6%

Take home message: The focus on resource delivery should continue to be ALL flint, and if possible a focus on Zip 48503 and 48504 and wards 5, 6, 7. A downside to using zips and/or wards is that is misses another cluster seen at the merger of wards 3, 4, 5 and zips 05 and 06. See attached map.

Lastly, the geocoded Hurley results were more pronounced, but in the exact same hot spots. We think the Hurley data captured a greater % of post-switch EBL kids because of the population that Hurley serves - more underserved and thus less able to afford water alternatives (when others may have already switched). And once again, blood data underestimates risk because we do not screen lead for infants which are most at risk.

We look forward to overlaying the GIS Lead Service Line map on this data once that is digitized. If anyone would like further info regarding the above, please do not hesitate to contact me.

Updated.

MSP/EMHSD GIS Section Update
Accomplished Today:

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- MI CIMS password resets
- Worked on map of franchise customers outside of Flint
- Produced maps for MDARD on food establishments and Local Health Departments
- Produced map of Church Filter Distribution map for DTMB.

Tasks for Tomorrow:

- Update Distribution Map with new information
- Update Filter Distribution map by Household
- Complete Franchise Customers outside of Flint by zipcode
- Discuss a time to meet with U of M
- Finalize plan for data distribution methods

Subject: Rough Draft of GIS Update for Past Operational Period
Attachments: 20160108 Operational Period Synopsis for GIS.docx

Hey Tom,

Attached is a draft update from GIS indicating accomplishments from the previous operational period and planned action items for the upcoming operational period.

It includes notes from the visit.

There are a lot of key items that need to be discussed from the action items as they may require additional resources to bring to fruition.

The key note for us is making sure the work we do sets up the locals for long term success by synching it with existing local GIS resources.

I typed this up very quickly, so please let me know if you have any comments or questions. I tried to keep it brief for command, so let me know if you want more detail in any specific area.

Subject: Outlying Parcels

Hello Ken,

Would it be possible to get the parcel data for the outlying areas around Flint per our discussion yesterday?

Our staff are working through the weekend and were looking at refining the parcel mapping geocoder to patch the last of the water filters table that we have.

Subject: list of deliverables

I've asked Mike Sobocinski to track Cap's deliverables list that he gives to each of us. Jackie suggested having a "clearinghouse" similar to the status plotter, but for deliverables. So...please contact Mike as Cap gives you a new deliverable (i.e., report, map, plan, etc.), and he'll maintain an aggregated list so nothing is slipping through.

Thanks!

Subject: UM-Flint & State GIS contact information

Importance: High

Hello Everyone,
You'll find below the email addresses of the UM-Flint professors who have been engaged by the City of Flint to digitize its water infrastructure data. The additional address is for the State's GIS team in the State Emergency Operations Center.

martyk@umflint.edu
grybar@umflint.edu
rosencra@umflint.edu
msp-seocgis@michigan.gov

The goal in sharing this information is to ensure that the State, the City of Flint and the University of Michigan-Flint have a common understanding of the time needed to complete this digitization effort, given current resources.

In addition to my UM-Flint position, I'm a SEOC liaison/external relations lead for the Michigan Region of the American Red Cross. Should you wish to contact me, you can reach me 24/7 at linda dintenfass2@redcross org and 734.476.6294.

If I can assist in any way, I would be glad to.

Sent: Thursday, January 07, 2016 11.04 AM
To: MSP-SEOCGIS
Subject: Water Age Shapefile
Attachments: Lead Non-Confidential.zip

Hi Walter,

Here is the shapefile for the water age (based on the pdf Mona sent earlier). I created it from a modified street network. The column 'ZONE' refers to the time spent in the pipes as follows:

1 - less than 24 hours
2 - 24-72 hours
3 - 73-143 hours
4 - 144 hours and up

I quickly created it, so there may be some minor errors, but the vast majority of the 'pipes' are accurate (I estimate at least 97%).

The main importance here is that the areas of highest predicted BLL in the AJPH article align very closely with the areas of oldest water age.

Cheers,
Rick

Sent: Thursday, January 07, 2016 10:56 AM
To: MSP-SEOCGIS
Subject: Re: Flint water emergency: Distress Score

Hi Walter,

1) I can't recall the exact range, but it is approximately -4 to +6, with 0 representing the average distress score, negative scores representing relatively lower distress neighborhoods, and positive scores representing relatively higher distress neighborhoods. It is a combination of low educational attainment, lone parenthood, unemployment, and low income, and 'SUM' is the column representing this total score.

2) The index adapts variables originally used by Pampalon, but adapted by me for Flint and first published in:

Sadler, R. C , Gilliland, J. A., & Arku, G. (2013). Community development and the influence of new food retail sources on the price and availability of nutritious food. *Journal of Urban Affairs*, *35*(4), 471-491.

It's the same index I used in the Hanna-Attisha *et al* article:

Hanna-Attisha, M , LaChance, J., Sadler, R C., & Champney Schnepp, A. (2016). Elevated Blood Lead Levels in Children Associated With the Flint Drinking Water Crisis: A Spatial Analysis of Risk and Public Health Response. *American Journal of Public Health*, e1-e8.

I'll send on the water age file here shortly.

Cheers,
Rick

Subject: Flint Water Emergency: water age map

Ken:

Rick Sadler was on the telecom this morning and he mentioned a map of water age and that you would have that data set. We have a dataset that has water main's for Flint but it does not have a water age attribute. Do you have access to that data set and if so can you send it to me. Thanks.

James,

We have some basic information on utilities (attached) that we could provide a general location. Currently it is stored based on control section (polygon) that could be referenced to the Michigan Geographic Framework, PR based on some assumptions. We do not store the information by lat/long yet. If you think that would be helpful, we can map it.

Also, I request information from our Environmental Section on watersheds. Please let me know if that would be helpful, 241-4299.

Thank You Wendi,

The major area we are trying to compile data for right now is the water system within the city.

Flint was able to provide an overview of their water pipelines. However, if there is any data for water infrastructure in Genesee County that you have it would be appreciated.

Sent: Wednesday, January 06, 2016 5:23 PM
To: MSP-SEOCGIS
Cc: Rybarczyk, Greg; Rosencrants, Troy
Subject: RE: State of Emergency: Flint drinking water contamination

Hi Walter:

We inspected the 44,000 index cards the City of Flint has and decided not to use them as part of a data conversion project we have ongoing with the City to identify lead service line connections. Many of the cards were initially written in pencil, and their information is not legible. Instead, we found out the City has over 240 files of jpegs that depict all of the parcels, and a text indicator for each parcel specifying the service connection; e.g., "lead" or "lead to galvanized". Since these are separate jpeg files and not in a GIS (Geographic Information System) file format, we wrote a proposal to the City to combine these separate files into one, and transfer the text string with the service line connection information to a digital GIS parcel file. The proposal was accepted by the City and we will begin work on this project early next week.

The contact person at the City Water Dept. for information about these data, and the index cards is shown below.

Dr. Marc Edwards,

Dr. Mona Hanna-Attisha directed me to you for questions about the Flint Drinking Water Crisis. I work at the Michigan State Police- State Emergency
Operations Center, we have been activated due to the Flint Crisis. Our GIS
unit has been tasked with producing maps that illustrate the Flint drinking water problem areas, we have already contacted the City of Flint and have been given some of the data for locations of pipelines, some water samples, etc. She emailed us a map of the Water lines and age & sample map that you
had produced. Can I ask for clarification on what the Water Age and Samples
mean exactly. Do you have the shapefiles for the map that you created,
and if so, would you be willing to share this data with us. I thank you in advance for your help.

Any additional information you feel would be useful would also be appreciated.

Thank you for your email. I have cc'd Dr Sadler- Dr Sadler is a MSU Public Health Geographer - he is a flint native and knows every neighborhood in the city. He created the GIS maps for our research (publication link below) and he also communicated yesterday with I think the County Emergency response folks and shared some of our de-identified maps.

I would also direct you to two other map sources - Dr Edwards from Virginia Tech has multiple maps on his website (flintwaterstudy.org) regarding water lead levels and there is also a city of Flint water age map (attached) that highly correlates with increased blood lead and water lead levels. We can probably help get you shape files if needed.

Nikkia,

FYI we have also been trying to get a map of the location of lead service lines. About 25% of the city lines were GIS coded – mainly the west side of the state. The data is on 44,000 index cards, the cards were then given to UM Flint GIS folks for digitizing, but I don't think that ever happened. The geospatial mapping of the lead lines is critical and hopefully can be part of your team's efforts.

Great! I attached our water lines, water monitoring results, water service cards, and parcels in a GDB.

The water service cards are records of work that the Public Works crew keep that have information on the material of the pipe they were working on. Only a small fraction of them were digital and able to be geocoded. Let me know if you have any questions or need something else. Talk to you soon.

MSP-SEOCGIS

From: plangc
Sent: Wednesday, January 06, 2016 12:34 PM
To: MSP-SEOCGIS
Subject: RE: IAP objectives and command emphases

Thanks much!

From: MSP-SEOCGIS
Sent: Wednesday, January 06, 2016 12:15 PM
To: plangc
Subject: RE: IAP objectives and command emphases

Looks good to me.

I will note though that GIS may have tactics to emplace in objectives beyond "Develop a comprehensive GIS strategy".

The ones I foresee our staff playing a part are highlighted below.

From: plangc
Sent: Wednesday, January 06, 2016 12:12 PM
To: MSP-seoclgc; MSP-SEOCGIS; MSP-SEOCOPSC; MSP-seocfgc; MSP-SEOCPIO
Cc: Pepper, Joel (MSP); MSP-seocda1
Subject: IAP objectives and command emphases

Draft objectives, please edit as needed and respond by 12:30

I've compiled them all here. Feel free to address/edit any, but of course you only need to be concerned about those specific to your area of responsibility.

Objectives

Activate the State Recovery Task Force
Ensure coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
Obtain and maintain situational awareness and common operating picture of all activities.
Establish operational period and hours of operations.
Investigate and identify available programs, including the federal Lead Pipe Replacement Program.
Develop a comprehensive GIS strategy
Identify critical resources for acquisition and allocation.
Coordinate response and recovery activities and identify mission areas with MIVOAD.
Facilitate and coordinate technical assistance among state agencies and to local agencies.
Provide technical assistance and facilitate the local Damage Assessment.
Establish a Joint Information Center and identify a public information strategy.
Monitor MI CIMS for resource requests and address as appropriate.
Establish and disseminate cost center information for the incident.

Command Emphasis

Provide regular technical briefings
Identify life safety issues.
Identify priorities.
Provide policy direction by observance of SEOC SOPs.
Coordinate with FEMA.
Provide regular legislative/congressional briefings.

Thanks in advance!!

Planning Group Chief, State Emergency Operations Center

Hello again,

I have attached all the data I really have. The PDF is the contains a map with BLL.
The datafile contains a raster layer form the map and census data used.

The fellow that put that together is:
Rick Sadler <sadlerr@msu.edu>

I am working on attaching some structure age information to parcel data and will send that along.

-Ken

Subject: RE: Flint Mapping Information

Thank You Ken,

For further clarity, the State Emergency Operations Center (SEOC) was activated today as part of the Governors Declaration of a state of emergency in Flint. As such, our GIS team (5 staff) are being asked to help coordinate the GIS efforts around this incident and consolidate the information into a centralized point that can be used to assist in statewide planning. In short, it has been made abundantly clear by SEOC command that GIS will be taking a central role in addressing this issue. As such, all available GIS resources that we have are going to be assigned assigned to this.

Calix,

I understand significant amount of work on this incident has already occurred as it has been ongoing for some time. Additionally, I want to ensure that you understand that we are complimenting your existing efforts and not supplanting them.

In the near future I would like to have a conversation to understand what everyone is doing once we have identified what parties are generating GIS content for this event and see what we can do to help.

Again, Thank you

James Tchorzynski

Hello,

Indeed I do remember our conversations. More than happy to help in any way. I am trying to help with some mapping now but it is hard to get much accomplished in 72 hours (less really).

The city does have a GIS person though his activities do not really span the city. He works out of planning and does some requests for others but especially in regards to the water system I don't believe he has done much with them at all. Person is:
Calix Martinez

Subject: Flint Mapping Information

Hello Ken,

Not sure if you remember me, but I run the mapping staff for the Michigan State Police. We corresponded a few years back to help put together some data for analysis of crime in Flint.

I was wondering if you had some time today for me to pick your brain. We have been advised that we will most likely be asked to assist with generating some products for the Flint Water Crisis.

I wanted to be sure to touch base with you before we actually started receiving requests to help coordinate our efforts.

Also, I know you had mentioned in the past that Flint did not have a dedicated GIS person on staff. I'm not sure if that has changed, and if so, if you could provide me any contact information.

Thank you,

James Tchorzynski

Check out the R.E. Store

As work sites continue to move into the new MSP headquarters, don't forget to visit the Recycled Equipment (R.E.) Store to view the surplus supplies and equipment being added to the site. Items recently added include file cabinets, a recumbent exercise bike, and a Bowflex machine. This

Many MSP members continue to play an active role in the state's response to the Flint water emergency.

Thanks to our dedicated employees who continue to work in the activated emergency centers and in the field, we are helping to ensure residents have access to safe water.

In the midst of being activated, the State Emergency Operations Center (SEOC) successfully moved from its former location at Collins Road into our new, state-of-the-art emergency operations facility at the General Office Building A significant amount of work went into preparing the new SEOC and completing the move, all the while maintaining SEOC operations during the transition.

For updates on the Flint water situation, visit www.michigan.gov/flintwater. To find out how you can help, visit www.helpforflint.com.

Spotlight: Fraud Investigation Section

Did you know Michigan is among the top ten states for the number of identity theft complaints reported annually, with nearly 75,000 complaints in 2014? Recognizing the growing number of fraud-related complaints, the MSP Fraud Investigation Section is dedicated to investigating criminal activity related to fraud and identity theft. This section includes nine enforcement members, who make up the east and west Fraud Investigation units.

In 2015, the Fraud Investigation units initiated 151 complaints, nearly doubling the number of investigations from 2014. These investigations included credit card fraud, identity theft, bridge card fraud, organized retail crime, check fraud, mortgage fraud, embezzlement, and tax fraud. Investigations into these crimes are complex and lengthy, often taking several months to complete.

Fraud is a high-reward and low-risk crime in which the suspects can go undetected for weeks, months,

site and the items posted are available to all department members.

For more information on the headquarters move, visit the MSP Headquarters Move page.

Got news?

Do you have information of interest to other employees?

Possible topics include department-wide events, new initiatives, campaigns, and achievements.

Submit your ideas to the Public Affairs Section.

Submissions must be received prior to the 15th of each month to be included in the next month's newsletter.

Connect With Us Online

The MSP participates in several social media platforms to engage with citizens and relay educational and awareness messages to the public, as well as to promote department-sponsored events. Information about the history of our department, traditions, and services are featured on these sites.

and even years before they are caught. The suspects often only receive probation or minimal jail time for these crimes, because they don't involve any type of violent acts.

To help combat fraud, the Fraud Investigation Section is developing relationships with private stakeholders to discuss current trends and issues related to fraud. They are also working with Michigan law enforcement agencies and other state departments to develop successful partnerships and methods of sharing critical information.

Education is a critical component for citizens to protect themselves from identity theft and other fraud schemes. To help reduce your risk of falling victim to identity theft and other forms of fraud, follow these tips:

- Don't respond to unsolicited requests for personal information (i.e., your name, birth date, social security number, or bank account number) by phone, mail, or online.
- Shield the keypad when typing your passwords on computers and at ATMs to prevent "shoulder surfers" from seeing your password.
- Store personal information in a safe place at home and at work
- Create complex passwords that identity thieves cannot guess easily. Change your passwords if a company that you do business with has a breach of its databases.
- Avoid having your credit card skimmed at the gas pump by using a pump closer to the front of the store. Thieves often place skimmers at the gas pumps farther away from the store so they aren't noticed as quickly.
- Always inspect credit card readers for anything suspicious. Avoid using it if something looks loose, crooked, damaged, or if you notice scratches or adhesive/tape residue.

You can visit the MSP Fraud Investigation website for more helpful information and tips on fraud awareness.

Tpr. Paul K. Butterfield II Memorial Scholarship Applications

Applications are now being accepted for the annual Tpr. Paul K. Butterfield II Memorial Scholarship. Applications must be submitted by March 31.

The scholarship is open to children of active or retired members of the Michigan State Police. The scholarship was awarded to three individuals in 2015.

The scholarship, created in memory of Trooper Butterfield, who was killed in the line of duty on September 9, 2013, is being administered by the Frankenmuth Community Foundation.

Additional information, including the scholarship application, is available on the Frankenmuth Community Foundation's website at www.frankenmuthfoundation.org.

Good afternoon,

Attached is the SEOC staffing schedule for next week, February 22-28.

Again, if you cannot work a shift you have been assigned, it is your responsibility to work with your team and the Logistics Section Chief in advance to determine a replacement.

NOTE: I am sending this to the entire division recognizing that a few of you will not be reflected on this list. Please find your usual position to determine if you are scheduled for next week.

Thank you,
Wendy

Effective this current pay period, for any REGULAR AND OVERTIME hours worked on the Flint Water Emergency, please use Index 28900 and PCA 28670 and on the activity tab enter hours for the activity FNTWTR. This will help us to report more consistently with other state agencies and assist the State Budget Office with their tracking.

I know it adds a little extra time when inputting your time, but we really need to monitor time as accurately as possible. If you have problems with DCDS, please contact Nancy and she can walk you through the process.

Thanks so much. Appreciate your efforts.

General Information

AILS: Please review the attached FOIA Rules e-mail and establish Outlook rules so that documents related to Flint are appropriately archived from this point forward This applies you have printed what you already have.

RTIME: Per Penny. Effective this current pay period, for any REGULAR AND RTIME hours worked on the Flint Water Emergency, please use Index 28900 and PCA 0 and on the activity tab enter hours for the activity FNTWTR. This will help us to report e consistently with other state agencies and assist the State Budget Office with their king. I know it adds a little extra time when inputting your time, but we really need to itor time as accurately as possible. If you have problems with DCDS, please contact cy and she can walk you through the process. Thanks so much. Appreciate your ts. Penny

NS DAYS: They are back and we just missed one!! Please review the attached flyer and f you can find Mary K to pay for the next one! REMEMBER: If you are working in the C you should NOT wear jeans. Thanks!

CEDURES: We have them in place so we don't make mistakes! When we're all going miles per hour, it's easy to leave off the extras – that's when the margin for error eases. Let's be careful to be meticulous in the work we do ..that's how we keep our tation as SUPER HEROES!! Remember when you are submitting items for approval, use Admin Form – that's how we make sure no balls are dropped. Pam and I need to know n certain information passes to Capt and Tony, and we can't track sidebar conversations,

so please, let's make sure everybody who needs to be in the loop – is IN the loop. Use the forms, get to work on time, say something nice to a coworker...we're all in this together. All the way up to – [CENSORED]

CONFERENCE ROOMS: Again, please *RESERVE* the conference rooms prior to using them.

DATES TO BE AWARE OF:

Monday February 22 – You might want to wear your blue EMHSD shirts. Just sayin'.

The Interoperability Conference is next week – For those of you attending, have a great time!

Employee Appreciation Committee:

Soon....very soon!

STAFF BULLETIN BOARD

- If you want to join the water fund, it is $5.00 a month to Pam Strobel.
- Coffee club members pay $5.00 a month to Joel Pepper.
- Trevor Hawks is the keeper of the EMHSD calendar Please send items to him. We're avoiding conflicts and showing people how busy we are.
- The EMHSD INTERNAL PHONE LIST is for Staff Use Only – Please send revisions to OG.
- Remember to use MI HR to update your personal information with the SOM. This includes your address, emergency contact numbers, and beneficiaries. Welcome to the MI HR Gateway

Hi Audrey,

This needs to get over to FEMA for review before the 60-day for Palisades. Unfortunately the Flint water situation is slowing down the process of getting all the appropriate signatures et. al. before the 60-day deadline so I created a draft version showing the approved changes so we can meet our exercise timeline. I'll have the final version to you as soon as I'm able.

Thanks,
Greg

The scheduled monthly switch test (generator check) will occur on the 1st Thursday of the month at noon. Please

General Information

VE DATE: Please see attached sheet with our new Cisco phone numbers, model s, and a quick start guide.

ctive immediately, **please add to your email signature the following script**. PLEASE E: Effective February 1, 2016, the sections/division name is moving.
ew contact information will be:

ne: 517-XXX-XXXX
517-284-3857
sical Address:
Harris Drive
ndale, Michigan 48821

ng Address:
Box #30634
sing, Michigan 48909

u have any questions, please contact Jackie Hampton or Pam Strobel.

nk you,
e Committee

ed, Recycle, Garbage bins: There are additional grey bins for all of your destroy ments, additional blue bins for your recycle documents and an additional garbage oster for all of the items that you need to throw away. If you can't find an empty destroy or cle bin, please ask. Also, please do not put your trash bags near the trash cans for the ning company to dispose of, walk them out to the dumpster. We have run out of room and ne wants to maneuver around trash bags. Thank you for your participation, patience, and ts during this moving experience!!!

UPS Battery Backup Systems: These systems are not moving with us; please do not them include when you are placing labels on your monitors, etc.

From Bureau: Beginning February 1, 2016 OFM will begin to phase out paper registration forms for vendors. You should point all vendors to the website for CP&E, at this website they can register as a vendor, update their address, add addresses, and deactivate addresses. They can also add banking info so they can receive their funds EFT instead of check, and they can add an email address so they will be notified when a payment is being sent out. FYI if they elect to have EFT they should put in an email address, this will not only tell them that the EFT is sent, but it will also send the "notes" that is normally printed on the bottom of the paper check, if they do not have an email address associated with the account they will not receive anything.

As the memo states there are some exceptions such as payments to confidential vendors, multiple vendors, etc. An example of a multi-vendor would be if you needed a warrant to go out to two parties such as a settlement, where the names on the warrant would be me and my lawyers (Jason Aldrich and XXXXX law firm) these sorts of W-9s and DTMB-20s would at this time be routed over to us to deal with. However the majority of the time vendors should be going through CP&E

Please read the memo and contact OFM help desk if you have any questions. This memo is dated Dec 21, 2015 but we just got it the other day when we sent a W-9 over to be processed.

ALSO... Attached please find the Save the Date flier for the Annual Technology Forum hosted by the Emerging Technology Subcommittee. With much information to share, the 2016 Technology Forum will be a two-day event. Mark your calendars!

From Joyce: Please return your Qwest Worldcards (telephone cards) to me. The cards were issued to staff that would work the emergencies/disaster before cell phones were issued. No one uses the card any longer. I'll make sure they are returned to Allison.

From DTMB: A date has been established for the 2016 North American International Cyber Summit so that you can mark your calendars This year's Summit will be held on Monday, October 17, 2016 at Cobo Center in Detroit. More information and the website link will be provided when available

Budget recommendation will include $30 million request for Flint water bill repayments

"I agree with Flint residents, that they should not have to pay for water they cannot drink.

My budget recommendation will include the request for the state to make payments to the city's water system for residential bills going back to April 2014."

www.mi.gov/FlintWater | www.HelpForFlint.com

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going.

Click here to learn more about the budget request.

LEARN MORE

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

To: MSP-EMHSD-Division
Cc: MSP-seoclgc; MSP-SEOCOPSC
Subject: Additional DCDS Coding - City of Flint
Attachments: Activity Tab DCDS.png

Good Afternoon:

The State Budget Office (SBO) has requested some additional coding in DCDS for staff that work on the City of Flint Water Emergency. We will still be coding all overtime costs to PCA 28670. But at their request, we will also be utilizing the "Activity" code in DCDS.

To enter Activity Code

- Open Employee Data Collection
- Click on **Activity Tab** of DCDS timesheet
- On the Unit Entry tab, under Activity column at left, enter F in drop down box and select **FDWP** when it appears.
- Enter total of "**regular and overtime hours**" related to the Flint Water emergency in cell for each date worked.
- These hours should match the total hours for each day you have entered into your timesheet.
- Save when you have entered your activity hours.

Again, this is only for hours spent working on the City of Flint Emergency and should begin with this current pay period. Please let me know if you have questions.

Thanks,
Penny

HAPPY MOVE DAY!!!

General Information

: It's FINALLY here. Meet you at the new location on Monday February 1,

EMHSD will be relocating from 4000 Collins Road, Lansing to 7150 Harris Drive, nown as the General Office Building – GOB) on Friday, January 29, 2016.

staff ASSIGNED to work in the SEOC on Friday, January 29 for the Flint gency need to report to the new facility at 8 a.m.

n the standard area and enter at the main entrance of the GOB (see attached ntrance map). EMHSD staff will be on site by 7:45 a.m. to greet and escort you EOC.

tient as we all learn our way around, and with new equipment. It may be us to assign "temporarily" locations of computers in the SEOC; therefore, your not be located in its permanent sitting position until early next week.

mentioned to those working within the SEOC, it is important that you secure nd files you may have stored on the PC's or desktops at Collins Road by saving to ck or you may also talk to the IT support within the SEOC (Rich or Jaclyn) about nation to the S Drive. You will most likely be working on a different PC, and we re you have the files you need to continue operations with as little interruption as

your ADT access card for Collins Road, by Thursday night. A container will be he SEOC sign in-sheet for this purpose.

umbers will be established in the SEOC and will be provided as soon as

permanent locations are set. Until then, we recommend using your cell if someone needs to contact you.

EMHSD Staff not assigned to an SEOC position on Friday, January 29

By COB Thursday night, our janitorial staff will provide blue recycle bins throughout the building – marked for "trash". Please remove all trash by 10:00 am on Friday and place in these designated bins. She will also leave an extra trash bag in your office. Place this fresh trash bag in your wastepaper basket as this will be used to pack your PC accessories for transport.

Please report to Collins Rd at your normal time on Friday, Jan 29. This will be the final day in this building.

Jeans will be permitted on Friday, Jan 29 and Monday, Feb 1, if you are NOT assigned to the SEOC.

DTMB will begin tearing down computers early Friday morning, thereby making worktime on your PC uncertain. **Please accomplish tasks that need to be completed via your computer by COB Thursday.**

All EMHSD Staff that are remaining at Collins Road please report to the Kitchen at 8 a.m. Friday morning for a briefing. Friday will be used to scan the entire building to ensure all items are packed and ready for transport.

As noted previously, we **MUST** ensure there are no paperclips, staples, etc. left in our areas. All drawers, cabinets, shelves, and floors should be double checked. Refrigerators will need to be cleaned once again; NOTHING CAN BE LEFT BEHIND except for furniture that is not being relocated to Harris Rd.

An area has been designated in the kitchen for surplus....it is hopeful that you will not have much left by now, but if you run across small items that have been missed and are intended for surplus, please put them in this area. If it is a quality, useable item, please pack it for transport.

Please ensure you have updated your voice mail message with your new phone #, noting that it will be effective on Monday, February 1. You will be able to check voicemail from Collins Rd for a very short time once we move.

Please leave your ADT access card at the desk of Pam Strobel before you leave on Friday.

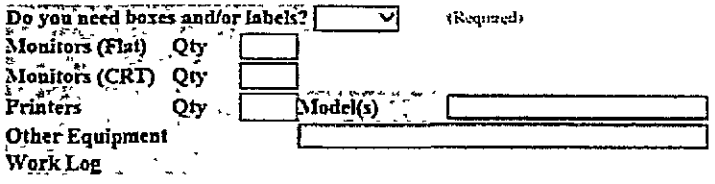
You will report at your normal scheduled time to 7150 Harris Drive, Dimondale, MI on Monday, February 1. **Please DO NOT come in over the weekend as the movers will be unpacking and placing items throughout the weekend.**

Please park in the standard area and enter at the main entrance of the GOB (see attached parking and entrance map). Greeters will be on hand to welcome you to our new work site and find your designated workspace. Assistance will be available throughout the day to help with computers, phones, etc. if needed. A welcome mat will be on your desk indicating key items you need to be aware of. Please take a moment to look it over thoroughly.

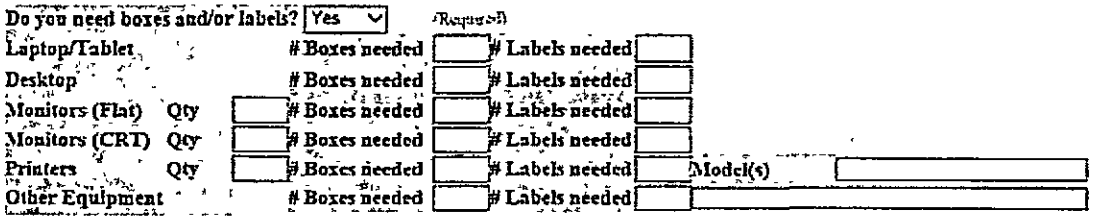
This has been a big project for all, and we are confident you will find the new division location a welcoming and efficient area to accomplish all that you do. Be patient as we become acclimated. New phones and new workspace will take time to get accustomed to.

FROM DTMB: In an effort to reduce shipping costs and increase efficiencies with the AARP process, additional information will be required on each AARP as follows:

1. A required "yes/no" drop down has been added to capture if boxes and labels are needed to return the assets to Depot
2. "Monitors" have been split into two categories "Flat or CRT" (quantity is still needed if you are returning monitors)
3. "Printers" remains the same (quantity and models are needed if you are returning printers)
4. "Other Equipment" remains the same (this field is used when you are returning items such as "box of mice and keyboards)



If you select "Yes" that boxes and labels are needed, the menu will expand allowing you to indicate the quantity of boxes and labels required, as well as, what device(s) the boxes and labels are for (this will in turn, allow Depot to send the correct box size).



These changes will be available on 1/29/2016.

Reminder: If you have shipping labels that you have received for previous AARP requests for the return of assets that you did not use for the designated assets, those labels need to be destroyed.

Labels are directly associated and are specific to each AARP. If you use a label with assets that the label is not designated for there is no way to track the shipment, resulting in the agency needing to file a lost and stolen report if there is an issue with the shipment and we are unable to locate the asset.

Additionally, there are plans to relocate Depot and the physical address on the old labels will no longer be accurate.

The AARP URL is http://aarp.state.mi.us/AARP/webWelcome.aspx.

If you have any questions, please contact Chris Nelson at nelsonc12@michigan.gov or 517.241.1142.

Audrey,

How's the water crisis?

Will the date below still work?

Thanks,
Matt

Pretty much any day but Tuesday is OK. 3/22 is the only date that Reactor Engineering has a scheduled activity in the T-week schedule.

There are some DFS dry run activities that week but they shouldn't need us unless they have problems.

Matt,

If it will be difficult to schedule a new date for the SOEC walkthrough, we can make the 3/22 date work. Either our supervisor can help perform the MT-10 test or we could process a scope change to perform the test on Monday 3/21.

Stan and I have a monthly tech spec surveillance test (MT-10, Core Monitoring) scheduled on 3/22. Factoring in the drive time back to the plant and we probably would not be before 13:30.

State of Michigan Liaisons,

The State of Michigan has just re-located their Emergency Operations Center to their new address:

7150 Harris Drive
Dimondale, MI 48821

This is about 8 miles southeast of their previous location.

I would like to do a walkthrough of the new facility on Tuesday, March 22nd at 10:00 am. Will this work with everyone's schedule? It should take about an hour.

Please program the new address in your phones so you always have it with you. We are in the process of updating our procedures to reflect the new location and phone numbers.

Thanks,
Matt Bowen

Troopers from Michigan State Police Flint post receive prestigious award
MLive
By: Amanda Emery
1.30.16

Five troopers from the Michigan State Police Flint post were recently recognized for their work fighting crime.

The troopers were recognized for outstanding criminal patrol efforts in a ceremony in Lansing on Thursday, Jan. 28, according to a news release from the Michigan State Police. Troopers Dan Richter, John Faucette, Tom Pinkerton, Tom Medina, and Jason Coon all received the State Police's newest award, the Corporal Samuel A. Mapes Criminal Patrol and Investigation Award.

Troopers assigned to general patrol duties or Hometown Security Teams were eligible to earn the award based on patrol and investigative felony arrests, according to the release. The annual award recognizes those members who excel in looking "past the traffic stop" identifying more serious crimes and for investigations that are closed by felony arrest.

The annual award is named in honor of Cpl. Sam Mapes, one of the State Police's early pioneers in criminal patrol and investigation. On May 1, 1927, Mapes was patrolling alone on Highway 23, east of Sturgis, when he stopped two suspicious westbound vehicles at the same time.

Mapes found both vehicles were rum-running. One of the drivers realized his load was going to be taken and he was going to be arrested, so he offered Mapes a bribe of $300.

Mapes refused and asked a passing motorist for help, according to the release.

As Mapes was asking for help, one of the suspects pulled out a gun and fatally shot him. The suspects then fled the scene.

Following a rolling gun battle, the suspects were captured by Michigan State Police and Illinois police officers in Chicago, according to the release. The suspects were taken back to Michigan where they were convicted and sentenced to life in prison.

Mapes was the seventh Michigan trooper to die in the line of duty, according to the release. He was awarded a Citation of Valor for his actions and integrity.

Each year, work site commanders record patrol and investigative felony arrests resulting from criminal interdiction efforts statewide, according to the release. Only the top five percent of troopers in each district are recognized for the Mapes Award.

Flint Post Commander First Lt. Tom Kish said the troopers recognized for the award show the best qualities of the agency.

"The commitment to duty and to serving the citizens of Michigan with excellence, integrity and courtesy are hallmarks of troopers across the state." Kish said in a statement. "These Mapes Award winners are the best of the best in the Michigan State Police."

Local troopers honored for dedication to cases
Midland Daily News
1.30.16

Two troopers from the Michigan State Police Tri-City Post have been recognized for their effective patrol and investigative efforts.

Tpr. Justin Kemerer and Tpr. Bryant Greenert have been awarded the Cpl. Samuel A. Mapes Award.

Kemerer and Greenert, along with other troopers from across the state, attended an awards ceremony at the Michigan State Police Training Academy earlier this week. Mapes Award recipients from each post from every district were honored for their hard work and dedication to their patrol and investigative cases. This award is not given for any single investigation; rather, it is awarded annually to the top 5 percent of troopers in each district for their outstanding performance of duty and personal commitment to excellence associated with their proactive criminal patrol and criminal investigations.

Troopers assigned to patrol duties were eligible to earn this award based on patrol and investigative felony arrests. This annual award recognizes those members who excel in looking "past the traffic stop," identifying more serious crimes and for investigations whose outcome is closed by a felony arrest.

The award is named in honor of Cpl. Sam Mapes, one of our department's early pioneers in criminal patrol and investigation. On May 1, 1927, Mapes was patrolling alone on Highway 23, east of Sturgis, when he stopped two suspicious westbound vehicles at the same time. After briefly conversing with one of the drivers, Mapes determined the vehicles were "rum running." It was obvious to the driver his load was going to be seized and he was going to be arrested, so he offered Mapes a bribe of $300 to let him go. Mapes refused and asked a passing motorist for assistance. While asking the motorist to go to Sturgis and summon assistance to help bring in the vehicles, one of the suspects pulled a gun, walked up behind Mapes, fatally shot him, took his service weapon and fled.

The suspect was arrested by Michigan State Police troopers and Illinois police officers in Chicago after an intense investigation, chase and rolling gun battle. The suspect was returned to Michigan, tried, convicted and sentenced to life in prison without parole.

Mapes was the seventh Michigan trooper to die in the line of duty, and he was awarded a Citation of Valor for his actions and integrity. During prohibition, public corruption was rampant and there was low public regard for police officers. Mapes' refusal to accept a bribe, at the cost of his own life, significantly improved the Michigan State Police's image, the department stated.

MSP: Side Roads, Country Roads Slick
WSJM
2.1.16

Michigan State Police are putting out a word of caution this morning about the roads. Lieutenant Mindy Logan says the side roads are especially slick.

"I got out of the car to assist at a rollover accident, and I literally had to scoot my feet across the ground," Logan tells WSJM News. "It looks dry, but it isn't."

She says the interstates (I-94 and I-196) are not the problem so far today, but rather it's the country roads and side roads that are icy and causing drivers to crash. As of 9 a.m., Logan says there had been about 10 accidents in southwest Michigan. Her advice is simple: slow down.

"If you have frost on your windows, anticipate that the roads are also slippery."

The National Weather Service is also warning that icy spots on the roads have been reported to forecasters in rural areas.

Dash cam offers closer look at chain reaction I-94 crash
WWMT
By: Lourin Sprenger
1.29.16

For the first time, we are getting a closer look at a deadly chain-reaction crash along I-94 in Hartford two weeks ago.

A mother and her son died from injuries sustained in the crash.

In mostly clear conditions on I-94 Friday evening, cars zoom by--most on their way home from work--at typical speeds.

But video released by investigators shows drivers--including many semi trucks--traveling at the same speed in icy, white-out conditions.

"There was some one, something, looking out for me that day," said crash victim Bill Maury.

While there's little left of Maury's pick-up truck, he--minus a few bruises--is just fine.

"I just relaxed and closed my eyes, and when I opened them, my dash was just sitting on my lap," he said.

Maury was one of the dozen victims that walked away from the chain reaction crash near Hartford in mid-January.

"It started to snow pretty hard, so I let off the accelerator, slowed down to about 40, didn't see the back of the white semi trailer until it was too late," he said.

Maury was going 40 and was unable to stop.

There were semis out there going much faster.

One trailer landed in the ditch, taking a half a dozen cars with it.

"They had gone though the worst of the lake effect snow at that point, but they are still driving at those tremendously high speeds, way too fast for the conditions," said Michigan State Police Paw Paw Post Commander, Lieutenant Dale Hinz.

State police are now drawing a hard line, and even requesting charges for some, while issuing tickets to those involved.

They're hoping not for a warning, but a lesson learned.

"Our goal with the tickets is not to punish drivers, but we are hoping people who get a ticket that it affects driver behavior," Hinz said.

It was a lesson learned for Maury, who has a new appreciation for the road, and West Michigan weather.

"It was a life-changing experience; it changed the way I approach my commute every day," he said. "Don't be overconfident--I think part of that was my problem, I have driven 100 miles every day for two winters. You never know what is going to happen until it happens to you."

Twenty drivers were cited in the crash, a son and mother were killed, and a Van Buren County deputy was hit by a truck and injured.

Keeping your kids safe online
WLNS
2.5.16

The Internet — millions of children use it every day.

But how can parents keep their kids safe online?

"Keep your computer in a very public location in your home," said Andrea Bitely, Press Secretary for the Office of the Attorney General.

Bitely says it's that easy.

"Someplace where you frequently are and you can keep an eye on the websites your child is visiting."

But it's not just computers. More and more children are using social media apps on their smartphones, which can be harder for parents to monitor.

That's why Michigan State Police Detective Jay Poupard says parents need to be proactive.

"When your child asks to download an app, take the time to research that app, open the apps on your device," Poupard said.

It sounds simple enough — but studies show 74 percent of parents don't monitor their children's online activities.

So what should parents look out for?

"It's when they start disconnecting themselves from you... and they start just keeping their nose in their device all the time – that is certainly by far the most important initial warning sign," Poupard said.

The Office of the Attorney General has several resources for parents online on how they can put parental controls on social media sites and search engines.

But Bitely says the best way to protect your kids is to talk to them.

"It's important for parents and, and their students and children to have a really great conversation about what's safe to look at on the Internet, what information is safe to share online," Bitely said.

A simple conversation — that can make all the difference.

Police warn of phone scam involving schools
ABC 10 UP
2.5.16

A new phone scam is making the rounds in the area, and this one involves schools.

Michigan State Police from the Gladstone Post say they have received complaints about a scammer who claims to be calling on behalf of the local school's "Education Association." The caller, whom police describe as a man with a "middle eastern accent," attempts to solicit funds from the scam victim.

Bark River-Harris Schools Superintendent Jason Lockwood told police that his school is one that has been targeted by this scam. He advised that local school boards will not be calling to solicit funding, as they have more appropriate venues to raise any needed funds.

Concealed pistols without a permit would be allowed in Michigan under proposed legislation
MLive
By: Brad Devereaux
2.4.16

Michigan House Republicans introduced legislation that would allow "law-abiding" citizens to carry concealed pistols without a government-issued permit.

A critic calls the proposed change "poor legislation," while sponsors say it would allow more freedom for responsible citizens wanting to carry a concealed weapon for self-defense.

Michigan Reps. Tom Barrett, R-Potterville; Lee Chatfield, R-Levering; Triston Cole, R-Mancelona; and Jim Runestad, R-White Lake, introduced House Bills 5301-5304 on Tuesday, Feb. 2.

Cole, author of House Bill 5304, said the current Concealed Pistol License permit requirement in Michigan is a "government over-reach" that places an undue burden on residents who want to defend themselves against criminals.

"Criminals don't have to go through a training class and wait for government permission to have a handgun before they commit armed robbery, yet a law-abiding citizen who simply wants the option of self-defense has to jump through all the hoops and pay a price to carry a concealed weapon," he said in a prepared statement.

"People who want to ensure the safety of their families against the criminal element should not have to beg for that right," Cole said.

Linda Brundage, executive director of the Michigan Coalition to Prevent Gun Violence, said about the proposed legislation, "it's more of the guns everywhere, anytime by anyone."

If the bill becomes law, she said, the public won't know which people carrying concealed guns passed a background check that was required in the past for a CPL application.

"I do not think that the people in Michigan want what would amount to ultimately vigilante justice," she said.

Runestad, sponsor of House Bill 5303, called the vigilante justice comment "ridiculous."

Gun owners still have to pass a background check while buying a gun, he said by phone on Feb. 4.

Under current law, Runestad said a person without a CPL could be legally carrying a gun openly on his or her hip, but simply putting on a coat and concealing the pistol would be a violation.

"People are concerned about their right to bear arms," he said.

Current requirements for lawful Michigan CPL applicants are unnecessary, he said.

"We are required to take a driver's test occasionally to get or maintain our driver's licenses, but tens of thousands of people are killed in traffic accidents every year, regardless of having passed a state-sanctioned training course and paying to obtain a license," Runestad said.

"Bureaucracy and fees do not make people better drivers," he said. "Requiring a special permit to carry a concealed weapon just forces inefficient spending and inconveniences responsible gun owners."

People who are currently not legally allowed to carry a firearm will not legally be able to carry a concealed weapon, and penalties for unlawful possession will remain in place, according to bill sponsors.

Barrett, sponsor of House Bill 5302, said people who choose to legally carry concealed weapons should not have to seek "governmental acquiescence" to do so.

"These bills simply place into law the Second Amendment rights of Michigan residents to bear arms without asking the government's permission," Barrett said. "The current concealed weapons permit amounts to nothing more than a state tax on a freedom guaranteed in the U.S. Constitution."

Rep. Chatfield, who introduced House Bill 5301, said the legislation does not stop the state from issuing concealed weapons permits.

He calls the bill "common sense" to give lawful gun owners another option for self-defense.

Citizens could still take the necessary training and obtain a permit if they desire one, Chatfield said, "perhaps because it is necessary to carry a concealed pistol in another state."

"A license to carry just would not be required in Michigan," he said.

Logan's Law could deny animal abusers right to adopt
WZZM
By: Beth LeBlanc
2.3.16

The latest rendition of a law aiming to keep pets out of animal abusers' hands is making its way through the Michigan Legislature again.

Two of four bills in the Logan's Law package made it through the Senate Thursday, and are awaiting passage out of the House Judicial Committee.

Another two bills are on the House floor and could see a vote soon.

"We got word Monday that they might be up for a vote this week," said Bryan Modelski, legislative director for Rep. Paul Muxlow's office.

The package requires nonprofit animal shelters to run a criminal background check on anyone attempting to adopt an animal.

The package requires nonprofit shelters to deny an adoption to anyone who has been convicted of animal abuse within the past five years. It also requires that convicted animal abusers are prohibited from adopting another animal for five years.

"It would allow these nonprofits to check to make sure somebody has not been convicted of a horrible crime of neglecting animals, abusing animals," said Sen. Rick Jones, R-Grand Ledge.

"They would be able to access that and not adopt out another victim."

The laws would not apply to for-profit pet shops.

Use of the Michigan State Police's Internet Criminal History Access Tool database is available to anyone for a fee of $10. Logan's Law would waive the fee for animal shelters operated by a local or county government or by a nonprofit human society or animal rescue.

"Some of these shelters work on a shoestring budget and if they adopted out 10 animals a day they simply cannot afford to pay for that," Jones said.

The bipartisan package includes bills introduced by Jones; Sen. Steve Bieda, D-Warren; Rep. Harvey Santana, D-Detroit; and Muxlow, R-Brown City.

Bieda said he feels strongly about the bills and what they will do for animals.

"I just felt it was a very commonsense way of protecting people's pets from being abused," Bieda said.

The original package of bills entitled Logan's Law was introduced by Muxlow after a March 2012 incident in which a Wales Township husky named Logan was blinded by an acid burn. The dog died a few months later.

Logan's owner, Matt Falk, believed someone intentionally splashed the battery acid. Logan's story spurred Falk to ask for legislative action.

Modelski said the fact that the Senate bills passed 37-1 was encouraging. He said Muxlow has been working on the bills for about four years.

"He's pretty thrilled," Modelski said. "This is one of the loose ends he's had since he's been a legislator. And he's been trying to get these passed out in his final year in the House."

Unlike earlier revisions of Logan's Law that included an animal abuse registry, using the ICHAT system for criminal background check would come at little to no cost to the state.

"Initially, representatives Santana and Muxlow were trying to come up with the registry similar to the sex offender registry, but the problem with that is its very expensive and it would come out of the Michigan State Police budget," Jones said.

Officials expect House Bills 4353 and 4355 will get a vote in the House some time this week. Senate Bills 219 and 220 passed out of the Senate Thursday and now are in the House Judiciary Committee.

"It's important that people continue to contact their legislators," Bieda said. "I think that's why it moved in the Senate."

Suspect sought in attempted Bloomfield Twp. Abductions
Mark Hicks
The Detroit News
2.11.16

Bloomfield Township police are seeking tips to find a man accused of trying to kidnap two people at a shopping center Thursday.

A 20-year-old woman told investigators she was parking her vehicle near the Qdoba restaurant off Square Lake and Woodward around 1:45 p.m. when the man approached, "forced open the driver side door and asked her if she wanted to make $100,000," police said in a statement.

When she refused, the suspect became "more aggressive" and "attempted to forcibly remove her from her vehicle."

The woman resisted, staying inside while the man fled to a red, full-size panel van and appeared to leave the parking lot, according to officials.

But a few minutes after she entered Qdoba for help from workers, the suspect also came inside and approached another female waiting in line, police said.

He tried to lure that person out but she also rebuffed him; the man left and was last seen driving away in the red van without a license plate or rear windows, authorities said.

A second person also was inside. Investigators did not release a description, but "the Bloomfield Township Police Department has received additional reports that the suspect(s) were seen loitering in other nearby businesses in the shopping center," according to the statement Thursday.

The first suspect is described as African-American, 40-50 years old, between 6 feet and 6 feet 2 inches tall, 180-200 pounds, with short black hair, a thick, trimmed mustache, medium complexion and distinctive mole on one eye. He was last seen wearing a black knit-style hat, green army-style jacket and dark pants.

Investigators released an image of him captured on surveillance footage to generate tips.

Anyone with information is asked to call township police at (248) 433-7755.

'Don't back down;' Muskegon Heights police chief's no-BS style creates buzz
Brandon Champion
MLive
2.11.16

MUSKEGON HEIGHTS, MI – Joseph Thomas Jr. is not alone in wanting to take a stand against the violence in Muskegon Heights.

The city's interim police chief had some strong words for those looking to cause trouble during a press briefing late on Tuesday, Feb. 9, not long after four people were shot in the parking lot of Muskegon Heights High School.

Video of his comments has been circulating on social media since. One post as more than 2,000 shares on Facebook and many in the community took some time to express support of the chief's message.

Some admired the way he stood up for the city they know and love.

"I love this man. The way he come off is the BOMB. That's how you defend your city. Don't back down."
"They start it we gonna finish it! He said, it's a new sheriff in town....Yes."
"He said, if you come here and do this, we're going to finish it. Yaaaas!!!! Criminals beware or should I say, you've been put on notice...#SoundsLikeANewChiefIsInTown..."
"Old school...I told you once, I ain't keep saying it! As Kevin Hart daddy said.... #UgonLearn2day"

Others applauded Thomas Jr. for shutting down what he perceived to be the media's attempts to make the shooting about the basketball game or, as he said, to "abuse this community."

"He got the reporters together YES!!!!!!!"
"I like this Police Chief. He will not be bullied by the media..."
"Not sure what happen but I did like the way that he handled the attempt from the media to make it about the game. He seemed to have kept it to the facts and did not allow speculation."
There was also a handful of readers who suggested making Thomas Jr. the permanent police chief.

"Where was this policeman years ago? He's Awesome! Exactly what Muskegon Heights needs! Way to go Joseph E. Thomas Jr. Hope that you are named as Chief of Police of Muskegon Heights!"
"He's a no nonsense type of guy....EXACTLY what is needed as a Police Chief in Muskegon Hts. I pray he is put in that position permanently!"
Not everyone was onboard, however. Some want to see action, not talk.

"To early for all that info chief you now that, stop trying to pat yourselves on the back and actually go catch some bad guys and keep yo fingers out da hot water cornbread,"
"Actions speak louder than words. Hopefully he can back his statements up."
"This guy was a bumbling idiot, and has no idea how to deal with the issues other than providing lip service. They had previous knowledge of the potential situation and did not step up enforcement until the incident was taking place. " We had police presence at the door to prevent the individuals from entering " what about patrols around the parking lots and adjacent neighborhoods? Strong words don't prevent people from being shot! Actions do, wake up people."

Others were happy to hear someone take a new, no-BS approach when it comes to policing the city.

"Good. Ruffle feathers. Kick butt and take names. It SHOULD be a new day. "No friends. No cliques. No buddy buddy, I remember your family etc." The heck with that. There's been too much of that from school district boards, city hall, law enforcement, etc. that has been part of the problem."
"Anyone else get the feeling THIS is what Muskegon heights needs and they are sick of the status quo? Good for them!!!"
LOVE this man! I admire his no BS from anyone way of conducting police business. He is the remedy for the Heights woes. Thank you Dr. Joseph E Thomas for stepping in to help make Muskegon Heights a good place to live, play, and do business in again!

Interested in an inside look into the world of law enforcement?

The Milford Police Department is gearing up once again to participate in the Lakes Area Citizens Police Academy, a joint venture between the Milford, Novi, South Lyon, Wixom, Walled Lake and Wolverine Lake police departments.

The 11-week program begins March 2 and runs each Wednesday from 6:30-9 p.m. through May 11.

Those who are 18 or older and live or own a business in any of the six communities are invited to enroll in the program for a behind-the-scenes look at the law enforcement work performed by their local and surrounding police departments.

"The Citizen's Police Academy gives people an idea what it's like to be a police officer in the metro Detroit area," said Milford Police Chief Tom Lindberg. "They'll come away with some insight about what our officers deal with on a daily basis; the culture of police work is changing dramatically because on events outside out area, and it's good to know why that culture has changed."

With a police millage on the horizon for Milford – likely on the August ballot – Lindberg added, he hopes residents will take an interest in learning about the local police department.

"Hopefully it will give people a better idea of what we're doing, and what our needs and challenges are," he said.

The first session will take place at the Novi Police Training Center, and subsequent class locations will vary from week to week as each participating department hosts the group and presents a different topic.

Through lectures, tours, demonstrations and hands-on experiences, participants will learn about a host of topics, including training, communications, criminal investigation, drunk driving procedures, crime prevention, family violence, juvenile law and the tactical team.

The class will meet twice in Milford, once to learn about crime scene investigations and again to see a presentation by the Michigan State Police Bomb Squad.

Participants will also tour the Oakland County Medical Examiner's Office and the 52-1 District Court, see a K-9 demonstration, take a turn using the Firearms Training System, and have the opportunity to participate in a ride-along with a police officer.

Registration deadline is Feb. 19. For more information, or to obtain an application for the Lake's Area Citizen's Police Academy, Milford residents can contact Laurie Demko at 248-684-1815 or visit milfordpolice.com.

Novi residents can contact Sgt. Beatons at 248-348-7100 or visit cityofnovi.org (click on City Services >Public Safety >Police > Community Programs)

South Lyon residents can contact Sgt. Baaki at 248-437-1773 or visit southlyonpolice.com.

Michigan State Police Warn About Vehicle Theft in Dorr Area
WHTC Radio
2.12.16

SALEM TWP, MI (WHTC) - A warning is going out to people in the Dorr area from the Michigan State Police regarding thefts from vehicles.

Eight cars were hit between 2 and 4 a.m. Wednesday southwest of Dorr in Salem Township.

Every vehicle was unlocked according to troopers. No arrests have been made.

WOOD TV 8 reports that property was stolen from a total of eight vehicles on Forgotten Court, Hidden Forest Drive and Rabbit River Farm Drive.

Residents are reminded to lock their doors.

MSP Trooper From Paw Paw Post Wins State Award
WSJM Radio
1.28.16

A Michigan State Police trooper from the Paw Paw post has received an award for her efforts to look "past the stop." Trooper Lena Wileczek is a 2015 recipient of the Corporal Samuel A. Mapes Criminal Patrol and Investigation Award. It's given to troopers who excel in patrol-generated felony arrests. Wileczek was handed the honor at a ceremony in Lansing at the MSP Training Academy Thursday. She's one of just 64 troopers to get the award this for 2015. Michigan State Police say the honor is named for Corporal Samuel Mapes, one of the MSP's early pioneers in criminal patrol who was killed during a rum running bust in 1927.

Senator Schuitmaker's Bill Eliminating Policewoman Rank Heads To Governor

WSJM Radio
1.29.16

The rank of "policewoman" is about to officially be stripped from the Michigan State Police. The state Senate gave final approval to a bill from Senator Tonya Schuitmaker of Lawton yesterday to eliminate the rank. She introduced the legislation with the backing of Michigan State Police Director, Colonel Kriste Kibbey Etue. The outdated rank was used in the days when female police officers weren't allowed to have the same standing and were paid less than their male counterparts. While that's no longer the case, the rank was still on the books. Governor Snyder is expected to sign the bill.

Chief 'deeply saddened' by two recent police-involved killings
Gus Burns
MLive
1.28.16

Dearborn Police Chief Ronald Haddad issued a statement Thursday, following the second time police killed a suspect in just over a month.

Detroit police are investigating the Dec. 23 fatal shooting of 35-year-old Kevin Matthews, of Detroit, a mentally-ill man alleged to have struggled with a police officer trying to arrest him; and state police are investigating the Wednesday shooting of 31-year-old Janet Wilson, of Detroit, who is accused of trying to hit security guards and police with her vehicle.

Both were shot multiple times.

Below is the statement from the Dearborn police chief:

The Dearborn Police Department is deeply saddened by the two officer involved fatal shooting incidents that have occurred over the past month.
Both of the officer involved shooting incidents are being independently criminally investigated by outside agencies and we are totally committed to transparency and disclosure by fully cooperating with these investigations.

Upon conclusion of the criminal investigations we will be conducting internal reviews on both of these incidents.

While we are very proud of our long history of Civil Rights advocacy as well as our history of appropriate use of force, we will closely examine all of our policies and procedures to ensure that we are employing the latest training and following national best practices in all of our responsibilities to the community.

Once we are allowed and it is appropriate to do so, we fully intend to make public disclosures regarding these incidents.

We remain committed to providing superior public safety services and appreciate the support during this most difficult time for our entire community.

Allegan County Sheriff Blaine Koops to retire
John Agar
MLive
1.28.16

ALLEGAN COUNTY, MI – Sheriff Blaine Koops announced Thursday, Jan. 28, that he will not seek a fifth four-year term.

Koops was elected sheriff in 2000.

Koops announced to the Allegan County Board of Commissioners that he would not seek re-election, Undersheriff Frank Baker confirmed.

He served 26 years with Holland Police Department. He was a captain there before he took over as Allegan County sheriff.

Koops, a Hamilton resident, graduated from Grand Valley State University and earned a master's degree at Western Michigan University.

Yon appointed Wixom public safety director, police chief
Hometown Life
1.29.16

The Mayor and City Council of the City of Wixom announce the appointment of Charles Yon as Public Safety Director and Police Chief.

Yon has been employed by the City of Wixom since he became a police cadet in 1988. He has served nine years as a police officer, 15 years as Sergeant, and in 2014 was promoted to Administrative Lieutenant.

Yon began his police service career in the United States Army as a military policeman. He is a graduate of the FBI National Academy - Session #241, Eastern Michigan University's School of Police Staff and Command, the Michigan Police Executive Development Seminar, the Law Enforcement Executive Leadership Institute, and Southern Police Institute's Executive Leadership Program.

Yon is a 1991 graduate of Oakland Community College, where he received an associate's degree in law enforcement. He is a 1995 graduate of Madonna University, where he earned a Bachelor of Science in criminal justice. In 2004, he completed The Eastern Michigan University Master of Liberal Studies program.

Yon served on the executive board for the Juvenile Officers Association of Michigan and Ontario. He has served on several committees for the Fraternal Order of Police, Southwestern Oakland County Lodge #128. He is an active member of the FBI National Academy and Associates, the Michigan Association of Chiefs of Police, and the American Legion.

In attendance at the ceremony Jan. 26 were state Rep. Klint Kesto; Oakland County Commissioner Phil Weipert; 52-1 District Court judges Robert Bondy, Travis Reeds and David Law; Yon's wife, children, and his father, Gerald Yon; officers representing Michigan State Police, Oakland County Sheriff's Office, Milford Police Department, Novi Police Department, Orchard Lake Police Department, South Lyon Police Department, Walled Lake Police Department, Wixom Police Department and Wolverine Lake Police Department, as well as officers from the Wixom Fire Department.

Animal Control impersonator going door-to-door in Fenton area, police warn
Amanda Emery
MLive-Flint
1.28.16

FENTON, MI -- Police are warning of a possible scam involving dog licenses in the Fenton-area.

Genesee County Animal Control has received information that a person identifying themselves as an officer with the department is going to homes in the Fenton-area asking residents about dog licenses, according to a news release from the Genesee County Board of Commissioners.

The suspicious person was reported to be dressed in professional looking clothing and showed residents a lanyard with identification, according to the release. Investigators said the person is not affiliated with Animal Control.

A census of dog licenses will be done sometime after May 1. Animal Control officers will go door-to-door showing identification to residents and will also be dressed in the mandates Animal Control uniform, according to the release.

Animal Control is asking residents if someone approaches their home inquiring about licenses before May, to please call police to report the incident. Residents are also asked to call Animal Control at 810-732-1660.

Facebook messaging key in negotiations with Wyoming shooting suspect
John Tunison
MLive

1.28.16

WYOMING, MI -- Crisis negotiators used Facebook Messenger to communicate with a suspect holed up inside of a Wyoming house, wanted in connection with a fatal shooting.

"As far as I know, it's a first for us," Wyoming police Lt. Mark Easterly said about using social media to negotiate.

The 18-year-old surrendered without incident about 12:30 p.m. Thursday, Jan. 28, coming out of the Colrain Street SW home with his hands up and walking backward.

He was one of three teens -- a 15-year-old and 16-year-old also were arrested -- taken into custody as suspects in the fatal shooting of Isaiah Devere Blue, 17.

Blue was shot after getting off a Rapid bus at 44th Street and Division Avenue about 10:10 p.m. Wednesday, Jan. 27. Three people approached Blue, who was with two others, then demanded property.

The would-be robbers then fired shots as Blue tried to run.

Police determined the suspects had been on the bus with Blue. Detectives then released Rapid surveillance video showing them, and tips began to pour in.

Easterly said investigators used the tips to identify possible suspects and were able to track the 18-year-old to Colrain Street.

8-year-old approached by man in van, told to 'get in my car'
John Tunison
MLive
1.29.16

BYRON TOWNSHIP, MI -- Police are investigating a suspicious situation after an 8-year-old girl told police she was approached by a man in a van who told her to "get in my car."

The girl screamed and started running, and the van left the area.

The girl told Kent County sheriff's deputies she was walking home from a bus stop in the area of Cutler Estates Mobile Home Park about 7:10 p.m. Thursday, Jan. 28, when a dark-colored van drove up to her.

Cutler Estates is near Division Avenue and the M-6 interchange in Byron Township.

After the man told her to "get in my car," the girl ran away. She said the van backed up and left the area in an unknown direction.

The girl told police the van had no side windows, but the only other description was dark in color.

Anyone with information about the incident can call Kent County sheriff's deputies at 632-6100 or Silent Observer at 774-2345.

The "Physics of Going 5 Over": How Speed Impacts Car Crashes
WLNS
2.3.16

Last night, lawmakers approved a plan that could increase speed limits up to 80 miles per hour in some places in Michigan. The bill will now move to the full House for a vote.

But knowing that almost everyone speeds sometimes, we wanted to know how higher speeds affect the severity of car crashes — the so-called "physics of going 5 over."

Car crashes — they can happen anywhere — at any time.

First Lieutenant Joseph Thomas of the Michigan State Police says driving at higher speeds is the biggest problem.

"In the State of Michigan, people often feel that they are allowed five or ten miles an hour over the speed limit," Lieutenant Thomas said. "That's not the case."

Proposed legislation could increase speed limits on hundreds of miles of highways across the state.

But how much does your driving speed affect how bad a car crash can get?

"If you increase your speed 10 percent from 70 to 77, the severity of the car crash – all other things left equal – increases by 21 percent," said Wolfgang Bauer, a professor of physics and astronomy at Michigan State University.

Bauer says speed is important — and it's directly related to kinetic energy.

"Any moving object has energy just by the fact that it's moving," Bauer said. "We call that kinetic energy."

In this case, that moving object is your car. Bauer says when you double your driving speed, you quadruple you car's kinetic energy.

And according to a 2015 report by the Michigan Department of Transportation, an increase in kinetic energy is associated with an increased risk of being in a car crash.

But Lieutenant Thomas says in any situation, you should always wear a seatbelt.

"Being belted will help you minimize your risk of severe injury during a crash – no matter what the speed," Lieutenant Thomas said.

A simple way — to stay safe on the road.

Owosso man on Michigan's most wanted sex offender list arrested in Indiana
MLive
By: *Amanda Emery*
2.3.16

A Shiawassee County man placed on the Michigan State Police's Most Wanted Sex Offender list has been arrested in Indiana.

Troopers from the State Police Flint Post arrested the 47-year-old Owosso man, for a parole warrant issued out of the 35th Circuit Court in Corunna, according to a news release from the Michigan State Police. The man was wanted on a felony warrant for sex offender registration violation - fail to change address and for absconding from parole.

The man was arrested after troopers learned he had been stopped for a traffic violation in Steuben County, Indiana and was arrested on the warrants.

Shiawasee County Prosecutor Deana Finnegan authorized the man's extradition back to Michigan. He will be extradited and will be arraigned, according to the release.

The man was previously convicted in 1997 for second degree criminal sexual conduct -- person under 13. He was a tier three offender, according to the release.

Tier one offenders must verify their address annually, during the first 15 days of January. Tier two offenders must verify their address semi-annually, during the first 15 days of January and July. Tier three offenders must verify their address quarterly, during the first 15 days of January, April, July and October. Failure to do so carries a penalty of up to two years of incarceration, according to the release.

The Michigan Sex Offenders Registration Act requires registered sex offenders to regularly report to their local law enforcement agency, sheriff's office, or nearest state police post to verify their address.

All registered sex offenders must also report a change of name, address, employment, campus enrollment, internet identifiers and vehicle within three business days of any change. Failure to do so is a 4-year felony, according to the release.

Michigan police no longer need permit to buy pistol
Livingston Daily
2.3.16

Michigan's governor signed into law Tuesday a measure exempting currently employed and certified police officers from the requirement that they must obtain a purchase license before buying a pistol.

Introduced by state Rep. Lana Theis, R-Brighton Township, the legislation extends to police officers a similar process currently used by concealed pistol license holders.

"Given the extensive training already completed by law enforcement officials, the requirement that they obtain a permit is redundant," Theis said. "It is only common-sense to allow active police officers to utilize the same purchase process as CPL holders when acquiring a pistol."

Police officers go through background checks, are fingerprinted and must demonstrate adequate firearm handling as part of their Michigan Commission on Law Enforcement Standards

This legislation allows the MCOLES certification to suffice for police officers wishing to obtain a pistol, exempting them from the purchase permit requirement.

House Bill 4535 was signed into law as Public Act 6 of 2016.

Ypsilanti's 30 untested rape kits tied to complete or disputed cases
MLive
By: Lindsay Knake
2.3.16

The 30 untested rape kits in the Ypsilanti Police Department are part of cases that are completed or disputed, police say.

In a recent survey, the Michigan Attorney General's Office found nearly 2,000 untested rape kits across Michigan excluding Detroit and Wayne County.

There are a total of 95 untested kits in Washtenaw County, including 65 in Ann Arbor and 30 in Ypsilanti. Ann Arbor police have said their untested kits are connected to cases that were resolved through other means.

Ypsilanti Police Lt. Deric Gress said the department has not sent their kits to the Michigan State Police for analysis because the victim did not seek prosecution, the prosecutor's office denied the case, the victim was uncooperative or there was a dispute about whether the intercourse was consensual.

The evidence collection kits date from 2003 to 2014, he said.

The Attorney General's office has noted there are many reasons for some kits to be untested.

A 2015 law requires Michigan law enforcement agencies and crime labs to process and analyze rape kits within about four months after the victim of an alleged rape agrees to allow a health professional to gather evidence.

In September 2015, Michigan Attorney General Bill Schuette initiated a survey across Michigan except in Detroit and Wayne County to find untested kits so the state could help local agencies.

Schuette and Michigan State Police Director Col. Kriste Kibbey Etue are testing, investigating and potentially prosecuting the untested kits using $1.7 million from grants and funding from the Michigan Legislature to ensure justice for rape victims.

Michigan victims of sexual violence are encouraged to call the national sexual assault hotline toll-free at 1-800-656-HOPE.

All calls are confidential and are answered by a local counseling center affiliated with the Rape, Abuse & Incest National Network.

MSP gas station check nets stolen car, heroin
Detroit News
By: James David Dickson
1.21.16

A Michigan State Police gas station check on Detroit's west side early Thursday morning resulted in the recovery of an allegedly stolen car and an arrest, state police said. The person arrested was also accused of carrying a packet of heroin, police say.

The gas station checks have been a regular MSP practice under the Secure Cities Partnership, said Lt. Mike Shaw. Gas stations are "an area of concern" in Detroit, he said.

Earlier this month, Mayor Mike Duggan rolled out "Project Green Light Detroit," a partnership between the city and eight 24-hour gas stations to spur investment in high-definition video cameras, which are watched in real-time by the police.

"Under the program, participating businesses have invested $5,000 to $6,000 each to equip their stations with high-definition interior and exterior video cameras, enhanced lighting systems, a highly visible green light and signs," previous News coverage of Project Green Light Detroit explained. "The partnership links the live video feed from each of the stores to the Detroit Police Department's Real Time Crime Center."

Thursday's action was not part of that effort, but Shaw said troopers assigned to the Metro Post will sometimes leave the freeways they patrol to check on gas stations in the city.

"Seeing a state police vehicle tends to break up suspicious activity very quickly," Shaw said.

At 2:45 a.m., at the Shell Gas Station on Fort and Schaefer, troopers observed a Pontiac Grand Am "parked running by the front doors" of the station. When troopers approached, the driver hopped out of the vehicle.

"Upon further investigation, it was determined the vehicle had been stolen out of Lincoln Park," MSP said in a press release. "The driver, a 37-year-old male from Detroit, was arrested. A search of his person was conducted," at which point troopers allegedly found a heroin packet in his coat pocket.

"The vehicle was confirmed stolen by its owner and they were given information on how to recover their vehicle," MSP said, and the driver was arrested and booked at the Detroit Detention Center. MSP has completed a warrant request and presented it to the Wayne County Prosecutor's Office, which will decide whether to bring charges.

State set to finish 1st door-to-door visits in Flint
Detroit Free Press
By: Paul Egan
1.21.06

LANSING -- State officials, bolstered by volunteers and more soldiers and airmen from the Michigan National Guard, are expected to have completed a door-to-door canvass of the entire city of Flint by the end of the day today, as they continue their response to the Flint drinking water crisis, a Michigan State Police spokeswoman said.

Shanon Banner couldn't say that the state will have made personal contact with every household by the end of the day Thursday, because some residents have not been home when state officials visited. But she said it's expected the entire geographic area of the city will have been covered.

Follow-up visits will be needed to cover any homes that were missed the first time, she said.

The effort has been bolstered by a surge in number of Michigan Guard soldiers and airmen, who, starting Wednesday, were assisting in the door-to-door effort, as well as staffing fire stations where people can pick up supplies, Banner said.

The state Emergency Operations Center said Thursday that officials visited 3,395 Flint homes on Wednesday, bringing the total number of homes that have either been visited, or whose residents have visited a distribution center, to 29,317 since Jan. 5, when Michigan Gov. Rick Snyder declared a state of emergency.

State officials earlier estimated there are about 33,000 households in Flint.

The number of Michigan National Guard soldiers and airmen working on the effort Wednesday is expected to more than double today, from 95 to about 180. They are going door-to-door in Flint, distributing bottled water, water filters, replacement cartridges and testing kits, along with teams comprised of city, county and state personnel, the American Red Cross and volunteers, the release said.

Flint's drinking water became contaminated with lead in April 2014 after the city, while under the control of a state-appointed emergency manager, switched its source to the Flint River as a temporary cost-cutting move and the state Department of Environmental Quality failed to require the addition of needed corrosion control chemicals. As a result, the corrosive water caused lead to leach from pipes, joints and fixtures, causing many citizens to receive water with unsafe lead levels. The state has told residents not to drink the water without filtering and says it is treating all Flint children as having been exposed to unsafe levels of lead.

During the Flint effort, the state has coordinated distribution of more than 90,300 cases of water, 73,200 water filters and 19,800 water testing kits, the release said.

Since Jan. 5, the state has purchased 111,630 cases of water, 115,700 water filters, and 61,161 water testing kits, the release said.

It's not clear what will happen after each household has been contacted once, Banner said. It's possible those who can't pick up needed supplies at Flint fire halls and other distribution centers will be able to call to have items delivered, she said.

"We recognize this is a long-term thing," she said.

Persons wishing to volunteer or provide material, in-kind, or financial donations can visit www.helpforflint.com for more information. The American Red Cross says it is no longer able to accept material donations.

http://www.freep.com/story/news/local/michigan/flint-water-crisis/2016/01/21/state-set-finish-door--door-visits-flint/79105488/

More federal funds coming to combat drug trafficking
WWMT
By: Chris Sipsma
1.20.16

West Michigan is getting a major boost in the battle against drugs.

More federal aid is on the way to help law enforcement bust drug operations.

Kalamazoo is one of nearly a dozen Michigan counties recognized as high intensity drug trafficking areas. Now a new county is on that list and a task force within the Michigan State Police say it plans to get right to work dealing with a host of drug problems.

The White House is ramping up efforts to root out drug trafficking.

Lt. Andrew Fias and West Michigan's Enforcement Team have been battling the area's drug problems for years, and now those efforts will be expanding.

"Muskegon gained that status, unfortunately, because there is a fairly significant heroin problem, cocaine problem, and crack cocaine problem," said Lt. Fias, MSP, WMET.

Muskegon is one of fourteen counties freshly designated across the nation as high intensity drug trafficking areas, opening the door for federal aid in the fight against drug-related crime.

Lt. Fias blams gangs and the amount of heroin passing through the area as the problem.

"We are seeing a pretty significant issue in Muskegon, couple with some pretty significant violence in Muskegon and Muskegon Heights," said Lt. Fias.

Lt. Fias says Allegan County's meth problem continues to be a big player in Michigan's drug economy as well.

"Well look at Allegan County, we had 60 meth labs last year," said Lt. Fias. "That is one a week in Allegan County."

With Muskegon's new designation, police will now have access to more resources, including manpower, technology and equipment, something already available to a handful of other West Michigan counties.

"The agencies that participate, they don't always have a huge overtime budget for the detectives assigned to WMET and the HIDTA is used to offset overtime," said Lt. Fias.

Lt. Fias says they're still far from eliminating the drug problem in Michigan, but that this designation is a step in the right direction.

Lt. Fias says it's still not known how much federal money they will receive, but says the team suspects it will be less than $100,000.

Common Misconceptions about driving in the snow
WLNS
By: Alexis Rosado
1.20.16

The dust-like snow may seem small, but with temperatures this low, you can't predict what may turn into ice and what won't.

According to Michigan State Police, many accidents have occurred in the past 4 days, and Michigan State police blame common misconceptions about driving in the snow.

"Getting somewhere fast, I mean if you never arrive there it's just not worth it" Trooper Marco Jones said.

Michigan State Police say with snow on the ground drivers should lay off the gas.

"People just have to remember keep your distance, slow down and allow extra time to get to your destination" Trooper Marco Jones said.

"If you are doing 70 miles per hour and you feel like your car starts to slide, you have to get your steering input pretty quickly otherwise you are going to steer out of control" Sergeant Robert Schwalm said while driving in a blue trooper car.

According to Michigan State Police driving instructor Sergeant Robert Schwalm, a common mistake drivers make, is staying at the speed limit regardless of the weather.

"Speed limits are created for driving under ideal conditions so when you have inclement weather, whether its snow or rain, you need to slow down in order to safely be able to control your vehicle" Sergeant Schwalm said.

And if you do start to lose control of your car while driving in the snow, Sgt. Schwalm says don't slam on the brakes

"Instinctively a lot of people will go to the brakes and that's the worst thing you can do. So ideally what you would do is take your foot off the gas and off the brake, look in the direction that you want to go and then steer the car in that direction" Schwalm said.

Many times the people who get into winter accidents or skid off the road will get a speeding ticket for driving too fast in bad weather conditions.

So to avoid fines and to protect your life, please remember to drive safe this winter season.

Michigan survey finds 1,800 more untested rape-evidence kits
Detroit Free Press (Associated Press)
1.28.16

LANSING -- Michigan's attorney general says more than 1,800 additional untested rape-evidence kits have been found at law enforcement agencies across the state.

Attorney General Bill Schuette and state police director Col. Kriste Kibbey Etue announced Thursday they'll move forward with testing and potential investigation and prosecution. The number of kits was learned following a survey started last year by Schuette's office.

With state funding, Michigan and the Wayne County Prosecutor's Office tested more than 10,000 rape kits dating back decades that were found in Detroit in 2009. The new survey asked authorities in Michigan's other 82 counties for the number of untested kits more than a year old.

The survey was a first step toward the state covering the cost to eliminate an unknown backlog of untested sexual assault kits statewide.

Police seize 11 pounds of marijuana in 'non-compliant' Michigan grow operation
Rosemary Parker
MLive
1.28.16

SOUTH HAVEN, MI -- After residents complained of a marijuana grow operation here, members of the Southwest Enforcement Team executed a search warrant at a "non-compliant medical marijuana grow" and seized approximately 11 pounds of processed marijuana, 30 marijuana plants, other controlled substances and ledgers indicating the sale of marijuana was located at the residence, authorities said.

Matthew Shaun-Joseph O'Sullivan of South Haven was arrested and lodged at the Van Buren County jail in connection to the marijuana grow operation, according to the news release about the incident from the enforcement team.

While police were on the scene, Arturo Serratos showed up at the residence and was arrested on an outstanding warrant.

He, too, was lodged at Van Buren County jail.

The Southwest Enforcement Team, composed of personnel from the Michigan State Police, Marshall Police Department, Barry County Sheriff's Department, Kalamazoo County Sheriff's Department, Kalamazoo Township Police Department, South Haven Police Department, Covert Police Department and the Berrien County Sheriff Department, was assisted by the South Haven Police Department.

Dearborn police kill woman after chase
Daniel Bethencourt and Niraj Warikoo
Detroit Free Press
1.27.15

A Dearborn police officer shot and killed a 31-year-old woman following a chase outside the Fairlane Town Center on Wednesday — the second fatal shooting involving the department in recent months.

It is not yet clear whether the woman was armed because it is "still very early in the investigation," said First Lt. Michael Shaw, a spokesman for the Michigan State Police, which is now handling the case.

The incident began at 4:10 p.m. Wednesday, around the time when mall security arrived to a scene involving a woman who was "distraught." Witnesses described her as having "some type of mental incapacity," and soon after the mall security arrived, Shaw said, she became "combative" and drove off, almost striking mall security with the car.

The woman fled in a black Chevrolet, and Dearborn police chased it. But within a block or two, the woman was stopped in traffic on Hubbard Drive, and officers tried to approach the vehicle and arrest her, Shaw said.

During that attempt, the woman again tried to flee, almost running over an officer in the process, Shaw said. At some point, one officer opened fire, Shaw said.

The woman was taken to a hospital and pronounced dead. An officer was also treated for non-life-threatening injuries.

The woman's name and race have not been released.

The shooting follows the death of Kevin Matthews, 35, a black man from Detroit who police say was shot multiple times by a Dearborn police officer Dec. 23 after a struggle. Police say Matthews was unarmed, wanted on a probation violation warrant and suspected in a larceny. Family members have said that Matthews was mentally ill and describe him as a gentle man who wouldn't harm anyone.

Matthews' death sparked multiple protests, one of which stopped traffic on Michigan Avenue, and another this month at Fairlane Town Center, where Wednesday's incident began. More than 100 protesters urged mall customers not to spend money in the city. Matthews' shooting is still under investigation.

On Wednesday afternoon, police roped off one block of Hubbard Drive in both directions, where the woman's car could still be seen sandwiched between two Dearborn police vehicles.

Hassan Kazan, 17, said he was coming out of the Fairlane Town Center when he saw multiple police cars chasing a black Chevrolet driven by a woman. Seconds later, he heard gunshots.

"It was heart stopping, crazy," he said.

Alex Hachem, 18, also saw a police car speed by, just before he heard at least four shots.

"It's a shock that this happened," he said.

==========

Ex-police officer acquitted of rape charges
Trace Christenson
Battle Creek Enquirer
1.27.16

One family hugged and cried and talked of champagne while the other left the courtroom quietly without comment.

In front of them, former Emmett Township police officer Troy Estree wiped away tears and hugged his attorney after a jury acquitted him Wednesday of nine counts of first-degree criminal sexual conduct.

Estree, 46, was charged with sexual assaults on a 15-year-old relative between January and August of 2014, but the jury determined the evidence was not presented to convict him.

"I think the jury got it right," defense attorney Josh Blanchard of Greenville said after the verdict. "They listened to the evidence and they took it pretty seriously. They reached the right verdict. Her story just didn't make sense."

Estree still faces a charge of first-degree criminal sexual conduct involving another relative, 33, at a Kalamazoo County hot tub business in July while he was out of jail on bond for the Calhoun County case. The trial in Kalamazoo is scheduled for mid-April. Blanchard said he will seek a reduction in Estree's bond, which was set at $1 million.

The victim in Calhoun County told the jury that she had established a relationship with Estree after a 13-year estrangement but then he repeatedly had sex with her.

The Battle Creek Enquirer does not identify the alleged victims of sexual assault.

She told the jury during five hours of testimony last week that the assaults occurred at Estree's home, a park and a construction site while she accompanied him on duty as a patrol officer.

Prosecutors also brought testimony from a doctor who said both the girl and Estree have herpes and from two other witnesses who said the girl told them about the sexual assaults long before Michigan State Police began an investigation.

Assistant Kalamazoo County Prosecutor Michael Stein, who was appointed as a special prosecutor, also presented text messages and Facebook messages sent between the girl and Estree, which he argued supported the allegations.

Stein declined comment after the verdict and left with the victim and her family. Jurors also left the courthouse without commenting to anyone about their decision.

Blanchard and his co-counsel, Keeley Heath, argued the prosecution was only providing a small number of the thousands of messages and argued jurors should look further for context.

"There was a lot of evidence," Blanchard said. "There was 54,000 pages of discovery and the prosecutor presented a couple hundred text messages from that. We tried to show the jury the complete picture.

"They had sent a note asking about some text messages that the prosecutor had selected to show the jury. They wanted to see all of them and that was the last question that came out before the verdict. They wanted 48 text messages and there were 687 pages of them in that set and they wanted to see the 687 pages and that question (from the jury) came out about 11 and that was the last question they asked."

Blanchard said Estree "was obviously very happy with the verdict. He feels they got it right as well."

Outside the courtroom, Estree's sister Sherri Hegner spoke for the family.

"This was a very big and daunting challenge," she said. "Mr. Estree has waited for 18 months for the community to see what he and his family have known all along. There are still a lot of challenges ahead. Many lives have been impacted here and I pray every day (for the alleged victim) so that family can move forward, but today justice has been served."

Hagner said "that same justice system that he served so many years has finally paid him back in seeing justice through today. He is innocent."

Davison Middle School to be location of active shooter training
WJRT TV 12
1.27.16

DAVISON (WJRT) - (01/27/16) - Davison Middle School will be transformed into a training zone on Friday.

Davison City, Davison Township and Richfield Township police departments will be participating in an active shooter training drill from 9 a.m. - noon.

There's no school on Friday, so there will be no students in the building.

There will however be multiple emergency vehicles at the school, so the school is asking you keep this training exercise in mind and know there isn't an actual emergency going on.

Trooper killed refusing prohibition bribe inspires Michigan State Police award
Brad Devereaux
MLive
2.2.16

Nearly 89 years after a Michigan State Police trooper made the choice to be honest that led to his death, troopers across the state are being honored in his memory.

The Michigan State Police's newest award is named in honor of Cpl. Sam Mapes, "an early pioneer" in criminal patrol and investigation killed in the line of duty during the prohibition era, the state police said.

On May 1, 1927, Mapes, 33, was patrolling alone on east of Sturgis, when he stopped two suspicious westbound vehicles at the same time.

After speaking with one of the drivers, Mapes determined the vehicles were "rum running."

"It was obvious to the driver his load was going to be seized and he was going to be arrested, so he offered Corporal Mapes a bribe of $300 to let him go," Michigan State Police said in a news release.

Mapes refused and asked a passing motorist for assistance, police said.

"While asking the motorist to go to Sturgis and summon assistance to help bring in the vehicles, one of the suspects pulled a gun, walked up behind Corporal Mapes, fatally shot him, took his service weapon, and fled," police said.

Police in Chicago arrested suspect Charles Correy after an intense investigation, police chase, and rolling gun battle. He was returned to Michigan, tried, convicted, and sentenced to life in prison without parole, police said.

Award for proactive police

The MSP award recognizes members who excel in looking "past the traffic stop" to identify more serious crimes and for investigations closed with felony arrests.

The award, new for 2016, is not given for any single investigation, the state police said, but instead awarded to the top five percent of troopers in each district for their outstanding performance of duty and personal commitment to excellence in proactive criminal patrol and criminal investigations.

The 2016 Col. Sam Mapes award recipients and their MSP posts are:

First District
Trooper Don Pasternak, Brighton
Trooper Ray Matthews, Brighton
Trooper Tony Weldy, Jackson
Trooper Thomas Kill, Brighton
Trooper Dan Clise, Brighton
Trooper Ty Purdy, Brighton
Trooper Dan Verlin, Brighton
Trooper Jeffrey Duttlinger, Jackson
Trooper Lance Tedora, Monroe
Trooper David Williams, Lansing
Trooper Jeffery Schrieber, District Hometown Security Team

Second District
Trooper Matt Kiser, Metro
Trooper Chris Kurish, Metro
Trooper Travis Hop, Metro
Trooper Benjamin Sonstrom, Metro
Trooper Mandy Coy, Metro
Trooper Armin Harba, Metro
Trooper David Skeans, Metro
Trooper Tim Madison, Metro

Third District
Trooper Dan Richter, Flint
Trooper John Faucette II, Flint
Trooper Thomas Pinkerton, Flint
Trooper Nicholas Medina, Flint
Trooper Jason P. Coon, Flint
Trooper Bryant Greenert, Tri-City Post

Trooper Justin Kemerer, Tri-City Post
Trooper Jason E. Raymond, West Branch
Trooper Paige Kinneberg, Caro
Trooper Daniel Stickel, District Hometown Security Team
Trooper Aaron Locke, Lapeer

Fifth District
Trooper Todd Workman, Wayland
Trooper Keegan Riley, Marshall
Trooper Cameron K. Sweet, Niles
Trooper Ernest Felkers, Wayland
Trooper Matthew Berry, Marshall
Trooper James A. Janes, Niles
Trooper Benjamin A. Mahaffie, Niles
Trooper John C. Moore, District Hometown Security Team
Trooper Lena Wileczek, Paw Paw
Trooper Blaine Bachman, Wayland

Sixth District
Trooper Chris Boven, Rockford
Trooper Jordan Lohman, Rockford
Trooper Andrew Wilson, Mt. Pleasant
Trooper Brock Benavides, Mt. Pleasant
Trooper Blake Bitner, Mt. Pleasant
Trooper Ben Stadler, Lakeview
Trooper Ryan Akers, Rockford
Trooper Ryan Maki, Lakeview
Trooper Jeff Hammond, Hart

Eighth District
Trooper Jeremy Cleary, Calumet
Trooper John Janicki, St. Ignace
Trooper William Crisp, Negaunee
Trooper Kevin Ryan, Negaunee
Trooper Thomas Nolan, Negaunee
Trooper Paul Ferraro, St. Ignace
Trooper Scott A. Ritsema, Iron Mountain
Trooper Joshua Filz, Wakefield
Trooper James Maki, Gladstone
Trooper Joseph LeBlanc, Sault Ste. Marie

The state police looked at data of each trooper's activity while at work to determine the awards, Michigan State Police Special Lt. David Kaiser said, calling them "the best of the best."

Awarded troopers attended an awards ceremony at the Michigan State Police Training Academy Thursday, Jan. 28.

"You have to lead the post," Kaiser said, calling those awarded "very steady."

Speaking about the possibility of being killed on the job, Kaiser said being a police officer is one of the only professions he knows where its ranks come to work not knowing if they will save a life, take a life or give their life.

The honesty Mapes displayed was important for his fellow troopers and the department, the state police said.

"During prohibition, public corruption was rampant and there was low public regard for police officers," the state police said. "Corporal Mapes' refusal to accept a bribe, at the cost of his own life, significantly improved our department's image."

Mapes was the seventh Michigan trooper to die in the line of duty, and was awarded a Citation of Valor for his actions and integrity.

Upper Peninsula Michigan State Police Prepare for Upcoming Winds and Snow
TV 9&10
2.1.16

With those winter warnings and watches in effect in the U.P. Tuesday, Michigan State Police remind drivers to travel safely.

They say lots of people often go too fast on stretches of I-75 that get very icy.

High winds on the Mackinac Bridge are also an issue they watch for.

Police are on standby during the bad conditions.

But they recommend everyone else stays home if at all possible.

"For unnecessary travel and everything, when the weather is bad we recommend you postpone it," St. Ignace Post Sgt. Eric Bannan said.

Live: Ex-Inkster cop to be sentenced in brutality case
Elisha Anderson
Detroit Free Press
2.2.16

It's been two months since a jury convicted ex-Inkster police officer William Melendez of two felonies in a police brutality case. Today, he'll learn his punishment.

Melendez, 47, is scheduled to return to the Detroit courtroom where on Nov. 19 he was found guilty of misconduct in office and assault with intent to do great bodily harm and could face prison time. Throughout his trial, jurors repeatedly watched a key piece of evidence: patrol car video that showed Melendez punch Floyd Dent 16 times during a traffic stop in January 2015.

Wayne County Circuit Judge Vonda Evans presided over the trial and will sentence Melendez this morning in the Frank Murphy Hall of Justice.

According to a court document obtained by the Free Press, prosecutors said Melendez's sentencing guidelines range from two years and five months to four years and nine months. It also said the court should consider an "upward departure" from them.

"The guidelines do not adequately reflect scoring for the absolute betrayal of the trust and authority placed in the defendant to protect the community and uphold the laws of this state," it said. "The defendant's actions have had a severe detrimental impact on both the police community and the community at large."

A document also has been filed by the defense, but there wasn't a copy in the public file in the courtroom Monday, court officials said. Melendez's attorney, James Thomas, declined to comment on the case ahead of sentencing.

"I am going to save my comments for the court," he told the Free Press.

After his client was convicted last year, Thomas said that he will ask Evans to depart downward from the sentencing guidelines.

"It would be unrealistic in a case like this to take for granted the fact that there is a potential for imprisonment," he said in November.

Thomas argued during the trial that Dent, who was driving without a valid license and ran a stop sign, struggled with police during his arrest and said Melendez's use of force was reasonable. But the prosecution said Melendez used excessive force during the recorded traffic stop and abused his power.

Melendez was fired from his job in Inkster after the video became public. Evans revoked Melendez's bond moments after the verdict was announced, and he was taken into custody.

He is being housed in the Wayne County Jail away from the general population, a spokeswoman for the jail said.

In the sentencing memorandum filed with the court, prosecutors said Dent suffers from post-traumatic stress disorder. The court document also alleges Melendez lied in a police report, repeatedly committed perjury, including in a search warrant, and "perhaps planted evidence in Mr. Dent's vehicle."

Dent, a longtime Ford worker, was hospitalized for injuries he received the night of his arrest. After his arrest, he was charged with resisting and obstructing and possession of cocaine, but those charges were later dismissed. Dent maintains the drug was planted and said he never resisted.

He reached a $1,377,500 settlement with Inkster last year.

Theis honors Brighton troopers
Lisa Roose-Church
Livingston Daily
2.8.16

A Michigan representative recognized three troopers assigned to the Michigan State Police Brighton Post for their individual efforts in saving private citizens' lives.

State Rep. Lana Theis presented Troopers James Gilmer, Donald Pasternak and Raymond Matthews with a plaque at a brief ceremony Monday at the post on Buno Road in Brighton Township.

"It's a unique time in policing," Theis, R-Brighton Township, said. "The defense of our first responders is huge. ... I find it amazing the frustration against our police officers by some of those in the community.

"I think the vast majority of us really appreciate what you do and understand to the extent that some civilians can't understand how much time and effort you put into this and it is your life," she told the troopers. "There is never actually a time you put it down. It's important to recognize when you go above and beyond."

Gilmer, who has been with the state police for 15 years, was recognized for saving a woman who suffered a life-threatening self-inflicted leg wound. Gilmer said although he is aware not everyone in the community trusts police offices, it is officers' goal "everyday to built that trust" and to work with the community.

Pasternak, whose childhood dream was to be an officer, echoed Gilmer's sentiment.

Theis recognized Pasternak, who has been at the Brighton Post for more than three years, for providing emergency medical care to a semi driver who was trapped in his vehicle and suffering serious injuries from a multi-vehicle crash in January 2015 in Washtenaw County.

"I think it's great the community recognizes us for positive things," he said.

Matthews agreed, but he deflected recognition from himself to the Brighton Post troopers as a whole.

Matthews, who has been a trooper for five years, helped a motorcyclist who was "in a state of delirium" and suffering from life-threatening injuries in September 2014. Matthews helped stop the man's blood flow and helped keep him conscious until paramedics arrived on scene.

"It's nice to shine the light; not on me personally, but on the post and police in general," Matthews said. "It's our job. I was only doing my job. I'm supposed to help."

Michigan State Police searching for driver of SUV in school bus hit-and-run
WXYZ TV 7
2.9.16

WXYZ) - Michigan State Police is searching for the driver of an SUV believed to be involved in a school bus hit-and-run in Chelsea.

Police say around 7:15 a.m. the driver of a red SUV crashed into a school bus on W. Old US 12 and Chisholm Trail and fled the scene.

The driver is described as a white female in her 40s with long hair. The SUV reportedly had damage to the passenger side.

No injuries have been reported.

If you have any information, please call police at 517-748-1744.

Widespread phony IRS calls plaguing area residents
Fox 17
2.8.16

WEST MICHIGAN - It's tax filing season and with it, come the scam phone calls.

Several different police agencies and FOX 17 viewers are reporting an increase in the number of calls from persons claiming to be agents with the Internal Revenue Service (IRS). They then request personal information or payments by pre-paid debit cards.

According to police, the caller tells the victim they owe money and if they don't pay up, they'll be arrested.

Kent, Kalamazoo, and Van Buren Counties as well as Michigan State Police issued releases urging people to be alert to people posing as IRS agents.

Doc Kuiper of Grandville says he was called four times on Monday alone from someone who claimed to be with the IRS.

"It sounds quite authentic, yet when you really listen to it, it's not...they're free loaders you know, that's the way I look at it," Kuiper said.

Kuiper says if you don't answer, the caller will likely give you a number and name to call back.

It even happened to FOX 17's own Digital Manager Bob Brenzing, twice.

"It sounds so authentic, call this number... once they say it's a tax thing and you're going to appear in front of a judge, it's scary," Kuiper said.

According to Becky Kietzman, the manager at America's Best Tax Service, it's convincing too. Callers use fake names, fake badge numbers, and may even know their victim's names and Social Security information.

"It's just getting worse and worse and worse," Kietzman said. "When the caller I.D. comes up, it comes up as IRS on it so you think it's legit."

According to the real IRS, it's far from the truth.

"If you get a call from us and you're not expecting one, it's probably not us," Luis Garcia from the IRS told FOX 17 News on Monday. "The IRS isn't going to threaten to arrest you or threaten to kick down your door or foreclose on your mortgage, take your driver's license away, or deport you if you do not pay your taxes."

If you have received one of these calls, you are urged to report it to the IRS at this link. You are also urged to share this information with family and friends who are susceptible to this kind of scam.

Fenton administrators get schooled in active shooter training
Dominic Adams
MLive
2.8.16

FENTON, MI – Argentine Township Detective Doug Fulton told Fenton School District administrators that a simple tip from a student to a school resource officer probably prevented a school shooting at Linden High School in November.

Fulton's investigation, with the help of the FBI, revealed that an argument over social media led to the arrest of three people and a plot to shoot up the school.

"They were looking for guns and we got ahead of it," Fulton said on Monday, Feb. 8.

Ryan William Stevens, 18, of Linden, Lamar Michael Dukes, 15, of West Bloomfield, Cody Anthony Brewer, 15, of Wolverine Lake, are in the process of getting competency exams.

Fulton said the teens are due back in Genesee Circuit Court on Wednesday, Feb. 10.

Fenton School District administrators heard from Fulton and Michigan State Police troopers about school safety training on Wednesday.

Detective/Trooper Andy Knapp described the ALICE Training System, which stands for Alert, Lockdown, Inform, Counter, Evacuate and is age-appropriate school safety training for staff and students.

"I've got kids who go to your school district," Knapp said. "I want this district to be as safe as possible."

Trainers went through scenarios with administrators on Monday that featured Fenton staffers being put through situations where a shooter fired an airsoft gun at them and there were blank rounds being fired by officers during the simulation.

"If you don't practice it – when the event really happens – people are going to die," Knapp said.

The first simulation the staff members couldn't do anything except hide in the classroom. It was dubbed the "Columbine" simulation because it mimicked the Colorado massacre.

Knapp gathered the participants afterward.

"Who called 911," he asked them. "No one. You don't think about it during the event. The first scenario there was 10 out of 10 people dead."

The Fenton School District undergoes hours and hours of school safety training, said Interim Superintendent Doug Busch.

"This is a chance for us to learn more about the different active shooter training," Busch said.

Police working to determine if two Inkster murders have a Craigslist connection
WXYZ TV 7
2.8.16

INKSTER, Mich. (WXYZ) - Police are investigating two murders in Inkster, where both victims were found shot to death inside their cars. The killings came one week apart.

Now, investigators are trying to figure out if these are Craigslist killings, and if they could be related.

James Nguyen, 53, received a call on January 31st. After eating, he ran out the door and told his family he would be right back. He never returned.

Nguyen was shot to death inside his car near Magnolia and Inkster Road in Inkster. His son tells 7 Action News he was an engineer and the father of four sons, including one with special needs.

Sunday afternoon, one week later, another man died after he was shot inside his car on Glenwood, near the same area as the first shooting.

Michigan State Police are trying to figure out if these could be Craigslist killings.

Nguyen's family say they didn't know what he was doing that day, but tell us he was into buying and selling used cell phones on the Internet.

Investigators say there are similarities, following the same trend of luring folks in for a Craigslist deal. But right now they aren't saying the two are related.

Victim's father launches new initiative in the Oakland County Child Killer case
WXYZ TV 7
2.8.16

(WXYZ) - The Oakland County Child Killer case is one of the most notorious unsolved murder cases in the country.

Next Monday marks 40 years to the day that the first victim of the Oakland County Child Killer was abducted.

This case became synonymous with a particular car: a blue AMC Gremlin. But as we approach this sad anniversary, the victims' families tell the 7 Investigators that car was never a good lead, and they have a different vehicle they want you to know about.

"It was terrible. The things those poor kids went through," said Mike Stebbins. When his little brother, Mark, vanished on February 15, 1976, Mike's life violently changed course.

"Tragic loss. Now I'm all alone," Stebbins told 7 Investigator Heather Catallo.

Mark Stebbins was just 12-years-old when – after a game of pool with his brother at the American Legion Hall in Ferndale -- he headed home to watch a movie. But Mark never made it to their house.

"I just wondered what would have happened if I would have walked home with him. Would things have been different," asked Stebbins.

Four days later, Mark's body was found in Southfield. He had been sexually assaulted and smothered. His brother and mother didn't know it at the time, but Mark was the first victim of a serial killer (or killers) now known as the Oakland County Child Killer.

Even after 40 years, police still don't know who murdered those four children.

"If somebody knows something, after 40 years – you can't speak up? What's the problem," asked Stebbins.

"Somebody held Tim in his hand and covered his mouth and nose. I can't think of anything more hideous," said Barry King.

King's son Tim was the killer's final known victim. It was after Tim's abduction from a Birmingham drug store in 1977 that a suspect picture emerged of a man supposedly seen talking to Tim, standing near a blue AMC Gremlin.

"All people seem to remember about this case is the blue Gremlin. It got so much attention. But that was always a very weak lead," said Chris King, Tim's older brother.

That's because Chris King saw that Gremlin-- still in the drug store parking lot – hours after his little brother had vanished.

"There are other cars that more credible witnesses talked about that I think should get more attention than the Gremlin," said Chris King.

The Gremlin has taken on Jimmy Hoffa-like notoriety, police even launching a dig when parts of a blue Gremlin were found buried in Grand Blanc Township back in 2013.

But the King family believes the police and the public should focus on a dark or blue colored Pontiac LeMans from the early 70's. They say police reports make reference to a LeMans for 3 of the 4 victims.

The Kings also believe more than one person was involved in these murders.

"I believe there were major pedophile rings operating in this area at that time. And it's a strong possibility that several people were involved," said Barry King.

"It's going to be an open case until it's solved," said Michigan State Police Lt. Mike Shaw.

Lt. Shaw says the Oakland County Child Killer Task Force still meets regularly and detectives chase down every lead.

"Is that good enough for the family? No. it's not. I mean, I can sit here and talk about it all day, about all the hard work we're doing, but till I can actually bring a name to somebody and say this is the person that took your loved one, I don't think I can do enough," said Lt. Shaw.

It isn't enough for Barry King, who's been fighting to have the case records made public.

"I just made a private decision that if the court system wasn't going to help me, I'd use you people," Barry King told Catallo.

That's why the 84-year-old is now launching a social media campaign and his own website titled: "A Father's Story." He plans to blog about key facts in the case that the King's feel deserve more attention. He will also be tweeting.

"Dad just feels if we can get the word out about some of these key facts, someone might come forward and help solve the case. And to make sure this doesn't happen again," said Chris King.

The Task Force is going back over many of the original tips that came in during the early days of this investigation. Many people were cleared quickly if they had an alibi for one of the abductions, but if you look at this case -- not as if one suspect was behind this – but many people were involved – that throws those alibis out the window.

If you have any information about the Oakland County Child Killings, please call 1-800-MICH-TIP. If you would like to reach Heather Catallo, please email her: hcatallo@wxyz.com or call 248-827-4473.

Michigan State Police Warn Young Men of New Social Media Scam
TV 9&10
1.26.16

Here's how it works.

Troopers say someone claiming to be a woman reaches out to victims and establishes an online relationship.

The scammer then sends sexually explicit pictures and videos and asks for them in return.

The girl gets offended and her so-called "dad" becomes involved because she says she is "underage".

The father then claims to be a police offer and demands money or he'll go to a judge.

Troopers want to make it clear that this is extortion and you should never send intimate photos online.

If you think you are being scammed do not send money and contact police.

"Our advice is that; one, you never send out a picture or a video that puts you in a precarious situation of a personal nature. We also suggest that you never send money especially if it's an extorted kind of relationship, where you did this now you need to send me money." Says Grant Guzikowski of Michigan State Police

Troopers say this scam is primarily happening in the Houghton Lake area.

Body exhumed in hopes of giving 1996 victim a name
Christine Ferretti
The Detroit News
1.26.15

Highland Park — After two decades in an unmarked grave, Michigan State Police have exhumed the body of a young murder victim to extract DNA in hopes of cracking the case and giving her a name.

The woman was found fatally wounded at first light on May 20, 1996, in an alley on Cortland near the Lodge Freeway in Highland Park.

Neighbors at the time told police they'd heard a gunshot in the early morning hours prior. The woman, believed to be between the ages of 15 and 25, had suffered a gunshot wound to the throat.

Highland Park Police sought tips and reached out to the media repeatedly, but no eyewitnesses came forward, nor did potential relatives.

With no leads, the girl was ultimately laid to rest in an unmarked grave the following April as the state's "unidentified female No. 17" for 1996, says Michigan Police Detective Sgt. Sarah Krebs.

But Krebs said the National Center for Missing and Exploited Children in 2015 provided funding to have the girl exhumed from a Canton Township cemetery to obtain DNA. Her body was unearthed in October. It's now being stored with the Wayne County Medical Examiner's Office.

The DNA sampling is being processed, Krebs said, adding she's hopeful that a fresh look at the long unsolved case will generate tips.

"There has been quite a bit of activity on this case, but still no leads. Right now, we have no idea who she is," Krebs said. "She was a young girl, which makes you think somebody realized she was missing, too."

Highland Park Police Detective Kelly Dupuis has been working the case for two years along with state and federal authorities. It's an investigation she says has been "completely cold" despite the woman's clear description, unique clothing and watch.

"We haven't gotten anywhere with it," Dupuis said.

The Jane Doe was dressed in a white skirt and a T-shirt covered with yellow smiley faces and red lip prints, her naturally curly reddish-brown hair pulled into a ponytail.

She wore size eight-and-a-half black tennis shoes with white trim, and a gold-tone watch shaped like a teddy bear with a brown leather wrist strap. She had long, purple-painted fingernails and pink polish on her toes.

The girl had freckles and brown eyes, was 5-foot-3 and weighed about 190 pounds. Although the autopsy report described her as an African-American female, police say she appeared to be bi-racial or even caucasian.

Dupuis says the body was found close to the Lodge Freeway, which leads authorities to believe the woman may have been traveling along the freeway with her killer.

"I want someone to come forward if they recognize her. That's No. 1," she said. "Even if they don't know who she is, if they know something about the homicide."

The Jane Doe marks the fifth exhumation of a possible juvenile that the state has conducted since 2010 with funding from the national center.

The case could be viewed by the public for the first time in November 2013, when it was entered into the National Missing and Unidentified Persons System — or NamUs, Krebs said.

Michigan State Police have identified 45 people since they began using the database as cases have been resolved by DNA evidence, fingerprints or dental records connected to missing persons.

Michigan has 301 unidentified persons cases. About 30 of those are juveniles, Krebs said.

In two recent cases, the Michigan State Police Missing Persons Coordination Unit identified remains leading to convictions in the deaths of French artist Bilal Berreni and Detroit grandmother Evelyn Gunter.

The State Police unit includes Krebs, who is the coordinator of the missing persons side, while her colleague, Jane Wankmiller, is an analyst with human remains, dealing with unidentified cases.

Prior to forming the unit, Michigan officials were not submitting DNA evidence or actively putting cases into a database to try to connect the state's missing persons with unidentified remains, Krebs said.

Officials say there's a chance that the unknown woman's DNA could find a hit if a family reference sample is logged in the system.

In 2011, State Police and other Michigan law enforcement agencies joined forces to solicit family members and friends of Michigan's missing to gather for a free data-collection event and vigil.

The annual program, Missing in Michigan, was spearheaded by Krebs and is the first of its kind in the state — possibly the country — that commemorates missing loved ones and allows authorities and relatives to log new tips, collect DNA and update and create missing person profiles in NamUs. This year's event will take place May 14 at the Detroit Public Safety Headquarters.

"There are hundreds and hundreds of family reference DNA samples now due to the event," said Krebs.

Anyone with questions or information on the Highland Park Jane Doe case can submit them to msp-missingpersons@michigan.gov or, contact Detective Dupuis at (313) 600-9205.

Blue Alerts start Monday, warn public about suspects in police violence
WWMT TV 3
1.27.16

KALAMAZOO, Mich. (NEWSCHANNEL 3) -- You've heard of Amber Alerts and Silver Alerts, but what about Blue Alerts?

Next week the state of Michigan is launching a new alert system that will be used when there's violence against law enforcement.

If a police officer is killed or seriously injured while on the job, an alert will be sent out all over the state, including your smartphone.

This is so the public can look out for a dangerous suspect, and maybe even help to track them down.

"Certainly if anyone is willing to kill an officer, it makes that person much more dangerous in the public," said State Senator Tonya Schuitmaker, a republican from Lawton.

Senator Schuitmaker sponsored the Blue Alert legislation which is now law.

"We were able to just institute the Blue Alert in with the Silver Alert and the Amber Alert, so there was really no cost to the taxpayer," Schuitmaker said.

Here's how it works.

If an officer is killed or seriously injured on the job, Michigan State Police will be notified.

"There is an information center in Lansing that would collect this, and then distribute it out as fast as possible," said Kalamazoo County Sheriff Richard Fuller.

The alert will be blasted out to media outlets and cellphones.

The message will contain where the incident happened, a description of the suspect or suspects, and what kind of vehicle they could be in.

"Once that attack has happened, they become a different person and they know someone is going to come looking for them. That's where I want to make sure that all of our citizens understand that we need your help to locate as soon as possible so we can end the situation peacefully before anyone is hurt," Sheriff Fuller said.

When proposing the system, lawmakers took into account how a Blue Alert could have helped in recent police shootings in Michigan.

"So certainly seconds count and having more eyes and ears on the ground to capture that dangerous suspect is very important," Schuitmaker said.

Michigan is now the 25th state to adopt a Blue Alert system.

It starts up Monday, February 1.

Flint police investigate second homicide in less than 24 hours
MLive
Robert Acosta
1.26.16

FLINT, MI -- Police are investigating the city's second homicide in less than 24 hours.

Officers were called to a building in the 3200 block of North Saginaw shortly after 5 p.m. Tuesday, Jan. 26 for a shooting.

Police said one adult male is dead and one suspect has been taken into custody for questioning.

Flint police responded to the scene at the intersection of Saginaw and Jamieson streets, as well as Genesee County Sheriff's deputies and Michigan State Police.

Jamieson Street is closed at Saginaw Street. The homicide is the second one in less than 24 hours and second of the year in Flint.

Police responded around 8 a.m. Tuesday morning to the 1000 block of East Boulevard Drive where they found a man that had been shot to death outside a vacant home at the intersection with Demarr Street.

Anyone with information on either homicide is asked to contact the Flint Police Department at 810-237-6800.

To remain anonymous, contact Crime Stoppers by calling 1-800-SPEAK-UP, texting CSM and your tip to CRIMES (274637) or by going online to 1800speakup.org.

Drunken man invades home of Milford cop
Laura Colvin
Hometown Life (via Detroit Free Press)
1.27.15

A Milford police officer who fell asleep on the couch while watching a movie with his wife Friday woke to find an intruder in his home in the Village of Milford.

Alexander Jay Odden, 30, who lives in an apartment on the same street, was arraigned Saturday in 52-1 District Court on charges of first degree home invasion and assault and battery.

According to Milford Police Chief Tom Lindberg, the officer's wife woke at about 12:30 p.m. and screamed when she saw a man inside her home, alerting her husband, who chased the intruder as he ran out the back door and attempted to flee, a police report stated.

The officer reportedly identified himself as a law enforcement agent and ordered the man to stop. When the man did not stop, the officer grabbed the intruder by his coat and took him to the ground as the man threw punches in an attempt to escape.

The officer, who sustained minor injuries to his right arm during the scuffle, held the man on the ground while his wife called 911. On-duty Milford police officers arrived and arrested the man.

The intruder reportedly took the officer's coat, which had been in the kitchen, but threw it on the deck in the rear of the house when he was trying to escape. Police also discovered the center console of the officer's car had been rummaged through, but nothing was missing.

The suspect, who reportedly blew a preliminary breath test of 0.14% and had a bottle of whiskey in his coat pocket, told police he was "drunk and thought he was going into a friend's house."

Lindberg said evidence indicated otherwise.

"This incident didn't have anything to do with the homeowner being a police officer," Lindberg said. "It was a random circumstance; this guy was going around the neighborhood checking for open doors. The homeowners fell asleep watching TV; had they gotten up to retire for the evening, they most certainly would have locked the doors before going to bed.

"While Milford is statistically a very safe community," he continued, "random things can happen anywhere. Make sure to lock the doors of your home and your car."

Odden was arraigned Saturday before Magistrate Joanne Faycurry at 52-1 District court, given a $15,000 bond and released on 10 percent cash surety.

According to Lindberg, Odden has prior convictions for narcotics, retail fraud and larceny in a building. None of his prior offenses occurred in Milford, but Lindberg said officers are "very familiar" with the man.

"I'm extremely disappointed in the bond that was set by the magistrate," Lindberg said. "Not so much the $15,000, but the fact that he was released on 10%.

State of Michigan Liaisons,

The State of Michigan has just re-located their Emergency Operations Center to their new address:

7150 Harris Drive
Dimondale, MI 48821

This is about 8 miles southeast of their previous location.

I would like to do a walkthrough of the new facility on Tuesday, March 22nd at 10.00 am. Will this work with everyone's schedule? It should take about an hour.

Please program the new address in your phones so you always have it with you. We are in the process of updating our procedures to reflect the new location and phone numbers.

Thanks,
Matt Bowen

From: Zarotney, Greg (MSP)
Sent: Thursday, February 11, 2016 5:01 PM
Subject: URGENT - Records Request

Importance: High

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years.** Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Water Response Team: Concept of Operations and Support V2.0_011816

Mission: Distribute filters and additional resources to all households within the impacted area

Concept of Operations and Support

1. Planning & Prioritization
    a. Plan Components
        i. Team Type: Mission, Resources (example: Vehicles, Team Members, Product)
        ii. Priority: Priority locations for distribution within the impact area
            1. Priority locations are determined based on 3 projections: lead concentration, locations of vulnerable populations, and previous distribution locations
    b. Accountable: SEOC Recovery Branch Director
    c. Approval: State EM Director
2. Resource Support
    a. Resource Components
        i. Vehicles
        ii. Product
        iii. Personnel
        iv. Team Support (example: lunch, rain ponchos)
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
    a. Water Resource Team Daily Distribution
    b. Accountable: Office Genesee County Sheriff (OGCS)/Michigan State Police (MSP)
    c. Responsible: Water Response Team Officer In Charge (OIC), American Red Cross (ARC) OIC
4. Execution Support
    a. Team Replenishment
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Warehouse
5. Reporting
    a. Distribution Reporting
    b. Accountable: Water Response Team OIC
    c. Responsible: All Water Response Teams

The below quantities are planning factors and will be continually refined based on data from WRT feedback

OGCS/MSP WRT Volunteer Assembly Information V2.0_011816

1. Volunteer check in at 8:30am at 1101 Beach Street, Flint, MI 48502 (Genesee County Administration Building).
2. Volunteers are able to park at the overflow lot of First Trinity Missionary Baptist Church located at 1226 Beach Street Flint, MI 48502. This lot is located directly to the east of the church. The parking structure to the east of 1101 Beach Street can also be used for parking. Parking tickets will be validated. Access to the parking structure can be gained on Eighth Street just east of Beach Street. Access to the building can be gained from the southeast and southwest doors on each side of the building. Upon entering the building proceed to the basement for sign in.
3. Assignments and briefing will follow between 8:30am and 9:15am. Efforts will be made to keep groups together if requested. Volunteers should inform their team leaders of any medical, security or other needs.
4. Teams will deploy to assigned areas. Volunteers should be able to walk long distances with difficult terrain. Transportation will be provided to and from the assignment location.
5. Teams will return to 1101 Beach Street for lunch from 12:30pm-1:00pm. Lunch will be provided.
6. Teams will redeploy to the field with afternoon assignments.
7. Shifts will end between 4:30pm and 5:00pm with a return to 1101 Beach Street. All items assigned to volunteers must be returned to their team leader at the end of the day. This includes high visibility vest, tablets/IPADS, stylus, lanyards, carrying bags and paperwork.
8. Appropriate clothing should be worn for the projected weather of the day. Boots, hats and gloves are strongly encouraged.

Distribution Kit	1200	1200		1/17/16	2000

Execution:

Key Locations

Team	**Assembly Area**	**Hours of Operation**
OGCS/MSP	LEOC Genesee County Administration Building 1101 Beach St, Flint	0830-1600
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600

Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

OGCS/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in
3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to OGCS_MSP WRT Volunteer Assembly Information V2.0_011816 for detailed information on volunteer processing at LEOC)
5. Provide training to new team members
6. Issue vest and badge to team members
7. Execute morning distribution assignment
8. Lunch served between 1230-1330
9. WRT OIC and Team Leaders midday brief
10. Execute afternoon distribution assignment
11. Conduct post-deployment debrief with team leaders and members
12. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	100 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

OGCS/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize ipads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if ipads fail.

iPads	10-20			1/16/16	2010
Distribution Kit	1000			1/16/16	2010

Execution:

Key Locations

Team	Assembly Area	Hours of Operation
GCSO/MSP	LEOC Genesee County Administration Building 1101 Beach St, Flint	0830-1600
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

GCSO/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in
3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to GCSO_MSP_Volunteer Assembly Information_V1.0_011716 for detailed *information on volunteer processing* at LEOC)
5. Provide training to new team members
6. Issue vest and badge to team members
7. Execute morning distribution assignment
8. Lunch served between 1230-1330
9. WRT OIC and Team Leaders midday brief
10. Execute afternoon distribution assignment

11. Conduct post-deployment debrief with team leaders and members
7. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	100 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

GCSO/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize ipads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if ipads fail. Refer to WRT Distribution Tracking Tool_V1.0_011716

Priority Distribution Areas

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ had concern about testing kits not being with the teams today; test kits were assembled and available at the ARC HQ. This appears to be a disconnect in communications and will be addressed by Logistics.
- SEOC planning is asking if the 800 MHz radio has the event channel that they could communicate with local EOC on ground truth inventory.
- Information reported to the JIC:
  - As of 1/16/16 as of 7pm (start date was Tuesday, 1/12/16)

    1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

    2. Distributed:
       a. Number of cases of water 20,876
       b. Filters 47,935
       c. Filter cartridges 167,401
       d. Test kits 3,322

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.
- Discovered disconnect in "request" for security at the warehouse overnight. Tonight it is being handled with Genesee County doing drive-bys throughout the night. Continuous security is required 7 PM to 7 AM from this point on. This will be resolved by virtue of a formal request being put in by the Local EOC.

Subject: JIC sit rep

My apologies for the delay- we've been slammed today.

- Held a media availability at Fire Station #5 where Major General Vadnais announced Michigan National Guard efforts will be doubled to approximately 70 personnel by Monday to assist at water resource sites.

- Governor's Office issued a new release announcing the Presidential emergency declaration approval.
- Answered media calls about the state's resource distribution and activity efforts to date.
- Updated daily talking points to include the state's activity efforts to date and the Presidential emergency declaration.
- Coordinating with FEMA External Affairs to plan a Congressional call on January 17, in additional to a legislative call regarding the Presidential emergency declaration. Preparing talking points for the Congressional and legislative conference calls.
- Issued a news release with today's activity for the water resource sites and water distribution teams, as well as the increase in National Guard personnel.
- Issued a news release from the American Red Cross and United Way regarding the volunteer resource center and how individuals can volunteer to help.

A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY

From: Sparks, Keith (MSP)
Sent: Saturday, January 16, 2016 12:27 PM
To: Pummill, Paul (MSP)
Subject: site assessment of 4315 Clio Rd.

Lt. Pummill,

A site assessment was conducted at the warehouse site located at 4315 Clio Road location due to the fact that the American Red Cross is utilizing that site to park their delivery vehicles, loaded with assets, overnight.

The facility itself is located on the west side of Clio Road, north of Pierson Road and is situated in a mostly industrial area. There is a chain link fence, approximately 7 to 8 feet high surrounding the expansive area surrounding the actual warehouse. Within the fenced area are several semi-tractor trailers neatly parked in columns and rows. There is a lockable gate at the entrance/exit to this area, and although the fence appears to be aged it looks to be mainly intact with possible areas where a person could pass through – but no holes large enough for anything larger than a person.

There are light poles within the parking area at this facility, however, the assessment was made during the daytime and a visual answer to whether the lights work or not was not obtained.

I spoke with a Mr. John Fouts, who indicated that he works for the American Red Cross and he advised me that when/if he ever needs armed security at any of the storage facilities - he usually utilizes a private security company, such as Pinkerton. Mr. Fouts advised that the outdoor lights were not working last night, however he has people working on those lights today and expects to know whether they work or not by 5:00pm tonight. Mr. Fouts also assured me that the Red Cross vehicles that were parked at this facility last night were locked and that the back doors to those trucks have a key lock mechanism and the doors do not support a padlock.

My assessment of the facility is that it is adequate to secure the Red Cross vehicles as long as the vehicles are locked up and the gate is closed and locked. It will also be beneficial for the security of the vehicles when the outdoor lights are brought back into working order.

Respectfully,

Keith
Sergeant Keith Sparks

From: JICManager
Sent: Friday, January 15, 2016 12:33 PM
To: MSP-SEOCPIO
Subject: Need numbers
Importance: High

Please provide and verify the following:

To date since January 9, the following resources have been distributed to residents, both at the water resource sites and by the water response teams going door to door to residences:

- ### cases of water
- ### filters
- ### replacement filter cartridges
- ### water testing kits

*Does Kelenske want us to breakdown resources distributed by the teams vs. the number of resources distributed at the water resource sites? Or, is a total number okay for bullets above.

-How many cases of water has the state purchased? We were given the dollar amount, but we're not using that number. Also, has the state purchased other resources, not just water? Will need that too (not cost).

-Also, please verify the teams have visited more than 3,400 homes and the goal is 29,00 homes.

-The Clio warehouse is being setup and will be operational by Saturday. Does this replace the GCARD warehouse?

Thanks Rachel! That is wonderful. You can deliver to:

4315 N. Clio Road, Flint

The POC at the warehouse is John Fouts, he is our American Red Cross warehouse manager. His number is 517-420-4326.

We very much appreciate your generosity. Thank you and I look forward to talking to you tomorrow.

Hi Wendy,
Our Perrysburg (Ohio) Distribution Center will deliver 20 pallets of water tomorrow.
Store 6830 at 502 S BALLENGER HWY will have the purchase order.
Is there a contact number for the warehouse in case our driver needs it?

Please do not hesitate to contact me if there is anything else I can do to help.

All,

For your awareness, I attached the last count from the Fire Station PODs from 01/14/2016.
I marked low supplies that have been identified as critical (water, testkits, faucet filters) in red to indicate what should be stocked as early as possible in the morning.

Sent: Wednesday, January 13, 2016 3:11 PM
To: plangc
Subject: GIS Update

In accordance with Objective 7's tactics:

Tactic A: Updated PODS and Elderly locations in ArcGIS Online. Made large wall map for Local EOC of PODS. Also made a franchise water customer map for MDHS. Additionally, work continued mapping lead service line locations. At this point we are 20% complete with the city (NW Corner).

Tactic B: Upgraded ArcGIS Online Collector App to field teams and tracked resources and site visits and procured 30 additional tablets for tomorrows field teams. We will be formatting them at the SEOC and sending them to the local EOC where Flint GIS will conduct training with field staff. Also, updating EOC dashboards to track more detailed metrics and track team locations. Also, implementing a POD tracker for tomorrow that can be used to monitor distributions in real time.

Tactic C: Complete.

Tactic D: Current focus is optimizing the dashboards to include triggers that notify staff when inventory limits are exceeded to better manage the ordering process for new supplies. The first phase is pushing out an app to POD staff controlling distributions to track their output in real time. The second phase is implementing an inventory management tool that can be compared against the POD distribution data.

Tactic E: No Update

Attachments: Flint Request draft MAS 2016.doc

The following revised draft is significantly expanded (but also is now missing most of the extra pages tacked on the end that had been inherited from the 2014 example document).

Hope you find this useful...

Thanks,

Subject: RE: Flint

My initial draft had some errors on the subject of bankruptcy. As a mere draft, I was putting down ideas from memory, but got confused between Detroit bankruptcy and EM, and Flint EM. The following is corrected draft text on that subject, which will be in the revised document I'll send you before I leave tonight:

"As Flint was completing its mid-20th Century boom, its population grew substantially, except during the depression decade of the 1930s. During this time, the county as a whole was also expanding, at a somewhat faster rate than the city, so the proportion of the county's population found in the central city did decline during that period. However the city's shrinking proportion within its metropolitan area did not pose much of a problem as long as both the city and the overall area were growing. By contrast, the extent of central city population loss seen after 1970 was very serious, straining the city's budget to the point where an emergency manager was assigned by the governor (in 2011), providing greater authority to sort through the many challenges and shortfalls which had accumulated. Shrinking city revenues, budgets, and services seemed over time to lead to conditions and situations which directly affected the health of its residents—alarming rises in homicide rates, deterioration of the city's housing stock, an accumulation of brownfield sites, episodes of widespread arson, and the current public health emergency involving the city's water supply."

Subject: Update from ArcGIS Online for Field Teams

Hello Sir,

Today the app implementation went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes. All told there were 394 total home visits with the following breakdowns:

152 Vacant Homes
217 Door Hangers
117 Water Distributions
112 Filters
3 Pitchers
48 Water Test Kits

That said, we should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.

We are working to create a "version 2.0" of the app to allow it to be used in the PODS as well. That way all distributions can be visualized in near-real-time. The discussed implementation for the PODS component is Thursday. Right now ESRI (mapping vendor) agreed to have 100 users in the system (up from 20). They appear very supportive to provide any technical assistance we may need to push this initiative along.

Subject: FW: City of Flint Demographics Data.xlsx
Attachments: *City of Flint Demographics Data.xlsx*

By the way, if anyone wonders, the demographic data collected by me and Zach were 5-year 2014 estimates, and those (attached) match up with a slightly different 2014 population estimate for the city than the latest 1-year estimate. The average for the last 5 years is slightly higher (above 100,000), but the most recent year's population value is 98,990. At least one person mentioned the city being below 100,000 in the SEOC, and this is correct for the latest (1-year) estimate, but the slightly higher 5-year average would be the figure that matches up with the data for unemployment, poverty, etc. (attached table).

My draft had made use of data from Wikipedia. I finally got to double-check it with all but the 1990 census (which wouldn't load online), and had to correct two errors. If you're using this table, please replace the earlier draft with this new data:

	1930	1940	1950	1960	1970	1980	1990	2000	2010
Flint	156,492	151,543	163,143	196,940	193,317	159,611	140,761	124,943	102,434
Genesee	211,641	227,944	270,963	374,313	444,341	450,449	430,459	436,141	425,790
ratio	73.9%	66.5%	60.2%	52.6%	43.5%	35.4%	32.7%	28.6%	24.1%

Thanks,
Mike

Ok. Additional census variables include other relevant things such as housing units with plumbing, (foreign) language spoken at home, foreign-born population, perhaps even linguistically isolated households. Such things do vary a bit over time but are often available – of course they are summary level, but allow focus toward specific neighborhoods, and could help guide the language translation patterns in the area (if they haven't already done so), availability of an automobile to each household, poverty status, employment status, ethnic minority status, disability status and general type (i.e. mobility limitation, self-care limitation), etc.

There is probably also a formula (e.g. a certain number or proportion of housing units built before a certain time, within central city utility areas) that could be applied more widespread to other Michigan cities in general.

Mike, that could be useful. If GIS isn't too backed up, that sounds fine to me. But given that the Governor wants this tonight, and the number of customers outside the city proper is fairly small, I'd say let's do it if it's easy, but if it's going to be a challenge to get it by the end of the day or complicate GIS's work today, we can live with just city and county numbers.

I'll let you two have a meeting of the minds and advise!

To: Weber, Thomas (MSP)
Subject: *RE: Flint*

By the way, despite our early impression that the Flint system roughly matched the city limits, there was talk about additional townships being involved.
Rather than individual retrieve each tidbit of info (Genesee county right now, perhaps later followed by Flint Twp, Mundy Twp, etc.), the use of GIS could allow a quick summary or analysis of this info (and more) at any scale – region, county, city, census tract, perhaps even block group and block (down to the scale where confidentiality is no longer guaranteed and data thus becomes unavailable).

Would it be worth my going to our GIS about getting these variables on more local scales? The only catch is that some might need to come from census 2010 rather than ACS 2014, but perhaps not – I wouldn't know until I check. I'm pretty sure they already have ready access to all official 2010 census variables.

Today we:

- Updated distribution sites map
- Submitted a request for assistance to ESRI (GIS vendor) to supplement our technology and provide professional services in support of the incident
- Updated Flint DDACTS (crime analysis) hotspots
- Coordinated getting additional staff due to operational hour increase from DTMB (Currently only one additional expected, will request more tomorrow)
- Setup ArcGIS in conjunction with Flint GIS staff
- Configured mobile app for field data collection during MSP neighborhood visits
- Updated filters database and generated maps
- Began mapping lead service lines (anticipated to have rough idea of lead service lines by Friday)
- Coordinated with local IT managers overseeing Filter tracking system to streamline data collection

Importance: High

Good afternoon,

If you are receiving this email, it is because you have been assigned to work in the SEOC this week for the Flint Water Emergency. Attached is the staff assignment list. Please find your name and report to your assignment at 8 a.m. tomorrow (1/11) morning. The hours are 8 a.m. to 5 p.m. Lunch will be provided.

My cell number is

Thank you,

Wendy

Subject: Activities for 1-11-16

Activities from today:

It has been constant battle to keep up with the water demand at the 5 Flint Fire Stations. We have been distributing and re-distributing it as fast as we can.

WATER:

- As of today, an ongoing purchase of bottled water that been established through Gordon's Food Service to delivery **1,593 cases of water per day**. The first delivery will occur tomorrow.

- Contact has been made by Mr. Katarsky with **Indiana Emergency Management** to inquire about a stockpile of water that they find with continuous expiration dates. They will be providing the appropriate contact to determine availability and cost. This would potentially be an EMAC request if determined to be a feasible option.

- **DEQ has 30,000 gallon water truck** in the area that can dispense water into gallon jugs. Investigation is in action. All information regarding this option is forthcoming. As this specific agency is not "trusted", this may not prove to be a viable action.

- We have assigned a single person to identify a **continuous supply of water**. The immediate need is an issue; the need will continue to be an issue. As we ensure today's needs are met, the goal will be to have adequate supplies to come in on a DAILY basis and ensure supply is not depleted. This may be donations or purchased water.

- **DMVA** is in the SEOC researching the option of utilizing **water buffalos** for dispensing water in the Flint area. They are 400 gallon water buffalos. They could rotate 4 in and 4 resupplying each day. Cost would be **$9,600 for a 10 day period**. LTC (?) Chad Randall will be present Tuesday morning to further discuss. Additionally, we would need to purchase gallon jugs for water distribution.

- **MIWARN** has been contacted. MiWARN is a statewide Water/Wastewater Agency Response Network (WARN) of "members helping members" to prepare for the next natural or human-caused emergency. MIWARN provides utilities and public works agencies with a Mutual Aid Agreement for sharing resources in an emergency to a pre-determined and agreed manner. They are researching options and will advise as quickly as possible.

- **Nestle** is sending 2 semi's Wednesday instead of Friday. It will consist of 2.5 gallon containers, 1 gallon and 12 oz bottles.

- **Home Depot**, they can get water by the truckload and on an ongoing basis. 1,596 cases (38,304 bottles) per truck at $3.47 per case ($5,538.12 per truck). The first truck will arrive tomorrow. We can continue as requested

- MDARD is contacting potential trucking assets (such as milk haulers) to determine if quantities of water can be trucked in for distribution and how that might/might now be a resource for dispensable water. This does not appear to be a viable option

- Jason is in contact with the **FEMA water supply** to investigate a cost and ETA for receipt.

FILTERS:

- A delivery of filters/replacement cartridges have been confirmed for receipt on Tuesday, Jan 12. 2,000 filters, 8000 (2 pk) filter replacements and 2,400 single pack filter replacements will arrive. A request for delivery time was 8:00 a.m.. This has not yet been confirmed.

- An addition 28,000 filters have been ordered but have not yet received a confirmed ETA.

- We are putting in a request to American Red Cross for a warehouse management team. This would include trained warehouse manager, 2 warehouse personnel and a staff member to track commodities and ensure adequate supply levels are maintained.

- By noon tomorrow, all cards with addresses provided by those receiving filters will be updated into the system, including the backlog from December.

ISSUES:

- Safety concern was raised specifically about volunteers located at Fire Station 6. This concern has been addressed. Concerns only exist if fire fighters are called out, leaving volunteers on their own. At this time, should the station be called out to respond, Genesee County Sheriff will send a car to provide security at Station 6 until crew returns.

- Palm cards were printed and transported to Flint. We have since learned they were not signed off by the appropriate department; they have been edited, resent to DTMB for print, and will

Jeanette has provided the following availability of filters through 4 providers: - No action has been taken to date

PUR

Hi folks,

Might there be a role for some of our HOPE teams in Flint? Perhaps a distribution center where there is some need for stress relief. An EOC? Fire station where people are going?

Let me know your thoughts.

Best,

Nick

FOR IMMEDIATE RELEASE
Monday, January 11, 2016

Gov. Rick Snyder: Flint Water Interagency Coordinating Committee will support long-term needs in Flint

Committee to address health, other issues into the future

LANSING, Mich. - Gov. Rick Snyder today signed an executive order creating the Flint Water Interagency Coordinating Committee, which will bring together a wide range of experts to work on long-term solutions to the Flint water situation and ongoing public health concerns affecting residents.

"We need to focus on improving Flint for the longer term," Snyder said. "This committee, made up of experts from government and the Flint community, will set a course of action to remedy the water situation and resulting health issues, and carry on long after the emergency declaration expires."

The Governor declared an emergency on Jan. 5 to put in place distribution of water, water filters and water tests for residents. The declaration launched the State Emergency Operations Center, made up of state emergency response personnel and non-governmental organizations such as the Red Cross.

The emergency declaration has led to a response from multiple state agencies, and is focused on assistance for immediate needs, such as filter and water distribution. Information can be found on Michigan.gov/flintwater, where individuals can also subscribe to email updates.

FWIACC's membership will include experts from the state, Genesee County, the city of Flint and subject matter experts. The group will analyze any long-term effects of high lead levels in Flint residents and recommend action.

In addition, an independent Flint Water Task Force is continuing a full review of all local, state and federal actions that led to the current situation in Flint.

The Coordinating Committee will be composed of the following 17 members, who shall serve an initial term expiring on Dec. 31, 2018:

- The director of Office of Urban Initiatives within the Executive Office of the Governor;
- The deputy state director of Emergency Management and Homeland Security within the Michigan Department of State Police;
- The director of the Department of Environmental Quality, or his or her designee;
- The director of the Department of Health and Human Services, or his or her designee;
- The director of the Department or Licensing and Regulatory Affairs, or his or her designee;
- The state treasurer, or his or her designee;
- The superintendent of public instruction, or his or her designee;
- The elected mayor of the City of Flint, who shall be appointed to the Coordinating

Committee by the Governor;
- Three additional representatives of the City of Flint who shall be submitted by the Flint mayor and appointed to the Coordinating Committee by the Governor;
- Three representatives of Genesee County who shall be submitted by the Genesee County Board of Commissioners and appointed to the coordinating Committee by the Governor;
- Three subject matter experts who shall be appointed to the Coordinating Committee by the Governor.

After the initial appointments, members of the FWIACC will serve three-year terms. The council will be asked to create an incident action plan, review recommendations made by the independent Flint Water Task Force, establish routine protocols for communications at the local, executive and legislative levels, make recommendations regarding the health impacts of the affected population, and assess the status of infrastructure and determine feasible actions for upgrading Flint's water system.

A full list of responsibilities of the council can be found in the Executive Order.

- EO 2016-1.pdf

Subject: Water

Captain,

We have initiated the following activities to alleviate the demand for water as quickly as possible.

We are putting in a request to American Red Cross for a warehouse management team. This would include trained warehouse personnel to handle and track supplies.

DEQ has 30,000 gallon water truck in the area that can dispense water into gallon jugs. Investigation is in action. All information regarding this option is forthcoming.

We have assigned a single person to identify a continuous supply of water. The immediate need is an issue, but the continued need is a bigger issue. As we ensure immediate needs are met, the goal will be to have adequate supplies to come in on a DAILY basis to ensure supply is not depleted. This may be donations or purchased water.

DMVA is in the SEOC researching the option of utilizing water buffalos for dispensing water in the Flint area. They are 400 gallon water buffalos. They could rotate 4 in and 4 resupplying each day. Cost is being determined.

MDARD is contacting potential trucking assets (such as milk haulers) to determine if quantities of water can be trucked in for distribution and how that might/might now be a resource for dispensable water.

MIWARN has been contacted. MiWARN is a statewide Water/Wastewater Agency Response Network (WARN) of "members helping members" to prepare for the next natural or human-caused emergency MIWARN provides utilities and public works agencies with a Mutual Aid Agreement for sharing resources in an emergency to a pre-determined and agreed manner. They are researching options and will advise as quickly as possible.

A lot of activity is ongoing, just wanted to get these points to you asap!

Subject: Re: Water Filter Donations? Need connections

I have sent a response to Alessandra R. Carreon and offered the options that she could choose to be involved.

I do not have the emails of the others that were copied by Jamie and so BJ, if you could respond and let them all know that a follow up response has been sent.

I looked up the group - it is a group of young professionals in Detroit that is tied to a national network. It will be interesting to see what develops from it.

We will have the volunteer management and donations management plans ready for your review tomorrow and so communication can be sent out to inform people of how they can get involved.

MCSC will have a staff member at the EOC tomorrow and a staff member at Red Cross to help set up the VRC for Wednesday.

BJ,

This is great! We need water for sure and volunteers as well! I'm sure we could use money, transportation to restock the distribution sites, volunteers to work the sites and to enter data into the spreadsheets, inventory, the list goes on! Lots of things we need.

Please create a task assignment for this. Definitely something Ginna and her team should look into. Thanks for sharing this BJ. Keep me posted.

Are water filters still needed in the city? If so, can we help fundraise or purchase more filters for direct donation?

I have already found the United Way Flint Water Fund link. We can easily share this link and/or deliver filters directly. Please advise as to what would be most helpful response and how many more filters/how much more funding is needed.

We plan on doing a bulk water donation delivery by caravan to Mission of Hope next Saturday, Jan. 16, and can help procure water filters too by that time.

Furthermore, a number of us work for different large companies in the area and would like to understand how we can engage our employers to support your water response efforts, if needed.

I look forward to hearing from you soon!

Background on our group of volunteers
I am the curator (leader) of the Detroit Hub of Global Shapers (globalshapers.org), a community of the World Economic Forum. The Forum describes this community as "a network of Hubs developed and led by young people who are exceptional in their potential, their achievement and their drive to make a contribution to their communities. Shapers are highly motivated individuals who have a great potential for future leadership roles in society... Shapers are united by a common desire to channel the members' tremendous energy and enthusiasm into building a more peaceful and inclusive world."

Our volunteers primarily represent Global Shapers, though hail from organizations and neighborhoods across the city, such as my colleague and friend, Stephanie Kenner (copied here), who is helping me conduct research on water filters for Flint.

- Worked on figuring out a long-term storage option. Because GCCard is large enough, centrally located and comes staffed, we are going to use this for a while until a logical long-term storage option can be found. GCCard has 75,000 sq ft and has warehouse managers to assist with tracking resources coming in and out.
- Requested an inventory of what has been distributed so far. Determined that the local health department wouldn't staff anyone during the weekend, so the only numbers we could obtain have not been updated since 1/8/16.
- Assigned someone at the local EOC to find anyone to enter the address cards collected from all the distribution sites. In order to determine what areas are in greater need, these address cards are essential for the GIS tracking and reporting.
- Determine water quantities in Flint
- Worked with recovery on needs for door-to-door operation
- Completed 204's for 3 objectives
- Instructions for water testing

Assigned requests:

- Extra volunteers for the added fire department hours. (MDHHS – Thelen)
- There was an extra church that was added. A request went through to ensure they received supplies and volunteers. (Local EOC)
- Flyers were created, printed and distributed to the 9 churches. (JIC, DTMB and Local EOC)
- Gate Operations for the broken SEOC Gates (MSP)
- More cards for churches & FD's (Logistics)
- Locate replacement filters in the Flint area (Local EOC)
- Deliver 6 pallets of donated water to GGCard (ARC)
- Develop re-stock plan for distribution sites (local EOC)
- Box trucks to assist with the door-to-door operation
- Purchasing more replacement filters
- Door hangers
- Extra staffing for Brianna

Subject: Status Update for Sunday, Jan 10

- Ensured the delivery of water and filters to the 9 churches in the Flint area.
- Discussed strategies for community outreach (door to door)
- Worked on facility safety at Collins Road (gate issues/lighting)
- Manage Task assignments for the SEOC (Press avail/door hangers/rules for water pickup)
- Requested a second DC to assist in Region 3 (Lt. Russo), start time TBD.
- Requested product information required to design signs for the fire stations to make it visibly apparent to the public. Awaiting feedback from fire stations (through Lt. Roach)
- Developed Branch Directors within the SEOC to reduce span of control (specifically Human Services Branch (Richard Thelen) and Health and Environmental Branch (Jennifer Lixey-Terrill)
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location.
    - GCCard is large enough, centrally located and comes staffed. We will use this sight temporarily until a logical long-term storage option can be found. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- Distributed to date (1/8/16). Logistics has asked GIS to provide us daily updates of how much was distributed each day.
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Local EOC was asked to identify someone to enter the information collected on address cards from all the distribution sites as essential for the GIS tracking and reporting.
- Fire stations were initially established for 9-4 operations; this has been extended to 9-9 operation. Volunteers were located to accommodate these operations. This will continue as long as the need is realized.
- Logistics is in process of location additional replacement filters.
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory.

Cc: Katarsky, Anthony (MSP)
Subject: Flint Water Summary for Saturday January 9

Captain, Here are the summary points for today's activities. We did get a wording change from Peter, so that is included, and the Sit Rep is published.

Amanda will be Plan Chief tomorrow. Zach and Rob will assist with Jason providing technical assistance.

SEOC Update:
Accomplished today (January 9):

- Logistics:
  - Red Cross is providing volunteers at churches for filter distribution tomorrow.
  - Address cards have been developed and distributed to Flint Fire Department for tracking.
  - Logistics is working with DTMB to get the door-to-door flyers printed.
  - Supply truck to follow teams, trucks to transport teams and materials, security officer for EOC and for each team.
- JIC
  - Developed a door hanger with state agency PIO's and DHHS SME's for canvassing.
  - Issued press release today at 1pm establishing location of water resource sites.
  - Tentative media briefing tomorrow at 2pm at Flint fire station.
- Recovery Branch
  - Training has been confirmed for the door-to-door operations teams scheduled to start Tuesday.
  - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m.
  - Will begin working with the local EOC first thing tomorrow to determine the areas of Flint to focus our efforts and work out the remaining details.
- Planning Section
  - Objectives have been updated and SitRep will be distributed today.
  - Worked with FEMA LNOs on planning cycle and draft objectives.
- Operations Section
  - A 10:45 conference call was held with the Genesee County EOC, specifically state personnel, to discuss processes for the upcoming days.
  - At this time, all 5 fire stations have received water, water filters, replacement cartridges and water testing kits with American Red Cross at each location to assist with delivery of resources and collection of addresses receiving them.
  - The arrangement of 2,000 filters to be taken to 9 local churches on Sunday is confirmed.
  - The County EOC has no support from the City of Flint. For smooth operations and the ability to serve the residents of Flint, a liaison is necessary in the EOC. This is also important to keep the Flint Mayor apprised of activities being conducted in the city.

MSP/EMHSD GIS Section Updates
Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- *Produced maps for MDARD on food establishments and Local Health Departments.*
- Produced map of Church Filter Distribution map for DTMB.

DTMB:

- Scheduled two drivers to assist in the delivery of water filters to churches on Sunday morning.
- Reached out to DTMB Real Estate for additional information on the warehouse facility.

DHHS

- 2-1-1 Director successfully contacted MDHHS PIO to discuss/resolve caller wait times and messaging.
- Had conversation with donation management coordinator for local EOC. They will be in route to local EOC, estimated arrival 3:00PM.
- Spoke to Genesee County Emergency Preparedness Coordinator for situational awareness. Reiterated the importance of messaging at this time, from the calls that the LHD has received from the public regarding ongoing water and filter distribution.

DEQ

- IMT will arrive at EOC today.
- DEQ Laboratory personnel will coordinate with LARA on the Freeman Elementary faucet replacement plan.
- The lab will have 1,000 narrow mouth bottles ready for pick up by Noon on Monday (1/11). Coordinating with DTMB and Recovery.
- LARA will need to coordinate the school testing and Freeman Installation/Testing with.

Local EOC Update:

- Identified resources needed/available to distribute to churches tomorrow, working with logistics at local level. Find GCCARD resource status level- Ops cleared up that the resources have been picked up by DTMB truck for tomorrow; SEOC logistics need locations where to take them.
- Nine churches have been identified at this time.
- Red Cross volunteers will be utilized for church distribution as needed.
- Sheriff teams are established and working to canvas neighborhoods. *The local EOC is working to establish a* neighborhood priority for to ensure the recovery teams are not over lapping what the Sheriff teams have completed.
- EOC is initiating the process for volunteers and donations management; the local level is requesting further direction from the state on this process.
- SEOC DHHS Human Services staff had a conference call with Ginna (donations management) and Chad (volunteer management); they will be meeting Tuesday will local resources to develop understanding of what community groups are currently doing.
- United Way will help in the donations management process.
- Donations Management to draft idea of plan (currently onsite).
- *Have a request for water drop off at the churches as well. Do have access to water at Flint schools if the schedule drop* off does not arrive.
- Reception at the fire stations has been great, working on finalizing a logistics plan to do resupply if resources are depleted midday.

Request/Task Assignment Definitions

- **Assigned:** Currently waiting for review by Logistics Group Chief and designation to appropriate agency.
- **Cancelled:** Item or task is no longer requested.
- **Complete:** Resource or task assignment has been fulfilled.
- **In Progress:** Being reviewed by appropriate agency.
- **Mobilized:** Resource is currently being delivered to local area.
- **Need Additional Information:** Agency is working with requestor to obtain further information on task or resource.

- **On-Scene:** Resource is currently on site for use/distribution.

Resource Requests

- **Assigned:** No current outstanding assessments
- **In progress:** 12
  - Additional water filter resources (7 requests total)
    - *30,000 additional filters*
    - 20,000 bottles of water
  - Long term storage
  - Truck transport
  - Environmental Testing and Consulting (ETC) Lead Investigator
  - *Data Collection Cards*
  - MDARD sampling kits- 500 requested
- **Cancelled:** None
- **Complete:** 4
  - JIC Set Up
  - *1,000 Water Filters/Cartridges*
  - Water supply at Fire Department
  - Water Filters for Churches
- **On-Scene:** 4
  - Genesee County Section Chief
  - *Genesee County IMT Coordinator*
  - Genesee County Planning Section Chief
  - Genesee County Logistic Section Chief
- **Need Additional Information:** 1
  - Water testing kit staging for 3,000 kits

Task Assignments

- **Assigned:** 2
  - *Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.*
  - Activate JIC plans
- **Cancelled-** 2
  - Activate the State Recovery Task Force (2 requests)
- **Complete-** 10
  - Volunteer Management Team
  - GIS Support Staff
  - Research West Virginia Emergency Recycling
  - Genesee County Healthcare Provider Contact Information
  - *JIC Email Accounts*
  - Provide technical assistance to the local Damage Assessment process
  - Establish SEOC operational period and hours of operations.
  - Safety Officer
  - Activate donations Management Team
  - *Coordinate response and recovery activities with MIVOAD and identify potential mission areas*
- **In Progress-** 15
  - Monitor MI CIMS (2 assignments)
  - Establish and maintain coordination between city, county, state, federal and subject matter experts

- Obtain and maintain situational awareness and common operating picture of all activities (2 assignments)
- Technical assistance for local damage assessment
- Volunteer assignment to assist at churches
- Develop four Recovery Teams
- *Identify a collocated facility for JIC*
- Coordinate response and recovery activities with MIVOAD and identify potential mission areas
- Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
- Develop a comprehensive GIS strategy
- Establish and disseminate cost center information for the incident
- Two additional positions for JIC

- **Mobilized** – 1
  - Establish and maintain coordination between city, county, state, federal and subject matter experts

V/R,

Tom

Subject: Notes from today - Logistics

- Worked with Red Cross to recruit volunteers at churches (obtained 2 per site)
- Obtained church addresses and passed them on to the county, DTMB, DHHS and GIS
- Address cards have been developed and distributed to Flint Fire Department for tracking. Information from the address card is continuously being entered by MDHHS employee. Updates will be sent to SEOC Human Services POC throughout the day.
- Logistics is working with DTMB to get the door-to-door flyers printed. Once these are done, will work on getting those to Flint and distributed to teams
- Printed cards for churches and gave them to DTMB drivers to deliver with the materials to each church on Sunday
- Assigned various requests: supply truck to follow teams, trucks to transport teams and materials, security officer for EOC and for each team, long and short term storage options, plan for individuals not able to drive to return test kits, determine locations in Flint that already have large stashes of water on hand and have them deliver to food bank for distribution, method for getting address cards back from churches to EOC, individuals at storage sites to serve as warehouse managers
- Need to update POD boards from the local EOC, any resources should be requested from the SEOC.
- Set up direct bill at hotel in local area
- Make sure information is being entered into MI CIMS.
- Reiterate to continue to request resources in MI CIMS.

To: Kelenske, Chris (MSP)
Cc: plangc; Katarsky, Anthony (MSP)
Subject: Daily Update

Captain Kelenske,

A 3rd FEMA LNO has arrived today to act as Technical Assistance in the planning and operational process.

An 8:30 call was conducted with the Genesee County Emergency Manager to discuss situation, status and needs. EMHSD and DEQ IMAT staff members are now in the EOC assisting with the local operations, planning and logistics.

A 9:30 conference call was conducted with all State Agency Emergency Managers to review ongoing activities and status of current tasks.

A 10:45 conference call was held with the Genesee County EOC, specifically state personnel, to discuss processes for the upcoming days.

An 11:55 report out by state agencies and SEOC operations was completed to ensure the JIC staff were all on hand and knowledgeable of situational status. This was completed and of great value to them. At this time, all 5 fire stations have received water, water filters, replacement cartridges and water testing kits with American Red Cross at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9-4:00 daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites as been positive. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.

A press release was approved by the State Director to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations as of this time. It was stressed that the public should become aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so.

The arrangement of 2,000 filters, to be taken to 8 (maybe 10) local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIC). The local EOC is working to ensure these arrangements are complete and run smoothly.

An extensive meeting was held with LNO, Jason Gamble, Jackie Hampton and Tom Weber was held to review the planning and operation process. We will begin Sunday as a planning day with 48 hour operations to begin on Monday, January 11. Planning days will be Sunday, Tuesday and Thursday.

A 3:30 briefing was conducted in the SEOC to provide status updates.

As we advised you at 3:50, the County EOC has no support from the City of Flint. For smooth operations and the ability to serve the residents of Flint, a liaison is necessary in the EOC. This is also important to keep the Flint Mayor is appraised of activities being conducted in the city.

Jackie Hampton
Operations Section Chief, State Emergency Operations Center

Subject: *Tasks Completed*

I apologize for the delay in getting these to you. I don't have a Sit Rep, but here are my bullet points for today's activities.

- Training has been confirmed for the door-to-door operations teams scheduled to start Tuesday.
- Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
- Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m.
- Logistics are being worked out for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
- Currently working on the overall plan for the door-to-door operations.
- Will begin working with the local EOC first thing tomorrow to determine the areas of Flint to focus our efforts and work out the remaining details.
- Trevor Hawks is working with the JIC on the door hanger.

Let me know if you have questions or need anything else.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/17/2016 08.00.00
Operational Period End:	01/19/2016 08:00:00
Situation Report No.	11
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/16/2016 08 00 00
SEOC Hours of Operation End:	01/16/2016 20 00.00

Executive Summary

SEOC Update:
Accomplished today (January 16).

The SEOC continues to provide
- Situational awareness.
- *Common operating picture/objectives.*
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Provide resources.
- Public Information Control.

•Logistics
o Fielded questions about whether to open the multi-pack filter replacement kit and give only one away or keep as a pack Decision is no, otherwise we are accused of tampering Request no multi-packs be ordered
o Hashed out test kit assembly process with DEQ and ARC
o Hashed out lunch process for the weekend.
o Moved out of GGCard, consolidated to Clio Rd. warehouse
o Donation deliveries – 10 a.m. – 7 p m.
o Update ICS 204's
o Site visits in Flint to local EOC. Warehouse, ARC, and POC's.
o Observed warehouse operations to determine challenges.
o Provided the JIC with one of each filters
o Discussed volunteer management coordination with MCSC and ARC
o Requested Verizon boosters for warehouse
o Requested 100 traffic cones for warehouse to direct traffic.
o Requested MICIMS access for state volunteer coordinator.
o Requested 10,000 nutritional pamphlets from FEMA

•JIC
o JIC will be requesting daily numbers from the SEOC from the activities of the field teams and PODs
o Working the emergency declaration and talking points for congressional/legislative conference call
o FEMA External affairs FEMA will be on site soon.
o Working on inaccuracies from media on the declaration

• Recovery Branch
o MSP coordinated 11 Flint Water Response Teams with 62 state employees today.
o Continued coordination with Red Cross on volunteers for Sunday and Monday
o Confirmed team typing for Flint Water Resource Teams
o Data is for 1/16/16 as of 5 00 pm.
Water Response Teams TOTALS 1/16/2016
Occupied Homes 6,034 2,387
Vacant Homes 2,161 554
Unknown 3,129 909
Total Homes Visited 11,324 3,850
Resources Provided
Door Hangers 4,384 1,745
Water - Cases 2,062 1,253
Water - Gallons (Jugs) 97 9
Filters-Faucet 2,973 1,247
Replacement Filter 2,040 770
Filter Pitchers 29 2
Water test kits 420 102

Total Resources Dispersed 12,005
Future sample test site 453 301

•Planning Section
o Lead morning and afternoon state agency conference call
o Coordinated logistics of resource tracking.
o Developed projections based off of reporting and trend analysis.

o Published Sit Rep # 11.
o Participated in distribution process meetings

• Operations Section
o Conducted SEOC Briefing and IAP Tactics meeting
o Worked with local EOC to fix trash issue at the stations
o Worked with local EOC and SEOC logistics to clean up distribution quantities at sites to individuals.
o 91 American Red Cross volunteers are active across operation today.
o ARC processed 45 volunteers through the Volunteer Reception Center.
o warehouse Numbers:
□ Clio St Warehouse (current stock)
-Replacement Cartridges 63,866
-Filters (faucet) 63,003
-Water (cases) 38,232
o point of Distribution (as of 7 pm)
□ Contacts 1047
□ Water (cases) 625
□ Filters (faucet) 772
□ *Replacement Cartridges 486*
□ Filters (pitcher) 14
□ Test kits 3

•Finance Section
o Continuing to track personnel resources located in the SEOC and local EOC for use in spend plan development.
o Monitoring resource request board and Pipeline Collaboration Document for costs incurred by state agencies for inclusion in spend plan.
o Booked additional 18 hotel rooms for National Guard.

•GIS Branch Updates.
o Created a GeoForm and Feature Service to handle data from paper forms used in the field and forms used prior to our involvement.
o Gave training to Red Cross and Sheriff's Office teams on iPad data collection.
o Gave train-the-trainer training to National Guard on iPad data collection within the Points of Distribution(PODS)
o Created maps for ARC and MSP of individual team assignment areas
o Created map of Residential Water Sampling Results from data provided by MDEQ
o Created Precinct/Ward wall map
o Created Daily Team Progress map

DTMB
• Provided management briefing and information on emergency declaration
• 60 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
• Provided 450 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks

DHHS-CH
• Maintained coordination and information sharing with CHECC leadership by holding twice daily scheduled calls to report activities and updates
• A resource request was submitted in the SEOC to logistics to order 10,000 of the EPA provided nutritional pamphlet
• Discussions took place with the JIC Manager, MDHHS PIOs, and CHECC Disaster Behavioral Health Subject Matter Experts regarding the method for providing Disaster Distress support (i e. a helpline) for the public and responders.

DEQ
• All available water test kits assembled and available for distribution.
• Provided guidance to City personnel for water sample collection sites.
• GIS map developed for water sampling sites.

Local EOC Update:
• Toured facility and discussed EOC operations with Lt. Governor Calley.
• Provided direction to Operations and Logistics Sections to initiate water sample collection at Fire Station PODs.
• Attended conference call with SEOC and ARC logistics management to clarify supply level tracking and receive further instruction on the issue.

Incident Response/Recovery Priorities/Objectives

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

• *Held a media availability at Fire Station #5 where Major General Vadnais announced Michigan National Guard efforts will be* doubled to approximately 70 personnel by Monday to assist at water resource sites.
• Governor's Office issued a new release announcing the Presidential emergency declaration approval.
• Answered media calls about the state's resource distribution and activity efforts to date.
• Updated daily talking points to include the state's activity efforts to date and the Presidential emergency declaration.
• Coordinating with FEMA External Affairs to plan a Congressional call on January 17, in additional to a legislative call regarding the Presidential emergency declaration Preparing talking points for the Congressional and legislative conference calls.
• Issued a news release with today's activity for the water resource sites and water distribution teams, as well as the increase in National Guard personnel
• Preparing a news release by the American Red Cross and United Way regarding the volunteer resource center and how individuals can volunteer to help.

Agriculture and Rural Development (MDARD)

Saturday Jan 16th update: Primary activities today: coordination with FDA Detroit District on their and MDARD's upcoming activities related to food, inquiry into a possible animal facility requiring follow up, draft of a document outlining federal resources that may be available to assist with broader recovery issues.

American Red Cross (ARC)

Again today, the American Red Cross supplied reduced staffing at the fire station POD's supporting the National Guard mission.
The assembly of water test kits at ARC headquarters resumed today.
We deployed and supported additional teams for neighborhood canvassing (Water Response)
We supplied lunches for the Water Response Teams.
The volunteer reception center (VRC) was in full operation today. The VRC will be in operation from Noon to 5pm on Sunday, and Monday through Friday will operate from 11am to 6 30pm.
We continued warehouse and inventory management efforts.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC activities

Community Health (MDCH)

Coordinated with the CHECC to continue working on various projects to include developing a timeline of MDHHS activities as they relate to the Flint Water situation, the ordering of necessary nutritional information materials to be sent to the local health department, identifying a MDHHS representative to serve on the Public Health Group meeting on Tuesday (1/19), and staffing the CHECC hotline for health-related calls the 2-1-1 is unable to answer (since the LHD is closed for the weekend).

Maintained coordination and information sharing with CHECC leadership by holding twice daily scheduled calls to report activities and updates Will also provide a daily update email to MDHHS Executive Leadership. This update will include the announcement of the Presidential Emergency Declaration issued this afternoon.

In alignment with the ongoing nutritional planning being lead by staff in the CHECC, a resource request was submitted in the SEOC to logistics to order 10,000 of the EPA provided nutritional pamphlet called, "Flight Lead Poisoning with a Healthy Diet," to be shipped directly to the Genesee County Local Health Department. Additional orders for these pamphlets are anticipated; however, the necessary quantity has not yet been determined.

Discussions took place with the JIC Manager, MDHHS PIOs, and CHECC Disaster Behavioral Health Subject Matter Experts regarding the method for providing Disaster Distress support (i.e. a helpline) for the public and responders This will be discussed further on Tuesday when SMEs are in the CHECC and reach-out to SAMHSA to coordinate.

Updated ICS 204 forms with new and updated tactics and work assignments. Participated in SEOC tactics and planning meeting.

Corrections (MDOC)

Brent Travelbee and Todd Bechler on duty SEOC today We have filled all requests for vehicles, personnel and warehouse equipment to assist with water distribution; additional request for Hand Operated Pallet Jacks have also been filled. MDOC Director Heidi Washington is providing full support to our assistance efforts We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility

The MDOC is dedicating a considerable amount of resources and staff to this effort We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner All MDOC resources will be reporting tomorrow Sunday January 17, 2016 as requested

MDOC RESOURCES PENDING DEPLOYMENT. Sunday, January 17, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(3) – 20' Box Trucks
(2) - 24' Box Trucks
(1) - 30' Box Truck (Lift gate broken but truck still on site, DTMB repairing)

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap
(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer
(1) – Pick-up Truck with 20' Enclosed Trailer

(4) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(2) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

(5) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

Staffing

There will be 22 staff members on site 21 drivers and an assistant for the Red Cross Transportation Van (w/trailer).

Education (MDE)

School enrollment and staffing spreadsheet added to Mi-CIMS.

MDE is monitoring the situation and coordinating as necessary with other state agencies

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities:
- Sampling of Manley Head Start and Eagles Nest School
- *All available water test kits assembled and available for distribution*
- Provided guidance to City personnel for water sample collection sites
- GIS map developed for water sampling sites
- Water heater information provided to Department of Labor and Regulatory Affairs and agency Public Information Officer's

Human Services (MDHS)

Staying in communication with 211, addressing human service concerns and delivery of resources to the elderly and disabled

Review and provide regular 211 updates to SEOC Ops

Continue to receive water filtration devices and assist in replenishment

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Manley School, where some DEQ testing was done today, is actually "Manley Early Childhood Center". The facility is a Head Start program and is captured under LARA's licensed Child Care Homes/Centers, it is not a school. DEQ is aware of this

Two bubblers that were supposed to be overnighted and delivered to a Flint area Home Depot today did not arrive. Without these *bubblers the Freeman School faucet replacement pilot cannot be completed; all other scheduled work was completed there today.* DEQ testing will not be done at Freeman tomorrow, 1/17. DEQ is aware of this Install could possibly be finished on 1/17 if parts arrive; with testing then being done on Monday since school is not in

LARA is currently working with DEQ to create a schedule for LARA's Plumbing Division to help DEQ with testing of additional *schools in the Flint area.*

Military and Veterans Affairs (DMVA)

Last 24 hours.
Distributed water, water filters, and water test kits and collected water samples for analysis at five points of distribution
Coordinated efforts with Genesee County EOC and Joint Information Center

Total of 34 Soldiers on State Active Duty:
1 at Genesee County EOC
1 at Joint Information Center
32 at PODS

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution Coordinate efforts with Genesee County EOC and Joint Information Center In-Process 38 Soldiers to augment distribution operations at 1800 S. outer Drive, Saginaw, MI on 17 January 2016 at 1300 Conduct lodging and operations orientation following in-processing. Total of 72 Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016.

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings in planned only if significant changes in the forecast occur.

NWS support beyond this weekend being coordinated between NWS Grand Rapids and NWS Detroit. Hand off to NWS Detroit for morning conference call weather forecast likely before the end of January

Natural Resources (MDNR)

MDNR is fully participating in all SEOC activities Situational awareness is being maintained and the department stands ready to assist as needed.
Department POC's include:
Chief Gary Hagler, F/Lt Jennifer Wolf, F/Lt Steven B Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters VAAA reports they continue to receive calls from seniors who need assistance.

Contact info for VAAA Executive Director is·

Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants

On 1/11/16 AASA forwarded to MSP/GIS over 1,400+ NAPIS addresses of Flint seniors who received in-home services in FY15 The NAPIS file was sent encrypted and did not include client names. The NAPIS file included 1,029 HDM, 138 CM, and 30 CCS clients.

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water. They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing *homes have been taking precautions using bottled water for cooking and drinking. The local Ombudsman remains concern* about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

State Police (MSP)

Teams have been distributing water all day 3902 homes have been visited today

The EOC in Flint advised that Genesee County Sheriff Department did not have the resources to provide security for the resource warehouses in the evening. Lt Pummill was notified at 9:19 a.m. regarding this issue Lt Pummill did not believe this would be an issue because the warehouses are fenced in

10:24 a.m. - Lt. Pummill advised that Sgt. Keith Sparks, MSP Safety Officer is currently evaluating the security at the resource warehouses for this evening.

1241 p m - Sgt. Sparks has completed his assessment of the resource warehouse and he responded with the following; My assessment of the facility is that it is adequate to secure the Red Cross vehicles as long as the vehicles are locked up and the gate is closed and locked It will also be beneficial for the security of the vehicles when the outdoor lights are brought back into working order. Note: Personnel are currently working on the lights issue They will know if the light are in working order at the facility by 5.00 p m today. I contacted Lt. Pummill at 6:06 p m. for status on lights at warehouse. Lt. Pummill is having MSP personnel check to see if the lights were repaired. 6:37 p m. - There are now lights on the south side of the warehouse, per Lt. Pummill. The south side of the building are where the delivery trucks are parked.

1 35 p m - MSP was asked for the exact number or state agency volunteers that reported today (Saturday 1-16-16) and to also confirm they went out in 10 teams This information was forwarded to Lt. Pummill at 1:41 p m

2 06 p.m. Lt. Pummill advised 62 volunteers were utilized on 11 teams today.

ICS 208 created for 1/17/16-1/18/16 to include updated weather information provided by the National Weather Service.

We have 114 state of Michigan employee volunteers scheduled for Sunday Jan 17th and 125 scheduled for Monday Jan 18th.

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

Provided management briefing and information on emergency declaration

DTMB Mail Services has seven drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams Drivers have agreed to work through the end of day Tuesday, January 19

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
60 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 450 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies for volunteers to distribute to city residents.

Transportation (MDOT)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

SEOC Hours of Operation End:	01/16/2016 20 00:00

Executive Summary

On January 6, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply, and the detection of elevated blood lead levels exceeding governmental standards. These conditions exist in the City of Flint, which declared a local State of Emergency and activated local response plans and their Emergency Operations Center on December 15, 2015. A public health emergency was declared by the Genesee County Health Department on October 1, 2015.

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to the Flint River as their primary water source *The corrosive river water caused the leaching of lead from lead pipes into the water supply Increased exposure to lead can* cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Elevated blood lead levels were observed in a significant sampling of young children in the City of Flint, and confirmed by the State Chief Medical Officer.

To mitigate the negative effects of corrosive river water on the water infrastructure in the City of Flint, the city switched back to DSWD as their primary water source on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan Water is treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone. MDHHS has increased surveillance of blood lead levels in children, addresses water issues in environmental investigations facilitated to identify lead sources in the environment of affected children, and provide health education and information to residents, health care providers and daycare/educational institutions. Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff, consolidate data from local sources into comprehensive databases, and providing mapping services that support incident analysis and forecasting. Data and maps will be made available regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, predictive blood lead levels for affected areas, demographics, etc.

Before December 16, 2015, $9.35 million were provided by the State of Michigan, and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While drops in lead levels have been observed since reconnecting to the DWSD system, water in the City of Flint is still not safe to drink, unless specifically filtered.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was operational in Flint from 8 a.m. to 10 p m on Jan. 14. On Jan 15, the JIC opened at 8 a.m. and anticipates operating until at least 7 p m.

State agencies at the JIC included the Governor's Office, Departments of Health and Human Services, Agriculture and Rural Development, and Technology and Management and Budget, Natural Resources, Environmental Quality, Licensing and Regulatory Affairs, Military and Veterans Affairs and Michigan State Police. The Genesee County Sheriff's Office was also present.

Tasks accomplished:
- Updated ongoing talking points about Flint water situation.
- Answered more than 10 media inquiries about topics ranging from the Governor's Flint visit to background information on the water response teams.
- Planned a 2 p.m. legislative and congressional conference call, including developing talking points.
- Monitored news media for misinformation and found none. Also monitored social media.
- Started drafting a news release about water response teams and items distributed to date.
- *Continued establishing a staffing schedule through the week and into next week.* The JIC will be open this weekend and on the Martin Luther King Jr. Day holiday.
- Continued to update www michigan.gov/flintwater to add new content and make enhancements to the site.
- Created a GovDelivery account for dissemination of JIC news releases and began writing procedures.
- Continued pagination, editing and final approvals of "Lead in Flint Water" MDHHS fact sheet.

Agriculture and Rural Development (MDARD)

Saturday Jan 16th update Primary activities today: coordination with FDA Detroit District on their and MDARD's upcoming activities related to food, inquiry into a possible animal facility requiring follow up, draft of a document outlining federal resources that may be available to assist with broader recovery issues.

American Red Cross (ARC)

Again today, the American Red Cross supplied reduced staffing at the fire station POD's supporting the National Guard mission.
The assembly of water test kits at ARC headquarters resumed today.
We deployed and supported additional teams for neighborhood canvassing (Water Response).
We supplied lunches for the Water Response Teams
The volunteer reception center (VRC) was in full operation today. The VRC will be in operation from Noon to 5pm on Sunday, and Monday through Friday will operate from 11am to 6 30pm.
We continued warehouse and inventory management efforts.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC activities.

Community Health (MDCH)

Coordinated with the CHECC to continue working on various projects to include developing a timeline of MDHHS activities as they relate to the Flint Water situation, the ordering of necessary nutritional information materials to be sent to the local health department, identifying a MDHHS representative to serve on the Public Health Group meeting on Tuesday (1/19), and staffing the CHECC hotline for health-related calls the 2-1-1 is unable to answer (since the LHD is closed for the weekend).

Maintained coordination and information sharing with CHECC leadership by holding twice daily scheduled calls to report activities and updates. Will also provide a daily update email to MDHHS Executive Leadership. This update will include the announcement of the Presidential Emergency Declaration issued this afternoon.

In alignment with the ongoing nutritional planning being lead by staff in the CHECC, a resource request was submitted in the SEOC to logistics to order 10,000 of the EPA provided nutritional pamphlet called, "Flight Lead Poisoning with a Healthy Diet," to be shipped directly to the Genesee County Local Health Department Additional orders for these pamphlets are anticipated; however, the necessary quantity has not yet been determined.

Discussions took place with the JIC Manager, MDHHS PIOs, and CHECC Disaster Behavioral Health Subject Matter Experts regarding the method for providing Disaster Distress support (i.e. a helpline) for the public and responders. This will be discussed

further on Tuesday when SMEs are in the CHECC and reach-out to SAMHSA to coordinate.

Updated ICS 204 forms with new and updated tactics and work assignments. Participated in SEOC tactics and planning meeting

Corrections (MDOC)

Brent Travelbee and Todd Bechler on duty SEOC today. We have filled all requests for vehicles, personnel and warehouse equipment to assist with water distribution, additional request for Hand Operated Pallet Jacks have also been filled. MDOC Director Heidi Washington is providing full support to our assistance efforts. We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources will be reporting tomorrow Sunday January 17, 2016 as requested

MDOC RESOURCES PENDING DEPLOYMENT: Sunday, January 17, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(3) – 20' Box Trucks
(2) - 24' Box Trucks
(1) - 30' Box Truck (Lift gate broken but truck still on site, DTMB repairing)

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap
(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer
(1) – Pick-up Truck with 20' Enclosed Trailer

(4) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(2) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

(5) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

Staffing

There will be 22 staff members on site 21 drivers and an assistant for the Red Cross Transportation Van (w/trailer).

Education (MDE)

School enrollment and staffing spreadsheet added to MI-CIMS

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities.
- Sampling of Manley Head Start and Eagles Nest School
- All available water test kits assembled and available for distribution
- Provided guidance to City personnel for water sample collection sites
- GIS map developed for water sampling sites
- Water heater information provided to Department of Labor and Regulatory Affairs and agency Public Information Officer's

Human Services (MDHS)

Staying in communication with 211, addressing human service concerns and delivery of resources to the elderly and disabled.

Review and provide regular 211 updates to SEOC Ops.

Continue to receive water filtration devices and assist in replenishment.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Manley School, where some DEQ testing was done today, is actually "Manley Early Childhood Center". The facility is a Head Start program and is captured under LARA's licensed Child Care Homes/Centers, it is not a school. DEQ is aware of this

Two bubblers that were supposed to be overnighted and delivered to a Flint area Home Depot today did not arrive Without these bubblers the Freeman School faucet replacement pilot cannot be completed, all other scheduled work was completed there today. DEQ testing will not be done at Freeman tomorrow, 1/17. DEQ is aware of this Install could possibly be finished on 1/17 if parts arrive, with testing then being done on Monday since school is not in

LARA is currently working with DEQ to create a schedule for LARA's Plumbing Division to help DEQ with testing of additional schools in the Flint area.

Military and Veterans Affairs (DMVA)

Last 24 hours:
Distributed water, water filters, and water test kits and collected water samples for analysis at five points of distribution.
Coordinated efforts with Genesee County EOC and Joint Information Center.

Total of Soldiers on State Active Duty
1 at Genesee County EOC
1 at Joint Information Center
' at PODS

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center In-Process 38 Soldiers to augment distribution operations at 1800 S. outer Dirve, Saginaw, MI on 17 January 2016 at 1300 Conduct lodging and operations orientation following in-processing. Total of 72 Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016

Raymond Stemitz
LTC, IN, USA

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings in planned only if significant changes in the forecast occur.

NWS support beyond this weekend being coordinated between NWS Grand Rapids and NWS Detroit. Hand off to NWS Detroit for morning conference call weather forecast likely before the end of January

Natural Resources (MDNR)

MDNR is fully participating in all SEOC activities. Situational awareness is being maintained and the department stands ready to assist as needed
Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters VAAA reports they continue to receive calls from seniors who need assistance

Contact info for VAAA Executive Director is

Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water.

Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

On 1/11/16 AASA forwarded to MSP/GIS over 1,400+ NAPIS addresses of Flint seniors who received in-home services in FY15. The NAPIS file was sent encrypted and did not include client names. The NAPIS file included 1,029 HDM, 138 CM, and 30 CCS clients.

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water. They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing homes have been taking precautions using bottled water for cooking and drinking. The local Ombudsman remains concern about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

State Police (MSP)

Teams have been distributing water all day 3902 homes have been visited today.

The EOC in Flint advised that Genesee County Sheriff Department did not have the resources to provide security for the resource warehouses in the evening. Lt. Pummill was notified at 9.19 a m regarding this issue. Lt. Pummill did not believe this would be an issue because the warehouses are fenced in.

10:24 a.m. - Lt. Pummill advised that Sgt. Keith Sparks, MSP Safety Officer is currently evaluating the security at the resource warehouses for this evening.

1241 p m - Sgt. Sparks has completed his assessment of the resource warehouse and he responded with the following; My assessment of the facility is that it is adequate to secure the Red Cross vehicles as long as the vehicles are locked up and the gate is closed and locked. It will also be beneficial for the security of the vehicles when the outdoor lights are brought back into working order. Note: Personnel are currently working on the lights issue. They will know if the light are in working order at the facility by 5:00 p.m. today. I contacted Lt. Pummill at 6:06 p.m. for status on lights at warehouse. Lt. Pummill is having MSP personnel check to see if the lights were repaired. 6.37 p m. - There are now lights on the south side of the warehouse, per Lt. Pummill The south side of the building are where the delivery trucks are parked

1.35 p.m. - MSP was asked for the exact number or state agency volunteers that reported today (Saturday 1-16-16) and to also confirm they went out in 10 teams. *This information was forwarded to Lt Pummill at 1:41 p.m*

2:06 p.m. Lt. Pummill advised 62 volunteers were utilized on 11 teams today

ICS 208 created for 1/17/16-1/18/16 to include updated weather information provided by the National Weather Service.

We have 114 state of Michigan employee volunteers scheduled for Sunday Jan 17th and 125 scheduled for Monday Jan 18th.

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

Provided management briefing and information on emergency declaration.

DTMB Mail Services has seven drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Drivers have agreed to work through the end of day Tuesday, January 19.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
60 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 450 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies for volunteers to distribute to city residents.

Transportation (MDOT)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

Incident Related Images

Mike Sobocinski's notes on January 15, 2015 - 2nd daily SEOC briefing (4:00am):

MSP SEOC Planning Section (Amanda Bresler): Goes over upcoming battle rhythm items.

MSP SEOC Operations (Gabe Covey): Must ensure adequate supplies at the pods and the warehouse. Obtain volunteer numbers for tomorrow.

(Health and Environmental Branch: includes the next several agencies, including Red Cross)

MDHHS (Kathy Wald): Getting addresses for medically dependent persons. Following up on "the lab issue from this morning." Offer from SAMSA (?) to activate hot line. [A couple other items too fast to capture in notes]

MDARD (Brad Deacon): Training staff to be able to test samples, prepare and visit sites.

MDLARA (Alisha Gensler?): Helping DEQ with school water testing. [1 comments to fast to capture in notes]

MDEQ (Jen Wolf): Plan coordinator is establishing teams for the school water testing. By February 6, the whole program will be running, but by next weekend, (some initial more urgent parts of it will be implemented?) 2600 test kits left in the pods (?something about 2 days?). About 1100 test kits coming in today. Have ordered another 28,000, to arrive in the next couple of weeks. The total amounts to more than one test kit per Flint home since the declaration started. Labs are staying open on the weekend and the Monday holiday.

"Human Services Branch" (Rich Thelen): Processing filter and replacement cartridges – more than 30,000 each. Requested after-hours contact person [I didn't catch where or with whom].

MDOE (Kevin Walters): Working with Civil Rights for student and staff counts for all educational institutions, to deliver the EPA message.

MDHHS (don't know who?) A few I-Pad "hiccups" were clearing up well this afternoon. (Jeannette Doll, MDTMB: over 30,000 [of something] are available through Home Depot.)

MOSA? "Aging and Adult Services" (Steve Betterly): We've sent more than 80 additional addresses to GIS, from the local area agency on aging, for mapping. Working on the Recovery Resource Guide.

ARC (Paul Spata): Operating the Volunteer Reception Center, putting supplies in the field. Coffee was being provided for volunteers, the JIC, etc., and tomorrow this will expand to actually provide meals. 20 volunteers are assigned tomorrow (for kit assembly?) The warehouse and inventory management activity continues.

MSP Public Safety (Matt Bolger): Working on distribution mechanism with ARC. Want to pre-load trucks during the night. Over 50,000 homes visited [if I caught this information correctly]. Volunteer staffing numbers were provided for the coming 3-day weekend period.

MDOC (don't know who?): Adding two 24-foot trucks and drivers. Working to add 5 more for the next operational period.

MDMVA (don't know who?): 34 soldiers active—a couple in the Genesee County EOC and the JIC, and the remaining 32 distributed across the 5 pods.

MDTMB (Jeannette Doll): Received notification of more than 300 identification badges ready to be used this weekend. 30 additional I-Pads, which SEOC GIS will load software onto. A dumpster is headed to Clio Road. Notify that additional traffic will be going to the state lab over the weekend.

Local EOC EMHSD liaison ([garbled name over phone]): Working to re-establish local fire stations as ([distribution/receiving points]). (Capt. Kelenske: The mayor said that samples will not be received there. We must have a consistent message on this topic.)

MSP SEOC Logistics Section (Wendy Galbreath): Two sites are still open, but are moving to consolidate to one at Clio Road warehouse. We want 4 out of the 20 vehicles to be pre-loaded tonight—only 4, so that water won't be frozen in the outdoor temperatures. Rain parkas are on their way to ARC and EOC locations.

MSP SEOC Planning Section (Amanda Bresler): [something] warehouse data, app numbers, [something else] numbers should therefore be available here to analyze.

SEOC Recovery Branch (MSP Brianna Briggs): Good progress today. Plan in place. Supply the pods first, then the teams. Pre-load vehicles with potentially everything needed throughout day, with a resupply then available if needed.

ARC (Lauren Twohig): We want to increase resource teams and daily volume, to increase the number of households reached.

PIO (Nicole Lisabeth): Capt. Kelenske gave a legislative briefing. We updated the talking points. We'd like to issue a news release containing specific numbers on personnel and resource distribution, but we still need to confirm some of these numbers before the press release can be made. The ARC news release will probably be delayed a couple of days. The MING could still get a news release out today. MDHHS has new blood level test results, to be placed online as soon as possible. An inquiry was received from Jackson, MI regional HHS regarding donated water plus a Wal Mart truck, but it is best to have a coordinated statewide response over separate individual agency activities. Media were at the Genesee County office building all day today, due to Governor and Mayor meetings. Still awaiting a city PIO at the JIC. Updating web site information on 2-1-1 and other topics. Confusion exists regarding FEMA, which is not actually a source of the water so far. The JIC is getting requests (media and legislative) for the presidential declaration request letter itself. The Governor did release yesterday's letter to Detroit newspapers. (Capt. Kelenske: concerned that information from such a release is not final, and therefore will require clarification.) We're requesting better coordination with Governor's office, etc.

Capt. Kelenske: SEOC operating hours are still 8am to 8pm until the situation stabilizes. Please arrange staffing for your agency. Leave contact information if not directly represented by a person at the SEOC. The JIC should be prepared for an upcoming legislative call with the Captain and FCO, when a response is received on the declaration request. We want to increase MING staff from 50 to over 65, but that will need to be approved first. A group [I didn't note who] is doing some sort of mobile testing in Flint. There was an SEOC briefing on stress and emotions, providing handouts with tips—take a minute to obtain and read those. The Lieutenant-Governor is here.

Lt. Gov. Brian Calley: Offering thanks and appreciation. The anxiety level in Flint is being reduced. As immediate needs are being met, longer-term aspects can be more focused on. Thanks for the high level of professionalism under trying and difficult circumstances.

MSP Amanda Bresler: Situation reports due at 6pm. Next briefing will be tomorrow at 9:30am.

Mike Sobocinski's notes on January 15, 2015 - 1st daily SEOC briefing (9:30am):

MSP SEOC Planning Section (Amanda Bresler): Reads off the battle rhythm for the day. Yesterday's IAP was approved.

MSP SEOC Operations (Gabe Covey): The top priority today is tracking to ensure that adequate staff and resources are in the field. We are setting up the Water Resource Teams for the weekend. The Governor had asked for a declaration of both an emergency and disaster by the federal government yesterday. Working to improve coordination with JIC.

National Weather Service (Jim Askow [sp?]): It will be about 40 degrees F all day today but afternoon rains will cause some slippery conditions. Temperatures drop tonight. It will be very cold Saturday through next week. Standing water will freeze in place tomorrow morning. Sunday's high temperature will be about 15 degrees F. Becoming breezy on later days, through next week, again resulting in circumstances in which exposed skin risks frostbite in 15 to 30 minutes outdoors.

Capt. Kelenske: We have intended to give credit to all who were involved, but some agencies were recently missed when trying to list them all.

(Health and Environmental Branch: next several respondents)

[ ] (Kathy Wald): The CHECC will be open Saturday, Sunday, and Monday, helping with the county phone banks on those days. Coordinating with GIS regarding those who are dependent upon medical equipment in their homes. Data is being obtained and provided to GIS. Genesee County Health Department requesting 10,000 copies of an EPA document, so MDTMB will arrange (Capt. Kelenske: or EPA itself can provide them).

MDARD (Brad Deacon): Prioritizing food facilities for follow-up next week. Coordinating with DEQ.

LARA ([ ]): 20% of the 244 health facilities [something - Too fast for notetaking!]

MDEQ (Jen Wolf): Working on teams for the plan [for? and?] testing water [at schools?]. Logistics of 10,000 water bottles' assembly and distribution.

"Human Services Branch" [MDHHS? (Rich Thelen?)]: Filter and cartridge numbers were stated. Reordering is necessary today. Met with Finance, figuring out stuff with others. (Capt. Kelenske: Yesterday there was a budget meeting with SBO [ ].)

MI Dept. of Education (Kevin Wolff?): Coordinating with private and parochial schools. [something else didn't catch it]

Dept. of Civil Rights (Mark Bishop): The EPA document is available online in multiple languages, has been handed out at schools. Would be good to coordinate with these other agencies and order more copies to meet everyone's needs.

[ ] (Brian [ ]): door-to-door [something - TOO FAST FOR NOTETAKING!]

State Office Services to the Aging (Steve Betterly): The Valley Area office (and Kathy Bolz) referral issue has been resolved by MSP Michelle Kuzera. 400 new addresses of "my choice waiver clients" [ ] were received and forwarded to GIS. Information on independent and assisted living facilities in Flint (non-regulated congregate settings) to overlay onto the existing heat map. Received question on

Legionnaire's Disease—any connection known? (Capt. Kelenske: no known connection. May need to put out a statement from DHHS or the Governor for PIO use.) Question on whether the heat map (by Dr. Mona Hanna-Attisha) is available to the public. (Capt. Kelenske: It is already available, open source.)

American Red Cross (Paul Spata): Many persons are asking about Legionnaire's Disease at the Flint fire stations. (Capt. Kelenske: Again, we will check this morning with the Governor on how to keep these topics disconnected. It's okay for fire stations to refer people to the web site, but there's a problem with providing handouts there and connecting the topics.) Five sites were staffed by ARC yesterday, but the MI National Guard takes over the staffing today. ARC is supporting the Water Response Teams today, and continuing to operate the Volunteer Reception Center. Supporting the distribution of materials, and providing warehouse operations management.

ARC (Lauren Twohig): Describes some sort of coordination. [Too fast for notetaking]

MSP ([Over phone]): States various numbers of volunteer state employees. 10 teams are in the field, in wards 5 to 7 of the city. The ARC has an additional 5 teams, focusing on Ward 6. The I-Pad issue was partly the result of low temperatures, and partly related to software and operator handling of the software. Working with MDTMB on software to prevent I-Pad problems. (Capt. Kelenske: If there is a way to weatherproof them, let us know how to help.) Could use rain ponchos. (Capt. Kelenske: Will do.) Various sign-ups so far for working on Saturday (24), Sunday (39), and Monday (46). Working with Penske on truck donations.

MI Dept. of Corrections ([]): Total of 14 vehicles including a handicap-accessible van.

MI National Guard (Lt.-Col. Randall): "O and O" [] at local EOC. Have been transitioning into pods, which is going well. (Capt. Kelenske: TAG discussions—will provide info separately, soon. No tents are to be used.)

MDTMB (Jeannette Doll): Specialized items are available at the Mundy Township Home Depot, to use in the pilot (such as water bubblers). Volunteer identification badges should be available today. (Capt. Kelenske: We'll discuss re: "Volunteer" on badge design, since not all workers are volunteers.) Something was also said about fuel cards and employee "Survey Monkey" [unclear].

Attorney General (Peter Manning): Will be submitting some legal questions.

MSP SEOC Logistics Section (Wendy Galbreath): Working with Jeannette Doll (MDTMB) on the consolidated warehouse. Today is day 1 of the plan.

MSP SEOC Planning Section (Amanda Bresler): Situation reports due again by 6pm today.

MSP Recovery Branch (Brianna Briggs): Working on the weekend team logistics, and on identifying standardized information to be submitted daily (rather than repeatedly asked for).

PIO/JIC (Nicole Lisabeth): The Governor stopped by at a fire station, unannounced. Positive media regarding the federal declaration request that was made. No known media errors identified lately. A legislative briefing occurs today. There have been a couple requests for the presidential request letter (Capt. Kelenske: Not available publicly yet. Its release is to be discussed first for approval.) Today there are 3 news releases. Potential on Saturday for [something]. Attorney General Schuette: sending out some info on his investigation. Today there is a Time Magazine interview with Dr. Eden Wells. Please notify the JIC of any agency messages that are being sent out. A Governor's statement is being made

today about returning additional powers to the Flint mayor. The Genesee County Health Department is on furlough right now, so people should dial 2-1-1 instead.

MSP Capt. Kelenske: At about 11am, 50,000 phone lines in Flint will receive a message from the Governor. This could cause a spike in calls to 2-1-1 as well as in the demand for supplies. Would like to get a briefing to the Mayor of Flint and to the Governor, summarizing agency actions. Please send bullet points to Gabe Covey (MSP Operations Chief) for him to assemble for this list of specific things being done. More items are better for the list, but each item should be short. SEOC hours will continue to be from 8a to 8p on Saturday, Sunday, and Monday. The #1 focus is on the pods, for distribution of water resources to Flint. If necessary, the field teams will support these pods if there is a need.

POD distribution data to date

Filters (faucet)	45,916
Cartridges (replacement)	165,382
Water (cases)	18,576
Test kits	3,000

*Unknown is a training issue in the field and we are working to correct it.

MSP

- Personnel from MSP have been coordinating and managing the Flint Water Response Teams since Tuesday.
- Over 100 MSP volunteers have reported and worked on the Flint Water Response teams.
- 25 MSP lieutenants and troopers have been coordinating all operational efforts for the Flint Water Response teams in cooperation with state, county, and local partners.
- MSP is also coordinating with the Red Cross Water Response Teams.

MDOC

- The Michigan Department of Corrections has 26 staff and 14 vehicles dedicated (on site) to the Flint Water Crisis response, additionally three MDOC staff are assigned to the SEOC location.
- The resources requested/dedicated currently is as follows:
- (26) MDOC Employees
- (6) Large Box trucks
- (5) 15 passenger vans
- (2) Pick-up trucks
- (2) enclosed transport trailers
- (1)Handicap Accessible Van
- (1)20 passenger Shuttle Bus
- (1) 53' Refrigerated Semi-trailer
- (4) Pallet Jacks for unloading at storage facility

Michigan National Guard

- The request for Guard support is generated by the executive order issued by Governor Snyder on 12 JAN 16. The Michigan State Police are responsible for coordinating all state efforts, including the Michigan National Guard, to assist the City of Flint and Genesee County.
- Members of the Guard will be staged at the 5 water resource sites at fire stations assisting with operations; there are no plans to go door to door.
- The first group of Michigan Guard arrived Wednesday morning to conduct assessment and get acclimated; the full contingent of approximately 30 Soldiers is due to arrive Friday morning.
- The assistance provided by the Michigan Guard allows other agencies to expand their operations and provide even more support to the citizens of Flint.

Human Services

- Provided procurement, acquisition, delivery, and working on disbursement, of hundreds of thousands of water filtration devices.
- MDHHS have provided staff for Flint Water Response Teams 1/12/16 through 1/15/16.
- Continue to provide two locations as points of distribution sites for water filtration devices.
- Michigan Community Service Commission continues to participate heavily in donation management and volunteer coordination efforts at the local level.
- Continue to provide two dedicated PIOs to the event.
- Have four staff dedicated to this event in the SEOC.
- Local MDHHS staff remains active in human service coordination at the local EOC.
- CHEEC remains active in support to the SEOC and Local Health Dept. regarding this event.

American Red Cross

- Convened meetings of local NGOs
- Provided volunteers for the sheriff's distribution effort
- Provided volunteers to operate PODs at 5 fire Stations
- Stood up a formal Disaster Relief Operation and established headquarters in Flint
- Provided volunteers to operate PODs at 9 churches
- Provided volunteers to manage warehouse and inventory operations
- Established operation to assemble water test kits

- Provided volunteers to assemble water test kits
- Operating a Volunteer Reception Center
- Providing volunteers for the Water Response Teams
- Providing a logistics-planning consultant
- Coordinating and providing meals for the staff and volunteers assigned to the emergency response.

Adult & Aging Services

- Coordinate with Valley Area Agency on Aging (VAAA) who are continuing to take calls from seniors and caregivers needing water or filters. They are providing this information to the local EOC each afternoon for follow-up.

- Provided over 2,000 addresses of homebound, frail, or otherwise at-risk seniors living in Flint. AASA has in turn forward these addresses to MSP-GIS to overlay their heat map and for local follow-up.

- VAAA local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

DTMB updates

- Leased warehouse space for supply distribution
- Credentialing badges for volunteers
- Located JIC in Flint State Office Building with equipment
- SMART devices for water response teams (30 to-date additional quantities requested)
- Procurement of trucks, water, water filters, cartridges and plumbing supplies for pilot water program
- Printing and delivery of water analysis test forms and informational palm cards
- Seven drivers with trucks transporting supplies throughout the city
- Temporary fuel cards

Michigan Department of Environmental Quality

- Facilitate supply of water test kits to all Flint Water Treatment Plant customers in collaboration with City and County personnel
- Laboratory services to process samples for lead and copper analysis
- Staffing of SEOC during all operation hours to coordinate agency services, capabilities, activities and respond to resource and information requests
- Staff support at the Joint Information Center
- Coordination and cooperation with various state agencies for sampling plans and implementation strategies for all state regulated facilities to include the provision of resources
- Staffing at the local level to assist with resource and response management
- Verify NSF/ANSI 53 certifications of products delivered to citizens
- Production of a water test sampling video for public guidance

MDARD

- Updated requirements for food establishments using City of Flint water; mailed on 1/14 and includes offer to collect samples for free.
- Visiting food businesses to ensure they understand requirements.
- Will be visiting restaurants, in coordination with Genesee County Health Department
- Reached out to veterinary clinics and coordinated with the Genesee County Animal Control to contact animal related businesses to see what water system they're on and ensured that they were familiar with the Flint water situation.
- Reached out to Flint Food Works / Food Hub and the Food Bank of Eastern Michigan and offered additional assistance.

MDHHS – Health

- Activated the Community Health Emergency Coordination Center (CHECC)
- Staffing a hotline to field calls that were to be sent to the Local Health Department while the LHD is closed for furlough, weekends, and holidays
- Developing a nutritional plan for education and messaging
- Gathering information in preparation for disaster behavioral health response, if a presidential declaration is approved.
- Epidemiology branch continues to assist work with local health department on blood lead testing and case management
- Communicating to healthcare providers through WebMD Medscape.
- Coordinating health information messaging with the JIC.

MDLARA

- Ongoing effort to reached out to all licensed Healthcare facilities in the affected area to gather information and access any needs they may have, to include: Child Care facilities, Adult Foster Care, and others.
- LARA and it's Bureau of Construction Codes - Plumbing Division will complete the "Freeman School Faucet Replacement Pilot." This weekend to include:
    - On-site assessment plumbing to identify plumbing components of concern and prioritize sample sites.
    - Identify and replace faucets, lines, connectors with lead free components.
- Re-collect water samples to test and analyze.
- Offered to assist with lab testing, utilizing the MIOSHA Lab and Scientists as appropriate in coordination with DEQ.
- Provided MDHHS with a list of licensed healthcare facilities to coordinate the distribute nutritional information.
- Worked with the Office of New Americans to assist with translation of messaging

MDEQ

- Facilitating supply of water test kits to all Flint Water Treatment Plant customers in collaboration with City and County personnel.
- Laboratory services are processing samples for lead and copper analysis.
- Providing staff at SEOC during all operational hours to coordinate agency services, capabilities, activities and response to resource and information requests.
- Providing staff support at the Joint Information Center.

- Coordination and cooperation with various state agencies for sampling plans and implementation strategies for all state regulated facilities to include the provision of resources.
- Staffing at the local level to assist with resource and response management
- Verified NSF/ANSI 53 certifications of products delivered to citizens
- Produced a video of a water test sampling video for public guidance

Mike Sobocinski's notes on January 14, 2015 - 2nd daily SEOC briefing (4:00am):

[NOTE: The initial tactics was much too rapidly paced to take notes on, and its content should be available once the ICS 204 forms are all submitted.]

(Health and Environmental Branch: first several respondents, including Office on Aging)

DHHS (Jennifer ?): Working on nutrition plan and behavioral health work.

MDARD (Brad Deacon): Food guidance went out in today's mail. Now working to prioritize sites in the most at-risk zones (the redder zones on a map) for forthcoming inspections.

MDEQ (Jen Wolf): Only 80 samples are present at Flint, perhaps because the only two collection sites for them are at City Hall and the Water Treatment Plant, and the plant might not be on the bus transit routes. May need to make fire stations into collection points, but indications had been that they didn't want to be responsible. The governor wants 8 teams—staff is needed who have some scientific background. Many bottles are coming in (overseen by American Red Cross?) Lot testing is needed to verify bottle cleanliness after they've been received from the vendor.

MDLARA (Karen Towne): Supplies were received. Pilot project installation to occur Saturday, with testing on Sunday.

MDHHS (Brian Wilson): Volunteers in the field have been receiving a lot of positive feedback from the community. IPad operation was much better today—fewer delays.

American Red Cross (ARC) (Lauren ?): Standardization of water response teams [??Can't be sure this completely represents her statement. It went by too quickly!]

ARC (Paul Spata): Continued to staff the 5 fire stations. Coordinating with MING regarding their staffing over the weekend.

State Office on Aging (Steve Betterley): Coordination of referrals problem was successfully solved by Michelle Kuzera. Still in the process of identifying senior addresses in Flint who may need assistance.

MSP Public Safety: [some 2330 number rattled off along with a bunch of other stuff. Possibly the number is a cumulative number of doors visited to date by field teams?? Way too much info presented in too fleeting a manner to capture any of it in written notes. ☹☹☹☹☹☹☹☹☹☹☹☹☹]

MDMVA/MING (unidentified speaker in SEOC): Hotel rooms confirmed for 35 [something—soldiers??] who will be there. Each pod is to have a government phone (and ?) Blackberries. List provided to planners. Providing liaison to local EOC and a PIO to the JIC.

MDTMB (Jeannette Doll?): Four U-Haul trucks were obtained. Working on resource requests all day.

Local EOC MSP Liaison (Lt. B.J. Roach): Working with churches to coordinate. (Capt. Kelenske: Is a person available to handle that duty and thus free her up for many other tasks?)

MSP Logistics (Wendy Galbreath): Many requests regarding volunteer donations. Penske offered 15 to 20 trucks, Dean transportation has drivers available. Confusion regarding whether to go to EOC or to GCCARD, but that's now cleared up. MSHDA's 24 Flint properties are to get filters installed. "Zero water" [??] news event—to offer match (i.e. donations?) of filters.

MSP SEOC Planning (Amanda Bresler): Logistics resource plan and IAP work today—need info as soon as possible. Situation reports are due by 6pm.

MSP Recovery Team (Kriste Davis): Planning involving the teams and coordination (mostly covered by others).

JIC/PIO (Shannon [redacted]): The email for state employees has been drafted, and is being reviewed. Several media requests received for warehouse events but need to be delayed until the transition is done and the warehouse is operating smoothly (in about 2 days?). Found no major media errors today. Many questions are pending and the list of them is growing in number—need info from the SEOC to answer them—especially needed for rumor control, since the same questions are being asked by activists. Trouble getting in contact with local community PIOs and need help to contact them. (Capt. Kelenske: need documentation of unsuccessful contact efforts, and submission of an actual list of questions; a follow-up call will occur on this topic.)

Capt. Kelenske: Met with TAG ([redacted]) today—General Vadinez ([redacted]). There's an issue involving used empty water bottles—a recycling system needs to be provided (regardless of whether it actually receives widespread use) so there isn't an issue with empty bottles everywhere. West Virginia has an after-action report which probably has good ideas about handling this. The next briefing will be tomorrow at 9:30am.

1. Situation:

There are 45,000 active water meters in the impacted area
As of 2130 on 01 13.16 17, 276 households have received water filters
MAP

2. Mission Statement:

Ensure all households within the impacted area have the required resources

3. Execution
   a. Commander's Intent
      i. Distribute filters and additional resources to all impacted households within 5 days. The priority of effort is the Fixed Points of Distribution (PODs).
   b. Concept of Operations
      i. Distribution of resources will be conducted using 4 methods: Fixed PODs, Mobile Distribution Teams, Rapid Response Distributions, and Local Partner Distributions.
      ii. Tasks
         i. Fixed PODs
            1. Red Cross will staff all sites through ~~XXX~~1/14
            2. Red Cross will conduct transition brief with Michigan National Guard on ~~XXX~~1/15
            3. Michigan National Guard will assume staffing responsibility as of ~~XXX~~1/15
         ii Mobile Distribution is being conducted via Water ~~Resource~~ Response Teams
            1. Recovery Branch Support will determine Water ~~Resource~~ Response Team composition, standards, resource requirements, and priority areas for distribution
            2. Michigan State Police will provide command and control (assemble, coordinate, monitor) of Water ~~Resource~~ Response Teams
         iii. Rapid Response Distributions
            1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
            2. Local EOC Operations Logistics will execute Rapid Response Distributions
         iv. Local Partner Distributions
            1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
            2. XXX will execute partner requests for distribution support
   c. Coordinating Instructions
      i. Fixed PODs are located at 5 fire stations
         i. POD Locations

Water Resource Site Fire Station 1	310 East Fifth, Flint, MI 48502	0900-2100
Water Resource Site Fire Station 3	1525 Martin Luther King Ave. Flint, MI 48503	0900-2100
Water Resource Site Fire Station 5	3402 Western Rd, Flint, MI	0900-2100
Water Resource Site Fire Station 6	716 West Pierson Rd, Flint, MI	0900-2100

	48505	
Water Resource Site Fire Station 8	202 East Atherton, Flint, MI 48507	0900-2100

2. POD Product Composition
    1. **NEED FROM SHAWN**

ii. Mobile Distribution is being conducted via Water ~~Resource~~ Response Teams
    1. **Assembly area**
    2. **Mission Ready Packets**

iii. Rapid Response Distributions
    1. **NEED PROCESS FROM MICHELLE**

iv. Local Partner Distributions
    1. **NEED PROCESS FROM MICHELLE**

d. Concept of Support
    i. Resourcing support for all distribution methods will be provided via a consolidated logistics pipeline. Replenishment will be conducted automatically and on demand. Reception, Staging, and Onward Integration (RSOI) of material resources will be managed via a warehouse system and RSOI of personnel resources will be managed via a Volunteer Reception Center and XXX (State Employees)
    ii. Tasks
        1. SEOC Logistics Section Chief is accountable for resourcing support for all distribution methods and maintaining end to end visibility of all resources requests
        2 SEOC Logistics Order Unit~~Support~~ Staff is accountable for maintaining the Pipeline Report to ensure accurate resource tracking
        3. Red Cross Warehouse Managers will provide warehouse management and are accountable to the SEOC Logistics Section Chief
        ~~3.~~4. SEOC Planning Resources Unit is responsible for tracking resources that are deployed.
        4. Red Cross will manage the Volunteer Reception Center in coordination w/ local EOC
        5. Local EOC Logistics will provide logistics support to the Rapid Response Distributions

    iii. Warehouse System
        1. Currently operating 3 locations with intent to consolidate to single, central location

Name	Location	Hours of Operation	POC
GCARD	2727 Lippincott, Flint , MI		Shawn
Clio	4315 North Clio Road, Flint, MI	Somehow mark this as the final warehouse were	John Foust

		everything will go???	
Court	3086 East Court Street		John Foust

iv. Volunteer Reception Center
   1. 1 location managed by American Red Cross
   2. The volunteer intake process takes 20-30 minutes

Name	Location	Hours of Operation	POC
American Red Cross	1401 S Grand Traverse Flint, Mi 48503	0900-1900	

v. Resource Request and Tracking Process
   1. Pipeline Report
   2. ~~https://goo.gl/G31kyJhttps://docs.google.com/spreadsheets/d/1wXVQvQ2IJ6N_ORpo8bvtBIEQJrDxkyoPg_EjZRtNepg/edit?usp=sharing~~
   2. All resource requests and offers of support (people, product, facilities, vehicles, etc) will be entered into MI CIMS as a resource request to the SEOC Logistic Section Chief.
   3. The SEOC Logistic Section Chief, will task it out to the State or Volunteer Agency that can fill that request or procure as necessary
   4. All resource requests and offers of support will be tracked and monitored via the Pipeline report (Google docs collaboration document)
   5. Warehouse inventories will be sent to the SEOC Logistic Section Chief, daily at 1800 and incorporated into the Pipeline report
   6 Volunteer Workforce Request for Volunteer Reception Center
      1. REQUIRED INFORMATION.
         i. Who is the Point Of Contact?
         ii. Who is the supervisor?
         iii Where do volunteers report?
         iv. What Dates are volunteers needed?
         v. What times are volunteers needed?
         vi. How many volunteers are needed?
         vii. Who is providing transportation for the volunteers?
         viii. Who is providing meals, snacks and beverages?
         ix. Are there any qualifications needed?
         x. IMPORTANT NOTE:
            - Brief job description is required
            - The requestor of the volunteers must understand they assume responsibility for the volunteer's safety and the volunteer's actions.
            - The requestor of the volunteers are responsible for managing and providing direction.
            - 48 hour advance notification required for request.
            - Reasonable expectations of the volunteer workforce

2. POD inventory will be provided to local EOC or SEOC Planning resource unit (this needs to be determined) hourly

Formatted

3. POD distribution report provided to local EOC or SEOC Planning resource unit (this needs to be determined) at 1200 and 1800. (This is a list of equipment that has been taken off the trucks and put in the PODs).
4. Fixed PODs, SEOC Planning resource unit needs to know total staff from each agency for tracking at 1000 each day.
5. Mobile Distribution is being conducted via Water Response Teams, SEOC Planning resource unit needs to know total staff from each agency for tracking at 1000 each day
6. Mobile Distribution is being conducted via Water Response Teams, SEOC Planning resource unit needs to know amounts that have been distributed for tracking at 1800 each day.
7. Rapid Response Distributions, SEOC Planning resource unit needs to know amounts that have been distributed for tracking at 1800 each day.
8. Local Partner Distributions, SEOC Planning resource unit needs to know amounts that have been distributed for tracking at 1800 each day.
9.

Distribution Reporting

1. Situation:

There are 45,000 active water meters in the impacted area
As of 2130 on 01.13.16 17, 276 households have received water filters
MAP

2. Mission Statement:

Ensure all households within the impacted area have the required resources

3. Execution
   a Commander's Intent
      i. Distribute filters and additional resources to all impacted households within 5 days. The priority of effort is the Fixed Points of Distribution (PODs).
   b. *Concept of Operations*
      i. Distribution of resources will be conducted using 4 methods: Fixed PODs, Mobile Distribution Teams, Rapid Response Distributions, and Local Partner Distributions.
      ii. Tasks
         i. Fixed PODs
            1. Red Cross will staff all sites through **XXX**
            2. Red Cross will conduct transition brief with Michigan National Guard on **XXX**
            3. Michigan National Guard will assume staffing responsibility as of **XXX**
         ii. Mobile Distribution is being conducted via Water Resource Teams
            1. Recovery Branch Support will determine Water Resource Team composition, standards, resource requirements, and priority areas for distribution
            2. Michigan State Police will provide command and control (assemble, coordinate, monitor) of Water Resource Teams
         iii. Rapid Response Distributions
            1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
            2. Local EOC Operations Logistics will execute Rapid Response Distributions
         iv. Local Partner Distributions
            1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
            2. **XXX** will execute partner requests for distribution support
   c. Coordinating Instructions
      i. Fixed PODs are located at 5 fire stations.
         i. POD Locations

Water Resource Site Fire Station 1	310 East Fifth, Flint, MI 48502	0900-2100
Water Resource Site Fire Station 3	1525 Martin Luther King Ave, Flint, MI 48503	0900-2100
Water Resource Site Fire Station 5	3402 Western, Flint, MI 48506	0900-2100

Water Resource Site Fire Station 6	716 West Pierson, Flint, MI 48505	-0900-2100
Water Resource Site Fire Station 8	202 East Atherton, Flint, MI 48507	-0900-2100

2. *POD Product Composition*
    1. **NEED FROM SHAWN**

ii. Mobile Distribution is being conducted via Water Resource Teams
    1. **Assembly area**
    2. **Mission Ready Packets**

iii. Rapid Response Distributions
    1. ***NEED PROCESS FROM MICHELLE***

iv. Local Partner Distributions
    1. **NEED PROCESS FROM MICHELLE**

d. Concept of Support
    i. Resourcing support for all distribution methods will be provided via a consolidated logistics pipeline. Replenishment will be conducted automatically and on demand. Reception, Staging, and Onward Integration (RSOI) of material resources will be managed via a warehouse system and RSOI of personnel resources will be managed via a Volunteer Reception Center and XXX (State Employees)
    ii. Tasks
        1. SEOC Logistics Section Chief is accountable for resourcing support for all distribution methods and maintaining end to end visibility of all resources
        2. SEOC Logistics Support Staff is accountable for maintaining the Pipeline Report to ensure accurate resource tracking
        3. Red Cross Warehouse Managers will provide warehouse management and are accountable to the SEOC Logistics Section Chief
        4. Red Cross will manage the Volunteer Reception Center
        5. Local EOC Logistics will provide logistics support to the Rapid Response Distributions

Comment [JE1]: To get resources for this operation should local EOC call SEOC or Logistics? -Jay

    iii. Warehouse System
        1. Currently operating 3 locations with intent to consolidate to single, central location

Name	Location	Hours of Operation	POC
GCARD	2727 Lippincott, Flint , MI		Shawn
Clio	4315 North Clio Road, Flint, MI		John Foust
Court	3086 East Court Street		John Foust

    iv. Volunteer Reception Center
        1. 1 location managed by American Red Cross
        2. The volunteer intake process takes 20-30 minutes.

Name	Location	Hours of Operation	POC
American Red Cross	*1401 S Grand Traverse Flint, Mi 48503*	0900-1900	

v. Resource Request and Tracking Process
   1. Pipeline Report
      https://docs.google.com/spreadsheets/d/1wXVQvQ2U6N_ORpo8bvtBIEQJrDxkyoPg-EjZRtNepg/edit?usp=sharing
   2. All resource requests and offers of support (people, product, facilities, vehicles, etc) will be entered into MI CIMS as a resource request to the SEOC Logistic Section Chief.
   3. The SEOC Logistic Section Chief. will task it out to the State or Volunteer Agency that can fill that request or procure as necessary
   4. All resource requests and offers of support will be tracked and monitored via the Pipeline report (Google docs collaboration document)
   5. Warehouse inventories will be sent to the SEOC Logistic Section Chief. daily at 1800 and incorporated into the Pipeline report
   6 Volunteer Workforce Request for Volunteer Reception Center
      1. REQUIRED INFORMATION.
         i. Who is the Point Of Contact?
         ii. Who is the supervisor?
         iii. Where do volunteers report?
         iv. What Dates are volunteers needed?
         v. What times are volunteers needed?
         vi How many volunteers are needed?
         vii. Who is providing transportation for the volunteers?
         viii. Who is providing meals, snacks and beverages?
         ix. Are there any qualifications needed?
         x. IMPORTANT NOTE:
            - Brief job description is required
            - The requestor of the volunteers must understand they assume responsibility for the volunteer's safety and the volunteer's actions
            - The requestor of the volunteers are responsible for managing and providing direction.
            - 48 hour advance notification required for request.
            - Reasonable expectations of the volunteer workforce

Comment [JE2]: In the google doc Henrik is listed as the local logistics POC. He is planning section in the EOC. Jay Eickholt is the current Logistics POC.

Distribution Reporting

Mike Sobocinski's notes on January 14, 2015 - 1st daily SEOC briefing (9:30am):

MSP SEOC Planning (Amanda Bresler): A 10:30am distribution process meeting has been added to the battle rhythm. Today is a "planning day" [this phrase was still not clearly explained but might refer to the development of a new IAP]. 12:30pm submission deadline for the ICS 204 form. Developing the IAP for the next operational period. (Numerous objectives were read aloud.)

MDEQ (*George* [redacted]): *There's been a question of when the water is to be considered safe. A tentative SEOC* answer (*not for public dissemination yet*) – since the question is complex, it will result from a consensus decision of all major partners, including locals. Copper and lead rules: a new 6-month monitoring period has just begun in Flint, involving a June 30 deadline for 60 samples to be tested for Cu, Pb. This routine schedule is of course too long for our current circumstances. Since December 9, phosphate supplements had been added to discourage pipe corrosion, rebuild a protective layer. There's a meeting with the Flint mayor regarding various system access points beyond the Pb and Cu rule's minimum test requirements. Seeking resident volunteers for monthly water test, to start analyzing trends over time. (Capt. Kelenske: It's being asked during the door-to-door visits, and over 60 so far have agreed. This info will be sent to DEQ.)

MSP SEOC Operations Section (Gabe Covey): An additional 80,000 square feet of warehouse space has been secured.

National Weather Service (Jim Askew[redacted]): Temperatures go up to the freezing point today. A mixture of snow and drizzle with the potential for icy roads where roads have been left untreated. Tomorrow from about 11am until about 6pm we expect rain showers, with the high temperatures around 40 degrees F. Not too much rain, a little ponding potential. Then from Friday evening, a little snow, as Saturday temperatures would be back down in the teens again and also during next week. Just one brief warm-up over the next day.

(Health and Environmental Branch, next few agencies)

MDHHS (Jennifer [redacted]): Subject matter experts are in the CHECC working on yesterday's question regarding emergency vs. disaster eligibility of a particular program under the Stafford Act. Working on the stress effects of the event upon mental health. Developing educational materials and messaging. Developing short and long-term goals regarding the "food desert situation." [NOTE: Afterward I gave her my contact info to join discussion of definitions and alternatives; related transportation access ideas such as providing paid bus passes to improve food access]

MDARD (Brad Deacon): A revised handout was approved and is being mailed out to food service locations, and web posting. Inspections of these locations will begin.

MDLARA (Karen Towne): Something about a pilot project (involving, or in addition to,) insulation and retesting. There's a question involving licensed in-home child-care facilities (up to 6 kids) and asking them whether they want to be water testing sites. Will research whether the authority exists to require testing.

MDEQ (Jen Wolf): Ensuring the transport and storage of water test kits. Heard a report of non-residential (e.g. businesses) told that the kits were only for residential units, but this is not true and therefore must be corrected. Test kits, etc. are free to all, not just residential: "No one gets turned away for anything."

MDHHS? (Richard Thelen): A database with more than 17,000 addresses was supplied to the GIS section. 2-1-1 inquiry regarding whether State Emergency Relief (SER) is available. Will need to develop messaging on this topic, to explain to everyone what it is and what is available.

Lauren (Loren?) of the American Red Cross?: A logistics pipeline plan [is/was/is being?] developed.

American Red Cross (Paul Spata): Volunteer Reception Center was opened but not yet publicized, because it's first day was to test its processes to ensure they will be up to speed. About 6 volunteers were processed yesterday. Today, it should be fully open. Ten emergency response vehicles were staged to support the response teams in the field.

Department of Education (Louie Burgess): Receiving calls from federal level regarding things like unlicensed child care centers (residential, for up to 4 kids at a time). Checking into information for those inquiries. A 17-level departmental director is now on the educational planning team. The department is seeking contact with the Flint school district for something... [very unclear]

MDHHS (Brian Wilson): Volunteers remain active in Flint.

State Office on Aging? (Steve Betterley): Sent at least 500 additional names to GIS staff yesterday. The Valley Area Agency on Aging raised a question regarding GCCARD: something about it not being involved in something [I didn't discern the details in any coherent way], and Michelle Kuzera, MSP representative at the local EOC, will follow up with Kathy Bolz (sp?) to resolve the issue. Getting information on Medicaid waiver clients. Teri Simmons (sp?) will represent this office for the 4pm briefing.

MSP Public Safety (Inspector Bolger): MSP is at the local EOC. [Phone-in participants interrupted numerous times with information; I'm not totally sure who said what in the end.] Buses are being used to shuttle residents. 36 MSP volunteers available today for Flint activities. Adequate filters and water are on hand right now (at least 1000). Wrapping up with the southwest side of Flint today, and proceeding to the north and northeast sides starting tomorrow. Discussion about different teams having different sizes, creating confusion over estimates of how many total persons are on them...between 4 and 15 persons per team? (Captain Kelenske directs a standardized number on each team, with accurate summary info presented to him in writing. A 10:30am follow-up call was agreed to.) Obtained trailers were not all adequate for their required purpose, such as being open-top trailers—situation must be resolved.

MDMVA / MING (?): All went well yesterday with the National Guard soldiers posted at the fire stations. More than 30 troops are being used today. 1pm media address occurring today. Tomorrow at 9am, 3 soldiers will be assigned to each fire station.

MDTMB (Jeannette Doll): Getting water moved over to Clio. A water-order program is in process. U-Haul trucks are being ordered to fill the MSP resource transportation needs. Have upgraded now to a $30 million Home Depot contract. Replacement filters are important for long-term recovery.

Local EMHSD Liaison [MSP's Michelle Kuzera]: Working on planning tasks and processes for the homebound.

MSP SEOC Logistics (Wendy Galbreath): Site visit took place yesterday (with Lauren) to check into new locations. Three locations are now moving toward one large location at Clio Road, which has its own experienced crew for loading and unloading trucks, plus a Red Cross warehouse manager. Daily logistics meetings now occur at 10:30am (brief) and at 7pm (longer). Court Street and GCCARD will have their resources moved to and consolidated at Clio. (MSP's Kriste Davis: Mission-ready packages MRPs. Working toward standardized teams of similar size, plan being pushed up to work on it today. Yesterday's final numbers turned out to be 492 occupied homes visited (total 653, implied to include vacant ones).) About 2 minutes per door – a good rate of field work.

PIO/JIC (Shannon ?): Reviewing fact sheets. Michigan Association of Broadcasters sending radio PSA today. Received a request for door-to-door team credentialing (with official ID). If this is to be used, info will be needed for official distribution. [illegible] Someone else: the problem may be when teams cover an entire block, with the 1 vehicle not easily visible to every household.)

MSP Planning (Amanda Bresler): Improving the pod technology thanks to MSP James Tchorzynski's work there. Meeting with agencies to help with ICS 204 forms. 6pm situation reports are due. Next briefing will be at 4pm.

Capt. Kelenske: Senator Arenic(h) was met with and shown the SEOC; appeared impressed.

1. Situation:

There are 45,000 active water meters in the impacted area
As of 2130 on 01.13.16 17, 276 households have received water filters
MAP

2. Mission Statement:

Ensure all households within the impacted area have the required resources

3. Execution
    a. Commander's Intent
        i. Distribute filters and additional resources to all impacted households within 5 days. *The priority of effort is the Fixed Points of Distribution (PODs).*
    b. Concept of Operations
        i. Distribution of resources will be conducted using 4 methods: Fixed PODs, Mobile Distribution Teams, Rapid Response Distributions, and Local Partner Distributions.
        ii. Tasks
            i. Fixed PODs
                1. Red Cross will staff all sites through **XXX**
                2. Red Cross will conduct transition brief with Michigan National Guard on **XXX**
                3. Michigan National Guard will assume staffing responsibility as of **XXX**
            ii. Mobile Distribution is being conducted via *Water Resource Teams*
                1. Recovery Branch Support will determine Water Resource Team composition, standards, resource requirements, and priority areas for distribution
                2. Michigan State Police will provide command and control (assemble, coordinate, monitor) of Water Resource Teams
            iii. Rapid Response Distributions
                1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
                2. Local EOC Operations Logistics will execute Rapid Response Distributions
            iv. Local Partner Distributions
                1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
                2. **XXX** *will execute partner requests for distribution support*
    c. Coordinating Instructions
        i. Fixed PODs are located at 5 fire stations.
            i. POD Locations

Water Resource Site Fire Station 1	310 East Fifth, Flint, MI 48502	0900-2100
Water Resource Site Fire Station 3		
Water Resource Site Fire Station 5		
Water Resource Site Fire Station 6		
Water Resource Site Fire Station 8		

2. POD Product Composition
    1. **NEED FROM SHAWN**

ii. Mobile Distribution is being conducted via Water Resource Teams
    1. **Assembly area**
    2. **Mission Ready Packets**

iii. Rapid Response Distributions
    1. **NEED PROCESS FROM MICHELLE**

iv. Local Partner Distributions
    1. **NEED PROCESS FROM MICHELLE**

d. Concept of Support
    i. Resourcing support for all distribution methods will be provided via a consolidated logistics pipeline. Replenishment will be conducted automatically and on demand. Reception, Staging, and Onward Integration (RSOI) of material resources will be managed via a warehouse system and RSOI of personnel resources will be managed via a Volunteer Reception Center and XXX (State Employees)

    ii. Tasks
        1. SEOC Logistics Section Chief is accountable for resourcing support for all distribution methods and maintaining end to end visibility of all resources
        2. SEOC Logistics Support Staff is accountable for maintaining the Pipeline Report to ensure accurate resource tracking
        3. Red Cross Warehouse Managers will provide warehouse management and are accountable to the SEOC Logistics Section Chief
        4. Red Cross will manage the Volunteer Reception Center
        5. Local EOC Logistics will provide logistics support to the Rapid Response Distributions

    iii. Warehouse System
        1. Currently operating 3 locations with intent to consolidate to single, central location

Name	Location	Hours of Operation	POC
GCARD	2727 Lippincott, Flint , MI		Shawn
Clio	4315 North Clio Road, Flint, MI		John Foust
Court	3086 East Court Street		John Foust

    iv. Volunteer Reception Center
        1. 1 location managed by American Red Cross
        2. The volunteer intake process takes 20-30 minutes.

Name	Location	Hours of Operation	POC
American Red Cross	1401 S Grand Traverse Flint, Mi 48503	0900-1900	

v. Resource Request and Tracking Process

1. Pipeline Report
   https://docs.google.com/spreadsheets/d/1wXVQvQ2IJ6N_ORpo8bvtBIEQJrDxkyoPg-EjZRtNepg/edit?usp=sharing
2. All resource requests and offers of support (people, product, facilities, vehicles, etc) will be entered into MI CIMS as a resource request to the SEOC Logistic Section Chief.
3. The SEOC Logistic Section Chief. will task it out to the State or Volunteer Agency that can fill that request or procure as necessary
4. All resource requests and offers of support will be tracked and monitored via the Pipeline report (Google docs collaboration document)
5. Warehouse inventories will be sent to the SEOC Logistic Section Chief. daily at 1800 and incorporated into the Pipeline report
6. Volunteer Workforce Request for Volunteer Reception Center
   1. REQUIRED INFORMATION:
      i. *Who is the Point Of Contact?*
      ii. Who is the supervisor?
      iii. Where do volunteers report?
      iv. What Dates are volunteers needed?
      v. What times are volunteers needed?
      vi. How many volunteers are needed?
      vii. Who is providing transportation for the volunteers?
      viii. Who is providing meals, snacks and beverages?
      ix. Are there any qualifications needed?
      x. IMPORTANT NOTE:
         - Brief job description is required
         - The requestor of the volunteers must understand they assume responsibility for the volunteer's safety and the volunteer's actions.
         - The requestor of the volunteers are responsible for managing and providing direction.
         - 48 hour advance notification required for request.
         - Reasonable expectations of the volunteer workforce

Distribution Reporting

Recovery Branch – 1/13/16 6:00 pm

- Coordinating with Red Cross on volunteers for weekend
- Ordered 15 passenger vans to transport teams 1/14-1/15
- Contacted Comcast to coordinate volunteer opportunities- awaiting response of number of potential volunteers.
- Coordinated trucks and drivers with Corrections to deploy on 1/14-1/15
- Coordinated tracking numbers with GIS:

Overall Numbers:		1/13/2016
Occupied Homes	533	291
Vacant Homes	238	86
Total Homes	**771**	377
Resources		
Door Hangars	473	256
Water	265	148
Filters	235	123
Pitchers	9	6
Water test kits	92	44
Replacement Filter	93	93
Total Resources Dispersed	**1167**	
Future sample test site	62	34

Mike Sobocinski's notes on January 13, 2015 - 2nd daily SEOC briefing (4:00pm):

MSP SEOC (Brianna Briggs): leads the meeting: Agency situation reports are due by 6pm. "Tomorrow is a planning day." [No explanation for this statement was provided.] Agencies, be sure to update 204 forms tactics, especially pods, teams, warehouses, etc.

(Health and Environmental Branch, next few agencies) MDHHS Community Health (Kathy Wahl [sp?]): Working on nutritional plan with several other agencies. Lori ([Laura?]) Sempler ([sp?]) will be the lead on that plan. Disaster behavioral health coordination is occurring, with CHECC exploring options, checking with DTAC at SAMSA [references not explained], targeted to Stafford Act qualifications. (Capt. Kelenske: does it qualify under an emergency such as this? This needs to be verified.) Some wording changes were suggested for the fact sheet.

MDARD (Brad Deacon): Mailing out food establishment requirements—about 800 of them.

MDEQ (Jen Wolf): Conversation about bringing more health people into the ([local?]) EOC.

M???: Two of the 5 trucks loaded with water filters are at the GCCARD. 10,700 filters, [two other large numbers were given for other types of resource there, rattled off too quickly for my poor & tired writing hand to keep up with]

American Red Cross (Paul Spata): Staffing fire station points of distribution. Further coordination with MI National Guard (MING) on staffing. Volunteer reception center was up today; numbers to be reported in the sit rep tonight. Fielding a request to feed field response teams.

MDHHS (Brian Wilson): Their volunteers are still in the field. Heard concerns about some IPads not functioning in the cold, then seemed to work better? Awaiting confirmation of replenished stock.

Offices of Services on Aging (Steve Betterly): Valley Area Agency on Aging has been fielding calls. Something fell apart regarding the schedule of water/filter deliveries—need to get in touch with local EOC on this. (Brian Wilson: probably fixed last night.) (Michelle Kuzera?: Local EOC confirms follow-up to occur [She disappears from phone suddenly, not to reappear]).

Capt. Kelenske: Any more personnel needed by the Sheriff's department for deliveries?

[Unknown replacement on phone from local EOC]: Being handled okay by the locals so far.

Capt. Kelenske: Consider replacing sheriff staff with area health and social work specialists, to better match staff with their expertise and free up sheriff personnel for their normal duties. (Services on Aging ([Steve?]): off-duty teams are available to help with phone lines and resource distribution.)

MSP: Working with MDOT for shuttle vans, working with Public Affairs re: state agency volunteers for the weekend.

MI National Guard (Colonel Reynolds): 1 full-time staff at each of the 5 "pods." Friday morning 9am will resume handing out water at the pods. 800 MHz channel. MING needed 33 volunteers, and actually

obtained 48. (Capt. Kelenske: Any feedback on public reaction or questions re: MING soldier presence? A: not known.)

MDTMB (Jeannette Doll): A warehouse has been located at another site. Red Cross and MSP Wendy Galbreath are checking it out as a replacement for the other site that had problems (Court Street school district site). Stuff is to be moved from the old to new site. Based upon truck loads, will be maintaining 8 truck loads per day through Saturday, available on Sunday too, if needed. 117,000 filters coming in, and 139,000 faucet (founts???). Tablets are coming in tonight to the EOC for GIS staff to download an app, then going to Flint in the morning. Information cards sent to Flint. 15 trucks are waiting. (Capt. Kelenske: They must offload somewhere and not wait.) Only 1 loading dock at each facility. Court Street won't work—told that it was vacant and had 80,000 square feet, but it was full. (Someone on phone, Jackie Hampton perhaps, later announces that the site will be available tonight, after all. Commissioner Curtis had prompted warehouse emptying which is allowing trucks to be moved there now. Equipment and staff available to unload, with warehouse reportedly able to be cleared out tonight. A Dort Highway location is being investigated for suitability.)

Local EOC (unknown person): Information entry and radio [channels?] seem good. Only the issue of supplies waiting on the road (presumably: on trucks or in transport) must be cleared up.

MSP SEOC Logistics (Penny Burger): Working on trailers and vehicles from Department of Corrections, for door-to-door campaign. Coordinating with MSP for Thursday and Friday volunteers. Financial analysis being finished up—to be reviewed first by Captain Kelenske before submission.

MSP SOEC Planning (Zach Baker? Couldn't see across room.): Progress on tracking inventory. Sit reps due at 6pm.

MSP SEOC Recovery Team (Kriste Davis): Some numbers may not be in yet—issue of paper substitute for frozen IPads. 394 homes were visited yesterday, plus 378 more today, possibly more, once additional reports are processed. Even if number appears lower today, there was a smaller number of vacant homes today, so the actual number of inhabited homes is higher today. Working with the Red Cross this weekend for teams. Monday is a holiday. (Capt. Kelenske: Any info on community reaction? A: No info yet.)

JIC/PIO (Shannon Banner): Media hotline saw a markedly increased number of calls, although it was not overloaded. Some media questions need answers to come from the SEOC. Good collaboration with 2-1-1, county, and state agency PIOs. Could use the local PIO today, though. From 11:30a to 12:30p there was a media briefing at fire station #3—very good media turnout, positive in tone. Waiting for the logo approval (from local and county) for the response team. (Capt. Kelenske: How is 2-1-1 doing—being monitored for success of call handling, good staffing levels, etc.? Nicole Lisabeth [JIC/PIO]: 2-1-1 is going well.

(Phone discussion regarding Legionnaire's disease report—unclear who the participants were.)

Capt. Kelenske: DHHS will handle those Legionnaire's-related questions through separate, normal channels, not through the SEOC or local EOC but through other channels, as a separate matter.

SEOC Planning Brianna Briggs: The next briefing will be tomorrow at 9:30am.

Mike Sobocinski's notes on January 13, 2015 SEOC briefing (9:30am):

MSP SEOC Planning chief (Amanda Bresler): leads the meeting: Agency situation reports are due by 6pm. A new IAP is available. Agencies need to update their "204 forms" throughout the day.

National Weather Service (Jim Askill[illegible]): Still cautioning about the potential for frostbite in 30 minutes or less (for exposed skin outdoors). Tomorrow's temperatures are expected to rise to about the freezing point (32 degrees F). Possible light rain on Friday could cause icy roads. The weekend will be a little colder, with occasional snow.

MDHHS ([illegible]): CHECC is working on a nutritional plan with other agencies. The plan could address education, short-range and long-range goals, and the mitigation of lead vulnerabilities, perhaps working with a farmer's market. Reference to Flint as a "food desert" and to perhaps open a decent grocery store there. A potential lead impact document has been submitted to planning. Currently considering mental health impacts and resources. Following up with local health departments to determine their staff and support needs.

MDARD (Brad Deacon): A document was approved: Requirements for Licensed Food Establishments using City of Flint Water.

MDLARA ([illegible]): Coordinating with MDEQ. MIOSHA scientists are to help with residential water testing.

MDEQ (Jen Wolf): Extra staff are in Flint today to help with kits. A field observer is helping to organize and plan for the transport of kits to the lab. Helping with the request for a presidential declaration.

Human Services ([DHHS?]) (Rich [illegible]): Reports "zero filtration products" at the fire stations as "Good job!" [Unclear to me exactly what and why he is reporting as good] Regarding trucks, information is needed about the quantities on them, being distributed.

American Red Cross (Paul Spata): Five fire stations are staffed for resource distribution. [something] management team for GCCARD (Genesee County Community Action Resource Department). Began [?? just the start of ARC involvement, does he mean?] assembling water testing kits. Volunteer reception center is active today. "Lauren" [who??] was brought in for logistics planning in the SEOC.

MDHHS (Brian Wilson): Staff volunteers are on site to help with distribution.

[also MDHHS?] (Steve Federly): *Valley Aging is "extracting" data on seniors for use by GIS.*

Michigan State Police ([illegible]): Teams are out now, matched with sheriff personnel. G-event channels were set up on 800 MHz radio: 9 is the primary and 10 is the secondary channel.

Michigan Department of Corrections (Brent Travelbee): Teams are in the area, assisting. A 50' truck was delivered to the food bank. Local shuttle bus will start tomorrow in the area, able to take about 20 persons at a time to obtain resources.

Michigan National Guard (Chad Randall): Some soldiers are to help at distribution points. Just one per location. MING leaders meeting with Flint mayor today.

MDTMB (Jeannette Doll): There is [some sort of unclear] issue with the Court Street warehouse...something which sounded like it involved its seller having a $2 million liability on it. Might need a food-grade warehouse [not sure whether I heard this phrase correctly]. Working on resource requests and replacement cartridges and water.

MSP SEOC Logistics (Penny Burger): Every agency remember to update past assignments and resource requests in MI CIMS. There's been a request for a budget projection of total costs for this year, which would be hard to do more than just guess at right now.

Recovery Team (Brianna Briggs): "Water Resource Teams" are in the field—that is their official name *and is to be used. Could place and maintain an extra* 15 *teams in the field* (Friday). Working with Red Cross to assemble real-time data from "pods" at the fire stations.

PIO/JIC (Nicole Lisabeth): Set up [something; could not make it out]. Good media reports at 11pm last night. Monitoring media and clarifying the role of the MI National Guard, who are at resource sites, not going door to door. *Red Cross is dealing with distracting media personnel at water distribution sites.* Flint's bus system is now including water resource sites on its routes. Arabic-language information card is proceeding ahead, and logo/branding of water resource teams is being worked on. There was some sort of Legionnaire's Disease report in the media today, according to MDHHS.

MSP SEOC Planning section (Amada Bresler): Resource list to integrate with fire stations and local EOC info. The next briefing is at 4pm today.

January ??, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C. 20500

Through: Ms. Janet Odeshoo, Acting Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, Illinois 60605

Dear Mr. President:

Under the provisions of Section 401 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5207 (Stafford Act), and implemented by 44 CFR § 206.36, I request that you declare a major disaster for the State of Michigan as a result of water system problems and their associated public health impacts within the City of Flint (Genesee County), since May 2014.

The current public health emergency involves serious problems with the water quality supplied through the city's system... (Describe physical human impacts – injuries/deaths)

(Describe voluntary agency assistance provided to Flint to assist with this issue: ARC and its level of operation, Salvation Army, Southern Baptists, MIVOAD, other agencies, municipal programs/shelters, etc. Include numbers and dates – cases, persons, amounts, etc.).

(Indicate the States of Emergency declared, by whom, and for which areas.)

(Describe physical damages which have occurred, utility and service disruptions, impacts upon people, effects upon critical facilities, other emergency conditions, health and safety hazards, status of repairs/improvements and their estimated completion dates, if known.)

(Provide information on PDA findings, how/where conducted, accessibility concerns.)

General background/context:
Throughout the 20th Century, several overarching trends affected cities throughout the United States, in ways which would eventually prove to be very challenging to historical central cities—especially Flint. Through the 1920s, long-established development patterns had involved the expansion of central cities through the method of "annexation," in which outlying lands officially became part of the city and thus became supplied with urban infrastructure which allowed for more intensive development. However, as various technological advances reduced the costs of the infrastructure required to support moderate levels of development in outlying areas, many of these urban fringe areas became developed without a full need for the central city's urban infrastructure. Traditional urban transportation requirements had also been transformed by the mass-production of affordable automobiles, allowing great increases in the distances over which people could commute to work each day. These general national trends tended to then be supported and institutionalized with various laws and policies, solidifying the independent strength of "suburban" developments around each historical central city. For example, Michigan's Charter Township Act of 1947 greatly enhanced the capacity of townships to resist annexation efforts, so long as they provided a suitable level of infrastructure and services on

their own. Other post-war policies included the Federal Housing Administration's support of suburban residential development, the construction of the interstate highway system which provided infrastructure to allow rapid transportation between the central and fringe sections of most major urban areas, and subsequent shifts of retail outlets (e.g. shopping malls) and employment centers (e.g. office and industrial parks) toward outlying areas where taxes were less expensive, land was more plentiful, and metro-area processes had led to suburban areas with concentrations of wealthier consumer and highly educated, specialized labor forces existed which made these suburban locations highly logical choices for new developments of these types.

Although the proliferation of suburbs had been consistent with certain kinds of democratic ideals, allowing more freedom of choice among area schools, municipalities with their own separate electoral processes and budgets and revenue systems, and various lifestyle choices associated with certain locations, there were also serious problems which these processes were creating. One was the development of segregation patterns, which had to be offset over the course of several decades with government action such as Shelley versus Kraemer (1948) and the Fair Housing Act of 1968. Urban planners worked with new principles and requirements involving equity, such as the spatial distribution of subsidized housing according to "fair share" principles, and also involving environmental justice, recognizing that some of the most heavily polluted and disaster-prone areas were tending to be those that were becoming disproportionately occupied by poorer residents and persons identified with ethnic minority groups. Many school districts shared some of the same boundaries which had divided central cities from suburbs, resulting in another set of institutional impacts which required corrective policies to adjust for, such as busing and later Schools of Choice programs.

Although it took only a couple of decades for the negative effects of these processes upon most central cities to become clear, it often took additional decades to start correcting some of their effects. Some of these have continued to this very day because of their complexity, and thus the political, economic, and organizational difficulties of addressing them effectively. Michigan has seen central city budgets shrink greatly along with declines in those municipalities' populations, land values, intensity of development, and tax revenues. A "vicious circle" has sometimes developed, in which declines of one type have gone uncorrected for enough time that related declines are caused or worsened, leading to the dilemma of how to stop such a negative cycle from continuing.

In the case of the City of Flint, it had grown rapidly during the early 20th Century and then saw its population peak in the 1960 census, at a population of nearly 200,000. From this peak, the population had dropped only slightly by 1970, but each decade thereafter saw the loss of more than 10% of the city's population. Today's population is estimated at only about 100,000—only about half of what it had been 50 years before. But despite the loss of important industrial plants and their associated jobs, most of this change in the central city was the result of a dispersion of population and resources across the broader metropolitan area, rather than from an overall metropolitan decline. Genesee County as a whole continued to have its population increase through 1980. As Flint itself lost about 37,000 persons between 1960 and 1980, Genesee County's population increased by about 76,000. Only then did the area as a whole start declining, sporadically and inconsistently, with the county sometimes registering slight

population growth, alternating with periods of larger decline. These simultaneous patterns are shown in the following data table:

	1930	1940	1950	1960	1970	1980	1990	2000	2010
Flint	156,492	151,543	163,143	196,940	193,317	159,611	140,761	124,943	102,434
Genesee	211,641	227,944	270,963	374,313	444,341	450,449	430,459	436,141	425,790
ratio	73.9%	66.5%	60.2%	52.6%	43.5%	35.4%	32.7%	28.6%	24.1%

As Flint was completing its mid-20th Century boom, its population grew substantially, except during the depression decade of the 1930s. During this time, the county as a whole was also expanding, at a somewhat faster rate than the city, so the proportion of the county's population found in the central city did decline during that period. However the city's shrinking proportion within its metropolitan area did not pose much of a problem as long as both the city and the overall area were growing. By contrast, the extent of central city population loss seen after 1970 was very serious, straining the city's budget to the point where an emergency manager was assigned by the governor (in 2011), providing greater authority to sort through the many challenges and shortfalls which had accumulated. Shrinking city revenues, budgets, and services seemed over time to lead to conditions and situations which directly affected the health of its residents—alarming rises in homicide rates, deterioration of the city's housing stock, an accumulation of brownfield sites, episodes of widespread arson, and the current public health emergency involving the city's water supply.

Central cities frequently provide important services and functions for their entire metropolitan areas, but as a result of 20th Century trends, such cities often bore increasing financial burdens while doing so, as many sources of tax revenue dropped off as residents moved to suburbs and increasingly shopped and worked in those suburbs as well. Even when businesses and people remained in the central city, tax revenues often shrank when overall property values declined within an increasingly suburban and exurban metropolitan environment. According to Flint's 2013 Master Plan (page 18), the daytime weekday population of the city increases to nearly 134,000 as a result of worker and student inflows. Thus, the city regularly supports traffic and services for more than 30,000 persons beyond those who are full-time residents of the city. During major events, this number is much higher. Flint falls into the category of city that has been called a "legacy city" (See *Rebuilding America's Legacy Cities*, edited by Alan Mallach in 2012 and published by American Assembly, Columbia University), caught in the problems of transitioning from its historic mid-20th Century manufacturing base into new roles for 21st Century health and success. It has been caught in a long-term trap of an aging infrastructure combined with dwindling municipal revenues. And although there are opportunities available by which the city might successfully make that transition, its current problems must first be overcome. (Mallach xi, 180-183) In order to offset mismatches between a central legacy city and the disproportionate wealth of the surrounding areas it serves, various planners and urban policy experts (e.g. Norman Krumholz, Myron Oldfield, John Rusk) have found that various forms of revenue sharing may be justified, greater integrating the central districts with the overall metropolitan area whose health is mutually intertwined, or finding ways to fund the health of essential central sections and infrastructure within existing political and organizational structures, networks, and capacities. Cities are legally "creatures of the state" and thus subject to the effects of state policy. Where past policies had resulted in an accumulation of fiscal

problems for central cities, new policies have the potential to help solve these same problems in the long-term. But first, the immediate threats to health for nearly 100,000 permanent city residents, plus tens of thousands of non-residents who make daily use of the city's resources, services, and amenities, must be corrected. The importance of the problems of aging city infrastructure has become clear, but the first step is to protect the health of the area's residents, as longer-term solutions continue to be developed with a keener awareness of the relationship between the health of each central city, and the quality of life for each broader metropolitan area and the state as a whole. A successful response to the current emergency will also help to inform the handling of similar challenges that might occur in other legacy cities, with this one crisis potentially providing the urgency and will to address related problems in other locations, lessening the potential for their infrastructure to produce a similar emergency-level situation.

The city's poverty rate is 2.67 times higher than the national poverty rate, and the city's median household income is less than half of that for the nation as a whole. Average unemployment rates within the city were nearly three times the national rates. A disproportionate number of the city's residents have disabilities (functional needs). Although the percentage of elderly residents is slightly below average, the opposite is true for the percentage of young children under age 5, and it is this age category that is most vulnerable to the effects of lead exposure. The percentage of children under 5 is higher in Flint than the respective percentages for Genesee County, the State of Michigan, and the United States as a whole. (Refer to the following table.)

Demographic Profile of the Affected Municipality

	Persons Below Poverty Level	Median Household Income	Children under 5 years	Percent Elderly (65+ years)	Percent with Disabilities	Percent Pre-Disaster Unemployment (5-year estimate)
National Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State Average	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint (Genesee Co.)	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

Data Sources
U.S Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)

NOTE: The general direction I had started with my draft text was to historically frame this situation as the result of various trends that affected large central cities during the past 60-100 years, with the choking of central city resources eventually causing mismatches that would eventually have to be addressed. Thus, unlike so many previous administrations, Michigan recently actually undertook some significant actions to directly address some of these issues of budget, debt, bankruptcy, school district losses, etc. in historic cities like Detroit, Flint, Benton Harbor, Pontiac, etc. where huge population losses occurred primarily within the central city, while overall urban area growth continued and resulted in resource splits. Naturally, these references, deriving from a theoretical urban planning perspective, will need to be reviewed for their political feasibility.

NOTE: Green-highlighted text is not for this event. It is here as an example, and was from the 2014 metro-Detroit flood disaster request letter.

"Equally troubling, the socio-economic profile of the affected counties and local communities found at Attachment 1 shows these areas are also some of the most economically-distressed in the region and therefore least able to recover from this flood disaster on their own. For example, in Wayne County, where over 23 percent of residents live below the federal poverty level, in the hard-hit cities of Dearborn, Detroit, Highland Park, and Inkster, the poverty levels all exceed 25 percent. In the City of Highland Park, the poverty level is closer to 50 percent. Three significantly affected Wayne County communities (i.e., the cities of Detroit, Highland Park, and Inkster) have median household incomes (at $26,955, $20,298, and $28,095, respectively) that are close to one-half of the state average of $48,471. In Macomb County, the City of Warren's poverty level exceeds 17 percent and its median household income, at $44,982, also lags nearly 8 percent behind the state average. The cities of Dearborn and Dearborn Heights in Wayne County both have poverty levels exceeding the state average, and median household incomes that are less than the state average. The cities of Madison Heights and Oak Park in Oakland County also experience those same conditions. Unemployment in many of the affected communities is also high. For example, all three counties have unemployment rates (at 9.6 percent, 8.4 percent, and 11.1 percent, respectively) that exceed the state average of 7.7 percent. (Unfortunately, Michigan's unemployment rate remains one of the highest in the nation, and well above the national average of 6.2 percent.) The City of Highland Park has an unemployment rate that exceeds 23 percent, while the City of Detroit's rate exceeds 17 percent. As the table at Attachment 1 shows, several other communities particularly hard-hit by the flooding also have unemployment rates that exceed double digits."

The following information is furnished on the nature and amount of State and local government resources that have been or will be used to alleviate the conditions of this emergency:

(Describe response actions by state and local governments. Describe any state/local Individual Assistance programs.)

NOTE: Green-highlighted text is not for this event. It is here as an example, and was from the 2014 metro-Detroit flood disaster request letter.

"In response to this flood disaster, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on August 13, 2014, in accordance with

Section 401 of the Stafford Act. On that same date, under my authority as Governor, I also proclaimed a State of Disaster for the counties of Macomb, Oakland, and Wayne, including the local political subdivisions located therein, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned counties and local political subdivisions in responding to and recovering from this disaster. I must note that numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to, providing direct assistance to the affected communities and to individuals, assessing the damage and impacts to affected state facilities, infrastructure, and services under their stewardship, and taking appropriate actions to keep those affected facilities, infrastructure, and services operational.

NOTE: Green-highlighted text is not for this event. It is here as an example, and was from the 2014 metro-Detroit flood disaster request letter.
"I have determined that this incident is of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that supplemental federal relief assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected counties specified in this request, and activation of the Hazard Mitigation Grant Program for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are tabulated at Enclosures A and B, respectively."

(Provide the disaster history of the State over the past 12 months... List areas that have sustained damage from this event and other disasters in the previous 12 months, and include any other pertinent factors that would have a bearing upon the State's ability to respond, such as economy of the area, terrain, inaccessibility, or capacity of voluntary organizations active in disaster.)

(If Individual Assistance is being requested, provide detailed information on the impacted population, including percentage of insurance, percentage below poverty level, median household income, percentage of elderly, percentage of disabled, pre-disaster unemployment rates, and any other special populations [children under 5]. Include a comparison of the percentage of the state and local government averages and national averages. Indicate source of data cited.) NOTE: This data is provided in Attachment 1.

(If Public Assistance is being requested, provide a brief analysis of infrastructure damage by category, including the cost estimates for each category and the percentage of the total eligible Public Assistance cost estimate. Include a discussion of significant impacts to specific areas. If any local communities have sustained significant damage and have incurred extremely high per capita impacts, provide that information, especially if the localized damage is in the tens or even hundreds of dollars per capita. Discuss the level of insurance coverage.

NOTE: Green-highlighted text is not for this event. It is here as an example, and was from the 2014 metro-Detroit flood disaster request letter.

"Information regarding the nature and amount of state, local, and nongovernmental resources that have been or will be used to alleviate the conditions of this disaster can be found at Attachment 2, 'Significant State and Local Response and Recovery Actions.' Maps, weather and flood charts, and damage photographs related to this disaster can be found at Attachment 3, 'Supporting Maps, Charts, and Photographs.'"

NOTE: Green-highlighted text is not for this event. It is here as an example, and was from the 2014 metro-Detroit flood disaster request letter.

"I certify that for this major disaster, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act. Total non-federal share expenditures are expected to equal or exceed $4,816,304, in accordance with the tables at Enclosures A and B."

NOTE: Green-highlighted text is not for this event. It is here as an example, and was from the 2014 metro-Detroit flood disaster request letter.

"I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf."

Sincerely,

Rick Snyder
Governor

Mike Sobocinski's notes on January 12, 2015 SEOC briefing (9:30am):

MSP Resouce unit (acting planning chief) Amanda Bresler: Reading IAP objectives. SEOC hours will go until 8pm, so 6pm agency situation reports are due. 2pm tactics meeting scheduled.

National Weather Service (Jim Askill): Contacted Genesee County EOC and added them to the list of NWS contacts. Today's weather is "sloppy," with "off and on" lake effect snow. Some spots might see snow all day, other spots might not see much. Various bands produce spotty effects locally. Today, snow, low temperatures, and winds produce treacherous travel. Frostbite sets in within 15 to 30 minutes on exposed skin. About 1 to 2 inches of snow accumulation will be seen today, then "off and on" snow tomorrow during both day and night—one inch or less. After the next few days it should warm up a bit (to the freezing point).

MSP SEOC Operations section (Jackie Hampton): Identified shortages need to be addressed: water filters and test kits. Another warehouse is being opened today. Need equipment at DHHS site (loaders, etc.) to move resources on/off vehicles. 9600 cases of water per day are being handled, so space is needed to stockpile that. GCARD (?) to eventually be used for staging only, when more space has been found.

DHHS (Jennifer ??): Currently at a level 2 activation. Processing the request for a warehouse facility. Must sort through the short and long-term storage needs. Distributing guidelines/message information. Also dealing with volunteer information (and organization -- the availability of volunteers).

MDARD (Kay Fritz): Updated guidance document re: food service establishments, and the document is being approved through the JIC. Animal shelters and related tasks are being worked on. Information is going out to veterinarians in Flint. Coordination occurring with Genesee County Health Department and Genesee County animal control. (She quickly reads off their list of actions.)

MDLARA (unknown person?): Doing work with ?plumbing chief? En route. Didn't catch information clearly? A list of home-based day care centers is available.

MDEQ (Jen Wolf): Refers to online links for approved water filters. 10,000 water test bottles are on order. Coordination with American Red Cross. More supplied ordered – another 10,000 water test bottles. Would like to always have at least 2,000 on hand, at the warehouse.

Capt. Kelenske: Make sure that the fire stations have what they need. That's the area that is farther from direct control (i.e. outside of state framework).

MDHHS (unknown speaker): *Logistics of coordinating with American Red Cross, etc. Given 10am ETA* on truck with provisions from/to? Home Depot? retail outlets. But it's more useful to be given a current location of the truck, rather than an ETA. About 700 (something – individual bottled water servings? I think?) were obtained and are being delivered.

American Red Cross (Paul Spotten): Trying to increase staffing. Is it possible to reduce hours (stopping at 7pm) to accommodate the difficulty for volunteers during the cold weather? (Capt. Kelenske: Current

hours are 9am to 9pm, and will remain so.) Some warehouse teams have been established. Tomorrow, a volunteer reception center is opening.

MDHHS (Brian [illegible]): Teams are preparing for distribution activities, but the main current focus is on the procurement of water filters.

MI Dept. Of Civil Rights (Mark [illegible]): About 15,000 Spanish-language and 30,000 English-language palm cards exist. Would like to arrange deliveries to Our Lady of Guadelupe Church and to the Hispanic center. (Capt. Kelenske: Must deliver broadly to all faith based places at once rather than just to one or two specific ones.)

Office of Services on Aging ([illegible]): Delivery to 1400 addresses with seniors – meals, care management services. Working with the Genesee and Valley Area agencies on aging. Care management clients information obtainable from various senior agencies. Becoming aware of a citizen distrust of filters alone, with seniors requesting water in addition. State and local ombudsmen checking on nursing homes to verify the use of bottled water there—these facilities are all mapped in GIS, so the info is available. (Capt. Kelenske: Must broaden messaging to build trust in filters. Jackie Hampton: Are be able to test filtered water, to build that confidence? Jen Wolf DEQ: All samples received are being tested, so filtered water samples won't be turned back, but the lab doesn't want to ask for samples of *filtered water. Nicole Lisabeth PIO: hadn't heard about testing filtered water – official info should* be distributed if it's to be done.)

MSP (officer ? in SEOC): Truck shipments, tracking on map, three or more trucks requested. Comparing deployment with supply.

MDMVA (Chad Randall[illegible]): Researching the resources available to fill requests.

MDTMB (Jeannette Doll): Reached out to Meijer, found that they'd already been shifting their filter supply toward their Flint stores. Checking into Amazon as another source. Three trucks with drives are to arrive tomorrow. A 50' trailer is to be procured. (Jackie Hampton: drivers needed 7a to 10p). Emergency can allow extension of the normal 14 hour limit that drivers can be on the road. About 30,000 palm cards being printed.

Capt. Kelenske: All state agency resources are available and can be brought to bear. Any resistance can be overcome through authorities of/in the SEOC. For example, "any" state employee can go door-to-door [i.e. minus those with physical/health limitations]. But logistics do need to be sorted through.

MSP (Staging) Team (Brianna Briggs): Presented info in Flint and answered questions. Two kits were given out in some cases instead of just one (per household), when concerns were brought up about filtered water quality. Local volunteers are many. If state agencies do need to eventually contribute more staff, they'll be notified.

PIO (Nicole Lisabeth): Currently stressing the use of filters as the most efficient way to secure good drinking water for each household, long-term. Backed by Dr. Eden Wells in this—announced at about 6pm last night. A warehousing and inventory management system (is being used? is needed?) for an

inventory system. There's a parking issue re: media, but teams are getting out in the field, with instructions not to be delayed/distracted by media inquiries or activities. Teams are not to engage with media, but just to focus squarely upon their assigned tasks. All media are to be referred to the PIOs and the JIC. (Capt. Kelenske: A standard statement to this effect is to be used by workers—not even a "no comment" response, but that all media requests are to go through the PIO/JIC.) The Governor's office is sending daily emails to Flint, advising to use water filters, and that teams are going door-to-door. 2-1-1 is available to call there, a public service announcement (PSA) video has been made, a website is available. Working with Comcast to show the PSA video and to place filter instructions on a public access channel there. Billboards are going up in Flint to inform about the availability of 2-1-1 and of the website. Mailed cards are going out. Working on an Arabic translation for information cards. Getting information on churches to participate—by the weekend? Inquiries obtained regarding any Pb issues in other areas of the state. It's important to have city and county PIOs in the JIC. Some 2-1-1 rumors of lead in bottled water were dismissed/discouraged. Some calls were reported as being made to the FEMA national headquarters, involving concerned agencies such as the NAACP. Questions were also received on how corporations can make donations. (Capt. Kelenske: 2-1-1 is very important. Verify the staffing and system in place there; minimize chance of a shortfall.)

MSP Planning (Amanda Bresler): Updating the 204 form. Working to improve the local tracking sheet for resources at Flint area fire stations.

Local EOC (Mark DuCharme): Volunteers are needed at both warehouses. Don't refer to the new warehouse as "Diplomat" – because there is an existing business it may be confused with.

Capt. Kelenske: Give that warehouse a generic name, not even "DHHS warehouse." Overall, fine job so far. Focus on what we can do, and remember to take a breath or to step back occasionally so that there aren't problems with stress interfering. The smallest detected slip will be portrayed as a significant news event. The next state agency update will be at 4pm at the latest – might occur sooner.

Flint Water Lead Project

Michigan Department of Health and Human Services
Situation Report for January 11, 2016

Governor Snyder declares a state of emergency for Genesee County due to the health and safety issues related to lead in city of Flint drinking water.

The Community Health Emergency Coordination Center (CHECC) is at Level 2 Activation - Elevated Threat/Alert Mode.

****NOTE: Contains potentially Identifiable Information- REDACT AS INDICATED****
New items for the day listed first and in bold print.

Daily Briefing and Situation Report prepared by Linda Dykema

Surveillance Indicators: People Tested 10/1/2015 to 12/18/2015: 2,182;
Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 23
Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 13
Severity Indicators: Hospitalized/Discharged-1/1; Deaths- 0

DAILY ACTIVITY SUMMARY

Elevated Blood Level (EBL) Environmental Investigations – ETC Contractors, Wes Priem, Courtney Wisinski

- EBL report through 1/6/2016
  - **22 families contacted**
  - 14 EBL investigations completed.
  - 14 Water sampling completed.
  - 7 EBL Reports Received.
    - 6 homes with lead dust hazards
    - 3 homes with lead in soil hazards
    - 5 homes with lead-based paint hazards
    - 2 homes with lead detected in tap water
      - 0 homes with lead water levels >5 ppb
      - 0 homes with lead water levels >15 ppb
  - **6 investigations scheduled.**
  - 5 applications received for the Lead Safe Homes Program, 1 family enrolled.

MDHHS/Genesee County Health Department (GCHD) Case Management (CM) Services – Nancy Peeler

- Families that have moved to other counties
  - GCHD forwarded a list of 40 families they were unable to contact: CLPPP staff identified updated contact information for 39 of the 40 families and forwarded that information to GCHD on 1/5/16.
  - GCHD is utilizing the updated information. They have already identified a family that has relocated to Ingham County, and another that relocated to Florida. Nancy has reached out to Mark Miller to initiate contact with Ingham for follow-up with that family.
- CM report through 12/31/15:
  - # of contacts attempted: 186 (0-5 year olds) and 12 (6-17 year olds)
  - # offered CM: 109 (0-5 year olds) and 6 (6-17 year olds)
  - # CM started: 25 (0-5 year olds) and 2 (6-17 year olds)
  - # of children receiving CM who live in Flint: 25 (0-5 year olds) and 2 (6-17 year olds)
  - # billed to Medicaid: 14 (0-5 year olds) and 1 (6-17 year olds)

- # other disposition: 23 (0-5 year olds) and 1 (6-17 year olds)

Epidemiology/Surveillance – Corinne Miller, Patti McKane, Martha Stanbury, Bob Scott, Jessica Cooper

- **Dr. Hanna-Attisha provided the first set of requested data as approved by MDHHS IRB.**
- **Blood testing data through 12/8/2016 pulled from the warehouse: report pending.**
- The data specifications and metrics were developed for a report to measure blood lead testing of children in Flint who are enrolled in Medicaid. The preliminary report will be reviewed week of 1/11/15.
- Additional Zip code-specific blood lead data on children in Flint was provided in response to a request from the MDHHS Director.
- Pending: hiring 2 epidemiologists to provide BLL surveillance support.

Filter & Water Distribution Sheryl Thompson

Filter Distribution 10/1/15 to 1/6/15			
	Received	Distributed	Remaining
Water Filters	15,000	11,587	3,413
Water Pitchers	720	251	469
Replacement Cartridges - Brita	9,000	1,704	7,296
Replacement Cartridges – PUR*	5,706	33	5,603
Replacement Cartridges - Zero	375	8	367

*The PUR replacement cartridges are being made available in all locations for the convenience of residents. Once the PUR cartridges are exhausted and more are needed DHHS will purchase additional ones. The current supply was given to DHHS and GCCARD by United Way.

Communications/Information Sharing – Linda Dykema, Eden Wells

- No updates.

Health Education Resources Updates - Michelle Bruneau, Emily Houk

- Continuing to write and coordinate additions to the EBL Case Manager Binder, now known as the MDHHS Lead Safe Family Guide Book. (MB)
- Began work on filter cartridge changing fact sheet; clarifying uses of filtered/vs unfiltered water (MB)

Toxicology - Kory Groetsch, Lisa Quiggle, Jennifer Gray

- Working on method(s) to convert lead dust wipe sample results into an intake metric compatible with the IEUBK model.
- Working on Child EBL Access database, which will be used to ensure that each child/family is offered all available SOM services and activities related to EBL cases.

WIC

- No updates.

Healthcare/Providers

- No updates

DEQ Information - Linda Dykema as Liaison

- No updates

SEOC Update:
Accomplished today (January 10):

- Logistics
  - Worked on maintaining supplies at each of the local PODs.
  - Worked to get and maintain accurate tracking of resources in the field.
  - Worked to get warehousing team in place for the following day to assist at local warehousing location.
- JIC
  - Media event at the Genesee County Office Building.
  - Governor will be speaking.
  - Capt. Kelenske will be speaking.
  - PIO and security will be checking credentials at the door.
  - Video for distribution will be filmed today
  - MDHHS is working on radio PSA information
  - Working on getting Comcast and Dish Network to provide channel for looped information
  - Working on POC for google
- Recovery Branch
  - Working with MSP to develop areas for canvassing.
  - Trained staff for tomorrows canvassing event.
  - Working with Brian to have full list of canvassers.
  - Working with JIC and Nicole to make sure PIO is connected with the team they will shadow.
- Planning Section
  - Participated in the local agency and both SEOC briefings.
  - Tracked resources and worked with the local EOC to get accurate inventory information.
  - Supported logistics by reaching out and establishing a steady water supply for the city.
  - Worked with GIS branch to refine strategy
- Operations Section
  - Fire stations up and running today and providing resources to the citizens.
  - Tomorrow will be a planning day for the SEOC for the next operational period.
  - State Flint JIC is operational today.
  - Tasked planning section with assisting logistics with water resource investigation and procurement.
  - The State Deputy Director and FEMA LNO have contacted governmental agencies for possible water procurement.
  - Internal resources for bulk water delivery have been identified.
  - Some water donations have been attained to supplement supply and will begin distribution periodically over the next two weeks.
  - An ongoing purchase of bottled water that been established through Home Depot to delivery **6,000 cases of water per day**. The first delivery will occur tomorrow.

- Finance Section
  - Have established direct billing accounts with three food establishments that can deliver lunch to staff in the Local EOC and JIC. Information has been provided to Michelle Kuzera, Nicole Lisabeth, Jane Yount and Ron Leix. Task completed.

- Continuing to track SEOC staff and provide guidance on procurement and tracking SEOC costs. Task in progress as it is long term and continuing.

The SEOC continues to provide:

- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Provide resources.
- Public Information Control.

MSP/EMHSD GIS Section Updates
Accomplished Today (January 10):

- Updated distribution sites map.
- Submitted a request to ESRI (GIS Vendor) to supplement our technology and provide professional services in support of the incident.
- Updated Flint DDACTS (crime analysis) hotspots.
- Coordinated getting additional staff due to operational hour increase from DTMB (Currently only one additional expected, will request more tomorrow).
- Setup ArcGIS in conjunction with Flint GIS staff.
- Configured mobile app for field data collection during MSP neighborhood visits.
- Updated filters database and generated maps.
- Began mapping lead service lines (anticipated to have rough idea of lead service lines by Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

DTMB:

- Cards are printed for 11:30, churches, fire. 2 additional trucks for distribution will be there all week. Able to deliver until 9 pm. 2 trucks to assist will supplies in the neighborhood.
- Worked with PIO for access in building and safe parking
- Contacted Home Depot starting Tuesday they will deliver 4 truckloads of water to GCCARD for the next 5 days.

DHHS-CH

- CHECC increased to Level 2 and is staffed with leadership and section chiefs. Subject matter experts are not currently in the CHECC but are available by phone.
- Coordinating with MDE and MDARD on nutritional planning communications.
- Coordinating with the CHECC to determine status of ETC lead investigator(s) request.
- The Community Health Emergency Coordination Center (CHECC) has officially elevated its level of activation to "Level 2 - Partial Activation." Currently the CHECC is staffed with BETP leadership and Section Chiefs only. SMEs will be brought in as necessary.

DEQ

- DTMB will be picking up a shipment from the lab at 3p today. The lab will have as much as they can have ready on the loading lock at 3p. They are nearly complete on the final form and will provide to me shortly.
- Simplified sampling form that has gone to DTMB to print and will be there tomorrow.
- There were 1382 bottles picked up today, Monday afternoon. There are approximately 3200 bottles remaining in Lansing. These will all be ready to ship tomorrow afternoon.

Local EOC Update:

- Working to coordinate resources at the local level to maintain distribution of supplies at all PODs.
- Seeing supplies rapidly disappear from PODs today. Working to make sure POD managers are notifying us when they start running low.
- Working to establish a warehouse for local resource storage.
- Additional DC Mark Russo
- Established trigger points for resources at PODs and hourly inventory reporting from the POD staff.
- Discussion of potential long-term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Developed Sit Rep #1.
- Met with Natasha Henderson to request deployment of City representative at local EOC.

- Ensure logistics for water resources for the City of Flint
    - Ensure water supply is set up to deliver semi-truck loads (at least 2) daily to the GCCARD/Future warehouse.
    - Work on procuring water through donations or purchasing from community partners to supply the GCCARD/Future warehouse.

FAUCET - DRINKING FOUNTAN REPLACEMENT PROPOSAL January 8, 2016

FREEMAN ELEMENTARY, 401 Ogema Street, Flint

This proposal is for the replacement of all of the faucets/drinking fountains in Freeman Elementary School, Flint, MI, that were found to have elevated lead content in the water from the *~~report issued~~ faucets tested on October 24,2015, by the Department of Environmental Quality. This proposal also is for the replacement of any brass valve or copper fitting used in the water supply pipe and fittings where 50% lead/50% tin solder was used for the joints.

At Freeman Elementary, 31 faucets were tested using a series of four samples each. Twenty-two outlets did not show elevated lead exposure, but nine faucets came back with initially high results.

Those nine outlets involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. The DEQ report listed the lead content of the water from the nine faucets as greater than 15 parts per billion.

Retesting the nine faucets with high lead levels after new faucets are installed could demonstrate that that the old faucets significantly contributed to the high levels. The retest will be administered identically to the original test of the school.

Results from this pilot program to retest Freeman could affect the State of Michigan's long term strategy of ensuring clean drinking water in Flint Schools and the City of Flint

LARA plans on funding this proposal for the replacement of the faucets/fountains and piping.*

Replacement faucets/fountain and piping are to be certified with no lead.

- 3 sink faucets- $200 each: $600
- 6 bubblers - $100 each: $600
- 9 Water supply valves/pipe fittings - $100 each: $900
- Labor/installation - $625 each for 9 sites $5,625

Estimated total $ 7,725.00

*The faucets and bubblers replaced are to be equal to the original faucets/fountains installed in Freeman Elementary.

Fixture Replacement Process

- Permit submitted by the school to the State.
- State approves and issues permit.
- Michigan licensed plumber installs fixture. LARA's Plumbing Division employees can do this work.
- State inspects new fixture and approves.

Under a State of Emergency the Governor has the ability to waive permit and inspection fees

Based on the results of the pilot, if successful, the state could consider staged expansion of the program with funding coming from multiple sources - including emergency funding as well as seek out donations from corporate (i.e. Delta, Moet.) as well as workers (plumbers and pipefitters union).

This proposal was prepared by the Department of Licensing and Regulatory Affairs, Plumbing Division.

*Proposal amended on January 11, 2016

Mike Sobocinski's notes on January 11, 2015 SEOC briefing (9:30am):

MSP Planning Section Chief Tom Weber leads the meeting, reads list of objectives from IAP. A state agency briefing is occurring every afternoon now. The SEOC was open on both Saturday and Sunday this past weekend.

MSP EMHSD Jackie Hampton: Agencies need to stay focused on completing form 204 and their critical tasks. Those who are speaking in the SEOC should now stand to present their information into the microphone.

National Weather Service (Jim [redacted]): During the next 48 hours will get challenging. Fairly tame light snow right now, but from 8pm onward there will be more snow coming in with winds. About 2 to 3 inches are expected in the Flint area from 5pm today to 8pm tomorrow evening. The expected temperatures will be in the teens. Blowing snow will mean that it will be hard to keep roads clear, creating hazardous travel conditions. Temperatures will be cold and will result in wind chill factors below 0 degrees F. Frostbite would be expected on skin exposed for times less than ½ hour. From Wednesday to Friday, only occasional light snow is expected, but the cold temperatures will continue.

MDHHS (Jennifer [redacted]): The CHECC has been opened, with a partial activation. Subject matter experts will be brought in as needed.

MDARD (Justin Henderson): He refers to yesterday's update [as if everyone was here yesterday], and no change to that update. [Several other agencies simply reported no significant change, or didn't mention anything that sounded specific and important enough for me to include here. Some phone-in agencies might have been too brief or garbled to be included.]

MDEQ (Jen Wolf): Coordination between their lab and various other agencies (city of Flint, DTMB, MDARD, DHHS, etc.) on test bottles, kits, and instruction sheets. Seeking appropriate dispersion of bottles within Flint, to match actual local needs (rather than too many at locations whose needs are not as great as others').

MDHHS (Richard Thelen): Things are proceeding on track. Setting up for 1pm training at (site [redacted]). Getting arrival time estimates on all orders, establishing filter quantities, gave some info to GIS for processing.

American Red Cross: Has staffed distribution sites at 5 fire stations, 9 churches, and helped to organize more (for water and filter distribution). Some larger sites are needed.

Adult Services (Steve [redacted]): Pulling together the list of addresses for Flint seniors who are at higher risk. Exploring the role that could be played by their nutrition network, in response to a "food desert" concern that was raised. The Department of Education feeds children. Better framing is needed for nutritional needs issues. (Jackie: DHHS is working on it.) [My comment: In my experience, the "food desert" concept was completely overblown, applying an exaggerated name and limited definitions that failed to recognize the true variety and accessibility of foods through various transportation options and exaggerating the low quality of food that is readily available locally, fixating upon particular ideas of raw fruits and vegetables while downplaying the substitutability of frozen vegetables, packaged mixes, etc.

But this is actually the topic that Kari Day had researched for her master's degree and so we should make use of her expertise on this, if she's interested. I mentioned this to her as she was leaving for Flint and she did say that she's interested in coordinating and providing her expertise on the topic. My own views are merely rooted in theoretical and methodological skepticism and my own experiences, but she is the one who's done actual research on the subject in Detroit, and although she might agree with some of my critiques, I might be off base in others and certainly don't have her experience in researching the topic. There are legends circulating widely on this topic, typically involving a mythical Detroit grocer selling bad apples for $7 each, and I've pointed out at meetings that such a concept doesn't make any economic sense for a store owner, and that it makes no sense to dismiss the availability of cheap but nutritious frozen vegetables and decently fresh ingredients which are available at places like "Subway," but the sole emphasis upon gardens and raw produce grocers, and the offhand dismissal of everything that certain researchers have labeled as "fast food" has horribly overstated the "problem" in most areas. At some point, these debates could be resolvable through actual data. Much of my own criticism stems from personal experience at finding nutritious foods while living in poverty for a couple of years without a car in the middle of Lansing. Although Lansing is obvious not a worst-case scenario, certain principles still apply elsewhere. If transportation available through bus routes, those who can use the bus usually have access to major grocery stores. For those who don't want to take a bus, various substitutes can be found which aren't considered in the dubious research designs I've seen on the subject. For those who are simply stuck at home, it might not matter if they have a garden and store one block away, since immobility is immobility.]

MSP (Matt Bolger): Tomorrow, there will be a walking tour in Flint. Electronic tablets would be useful for data entry, rather than the traditional paper forms.

MDTMB (Jeannette Doll): Cards have been printed for the Governor's conference this morning. Trucks are going to Flint, with transport arranged for all this week. Parking improvements are being organized.

Recovery Branch (Brianna Briggs): Working through MSP (Amy Dehner) and going to Flint to provide information, attend training session. Contact lists are being made for teams in Flint. Will coordinate *with the JIC and PIO.*

SEOC Logistics ([person didn't stand]): Four new churches will serve as distribution points. People should specifically label new requests as such when entering/sending the info in. Do not use the Resource Tracking Board (in MI CIMS) to send notes to oneself.

SEOC Finance (Penny Burger): A hotel is set up for direct billing in the Flint area – unsure how many are traveling there. Would like lists of staff who might stay in Flint, to ensure that a room is available there. Some have made their own arrangements, which could be okay, but Finance can help with overnight lodging.

PIO (Nicole): Flyer was sent to MDTMB. A Spanish version is being completed. 2:30pm County Office Building media briefing will take place in Flint. News release for that is going out today. Governor Snyder, Capt. Kelenske, and the MDEQ director are speaking, plus others. Video public service

announcement being arranged for Comcast Cable (30 seconds long), similar to radio PSAs—MDHHS worked on these, being broadcast soon.

SEOC Planning: 3:30 agency situation reports and summaries submission deadline. 4pm afternoon agency briefing will occur.

Tony Katarsky: Replacement staffing is underway. It's okay to not overwork, to take time off as needed, although the official leave time may feel limited at this time.

STATE OF MICHIGAN
EXECUTIVE OFFICE
LANSING

RICK SNYDER
GOVERNOR

BRIAN CALLEY
LT. GOVERNOR

EXECUTIVE ORDER
No. 2016 – 1

CREATION OF
FLINT WATER INTERAGENCY COORDINATING COMMITTEE

MICHIGAN DEPARTMENT OF STATE POLICE

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the state of Michigan in the Governor; and

WHEREAS, Section 2 of Article V of the Michigan Constitution of 1963 empowers the Governor to make changes in the organization of the Executive Branch or in the assignment of functions among its units that he considers necessary for efficient administration; and

WHEREAS, municipal water in the City of Flint showed elevated lead levels after the City of Flint switched its water source to the Flint River; and

WHEREAS, the County of Genesee and the City of Flint have taken actions to cope with the situation, including but not limited to, switching back to the Detroit water system on October 16, 2016, declaring local states of emergency, activating the emergency response and recovery aspects of their emergency operations plan, marshaling and distributing required resources on a city-wide level, and issuing emergency public information and bulletins; and

WHEREAS, the Flint Water Advisory Task Force was formed as an independent advisory task force charged with reviewing actions regarding water use and testing in Flint; and

WHEREAS, the Flint Water Advisory Task Force has made an interim recommendation that the state government should coordinate a sustained, public-health focused response to remedy, to the fullest extent possible, the impacts on the Flint community; and

WHEREAS, on January 5, 2016, the Governor issued a proclamation declaring a state of emergency in the County of Genesee and the City of Flint; and

WHEREAS, multiple state departments and local authorities share the responsibility for ensuring safe drinking water and the coordination of efforts to address the consequences resulting from the presence of elevated lead levels in drinking water; and

WHEREAS, ensuring safe drinking water and addressing the consequences of elevated lead levels in drinking water will require collaboration and communication between state departments, local governments, and subject matter experts; and

WHEREAS, the establishment of a Flint Water Interagency Coordinating Committee within the Michigan Department of State Police will facilitate the collaboration and

communication between state departments, local governments, and subject matter experts necessary to effectively coordinate a response and recovery effort;

NOW, THEREFORE, I, Richard D. Snyder, Governor of the state of Michigan, by virtue of the power and authority vested in the Governor by the Michigan Constitution of 1963 and Michigan law, order the following:

I. CREATION OF THE FLINT WATER INTERAGENCY COORDINATING COMMITTEE

A. The Flint Water Interagency Coordinating Committee ("Coordinating Committee") is created as an advisory body within the Michigan Department of State Police (the "Department").

B. The Coordinating Committee shall be composed of the following seventeen (17) members who shall serve an initial term expiring on December 31, 2018.

- The Director of Office of Urban Initiatives within the Executive Office of the Governor;
- The Deputy State Director of Emergency Management and Homeland Security within the Michigan Department of State Police;
- The Director of the Department of Environmental Quality, or his or her designee;
- The Director of the Department of Health and Human Services, or his or her designee;
- The Director of the Department of Licensing and Regulatory Affairs, or his or her designee;
- The State Treasurer, or his or her designee;
- The Superintendent of Public Instruction, or his or her designee;
- The elected Mayor of the City of Flint who shall be appointed to the Coordinating Committee by the Governor;
- Three (3) additional representatives of the City of Flint who shall be submitted by the Mayor of the City of Flint and appointed to the Coordinating Committee by the Governor;
- Three (3) representatives of Genesee County who shall be submitted by the Genesee County Board of Commissioners and appointed to the Coordinating Committee by the Governor; and
- Three (3) subject matter experts who shall be appointed to the Coordinating Committee by the Governor.

After the initial appointments, members of the Coordinating Committee appointed under this subsection shall serve terms of three years.

C. A vacancy on the Coordinating Committee occurring other than by expiration of a term shall be filled in the same manner as the original appointment for the balance of the unexpired term. A member may continue serving until his or her successor is appointed. A member may serve successive terms if reappointed.

II. CHARGE TO THE COORDINATING COMMITTEE

A. The Coordinating Committee shall act in an advisory capacity to the Governor and subject to the Governor's review and approval, shall do all of the following:

1. Create an incident action plan designed to assist state and local authorities in ensuring safe drinking water for the residents of the City of Flint and addressing the consequences of elevated lead levels in drinking water.

2. Review recommendations made by the Flint Water Advisory Task Force and propose statutory, regulatory, or contractual actions necessary for implementation of such recommendations.

3. Identify staff with competencies in emergency planning, operations, logistics, and finance as outlined under the National Incident Management System (NIMS) to work with the Coordinating Committee to track resource requests and document progress on the incident action plan.

4. Establish a standard process for sharing pertinent information between all members including use of the NIMS and Unified/Incident Command as appropriate.

5. Establish routine communications protocols at the local, executive, and legislative levels as appropriate.

6. Establish a public information protocol to effectively inform the community.

7. Make recommendations for acceptable standards for potable water.

8. Make recommendations regarding the health impacts for the affected population.

9. Assess the status of infrastructure and determine feasible actions to upgrade the water system.

10. Establish subcommittees among its members to specifically address, at a minimum, each of the three following topic areas: Water Quality, Community Health, and Education.

11. Assist the Governor and the Department in implementing appropriate operations permitted under the Michigan Emergency Management Act or the federal Stafford Disaster Relief and Emergency Assistance Act, including local emergency operations plans and guides.

12. Explore any avenues of funding for response and recovery efforts including federal grants, legislative appropriations, and private partners.

B. The Coordinating Committee shall provide other information or advice as requested by the Governor or the Department.

III. OPERATIONS OF THE COORDINATING COMMITTEE

A. The Coordinating Committee shall be staffed and assisted by personnel from the Department as directed by the Department Director. Any budgeting, procurement, and related management functions of the Coordinating Committee shall be performed under the direction and supervision of the Department Director.

B. The Director of Office of Urban Initiatives within the Executive Office of the Governor and the Deputy State Director of Emergency Management and Homeland Security shall together serve as the Statewide Coordinators responsible for the administrative functions of the Coordinating Committee.

C. The Coordinating Committee may utilize subcommittees and advisory panels composed of its members to assist in completing the functions of the Coordinating Committee. The Coordinating Committee may request public participation on advisory panels as the Coordinating Committee deems necessary.

D. When making recommendations to the Governor, a majority of the serving members of the Coordinating Committee must concur.

E. The Coordinating Committee shall meet at the call of either of the Statewide Coordinators and as may be provided in procedures adopted by the Coordinating Committee.

F. The Coordinating Committee may, as appropriate to perform its duties, make inquiries, conduct studies, consult with outside experts and federal agencies, and receive comments from the public.

G. Members of the Coordinating Committee shall serve without compensation but may receive reimbursement for necessary travel and expenses according to relevant statutes *and the rules and procedures of the Civil Service Commission, and the Department of* Technology, Management and Budget, subject to available funding.

H. The Coordinating Committee may accept donations of labor, services, or other items of value from any public or private agency or person. Any donations shall be expended in accordance with applicable laws, rules, and procedures.

I. Members of the Coordinating Committee shall refer all legal, legislative, and media contacts to the Department.

J. A writing prepared, owned, used, in the possession of, or retained by the Coordinating Committee in the performance of an official function is subject to the Freedom of Information Act, 1976 PA 442, as amended, MCL 15.231 to 15.246.

IV. MISCELLANEOUS

A. All departments, committees, commissioners, or officers of this state or of any political subdivision of this state may give to the Coordinating Committee, or to any member or representative of the Coordinating Committee, any necessary assistance required by the

Coordinating Committee, or any member or representative of the Coordinating Committee, in the performance of the duties of the Coordinating Committee so far as is compatible with its, his or her duties.

B. Any suit, action, or other proceeding lawfully commenced by, against, or before any entity affected under this Order shall not abate by reason of the taking effect of this Order.

C. The invalidity of any portion of this Order shall not affect the validity of the remainder of the Order.

The Executive Order shall become effective upon filing.

Given under my hand and the Great Seal of the state of Michigan this 11th day of January, in the year of our Lord, Two Thousand Sixteen

RICHARD D. SNYDER

SEOC Daily Agenda
January 10, 2015

Time	Meeting	Personnel/Staff
0800	Unified Command Objectives Meeting	Command Staff (Library)
0830	Local Agency Briefing	SEOC General Staff/Local Agency/EOC Reps (Library)
0930	Command/General Staff/SEOC Briefing	Command & General Staff
1230	ICS 204 Submissions Due	Branch Director
1400	Tactics Meeting	General Staff & Branch Directors (Library)
	Prepare Objectives and Tactics for IAP	Planning Staff
1530	Agency and Section Chief Sit Rep Submission Deadline	State Agency EMC's and Section Chiefs (MI CIMS)
1600	Planning Meeting/SEOC Briefing	Command/General Staff/State EMCs (SEOC)

1. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and subject matter experts. (Operations Section Chief)
    A. Request and establish FEMA LNO in the SEOC to support liaison with other federal agencies (State Director)
    B. Establish Recovery Branch within the Operations Section. (OSC)
    C. Maintain daily SEOC briefing with state agencies. (PSC)
    D. Establish and maintain routine calls with local emergency manager and EMHSD District Coordinator. (State Director)
    E. Daily Subject Matter Experts coordinating call (OSC)

2. Obtain and maintain situational awareness and common operating picture of all activities. (PSC)
    A. Conduct daily briefings with state agency emergency managers. (PSC)
    B. Monitor MICIMS. (All)
    C. Produce maps to include bottled water, water filter, and pitcher, filter distribution, affected areas and infrastructure, and method of distribution. (GIS)
    D. Complete and produce daily situation reports. (PSC)
    E. DEQ planning liaison to local EOC (DEQ/LSC)

3. Develop operational framework – State Director
    A. Develop operational period and hours of operation-State Director
    B. Revise operational period and hours as necessary-State Director

4. Research possible sources of assistance. (Recovery Branch Director - RBD)
    A. Identify agencies to research potential assistance programs (RBD)
    B. Named agencies will research programs and determine eligibility guidelines, benefits, application process, contacts, etc. (RBD)
    C. Provide written report to Operations Section Chief as to program availability. (RBD)
    D. Investigate the federal Lead Pipe Replacement Program (DEQ)
    E. Investigate possible state assistance programs (FSC/MSHDA)
    F. Investigate Non-Stafford Act Assistance Programs (LNO/RBD)

5. Develop a comprehensive GIS strategy. (GIS)
    A. Identify critical needs for maps and overlays. (GIS)
    B. Identify current and potential resources for data collection. (GIS)
    C. Contact and coordinate with identified agencies to obtain and centrally locate all data. (GIS)
    D. Provide spatial analytics in support of SEOC. (GIS)
    E. Map food establishments and licenses. (GIS/MDARD)
    F. Coordinate with SME at UM-Flint regarding the digitization of City of Flint water infrastructure. (GIS)

6. Develop a Recovery Plan. (RBD)
    A. Establish Recovery Branch. (OSC)
    B. Gather and compile available resources. (RBD)
    C. Gather and compile available assistance programs. (RBD)
    D. Determine resources already provided to affected area in response to emergency. (RBD)
    E. Identify potential mission areas for MIVOAD and other NGO's. (RBD)

7. Develop communication structure amongst SME's. (OSC)
    A. Identify subject matter experts (Dr. Wells, Dr. Mona Hatta-Attisha, Dr. Richard Sadler (MSU-Mapping), George Krisztian). (OSC)
    B. Establish and coordinate routine communication between SME's. (OSC)

8. Provide technical assistance to the local Damage Assessment process. (RBD)
    A. Establish Recovery Branch. (OSC)
    B. Provide templates and information as to requirements of damage assessment reports. (RBD)
    C. Conduct daily conference calls with local emergency manager and EMHSD District Coordinator to assess progress and obtain updates. (RBD)
    D. Coordinate daily communication with the District Coordinator and GIS Unit Leader to monitor progress and document data. (RBD)

9. Develop a public information strategy for the incident. (PIO)
    A. State agency PIO's meet to determine needs and strategy for public information dissemination. (PIO)
    B. *Determine technical needs for on-site JIC. (PIO)*
    C. Coordinate with local (County/City) JIC. (PIO)
    D. Determine need to co-locate state and local JIC. (PIO)
    E. If the need to relocate the JIC is identified, establish location and logistical needs. (PIO)
    F. Develop and distribute door hangers for public information. (PIO)

10. Monitor MI CIMS for resource requests and address as appropriate. (LSC)
    A. Monitor and assist with input of resource requests. (LSC)
    B. Review requests and review with command to receive approval to assign and fill requests. (LSC)
    C. *Track resources provided to date and those provided throughout the course of this event. (PSC)*

11. Develop a financial structure for this incident. (FSC)
    A. Establish Index/PCA. - Complete
    B. Distribute information to state agencies. – Complete
    C. Track costs related to this emergency. (FSC)

12. Develop a public nutrition strategy for the incident.
    A. Identify activities to date and provide coordination in development of strategy. (MDARD)
    B. Increase public nutrition education in the affected area. (MDHHS)
    C. Maximize participation in existing Child Nutrition Programs. (MDE)

13. Develop a plan for water testing all impacted water service customers.
    A. Identify distribution points. (MDEQ)
    B. Coordinate public outreach. (MDEQ/PIO)

14. Develop an incident safety structure.
    A. Ensure safety at worksites and safe work practices. (MSP Safety Officer)
    B. Prepare weather briefings for any severe and adverse weather that will impact the incident and travel. (NWS)

15. Develop an incident distribution process.
    A. Coordinate all participating agencies and NGOs. (Local EOC/Logistics/MCSC)
    B. Develop coordinated plan for warehousing and distribution. (Local EOC/MDHHS)
    C. Warehousing. (Genesee County Food Bank)
    D. Distribution. (Local EOC/MCSC/ARC/NGOs)
    E. Donations. (2-1-1)
    F. Ensure adequate distribution and supply levels (Local EOC, GIS)

1. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and subject matter experts. (Operations Section Chief)
    A. Request and establish FEMA LNO in the SEOC to support liaison with other federal agencies (State Director)
    B. Establish Recovery Branch within the Operations Section. (OSC)
    C. Maintain daily SEOC briefing with state agencies. (PSC)
    D. Establish and maintain routine calls with local emergency manager and EMHSD District Coordinator. (State Director)
    E. Daily Subject Matter Experts coordinating call (OSC)

2. Obtain and maintain situational awareness and common operating picture of all activities. (PSC)
    A. Conduct daily briefings with state agency emergency managers. (PSC)
    B. Monitor MICIMS. (All)
    C. Produce maps to include bottled water, water filter, and pitcher, filter distribution, affected areas and infrastructure, and method of distribution. (GIS)
    D. Complete and produce daily situation reports. (PSC)
    E. DEQ planning liaison to local EOC (DEQ/LSC)

3. Establish SEOC operational period and hours of operations. (State Director) – Completed.
    A. Operation Period has been established as well as SEOC operational hours
    B. Review weekly for alteration of same

4. Investigate and identify all available programs for assistance with direct or related impacts. (Recovery Branch Director - RBD)
    A. Identify agencies to research potential assistance programs (RBD)
    B. Named agencies will research programs and determine eligibility guidelines, benefits, application process, contacts, etc. (RBD)
    C. Provide written report to Operations Section Chief as to program availability. (RBD)
    D. Investigate the federal Lead Pipe Replacement Program (DEQ)
    E. Investigate possible state assistance programs (FSC/MSHDA)
    F. Investigate Non-Stafford Act Assistance Programs (LNO/RBD)

5. Develop a comprehensive GIS strategy. (GIS)
    A. Identify critical needs for maps and overlays. (GIS)
    B. Identify current and potential resources for data collection. (GIS)
    C. Contact and coordinate with identified agencies to obtain and centrally locate all data. (GIS)
    D. Provide spatial analytics in support of SEOC. (GIS)
    E. Map food establishments and licenses. (GIS/MDARD)
    F. Coordinate with SME at UM-Flint regarding the digitization of City of Flint water infrastructure. (GIS)

6. Coordinate response and recovery activities with MIVOAD and identify potential mission areas. (RBD)
    A. Establish Recovery Branch. (OSC)
    B. Gather and compile available resources. (RBD)
    C. Gather and compile available assistance programs. (RBD)
    D. Determine resources already provided to affected area in response to emergency. (RBD)

7. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies. (OSC)
    A. Identify subject matter experts (Dr. Wells, Dr. Mona Hatta-Attisha, Dr. Richard Sadler (MSU-Mapping), George Krisztian). (OSC)
    B. Establish and coordinate routine communication between SME's. (OSC)

8. Provide technical assistance to the local Damage Assessment process. (RBD)
    A. Establish Recovery Branch. (OSC)
    B. Provide templates and information as to requirements of damage assessment reports. (RBD)
    C. Conduct daily conference calls with local emergency manager and EMHSD District Coordinator to assess progress and obtain updates. (RBD)
    D. Coordinate daily communication with the District Coordinator and GIS Unit Leader to monitor progress and document data. (RBD)

9. Establish a Joint Information Center (JIC) and develop a public information strategy. (PIO)
    A. State agency PIO's meet to determine needs and strategy for public information dissemination. (PIO)
    B. Determine technical needs for on-site JIC. (PIO)
    C. Coordinate with local (County/City) JIC. (PIO)
    D. Determine need to co-locate state and local JIC. (PIO)
    E. If the need to relocate the JIC is identified, establish location and logistical needs. (PIO)
    F. Develop and distribute door hangers for public information. (PIO)

10. Monitor MI CIMS for resource requests and address as appropriate. (LSC)
    A. Monitor and assist with input of resource requests. (LSC)
    B. Review requests and review with command to receive approval to assign and fill requests. (LSC)
    C. Track resources provided to date and those provided throughout the course of this event. (PSC)

11. Establish and disseminate cost center information for the incident. (FSC)
    A. Establish Index/PCA. - Complete
    B. Distribute information to state agencies. -- Complete
    C. Track costs related to this emergency. (FSC)

12. Develop a plan for public nutrition, education and availability.
    A. Identify activities to date and provide coordination in development of strategy. (MDARD)
    B. Increase public nutrition education in the affected area. (MDHHS)
    C. Maximize participation in existing Child Nutrition Programs. (MDE)

13. Develop a plan for water testing all impacted water service customers.
    A. Identify distribution points. (MDEQ)
    B. Coordinate public outreach. (MDEQ/PIO)

14. Safety
    A. Maintain safe work sites and practices at all times. (MSP Safety Officer)
    B. Weather messages: Sunday's weather is expected to be wet and cold with high winds. Icing is very possible. (NWS)

15. Facilitate and Coordinate and effective water and filter distribution process to assure adequate supply and distribution is maintained throughout the city and water service area.
    A. *Coordinate all participating agencies and NGOs. (Local EOC/Logistics/MCSC)*
    B. Develop coordinated plan for warehousing and distribution. (Local EOC/MDHHS)
    C. Warehousing. (Genesee County Food Bank)
    D. Distribution. (Local EOC/MCSC/ARC/NGOs)
    E. Donations. (2-1-1)

1. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and subject matter experts. (Operations Section Chief)
    A. Request and establish FEMA LNO in the SEOC to support liaison with other federal agencies (State Director)
    B. Establish Recovery Branch within the Operations Section. (OSC)
    C. Maintain daily SEOC briefing with state agencies. (PSC)
    D. Establish and maintain routine calls with local emergency manager and EMHSD District Coordinator. (State Director)
    E. Daily Subject Matter Experts coordinating call (OSC)

2. Obtain and maintain situational awareness and common operating picture of all activities. (PSC)
    A. Conduct daily briefings with state agency emergency managers. (PSC)
    B. Monitor MICIMS. (All)
    C. Produce maps to include bottled water, water filter, and pitcher, filter distribution, affected areas and infrastructure, and method of distribution. (GIS)
    D. Complete and produce daily situation reports. (PSC)
    E. DEQ planning liaison to local EOC (DEQ/LSC)

3. Develop operational framework – State Director
    A. Develop operational period and hours of operation-State Director
    B. Revise operational period and hours as necessary-State Director

4. Research possible sources of assistance. (Recovery Branch Director - RBD)
    A. Identify agencies to research potential assistance programs (RBD)
    B. Named agencies will research programs and determine eligibility guidelines, benefits, application process, contacts, etc. (RBD)
    C. Provide written report to Operations Section Chief as to program availability. (RBD)
    D. Investigate the federal Lead Pipe Replacement Program (DEQ)
    E. Investigate possible state assistance programs (FSC/MSHDA)
    F. Investigate Non-Stafford Act Assistance Programs (LNO/RBD)

5. Develop a comprehensive GIS strategy. (GIS)
    A. Identify critical needs for maps and overlays. (GIS)
    B. Identify current and potential resources for data collection. (GIS)
    C. Contact and coordinate with identified agencies to obtain and centrally locate all data. (GIS)
    D. Provide spatial analytics in support of SEOC. (GIS)
    E. Map food establishments and licenses. (GIS/MDARD)
    F. Coordinate with SME at UM-Flint regarding the digitization of City of Flint water infrastructure. (GIS)

6. Develop a Recovery Plan. (RBD)
    A. Establish Recovery Branch. (OSC)
    B. Gather and compile available resources. (RBD)
    C. Gather and compile available assistance programs. (RBD)
    D. Determine resources already provided to affected area in response to emergency. (RBD)
    E. Identify potential mission areas for MIVOAD and other NGO's. (RBD)

7. Develop communication structure amongst SME's. (OSC)
    A. Identify subject matter experts (Dr. Wells, Dr. Mona Hatta-Attisha, Dr. Richard Sadler (MSU-Mapping), George Krisztian). (OSC)
    B. Establish and coordinate routine communication between SME's. (OSC)

8. Provide technical assistance to the local Damage Assessment process. (RBD)
    A. Establish Recovery Branch. (OSC)
    B. Provide templates and information as to requirements of damage assessment reports. (RBD)
    C. Conduct daily conference calls with local emergency manager and EMHSD District Coordinator to assess progress and obtain updates. (RBD)
    D. Coordinate daily communication with the District Coordinator and GIS Unit Leader to monitor progress and document data. (RBD)

9. Develop a public information strategy for the incident. (PIO)
    A. State agency PIO's meet to determine needs and strategy for public information dissemination. (PIO)
    B. Determine technical needs for on-site JIC. (PIO)
    C. Coordinate with local (County/City) JIC. (PIO)
    D. Determine need to co-locate state and local JIC. (PIO)
    E. If the need to relocate the JIC is identified, establish location and logistical needs. (PIO)
    F. Develop and distribute door hangers for public information. (PIO)

10. Monitor MI CIMS for resource requests and address as appropriate. (LSC)
    A. Monitor and assist with input of resource requests. (LSC)
    B. Review requests and review with command to receive approval to assign and fill requests. (LSC)
    C. Track resources provided to date and those provided throughout the course of this event. (PSC)

11. Develop a financial structure for this incident. (FSC)
    A. Establish Index/PCA. - Complete
    B. Distribute information to state agencies. – Complete
    C. Track costs related to this emergency. (FSC)

12. Develop a public nutrition strategy for the incident.
    A. Identify activities to date and provide coordination in development of strategy. (MDARD)
    B. Increase public nutrition education in the affected area. (MDHHS)
    C. Maximize participation in existing Child Nutrition Programs. (MDE)

13. Develop a plan for water testing all impacted water service customers.
    A. Identify distribution points. (MDEQ)
    B. Coordinate public outreach. (MDEQ/PIO)

14. Develop an incident safety structure.
    A. Ensure safety at worksites and safe work practices. (MSP Safety Officer)
    B. Prepare weather briefings for any severe and adverse weather that will impact the incident and travel. (NWS)

    B. Develop coordinated plan for warehousing and distribution. (Local EOC/MDHHS)
    C. Warehousing. (Genesee County Food Bank)
    D. Distribution. (Local EOC/MCSC/ARC/NGOs)
    E. Donations. (2-1-1)
    F. Ensure adequate distribution and supply levels (Local EOC, GIS)

State Agency Briefing
1/9/2016 0930

- **Priorities:**
    1. JIC Messaging- press releases, community flyers, door hangers, and streamline the 211 process.
    2. Gathering and distribution of resources (filters, water, replacement cartridges) throughout Flint. Ensure coordination between Logistics Group Chief, resource unit and GIS to track resources locations and amounts.
    3. Identify church distribution sites and volunteers for Sunday.
    4. Assemble recovery teams to canvas and distribute resources in the community, starting Tuesday.
- **Operations:** Five fire departments will be established as site for distribution of water, filters, and cartridges, Red Cross is on site to assist, at least two volunteers per station.
    - 2000 kits are available for distribution at 10 local churches on Sunday. SEOC is currently working on logistics to identify church locations and Red Cross volunteers.
    - Working to identify safety officer from MSP.
    - Food Pantry not in a great location for citizens to get to.
- **OSA:** Nothing new
- **MDARD:** Working with health department for guidance on regulatory requirements.
    - New language (after JIC approval) will be going out to retail food establishments and restaurants with follow up inspections and sampling. Planning will continue on logistics for sampling.
    - Shelter Director Paul Wallace has obtained some documents to help ascertain what entities (that are not tracked via licensing and registration) that would be housing animals. Shelter Director is also pulling the possible animal holding/gathering facilities in reference to that listing which will provide the rest of the contacts. MDARD will be getting copies of all of these lists.
    - MDARD and DHHS provided information on nutrition for JIC message.
- **ARC:** Sent volunteers to support sheriff's distribution.
    - Will have at least two individuals today and tomorrow at each fire station.
    - Disaster Recovery Operation started yesterday. DRO number is 608-16.
    - Looking for additional volunteers based on the number of sites for tomorrow.
    - Will begin to work with local Red Cross at County EOC to coordinate volunteers.
- **MDEd:** High level national organizations have inquired on the current events,
    - Engaged national level organizations with the JIC.
    - Contacted each child nutrition program and provided information forwarding them to the website.
- **DEQ:** Has mobilized DEQ staff to assist in Incident Command at the EOC, as state resources
    - IAP established at local level through Monday.
    - Field employees are aware of current safety concerns.

- **LARA**: coordinating with DEQ on additional water testing at the schools, plan will be developed this morning.
- **DTMB**: Driver onsite in flint picked up water, filters, and cartridges to drop at the fire stations today. Will be available to deliver materials to churches tomorrow.
- **MSP**: En route to SEOC for safety officer.
- **DHHS (Human Services)**: Deployed community service commission for volunteer coordination and donations management.
    - Recruited staff for Door to door operations. Conference room confirmed and set up at Clio Rd office for training on Monday of the 40 volunteers.
    - Obtained 1000 filters for fire stations, 2000 churches, ordered another 5,000 filters to be delivered Wednesday. An additional 10,000 filters and 10,000 cartridges to be delivered in the near future.
    - Working to identify current funding levels.
- **DHHS (Community Health)** - CHEEC currently activated at level 1.
    - Developed health care provides list for the county.
    - Working to streamline the 211 process. Working on messaging to ensure that all questions from the citizen should be directed to 211 and local health care providers Sent information to JIC for finalizing door hanging.
    - Request has been sent to Linda Dykema, Division Director of Epidemiology, to have two individuals for ETC Lead Investigator working on the environmental investigations be housed at the Genesee County Health Department's Burton site, starting on Monday, January 11, 2016, until the lead investigations being conducted are complete. Resource request was submitted by Genesee County Health department to Genesee County EOC.
- **Logistics Section**: Working with Red Cross to recruit volunteers at churches.
    - Address cards have been developed and distributed to Flint Fire Department for tracking. Information from the address card is continuously being entered by MDHHS employee. Updates will be sent to SEOC Human Services POC throughout the day.
    - Make sure information is being entered into MI CIMS.
    - Logistics is working with DTMB to get the door-to-door flyers printed.
- **JIC**: Working on getting together door hanger, single page sheet similar to the website with additional information.
    - Setting up emails for internal JICmanager@michigan.gov and external JICnews@michigan.gob
- **Recovery Branch**: On the ground operations will begin Tuesday morning.
    - Working to develop a request for vehicles for to transport people and resources during the community distribution. Is researching the possibility of the vehicle requests being filled through the public/private partnerships-possibly with GM.
    - GIS provided a list of current locations that have received resources.
    - Staff is working to develop a process from for field team to report contact or distribution of resources during daily neighborhood canvas.

- **Planning Section**: SIT report from agencies and Section Chiefs by 3:30 for daily situation report.
- **NWS:**
    - Winter storm coming in to night, 1 pm webinar and call in. Overnight from up 40 to lower 20s, 3-5am snow starting in the Flint area. Snow will continue on and off all day, travel will be very hazardous. Monday-Thursday 15-20 will lows at 10, wind chill values below 0, additional snow Monday-Tuesday, will put a big damper on travel both days. Contact information for NWS is MI CIMS
- **State Director**: Make sure everyone is keeping healthy.
    - Weather message- Please make sure people going out are taking hazardous weather in to considerations
    - Information has to be logged into MI CIMS to help answer questions throughout the day.
    - JIC needs to be on the call daily to get more messaging out instead of the media telling the story.
    - If any agency has push back on staffing please make Capt aware, we need to keep moving forward.
    - State agency workers should not be driving state vehicles with DEQ and DHHS on the side in the county. If they are wearing a logo shirt they should take a jacket.
- ***Next call will be 0930 Sunday, January 10***

State Agency Briefing
1/9/2016 0930

- **Priorities:**
    1. JIC Messaging- press releases, community flyers, door hangers, and streamline the 211 process.
    2. Gathering and distribution of resources (filters, water, replacement cartridges) throughout Flint. Ensure coordination between Logistics Group Chief, resource unit and GIS to track resources locations and amounts.
    3. Identify church distribution sites and volunteers for Sunday.
    4. Assemble recovery teams to canvas and distribute resources in the community, starting Tuesday.
- **Operations:** Five fire departments will be established as site for distribution of water, filters, and cartridges, Red Cross is on site to assist, at least two volunteers per station.
    - 2000 kits are available for distribution at 10 local churches on Sunday. SEOC is currently working on logistics to identify church locations and Red Cross volunteers.

Resource request was submitted by Genesee County Health department to Genesee County EOC.
- **Logistics Section**: Working with Red Cross to recruit volunteers at churches.
    - Address cards have been developed and distributed to Flint Fire Department for tracking. Information from the address card is continuously being entered by MDHHS employee. Updates will be sent to SEOC Human Services POC throughout the day.
    - Make sure information is being entered into MI CIMS.
    - Logistics is working with DTMB to get the door-to-door flyers printed.
- **JIC**: Working on getting together door hanger, single page sheet similar to the website with additional information.
    - Setting up emails for internal JICmanager@michigan.gov and external JICnews@michigan.gob
- **Recovery Branch**: On the ground operations will begin Tuesday morning.
    - Working to develop a request for vehicles for to transport people and resources during the community distribution. Is researching the possibility of the vehicle requests being filled through the public/private partnerships-possibly with GM.
    - GIS provided a list of current locations that have received resources.
    - Staff is working to develop a process from for field team to report contact or distribution of resources during daily neighborhood canvas.

- **Planning Section:** SIT report from agencies and Section Chiefs by 3:30 for daily situation report.
- **NWS:**
    - Winter storm coming in to night, 1 pm webinar and call in. Overnight from up 40 to lower 20s, 3-5am snow starting in the Flint area. Snow will continue on and off all day, travel will be very hazardous. Monday-Thursday 15-20 will lows at 10, wind chill values below 0, additional snow Monday-Tuesday, will put a big damper on travel both days. Contact information for NWS is MI CIMS
- **State Director:** Make sure everyone is keeping healthy.
    - Weather message- Please make sure people going out are taking hazardous weather in to considerations
    - Information has to be logged into MI CIMS to help answer questions throughout the day.
    - JIC needs to be on the call daily to get more messaging out instead of the media telling the story.
    - If any agency has push back on staffing please make Capt aware, we need to keep moving forward.
    - State agency workers should not be driving state vehicles with DEQ and DHHS on the side in the county. If they are wearing a logo shirt they should take a jacket.
- ***Next call will be 0930 Sunday, January 10***

1. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and subject matter experts. (Operations Section Chief)
    A. Request and establish FEMA LNO in the SEOC to support liaison with other federal agencies (State Director)
    B. Establish Recovery Branch within the Operations Section. (OSC)
    C. Maintain daily SEOC briefing with state agencies. (PSC)
    D. Establish and maintain routine calls with local emergency manager and EMHSD District Coordinator. (State Director)
    E. Daily Subject Matter Experts coordinating call (OSC)

2. Obtain and maintain situational awareness and common operating picture of all activities. (PSC)
    A. Conduct daily briefings with state agency emergency managers. (PSC)
    B. Monitor MICIMS. (All)
    C. Produce maps to include bottled water, water filter, and pitcher, filter distribution, affected areas and infrastructure, and method of distribution. (GIS)
    D. Complete and produce daily situation reports. (PSC)
    E. DEQ planning liaison to local EOC (DEQ/LSC)

3. Establish SEOC operational period and hours of operations. (State Director) – Completed.
    A. Operation Period has been established as well as SEOC operational hours
    B. Review weekly for alteration of same

4. Investigate and identify all available programs for assistance with direct or related impacts. (Recovery Branch Director - RBD)
    A. Identify agencies to research potential assistance programs (RBD)
    B. Named agencies will research programs and determine eligibility guidelines, benefits, application process, contacts, etc. (RBD)
    C. Provide written report to Operations Section Chief as to program availability. (RBD)
    D. Investigate the federal Lead Pipe Replacement Program (DEQ)
    E. Investigate possible state assistance programs (FSC/MSHDA)
    F. Investigate Non-Stafford Act Assistance Programs (LNO/RBD)

5. Develop a comprehensive GIS strategy. (GIS)
    A. Identify critical needs for maps and overlays. (GIS)
    B. Identify current and potential resources for data collection. (GIS)
    C. Contact and coordinate with identified agencies to obtain and centrally locate all data. (GIS)
    D. Provide spatial analytics in support of SEOC. (GIS)
    E. Map food establishments and licenses. (GIS/MDARD)
    F. Coordinate with SME at UM-Flint regarding the digitization of City of Flint water infrastructure. (GIS)

6. Coordinate response and recovery activities with MIVOAD and identify potential mission areas. (RBD)
    A. Establish Recovery Branch. (OSC)
    B. Gather and compile available resources. (RBD)
    C. Gather and compile available assistance programs. (RBD)
    D. Determine resources already provided to affected area in response to emergency. (RBD)

7. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies. (OSC)
    A. Identify subject matter experts (Dr. Wells, Dr. Mona Hatta-Attisha, Dr. Richard Sadler (MSU-Mapping), George Krisztian). (OSC)
    B. Establish and coordinate routine communication between SME's. (OSC)

8. Provide technical assistance to the local Damage Assessment process. (RBD)
    A. Establish Recovery Branch. (OSC)
    B. Provide templates and information as to requirements of damage assessment reports. (RBD)
    C. Conduct daily conference calls with local emergency manager and EMHSD District Coordinator to assess progress and obtain updates. (RBD)
    D. Coordinate daily communication with the District Coordinator and GIS Unit Leader to monitor progress and document data. (RBD)

9. Establish a Joint Information Center (JIC) and develop a public information strategy. (PIO)
    A. State agency PIO's meet to determine needs and strategy for public information dissemination. (PIO)
    B. Determine technical needs for on-site JIC. (PIO)
    C. Coordinate with local (County/City) JIC. (PIO)
    D. Determine need to co-locate state and local JIC. (PIO)
    E. If the need to relocate the JIC is identified, establish location and logistical needs. (PIO)
    F. Develop and distribute door hangers for public information. (PIO)

10. Monitor MI CIMS for resource requests and address as appropriate. (LSC)
    A. Monitor and assist with input of resource requests. (LSC)
    B. Review requests and review with command to receive approval to assign and fill requests. (LSC)
    C. Track resources provided to date and those provided throughout the course of this event. (PSC)

11. Establish and disseminate cost center information for the incident. (FSC)
    A. Establish Index/PCA. - Complete
    B. Distribute information to state agencies. – Complete
    C. Track costs related to this emergency. (FSC)

12. Develop a plan for public nutrition, education and availability.
    A. Identify activities to date and provide coordination in development of strategy. (MDARD)
    B. Increase public nutrition education in the affected area. (MDHHS)
    C. Maximize participation in existing Child Nutrition Programs. (MDE)

13. Develop a plan for water testing all impacted water service customers.
    A. Identify distribution points. (MDEQ)
    B. Coordinate public outreach. (MDEQ/PIO)

14. Safety
    A. Maintain safe work sites and practices at all times. (MSP Safety Officer)
    B. Weather messages: Sunday's weather is expected to be wet and cold with high winds. Icing is very possible. (NWS)

15. Facilitate and Coordinate and effective water and filter distribution process to assure adequate supply and distribution is maintained throughout the city and water service area.
    A. Coordinate all participating agencies and NGOs. (Local EOC/Logistics/MCSC)
    B. Develop coordinated plan for warehousing and distribution. (Local EOC/MDHHS)
    C. Warehousing. (Genesee County Food Bank)
    D. Distribution. (Local EOC/MCSC/ARC/NGOs)
    E. Donations. (2-1-1)

Zack,
Here are the three documents that describe the FY17 budget proposed by the Governor and the $30 million appropriation by the Senate in FY16 that is referenced in the budget summary.

Hi Tom.
This will require an RFP which, depending on the breadth of the request, may vary significantly in cost. Short of noting that the State would need to contract a comprehensive economic analysis to determine the full economic impact to Flint and its surrounding areas, this may not be quite ready for prime time.

Best,
Lynne

HI Lynne, Just curious, do we know how expensive that study will be? That would be an impact that I think we could usefully convey, if it's shareable within a document to FEMA. It would also establish the many broad based activities, in terms of both response *and* recovery that the state is undertaking.

Good afternoon, Zachary.
I spoke with our experts and it does not appear that we would have a more linear and/or current economic assessment than previously provided. We *are* in the process of drafting criteria and identifying a partner that can conduct a thorough economic analysis for Flint and the surrounding area, unfortunately...we just do not have this data as yet. I'm not sure if Treasury would have any additional information that can be shared.

Best,
Lynne

Good Morning Lynne,

Tom and I are working on an appeal for expanded federal assistance for Flint and I could use your help.

We are looking for an estimated dollar loss to the economy for the Genesee County.

Tom said you provided this information for the disaster declaration so I am hoping you can provide me an updated number.

I apologize for the short notice but the governor needs a draft of the letter by the end of the day so I would really appreciate it if you could get this to me by **3pm today**.

Thank you,

Hey Louis,

I am trying to quantify some sections of the appeal and am hoping you can help me.

Can you provide me the number of schools and food programs are in the city of flint and how many have been contacted for this incident?

Zach

Information shared is for those within Flint identified zip codes. Confirmation from MDE that all were contacted by School Nutrition folks at MDE.

Is this information sufficient for the request by COB today?

Hi Tom.
This will require an RFP which, depending on the breadth of the request, may vary significantly in cost. Short of noting that the State would need to contract a comprehensive economic analysis to determine the full economic impact to Flint and its surrounding areas, this may not be quite ready for prime time.

Best,
Lynne

HI Lynne, Just curious, do we know how expensive that study will be? That would be an impact that I think we could usefully convey, if it's shareable within a document to FEMA. It would also establish the many broad based activities, in terms of both response *and* recovery that the state is undertaking.

Good afternoon, Zachary.
I spoke with our experts and it does not appear that we would have a more linear and/or current economic assessment than previously provided. We *are* in the process of drafting criteria and identifying a partner that can conduct a thorough economic analysis for Flint and the surrounding area, unfortunately...we just do not have this data as yet. I'm not sure if Treasury would have any additional information that can be shared.

Best,
Lynne

Good Morning Lynne,

Tom and I are working on an appeal for expanded federal assistance for Flint and I could use your help.

We are looking for an estimated dollar loss to the economy for the Genesee County.

Tom said you provided this information for the disaster declaration so I am hoping you can provide me an updated number.

I apologize for the short notice but the governor needs a draft of the letter by the end of the day so I would really appreciate it if you could get this to me by **3pm today**.

Thank you,

Zach,

A little bit confusing how to compile the numbers but here is the basics. We have competed 298 assessments of firm's water practices in conforming with the requirements outlined by MDARD.

This number does include some follow up assessments on firm's that were not in compliance and we will continue to do follow ups as we need to. This will ensure compliance with the requirements.

The total number of food establishments is 615 that we have identified as being on the Flint water system.

> Hi Jarrod,
>
> I think the most significant immediate negative impact will be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water like restaurants will be hurt), lost employment, population loss (renters will leave the city). Residents and businesses are also having to pay extra for bottled water, so

the extra spending on water will take away from other spending. It is relatively easy for residents to move some of their economic/spending activity outside the city, so the Flint economy will be hurt. These impacts will create an economic downturn in Flint. In terms of personal income losses, a three to four percent loss in nominal personal income in the City of Flint seems reasonable, which would equal a negative impact of $85 million to $115 million per year in lost economic activity. Long-term there would be the cost of a new water system, which would have a significant cost. Direct health related costs would be on top of this estimate.

This is a very rough estimate. I would need a lot more time and a lot more information/data to develop a more thorough estimate.

Jay

Cc: Pepper, Joel (MSP); Lisabeth, Nicole (MSP)
Subject: RE: Flint water crisis impacts
Importance: High

Good afternoon.
The Michigan Department of Talent and Economic Development (MTED) is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

Our combined efforts are focused on short and long-term assistance to the City of Flint and/or Genesee County through various grants and potential infrastructure assistance. MSHDA has identified allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources, MTED has assessed potential impacts to the economy of Flint resulting from the water crisis. We developed the attached analysis that looked at 4 potential long term costs associated with certain blood lead levels, which are:

- Lifetime earnings loss total
- Lead Health Care Treatment Costs
- ADHD Treatment Costs
- Special Education Costs

This analysis was based on a study by the University of Michigan Risk Science Center and the Michigan Network for Children's Environmental Health. The study, linked below, cited studies that showed the direct correlation in loss of IQ with elevated lead levels. This loss of IQ was directly correlated to loss of lifetime income potential, as well as costs for treatment, costs for special education, and ADHD treatment for cohorts under 5 years old.

The excel chart uses the findings from this study and applies it to Flint's population of 0-5 year olds. We're not sure what number to use in the field labeled "estimated percent of population impacted", but it's saved at 6% of 0-5 year olds impacted. Depending on the lead levels, the lifetime earnings loss ranges from $33 Million to over $89 Million if 6% of 0-5 year olds were impacted. The % of population can be changed for each blood lead level to get the impact.

http://www.riskscience.umich.edu/wp-content/uploads/2013/12/Economic-Impact-of-Lead-in-Michigan-Web.pdf

Again, this analysis is based on the study linked above. If the findings and methodology of the study aren't acceptable, then the attached Excel calculations shouldn't be used. Also, we have not reached out to UM to see if any of their assumptions have changed since this was done in 2014 or if our correlations and methodology are acceptable. With additional time, we would confirm our method with the UM team.

With input from the Department of Treasury, we assessed that the most significant immediate negative impact will be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water like restaurants will be hurt), lost employment, population loss - (renters will leave the city). Residents and businesses are also having to pay extra for bottled water, so the extra spending on water will take away from other spending. It is relatively easy for residents to move some of their economic/spending activity outside the city, so the Flint economy will be hurt. These impacts will create an economic downturn in Flint. In terms of personal income losses, a three to four percent loss in nominal personal income in the City of Flint seems reasonable, which would equal a negative impact of $85 million to $115 million per year in lost economic activity. Long-term there would be the cost of a new water system, which would have a significant cost. Direct health related costs would be on top of this estimate.

This is a very rough estimate. With additional time and information/data, we can develop a more thorough estimate.

Subject: Flint water crisis impacts

Good morning all,

We are preparing the draft of the letter from the governor to the president to request assistance. We are attempting to send this as quickly as humanly possible.

What we need from each agency is a complete but as brief as possible summary of the impacts to the people and economy of Flint resulting from the water crisis, prepared by the best qualified person in your agency.

This would include quantification of past, current, and future or potential future impacts including:

Health
Economic
Insurance (is there any coverage on the part of individuals, or the city or state that might help to cover damages?)
Contributions of voluntary agencies
Environmental; and
Infrastructure

There will be an opportunity to review the entire draft as it is pieced together, to make sure we are including every potential impact that will help to describe the severity of this crisis to the City of Flint and State of Michigan.

If there's any chance of getting summaries by the end of today (let me know what the minimum timeline is that you need), that would be great.

Thanks very much for your assistance,

Good afternoon, Zachary.
I spoke with our experts and it does not appear that we would have a more linear and/or current economic assessment than previously provided. We *are* in the process of drafting criteria and identifying a partner that can conduct a thorough economic analysis for Flint and the surrounding area, unfortunately...we just do not have this data as yet. I'm not sure if Treasury would have any additional information that can be shared.

Best,
Lynne

Subject: Catholic Charities Distribution Points

Hi Tom,

Catholic Charities is currently distributing water only at:
Center for Hope 517 E. Fifth Ave, Monday through Friday from 9:30am -4 pm
North End Soup Kitchen 735 E. Stewart Ave, Sunday through Saturday from 11:30am – 5pm

Through our donors we've been able to supply water distributions each Saturday at Greater Holy Temple Church of Christ, 6702 N. Dort Hwy.
We're also supplying water distribution efforts, as requested, at Antioch Baptist Church, 1083 E. Stewart Ave.

We have two other churches lined up as available to store and distribute as necessary, Woodside Church at 1509 E. Court St. and Calvary Community Church at 1201 W. 12th St.

Our South Flint Soup Kitchen, at Lincoln Park United Methodist (3410 Fenton Rd.), is also distributing. They've told us they're being supplied with water by the Red Cross.

If there's any other information I can provide, please let me know!

Thanks,

Chrissy Cooper

Sent: Wednesday, February 17, 2016 11:17 AM
To: Baker, Zachary (MSP)
Subject: RE: Category B Appeal 20160216 (2)

- Paragraph 3: need attribution of this turnover rate. That's astounding.
- Paragraph 4: need to make it more direct. E.g., Lead impacts young children. In this regard, Flint is especially vulnerable...
- Effectivity?
- "The broad impact...needs to be reworded...given some examples
- Whole community...can we give some statistics from Food Bank and Catholic Charities?
- Agencies incurring costs...need to include City of Flint
- I wouldn't mention the slowing, only the projection of what we still need to accomplish.
- I would also mention in addition to the various agency teams, the NGO teams and volunteers (plumbers union/Team Rubicon/ARC, etc, etc) that are working daily.
- I would remove the reference to political strains.
- Clarify, "Michigan and its political subdivisions.."
- Business bullet, mid paragraph, perhaps reword to "...those serving food, continue to incur..."
- Can any of the tasks mentioned in those bullet points be quantified? I'd send an email to each SEMC with paragraphs related to them and ask if they can provide quantification...or perhaps you have it in sit reps?
- Response to this disaster "is a long term community effort"
- "I understand..." not sure I'd include that, almost comes off as tacit agreement.
- I think there should be a summary of extra state appropriations already approved and under consideration and the broad range of impacts they target.

Subject: Transition Announcement

Region 5 Partners, Colleagues, Friends-

It is with mixed emotions that I write to inform you that I will be transitioning to the FEMA Region 1 office in Boston effective March 6th. My last day at FEMA Region 5 in Chicago will be next Thursday, February 25th. I will still serve as a Voluntary Agency Liaison. As a native New Englander, this move will allow me to be closer to family and friends.

It has been an absolute pleasure to work alongside all of you over the past 2 ½ years. I have learned so much from the strength and resilience of our States and VOAD partners across the Region, and I thank you for all that you do each and every day. Due to the nature of our work and travels, I expect many of us will have the opportunity to work together again in the future. I look forward to those continued collaborations.

Jeannie Moran will remain your FEMA VAL contact here in Chicago, and is available to support any needs you may have.
Regina.moran@fema.dhs.gov
202-821-3867

Also, please see below for some upcoming conference calls this week that we hope you can join.

All my best,
Katie

Katie Halliday, M.S.W.

FEMA Region 5, ESF 6 "Third Thursday" Webinar

This is a reminder about the upcoming **FEMA Region V ESF 6 "Third Thursday" webinar, February 18 at 10:00 AM CST.**

Mike Whitehead and Jodie Andrew from the American Red Cross and James Fumbanks from FEMA Headquarters will be presenting information on the *Multi-Agency Sheltering/Sheltering Support Plan Template*.

The purpose of the Multi-Agency Sheltering/Sheltering Support Plan Template (MASPT) is to supplement a jurisdiction's Emergency Operations Plan and/or Mass Care Annex and is intended to provide guidance and suggested procedures for a jurisdiction to consider in the development of a sheltering plan that focuses on their role of managing and/or supporting sheltering activities. Two years in the works, the comprehensive multi-agency sheltering document was developed in coordination with FEMA Headquarters and Regional Mass Care staff, the American Red Cross, the Salvation Army, State Mass Care Coordinators, local emergency management, and the FEMA Office of Disability Integration and Coordination. The template is based on best practices and concepts that have been proven during previous disaster

This is an excellent opportunity to hear from and ask questions of members of the team responsible for the template and the concepts.

To participate:
Time 10:00 AM Central Daylight Time (11:00 AM EDT)
Webinar https://fema.connectsolutions.com/thirdthursday-r5/ (without Adobe user name, log in as "Guest")
Audio 1-800-320-4330, pin 271187#

The March "Third Thursday" will feature the *Multi-Agency Distribution of Emergency Supplies Plan Template*. While the presentation will focus on the template, the hope is to also include presenters from the State of Michigan and/or the American Red Cross to talk about the large distribution mission occurring right now in Flint. Stand by for more details!

FEMA Intergovernmental Affairs Advisory

INVITATION –Conference Call for Urban Area, Tribal, Transit, Port, Nonprofit Officials and Local Associations Regarding FY16 Preparedness Grants Roll-out

February 15, 2016

The U.S. Department of Homeland Security (DHS) expects to release the Fiscal Year (FY) 2016 Notice of Funding Opportunity (NOFO) for DHS preparedness grant programs on or around February 16, 2016. On **Wednesday, February 17**, the DHS Office of Intergovernmental Affairs will host a conference call with **Urban Area, Tribal, Transit, Port and Nonprofit Officials and Local Associations** to discuss the grant program roll out, answer questions and provide additional information as needed. Federal Emergency Management Agency (FEMA) Assistant Administrator for Grant Programs, Brian Kamoie, will also participate on the call. The dial-in information and the specific audience for the call are indicated below. Due to the large number of expected participants, we encourage you to dial-in approximately 15 minutes prior to the call's start time to ensure that all participants are able to join in a timely manner.

Conference Call for Urban Area, Tribal, Transit, Port, and Nonprofit Officials and Local Associations
When: 3:30 p.m. (EDT)
Call-in #: 888-791-4319
PIN Code: 2784730

We look forward to speaking with you on Wednesday.

If you have any questions, please contact FEMA's Intergovernmental Affairs Division at (202) 646-3444 or at FEMA-IGA@fema.dhs.gov.

To: Baker, Zachary (MSP)
Cc: MSP-EOC-MDARD
Subject: Question regarding: Business in Flint Temporarily Closed

Zach,

As we discussed now a simple question, but here goes.

No business has been closed temporarily by MDARD/GCHD as a result of Pb in H_2O

However we have taken some enforcement action against a limited number of facilities that were found to be not in compliance during our assessment and or sampling,

Two facilities have had water seized, due to out of compliance samples – this did not effect/affect the businesses as they were using bottled water to manufacture food/food products.

One facility (parochial school) had a water fountain removed from use due to excess Pb in H_2O – did not affect school operations.

MDARD has worked with several firms to remove ice machines from production of ice, as they are unable to or do not have a filter in place and they can not be flushed . MDARD anticipates that we will see more activity in this arena as we continue to complete initial and follow-up assessments moving forward due to the nature of ice machine installation practices.

Let me know if you have any additional questions or if this sufficient.

Thanks

Byron Beerbower

Subject: RE: School Infomation - UPDATE 2

Louis

I have just received email confirmation from Dr. Hagel (GISD superintendent) that no schools within GISD have lost either instructional time or been cancelled based on the Flint water situation.

Task is considered complete, as assigned.

Kevin

Subject: RE: School Infomation - UPDATE

Louis

I reached out to both Dr. Hagel (GISD superintendent) and Ms. Farris (Flint Community Schools) to request confirmation of this information. I have yet to hear from Dr. Hagel, but did have a conversation with Ms. Farris (Deputy Superintendent, Flint Community Schools). She indicates that there has not been any lost instructional time or school closure based on the Flint water situation. She did note that closures did occur based on the recent water main break.

I will update again, once Dr. Hagel has had an opportunity to respond.

Hey Mike,

It appears that there is Annual ACS data for flint.

From: Sobocinski, Mike (MSP)
Sent: Tuesday, January 05, 2016 9:30 AM
To: Baker, Zachary (MSP)
Subject: RE: Flint request work

I found a crude way to digitally search the Flint plan. For example, poverty info is in there on page 21. However, since we need to make comparisons from the same source/year, the Flint plan might mainly be useful just to verify some of the info found in census/ACS.

I believe that Flint may have annual ACS info available for most of the needed variables. Larger cities like that are supposed to have annual surveys in ACS. So if you are able to verify this, then we can decide whether to use 2010 or to choose a later year.

Thanks,
Mike

Hey Mike,

Here is a link to the master plan: http://www.imagineflint.com/Documents.aspx

I do have some experience finding and pulling census info from the census website. As long as I know what demographics to look for I should be able to find it without problem.

Hello –

The first item involves the latest master plan for the City of Flint. My information states that this is an Oct. 2013 document called the "Imagine Flint Master Plan." Could you find a copy of this online and send me its link?

Are you experienced with finding/pulling census info from the official census website?

Dear All,

Yes, I spoke with Ken last week and explained that the community is organizing into specialized work groups making this an ideal time for MI-VOAD and NVOAD engagement.

Can I propose a 4:00 pm Tuesday or Wednesday MI-VOAD and NVOAD call? Tom, at this time I think you have the best optics into Flint Response/Recovery, would you mind leading the call? I can lend support as needed.

Additionally, I will be sending out the minutes from the last several Community Recovery meetings. Mary, would you mind disseminating them to the members?

Lastly, the Community Recovery Group meets every Thursday from 3 to 5pm at:
Food Bank of Eastern Michigan
1938 Howard Ave
Flint, MI
Please encourage MI-VOAD members to attend to discover how they may best support and enhance the community's recovery efforts.

Thanks!

Best regards,

Justin R. Bays

Subject: RE: VOAD calls

Ken,

We've been getting a steady volume of calls for national partners and a regular call facilitated by Michigan VOAD would be a good way to keep them connected to information without overwhelming those on the ground (state and NGO, alike).

Traditionally, in an event this size (and even smaller), a weekly or biweekly call is led by the State VOAD. I think it would be very helpful in this instance.

You're absolutely invited to use my conference call pin:
1-800-320-4330

Just let me know when it's scheduled so I make sure not to give it out to any others! ☺

We should facilitate the state voad calls and maybe get going with national donations/volunteer committee calls. I'm not having much time though. Do you think either of you might be able to host one a week? We could also get Chad to host one possibly. Or possibly Justin. Or a mix of all of the above.

Good afternoon,

Yesterday, you were asked by Captain Zarotney to provide an estimate number of pages/documents that you have within your email, on your computer, texts messages, or those saved on the S Drive as it relates to the Flint Water Emergency. This was due at 2:00 today, and has not yet been received. This will be from your Michigan.gov email address, different than your position specific email/files within the SEOC. If your SEOC position has not completed that yet either, please assist in completing that as well.

If you have no documents to report, please send a quick reply indicating that so Lori is able to track what she is missing. Otherwise, please provide an estimate to Lori by 4:30 PM today.

Thank you for assisting in this process.

Tony,

We need to respond this FOIA request, aside from the ongoing FOIA activity. I have copied the planners who I believe worked on the emergency declaration. This is due to the FOIA unit by next Friday, February 19. I will schedule a meeting.

Do you believe this would exceed 250 pages? I believe it would exceed the 2 hours to pull, copy and redact the documentation, unless there is very limited correspondence.

Thanks,
Brianna

Subject: CR-20012653 Flint FOIA

Ma'am,

The Department has received the following FOIA request:

"any and all email communication between employees at the Department of State Police between Department of State Police employees with those of other state departments, the Executive Office of Governor Rick Snyder and with the city of Flint, discussing the subject of an emergency declaration regarding the Flint water crisis." The requestor would like all communication from7/1/15 through 1/5/16.

Can you please let me know if the Department has responsive documents pertaining to this request? If this request is going to require over 2 man hours and 250 pages of documents please contact me before gathering the documents.

Thanks,

Bethany K Goodwin

>
> Penny,
>
> I wanted to also mention that the costs incurred by the County are above and beyond what is in the County's operating budget. As a result, the County is forced to use its "rainy day" fund to absorb these costs, which are now approaching $1 million and counting. Furthermore, the County is in the process of issuing $60 million of bonds to finance its water treatment plant, and the County's bond rating is heavily dependent on having an adequate "rainy day" fund. The County has been cautioned against dipping into its rainy day fund as doing so could adversely affect the County's bond rating. Moody's rating service will be reviewing the County's bond rating at end of February. Given these factors, obtaining reimbursement for the costs incurred by the County is critical to sustaining the ongoing financial viability of the County.

Hi Keith

Thanks so much for the cost information. Is it possible for you to give me a brief description of the activities that were performed for each of the line items that you have listed? We can talk about it more tomorrow if you'd like but thought I'd get an email out to you as well.

Again, thanks so much for all of your work on this. I really appreciate it.

Just a status update. I received some information from the City of Flint this morning. However, it was a bill for January 2016 for $15,246. I called Sean Kammer and let him know I was concerned there are more costs for the city that are not being captured. He said he was going to their finance area and explain what information is needed and let me know a status.

I'll keep you posted.

Sent: Friday, February 12, 2016 10:14 AM
To: MSP-EMHSD-Division
Subject: FOIA REQUEST FOR RECORDS - DEADLINE 2:00 p.m. TODAY

Please remember to send Lori Hinkley **an estimate of the number of records** in your possession pertaining to the Flint water crisis.

"Records" is defined as: e-mails, hand written notes, documents, text messages and anything else pertaining to the Flint water crisis. This includes ALL records you've received or generated, including general govdelivery correspondence, news releases – essentially anything that says "Flint Water."

To recover deleted e-mails in outlook, go to your toolbar and select: Folder - Recover Deleted Items. This will provide you with a list of everything you have deleted within the last 30 days. Please recover all Flint related records and archive them for future reference and include them in your estimate to Lori.

You will need to send this information to Lori Hinkley no later than 2:00 today. Further information regarding the need for printing documents will be provided to you next week. We are only looking for estimates of the number of records right now.

Let me know if you have any questions.

Subject: URGENT - Records Request

Importance: High

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years.** Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Peter,

I apologize for the lack of follow up on this. Due to the flint water emergency my unit has been unable to put any time into other tasks.

At this time the workgroup for this will be on hold until things slow down for us.

I appreciate your follow up on this and I will send an email to the workgroup when I get back to the office Friday.

Have a great day,
Zach Baker

Subject: Disaster Housing Group

Good Morning,

We'd like to invite you to participate in a Disaster Housing Workgroup to prepare a Michigan Disaster Housing Plan. This planning workgroup will be hosted by the MSP/EMHSD State Planning Unit. If you or someone in your department is interested in participating please see the beginning tasks below.

PLAN (for participants):

1. You will be provided a draft of the Disaster Housing Plan by Dec 30th 2015.

    a. Review the plan and make notes of anything you notice is missing or should be included in the plan.

2. We will meet in the first week of February to discuss additions and changes to the plan.

    a. Meeting location and time will be sent by Jan 22nd.

ACTION:

- Please see the below Doodle survey to find a meeting time.
- Keep an eye out for an email with the plan by Dec 30th

Doodle Survey: http://doodle.com/poll/dqyn5md6xkk7gxev

Thank you for your assistance and I look forward to working with you.

To: Morford, Robert
Cc: Baker, Zachary (MSP)
Subject: RE: WV Appeal

RCM: It bothered me that this was harder than it needed to be. Lessons learned outline below for your reference, potential future action consideration.

I. **Lessons Learned:**

A.) FEMA maintains scanned records of point papers and one-pagers related to State Requests for Assistance and Appeals in a (marginally) accessible HQ database.

B.) Scanned copies of the actual correspondence are not readily accessible to even an in-agency enduser.

C.) I work at FEMA. I think I know how to acquire basic information like this. That said, this was MUCH harder than it needed to be. I thought it was must me missing something obvious. (I wasn't.)

1.) How I (finally) got the information we needed:
   a.) Call to a 500 C Street colleague last night on my way home. He called me back at around 10:30 last night (incredulous) that he couldn't find it.
   b.) Call to a guy I worked with on a project from the WV DHSEM this morning. He had to dig, but he found it and e-mailed it to me.

II. **Way-Forward Planning Assumption(s):**

A.) Another Zach Baker will have another similar question at some point down the road.

B.) States have a playbook for the basics. They know what a request for flood assistance or tornado damage needs to look like to get through the RA and onto HQ and the White House.

C.) States do not have a playbook for events without significant precedent and/or many/most Non-Stafford Act disaster scenarios.

D.) States have even less access to records of previous request verbiage than FEMA does. In many instances, they won't even know where to start beyond "Ask FEMA."

1.) (For Doom Loop outcome, see point I.C. above.)

III. **Improvement Recommendation:**

A.) Consider working with Response and Regional Counsel to develop a model for how the Regional HQ will **compile, store, and make available to** Future Zach Baker stakeholders template request verbiage for *non-playbook, Non-Stafford Act* events.

1.) Ref: Minnesota Bridge collapse(s), unaccompanied minors, Pandemic influenza, ebola, nuclear incidents, chemical industry incidents, Flint, etc.

Hi Tom-

Thanks for the update. As you move forward with the committee and long-term planning, please let us know if there are specific product needs that we can assist in procuring, either through donation or deep discount.

Also, I have not been contacted by the Food Bank. I had reached out to them a couple of weeks ago, though it was a "cold" email, and never received a response. If you would be willing to make an introduction, we would be happy to see if there is anything we can do to help.

Thanks,
Lindsay

Hi Lindsay,

Yes, I've been letting them know. I'll be sitting on that subcommittee too. I believe they'll be meeting on Tuesday mornings, but that hasn't been confirmed yet. I also copied Brianna Briggs and Zach Baker here who are also assisting with long term planning and VAL activities.

Had you been contacted by the Food Bank yet? I have mentioned you to her a few times because their equipment has really been strained with all the additional water shipments.

Thanks Jeannie!

Appreciate the update. We are currently working with Catholic Charities and have had a few conversations with American Red Cross.

Tom - I know that the Community Partners were going to start to break into different committees and just want to make sure any committee working on distribution is aware of Good360 as we work to provide the right needs at the right time. We have a number of partners interested in assisting with donated or deeply discounted goods and hope to work with the players on the ground to get them what they need. We are also very conscious of not sending in unneeded or unwanted goods, which is why we work to be the conduit between nonprofits and our corporate partners.

I'd be happy to jump on a call sometime if you have any questions.

Best regards,

Lindsay Jones

Hi Regina-

I believe Katie said you were taking over from her as FEMA VAL this week. I just wanted to reach out to say that Good360 would like to be connected and do whatever we can to assist in the ongoing efforts. We would also like to connect some local partners we are working with that have not connected yet with the 'Community Partners' group, if you can give me any information on the date, time and place. One of our partners, Mission of Hope has been working diligently in an area with mostly Section 8 housing and because of an appearance on the Rachel Maddow Show, he has received a bunch of support of both water and cash. I think it would be great if he Pastor Bobby's team could join the group.

We have also connected with the 2-1-1 center and are currently looking at options for a few of their needs.

Thanks,

Lindsay Jones

I asked them to take a look at the list I sent you the other day and identify additional partners that they know of that I may have missed. I was informed that this list consists of agencies the MI Dept of Civil Rights has read about that have contributed to relief efforts, or who have considerable inroads to segments of the community. I have not scrubbed it to very that all are nonprofits, but wanted to send along to you. I will also be sharing this with the local partners to conduct outreach and bring these folks to the table. I'm not sure if anyone has reached out to them yet, so just an fyi that they

won't necessarily be familiar with coordinated partner efforts when you do your outreach. We'll work on this over the next few days!

Thanks,
Katie

Hi Katie-

I know we had previously mentioned some of our partners on the ground and you mentioned them not being a part of the LTRG. We definitely want to get them involved, so there is more collaboration. Could you send me any details of location/contact/etc that we could forward on?

Thanks so much!

Hi Lindsay,

Yes, I've been letting them know. I'll be sitting on that subcommittee too. I believe they'll be meeting on Tuesday mornings, but that hasn't been confirmed yet. I also copied Brianna Briggs and Zach Baker here who are also assisting with long term planning and VAL activities.

Had you been contacted by the Food Bank yet? I have mentioned you to her a few times because their equipment has really been strained with all the additional water shipments.

Thanks Jeannie!

Appreciate the update. We are currently working with Catholic Charities and have had a few conversations with American Red Cross.

Tom - I know that the Community Partners were going to start to break into different committees and just want to make sure any committee working on distribution is aware of Good360 as we work to provide the right needs at the right time. We have a number of partners interested in assisting with donated or deeply discounted goods and hope to work with the players on the ground to get them what they need. We are also very conscious of not sending in unneeded or unwanted goods, which is why we work to be the conduit between nonprofits and our corporate partners.

I'd be happy to jump on a call sometime if you have any questions.

Best regards,

Lindsay Jones

He's been attending the Community Partners meetings. Maybe he can get you in touch directly with some of the major local players – Red Cross, United Way, Catholic Charities, etc. There is such an incredible network already forming and Tom can certainly get you tied into the right people!

To: MSP-EMHSD-Division
Cc: MSP-seoclgc; MSP-SEOCOPSC
Subject: Additional DCDS Coding - City of Flint
Attachments: Activity Tab DCDS.png

Good Afternoon:

The State Budget Office (SBO) has requested some additional coding in DCDS for staff that work on the City of Flint Water Emergency. We will still be coding all overtime costs to PCA 28670. But at their request, we will also be utilizing the "Activity" code in DCDS.

To enter Activity Code

- Open Employee Data Collection
- Click on **Activity Tab** of DCDS timesheet
- On the Unit Entry tab, under Activity column at left, enter F in drop down box and select **FDWP** when it appears.
- Enter total of "**regular and overtime hours**" related to the Flint Water emergency in cell for each date worked.
- These hours should match the total hours for each day you have entered into your timesheet.
- Save when you have entered your activity hours.

Again, this is only for hours spent working on the City of Flint Emergency and should begin with this current pay period. Please let me know if you have questions.

Thanks,
Penny

Just an FYI--here is the data on the distribution side that the G asked for. I will stop by the SEOC tomorrow to facilitate getting this data for the G for Monday and to incorporate it into future reports.

Thanks.
Nat

Total residences in Flint (including apartment units)
Total occupied (including apartment units)
How many occupied have filters
Of the occupied ones without filters, how many have been contacted but no face-to-face contact (left card)
Of the occupied ones without filters, how many have not been contacted (no one has knocked on door)

- Need to convert liters to cases (both directions--purchased and distributed should both be in liters and cases)
- Need burn rate of inventory and measurement of inventory sufficiency
- Weekly trend each Monday for houses visited and distribution--want to be able to compare week-to-week.

I'd suggest holding off on that information because (1) it might be too busy for a map we've only socialized once before, and (2) the main goal is getting more of those locations up there (food bank, catholic charities, etc.). Just a suggestion, for now.

Thanks Jeannie,

Not to throw too much of a wrench in. I forgot to add the Flint PD service centers. They are on the attached revised spreadsheet.

No addresses, no map – clear.
If there's any way I could have it by 11am tomorrow that would be great (for the 1pm meeting)
Socio-economic... since I'm not sure what's available...any thoughts or ideas? I don't want the map too busy, but we might take a look at poverty rates, but that may make the map too busy. Any other ideas that would allow it to maintain easy reading?

Thanks Tom,
We can do this. Just so we're clear:

- You don't want to overlay any socio-economic info? There was chatter about that last meeting.
- When do you need this by?
- Those without address (there's 7) won't be mapped

Thanks,
Jeannie

I'd suggest holding off on that information because (1) it might be too busy for a map we've only socialized once before, and (2) the main goal is getting more of those locations up there (food bank, catholic charities, etc.). Just a suggestion, for now.

Thanks Jeannie,

Not to throw too much of a wrench in. I forgot to add the Flint PD service centers. They are on the attached revised spreadsheet.

No addresses, no map – clear.
If there's any way I could have it by 11am tomorrow that would be great (for the 1pm meeting)
Socio-economic... since I'm not sure what's available...any thoughts or ideas? I don't want the map too busy, but we might take a look at poverty rates, but that may make the map too busy. Any other ideas that would allow it to maintain easy reading?

Thanks Tom,
We can do this. Just so we're clear:

- You don't want to overlay any socio-economic info? There was chatter about that last meeting.
- When do you need this by?
- Those without address (there's 7) won't be mapped

Thanks,
Jeannie

Subject: FW. DAILY numbers
Attachments: 25-29Jan2016 Daily Blood Count Report FINALv2.docx

Hi Zach,

Looping you into the conversation that I had with Amanda yesterday evening, regarding our numbers for the Governor's Daily Report. The data from MDHHS on blood lead testing and testing results **will not change over the weekend.** Attached is the testing data, and below is the data on the results. My email to Amanda explains why these two number sets are different and I offered how it might be best to include them in the report, so that it's simple and straight forward.

1. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
        *this data is updated bi-weekly
2. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22

Please let me know if you have any questions.

Thank you,
Jennifer

Subject: RE: DAILY numbers

Amanda,

This information that you provided below (from the Governor's Report template) is in regards to the "people" tested as opposed to the number of "tests" performed, which is the data depicted in the report that I sent you from the CHECC. Because of the way that the data is processed, we can only provide the number of "people" on a weekly basis. The only information that we can provide on a daily basis is in regards to the number of "tests" performed. This data is currently de-identified, so we can't simply add the number of tests to the numbers of people previously provided (there would be duplicates, etc.). Sorry, I know this is confusing. I would be happy to discuss it with you further if you have questions. As for the Governor's update tonight, if we could simply attach the document I sent you to the his report for now, then perhaps in the future we could separate that subsection of the report into, "weekly blood lead levels reported" and another section for "daily blood lead tests performed," it may help reflect this information accurately and simplistically.

Will that work?

Thank you,
Jennifer Lixey Terrill

Subject: due dates for MSP plans

Hi Zach,
I saw Tom Weber last week and asked him if the due dates for comments on the MEMP and the MI Disaster Housing Plan were likely to change. He said they were.

The Red Cross will have comments on both plans, and we'll want to reschedule the meeting with you and DHHS about the MI Repatriation Plan.

Like you, we've been immersed in the response to the Flint Water Crisis. Please keep us posted as you update the due dates for comments.

Thank you,
Linda

To: Aletha Malone
Subject: EMAC A-Team Course Registration Confirmation

Thank you for your registration to the EMAC A-Team Course that will be held in Indianapolis, IN on 2016-01-26 - 2016-01-27.

Course Description:
During EMAC activations, Advance Team (A-Team) personnel coordinate resources within their own state (as a requesting state or an assisting state) or within the requesting state as deployed EMAC A-Team members. This EMAC training course is designed to familiarize A-Team personnel with the EMAC A-Team's roles and responsibilities, the EMAC A-Team resource typing, and the EMAC Operations System (where resources deployed under EMAC are tracked). Upon course completion, the students will be qualified to serve as members of A-Teams to support their own state or other compact members. They will understand the functions and responsibilities of A-Teams, and how these are integrated into each phase of the EMAC Process.

Course Goals:
This EMAC training course is designed to do the following:

- Familiarize students with the EMAC A-Team's structure, functions, roles and responsibilities.
- Introduce students to the EMAC Operations System and its functionality.
- Qualify personnel to be members of an A-Team so they are able to support their own state or other compact members.

Course Objectives:

- Explain how A-Teams fit into, and coordinate within, EMAC's Operational Management
- Identify the five EMAC Operational Components
- Order the Levels of Operation
- List the four essential functions and describe the components with the corresponding responsibilities
- Summarize the A-Team member qualifications
- Identify the A-Team Types
- Describe the A-Team roles and responsibilities
- Summarize the steps in the EMAC Activation Phase
- Describe how an event is created in the EOS
- Create a resource request in the EOS
- Create an Offer to that Request in the EOS
- Demonstrate familiarity with EOS navigation
- Recognize the importance of a good cost estimate in offers
- Generate a REQ-A and bring it to "REQ-A Completed" status
- Identify the actions of A-Teams in the three stages of the Response Phase
- Recognize the functional respo nsibilities of Requesting and Assisting State A-Teams

Prerequisites:
Students must take and pass one of the following before attending the training:

- Practice and Implementation of EMAC (Online course at www.emacweb.org in the eLearning center
- Understanding EMAC (E0431) taught at the Emergency Management Institute from Spring 2012 - Present

Requirements:
All students must bring a laptop computer running either Windows or OS X.

IMPORTANT: Neither tablets nor iPads are compatible with this course. The EMAC Operations System (EOS) is requires users to use at least one of the latest two browsers running the latest browser versions.

For example: You can use Internet Explorer (latest two versions), Firefox (latest two versions), Chrome (latest two versions), and Safari (latest two versions). If you have an issue within IE, it is likely a security setting and may have to be solved with your IT department. **IMPORTANT**: Please check with your IT department before you attend to make sure you have security privileges on the computer to access our system.

Course Audience:
This is an advanced training session. Participants should be individuals who would work on an EMAC Advance Team (A-Team) during an EMAC event, within a Requesting or Assisting State. These individuals must have strong leadership skills and substantial knowledge about mutual aid and EMAC.

We highly recommended that all Designated Contacts attend this course. Authorized Representatives may also consider attending.

Session:
Indianapolis, IN
Course Duration:
Course duration is two (2) full days. Each day has amid-morning, lunch, and mid-afternoon break. Participants will attend the course from 8:00 am until 5:00 pm on both days. NO EARLY DISMISSALS, LATE ARRIVALS or ON-SITE REGISTRATIONS
Training Venue Logistics:
Sheraton Indianapolis Hotel at Keystone Crossing - Suite 6 & 7
8787 Keystone Crossing
Indianapolis IN,46240
Lodging Logistics:
Sheraton Indianapolis Hotel at Keystone Crossing
8787 Keystone Crossing
Indianapolis IN,46240
Rate: $107/single; $117/double plus applicable tax. To make reservations, please call 1.888.627.7814 by or on January 8, 2016.
Expense Reimbursement:
A reimbursement package, that can be used for participants to recover trip expenses (as outlined below) will be provided to participants at the conclusion of the course. NEMA/EMAC will reimburse the following expenses: Airfare: Airline tickets must be purchased at least two weeks prior to event. Penalties for itinerary changes or cancellations will not be covered by NEMA. Hotel: three nights at the maximum rate $117/Night plus state, local and sales tax; no show and cancellation penalties will not be covered by NEMA. Ground Transportation: $0.575/mile for personal vehicle; $0.23 for State Vehicles. Mileage must be 20 miles or more for reimbursement (must include a map with start and end points displaying travel route); taxi, shuttle & parking (airport & hotel) are reimbursable. Please note - rental cars are NOT reimbursable. Meals: 75% per diem for applicable meals on travel days and 100% per diem for breakfast and dinner on meeting days. Maximum per Diem $54/day (breakfast $12; lunch $13; dinner $324; incidentals $5). Original receipts (not including meal receipts, as per diem applies) must be provided with the reimbursement form in order to be eligible for reimbursement. If your home state requires originals, please include copies with a notation. All other incidentals are at participant expense and can be covered by the Per Diem incidental. Parking: Complimentary Note: The hotel is providing complimentary basic wireless internet in each guest room. This basic solution is suitable for email and web access. If you would like the premium bandwidth it is available for an additional fee, which is NOT reimbursable by NEMA.
Meals:
NEMA will provide breakfast and lunch on meeting days, but training attendees must arrange for their own dinner each day. NEMA will reimburse 75% per diem for applicable meals on travel days, and 100% per diem for dinner on meeting day.

Finally, please find a document entitled, "Student Responsibilities" attached to this email. You should read this document and be prepared to follow the guidelines for students for attendance to this course.

If your plans have changed and you are now unable to stay for the duration of the course, please send an email to amalone@csg.org to cancel your registration.
Please contact me should you have any questions or concerns.

Subject: RE: CRITICAL NEED from MI VOAD and Partners: Door-to-Door Work in Flint

Thank you – I did get this from Chad.

I also touched base with Tom Page at 2-1-1 today. It has not been confirmed that United Way will take over VRC operations. They are considering it, but concerned about their ability to staff and physical space so they have not yet made this commitment.

Subject: CRITICAL NEED from MI VOAD and Partners: Door-to-Door Work in Flint
Importance: High

There is an urgent need for up to 200 volunteers a day to support door-to-door delivery of water, test kits, and filters in Flint. **This is a critical provision of water necessities for the residents of Flint.** And we need your help!

Individual volunteers will need to go to the VRC directly. People coming to the Volunteer Reception Center will receive a brief training and orientation. Volunteers should plan on being available for a minimum three-hour assignment. While many assignments will occur on the same day the person registers at the Volunteer Reception Center, some assignments for tasks such as data entry, warehousing, operations support, and water testing kit assembly (kid and family friendly) may begin on later dates.

For groups/VOADs only, please contact Victoria Fryer (see cc'ed email: victoria.fryer@redcross.org). To engage in this opportunity, please reach out to her to determine how your organization can plug-in.

Registering through the VRC will occur at the Red Cross building on 1401 S. Grand Traverse Street in Flint, before you start work in the community. The Volunteer Reception Center is open on Monday, January 18, Martin Luther King Day, from 9:00 a.m. to 7:00 p.m and throughout the week (7 days/week).

For additional details or questions, *please call Justin Bays, cell number:* .
(justin.bays2@redcross.org). The United Way of Genesee County along with its partners, 211, and with support from the Michigan Community Service Commission, continue to partner with the Red Cross to stand up this Community VRC, and you may also inquire w/ 211 directly for additional details re: the Flint Water Recovery.

Thank you!

Baker, Zachary (MSP)

Subject:	SEOC Staffing through 1/31/16
Attachments:	SEOC Schedule week of 1_16 thru 1_31_16_Final (2).xlsx

Good evening,

Attached is the list of staff assigned to work in the SEOC through 1/31/16. The hours are 8 a.m. to 8 p.m. Lunch and dinner will be provided. As always, business casual attire is appropriate. No jeans for EMHSD staff.

For Fiscal, your names are not on this schedule but I know it has been worked out within the section for the appropriate staff to cover.

Thanks,

Penny

1. The overview is good detail to use re: the VRC. Please send along to the group.

2. Notes (my apologies for innacuracies):

- Jeannie – Region 5 FEMA Val. Will be out of the country and Katie Halliday will fill in for the interim.
- Zach Baker – State Police/Homeland Security. Update on current big picture details.
- Peter Plumb – United Methodists. Have multiple sites at churches in the Flint area. Would like help getting word out. JIC needs info, and 211 could also list as a partner.
- Annette and Raven Wright – Alafia. Starter water distribution last year, and have partnered with Pierce Elementary.
- *Nick Meijer – Hope Animal-Assisted Crisis Response. Can have teams come in to volunteer. K-9 support* (3 teams). Alafia would like support. *Is there housing for volunteers?* Justin to look in to this
- Virginia Zimmerman – DHHS/EMS Emergency Response and Medical Reserve Corps. Level 2 activation. Info gathering now. Mon-Sun availability, 8am-8pm. Willing to support door-to-door, data entry, etc. Medical and general volunteer lists. 8000 in total database state-wide, 83 general category in Genesee. *Need official request from SEOC to activate.*
- Diana Brook – Adventists Community Services. 300+ volunteers available. Also have water. Would like to send along water (see below).
- Ken Sutter – MDS and President of MI VOAD. Gene Rivers and LDS Church has water and volunteers. Chad gave details earlier (and see below).
- Mary Lloyd – Presbyterians and Secretary MI VOAD. Will notify Presbyterians and will work w/ Peter re: communications of United Methodist Church sites. Peter to help w/ language for release of info.
- Justin Bays – Red Cross. Review of VRC and general job opportunities – as many as possible (for now) to staff *firehouse (just found out the hand over timing and amounts are in flux as of this moment), door-to-door canvassing, data entry, Community VRC staffing, and more to come!*
- Chad Veeser – MCSC. Will send details (here). Supporting response and will facilitate volunteer requests and job descriptions from EOCs to and from VRC.

3. *Details re: water donations:*

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Subject: SEMIFRG EC Meeting MINUTES and TASKS

Importance: High

1. Here are the minutes from today and the 2. Volunteer Committee notes last week. Also, I have included the 3. executive summary and 4. details from AHV about the cost and their services.

010716 VC Notes.docx SEMIFRG EC Meeting Minute...

Executive Summary

- Bob – Support AHV. Work w/ Becky if church connection is an issue
- Bob – work to meet with Charlie Beckham and Jerry Norcia
- Ky and team – Stories to generate for media outlets. See notes (Lyke idea)
- Chad – confirm address w/ MNA (for correspondence)
- Chad – work with Rev. Roberts and Ginna to have the two meet (call)
- Greg – reach out to Faith Fowler

To the point of AHV ending operation at the end of January w/o money, here are some details from Reuben:

It costs us approximately $32k per month for direct costs in Detroit. This does not include materials or subcontractors. Nor does it include any overhead from the main office. All $32k is for Detroit specific costs. To date, All Hands has spent more money in Detroit than we have raised.

Since the beginning of Project Detroit in August, 2014 there have been 887 unique volunteers who represent 32 different nationalities. In the response phase from August, 2014 February, 2015 there were 489 volunteers who contributed 14,633 hours to gut and sanitize 401 homes. In the first rebuild phase, January and February of 2015, there were 28 unique volunteers who contributed 1,109 hours to rebuild/repair five in-home childcare centers in Northwest Detroit.

Since May 25th, 2015, the second rebuild phase, there have been 395 volunteers who have completed 11,863 volunteer hours. (Note, 17 of these 395 volunteers are duplicates from the previous phases). We have rebuilt 3 flood damaged homes with funding from 5th/3rd Bank and partnered with Motor City Blight Busters to boost capacity in blight removal in the Brightmoor neighborhood. In our partnership with the Northwest Detroit Flood Recovery Project (funded by UMCOR), we have repaired 31 flood damaged homes and mucked/gutted 67 homes for Detroit residents recovering from the August, 2014 floods.

Bullet Points:

- Mucked/gutted/sanitized 401 homes in Detroit from August, 2014 February, 2015.
- Mucked/gutted/sanitized 67 homes in Detroit since September, 2015.
- Rebuilt 5 inhome daycare centers in Northwest Detroit in January February, 2015.
- Through AHV support and guidance, 11 homeowners successfully completed a grant application and received up to $15,000 to repair their flood damaged home.
- Rebuilt 3 flood damaged single family homes through the 5th/3rd program.
- Rebuilt 31 flood damaged single family homes in the NwDFRP/UMCOR program.
- Volunteers assisted O'Hair Park with the board up of 38 houses in their community in July.
- AHV joined Team Rubicon in the field August 9th/10th in response to the high wind damage in Traverse City
- Team leaders in the Motor City Blight Busters / Team Leader Training program mobilized 855 SUV

Zach,

Good morning. I would like to introduce you to Linda Cieciek. Linda is one of our VIC/VRC s.m.e. The formal VRC plan will be completed today by 2:00pm. I believe a collaboration between the both of you will produce an A1 product. Linda will be connecting you in the near future.

Good luck and thank you for any assistance that you can provide.

Best regards,

Justin R. Bays

Zach, old buddy, Chad is correct and we would love your input and subject matter expertise reviewing our plan. I am in meetings most of the day but will send a copy to you later today.

Thanks.

Best regards,

Justin

Subject: RE: VRC

Hey Jodi and Rich,

So today the Red Cross is opening a VRC at their location in Flint. I had not heard anything back from Chad since we talked on Saturday until they said they were opening a VRC Monday night. So they are running a VRC for this incident. I sent them the concern list on making sure they have a liability release, background checks etc. So they are aware of those concerns.

So right now it in their hands (I made a plug for our VRC but it got ignored by Chad).

So I hope all is well with both of you.

Thanks for checking back,

Zach

Subject: VRC

Zach,

Just following up from this weekend. You asked me to start looking at the VRC cart but I have heard nothing beyond our conversation this weekend.

Virginia said the MI Volunteer registry did send out a message to volunteers to see if they are willing and avaliable if needed in the near future to assist Flint. Last I heard they had a 10% response rate.

Someone should be in touch with at least Rich if the activation still might possibly happen as we need to plan accordingly.

Thank you,

Subject: RE: Coding for City of Flint Water Contamination incident
Attachments: DCDS Hours Entry by Coding Block.docx

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Subject: RE: Lead Health Impacts

Would it be possible to get also the summary (narrative) of the health department response to the crisis (one or two paragraphs) today to accompany these numbers (which are extremely helpful, thank you!)?

I like either of those suggestions. I did interface with Ken a few times in Detroit. What I don't know at the moment is if we're going to be given the go ahead to EMAC, so I'll discuss these options with leadership.

Thanks Katie!

That's a fantastic idea - I should've thought of that, too! ;)

The first name that comes to mind is Ken Skalitzky. This should be a familiar name to you, but I'm not sure how closely worked with him. Ginna knows him well. He's a long-time former FEMA VAL from our busy states in Region 4 (Atlanta), and now the Director of Volunteer Florida - the state's lead for Volunteer Coordination. As an added bonus, between jobs he led the All Hands mission in Detroit for many months early on, and he's from Michigan so he knows the state well.
ken@volunteerflorida.org
- cell

If you want to keep it in-region and build relationships, Dennis Walter from MN HSEM would be your best bet. He's been a state "VAL" for a long time and is particularly good with state/VOAD coordination and information sharing.
Dennis.walter@state.mn.us
cell

Michelle Hanneken in IL would be a great choice but she's busy here with flooding.

Some of the other go-to State VALs that I'm familiar with around the country have recently retired, are busy with activity in their states, or training over the next few weeks. If you are uncomfortable with either of the choices above for any reason, or they're not available, let me know and I'll reach out to our VAL cadre for suggestions.

Hi Tom,

Thanks for the info below - it's really helpful. A few additional thoughts come to mind. It may be possible for the Adventists to come in and take over warehouse management, tracking and inventory - this is their area of expertise. It would free up some of the Red Cross volunteers to help with distribution, and meet the needs you have at the state level.

I will be on the NVOAD Disaster Health Committee call and will put some feelers out to these partners. If you have a minute to peruse, attached is a draft of the resources available through these partner agencies. As always, they may be flexible and responsive to unique situations like Flint as well.

What I would suggest as your best option to bring visibility, coordination and resources into the area would be to talk to Ken about setting up a joint State/MI VOAD call which we can blast out to the State and National VOAD network. The fact that you have specific "asks" at the state level, and situational awareness that you can share is super helpful to the partners. Fully ground-truthed or not, any information is better than none, and you guys are in the best position to describe the situation and needs.

Let me know what you think. Jeannie & I would be happy to get the word out and invite partners on a call.

Subject: RE: water

Tomorrow morning would be almost impossible. It's our planning day, and I'm the planning chief rather than the VAL, which we don't technically have at this point (me and Richard and Zach amongst our other duties).

I could probably make either Zach or Amanda Bresler available for a call. They've been working mostly on the resources and tracking, but we're getting very little good data from the field.

There are a few areas where I can see needs: the most pressing being acquisition and distribution of water. We have five fire stations and some secondary distribution points, plus city hall and the water department itself.

We also have limited people with any sort of logistical experience to help track inventory and report out when trigger points to order more water has been reached. There's currently one main distribution warehouse, and they are also short staffed, but that's where the Red Cross logistics team will report.

The care dogs might deploy, and there will be a lot of long term case management for health care and lead poisoning, but I don't know if the medical side of things would be practical at all for any voluntary organizations other than those that are long term parts of the community.

Also, there are faucet replacement programs and eventually replacing pipes in the homes, that will be interesting, but it might end up being something some of the groups like All Hands, Southern Baptists or Mennonites might be able to help with?

Thanks for this, Tom.

Katie is going to reach out to the Disaster Health Committee for NVOAD to see what's possible. As for long-term needs, I think you're right to think of All Hands, Mennonites, etc. Is Ken looped into all of this?

More soon!

Subject: RE: water

Tomorrow morning would be almost impossible. It's our planning day, and I'm the planning chief rather than the VAL, which we don't technically have at this point (me and Richard and Zach amongst our other duties).

I could probably make either Zach or Amanda Bresler available for a call. They've been working mostly on the resources and tracking, but we're getting very little good data from the field.

There are a few areas where I can see needs: the most pressing being acquisition and distribution of water. We have five fire stations and some secondary distribution points, plus city hall and the water department itself.

We also have limited people with any sort of logistical experience to help track inventory and report out when trigger points to order more water has been reached. There's currently one main distribution warehouse, and they are also short staffed, but that's where the Red Cross logistics team will report.

The care dogs might deploy, and there will be a lot of long term case management for health care and lead poisoning, but I don't know if the medical side of things would be practical at all for any voluntary organizations other than those that are long term parts of the community.

Also, there are faucet replacement programs and eventually replacing pipes in the homes, that will be interesting, but it might end up being something some of the groups like All Hands, Southern Baptists or Mennonites might be able to help with?

Hey Tom,

Let us do a little research. What kind of needs short and long-term are there that voluntary agencies might help with.

Any chance we could grab you for a phone call tomorrow morning? We want to get a better idea of what's going on out there so we can try to find you some help.

well, Michigan's at it again. Have you gotten any requests from Ginna, Richard, or Ken?
We're struggling with water supply. Red Cross is going to bring in a warehouse management team. They are also setting up a VRC. I think we're beginning to get water rolling in on a more continual basis, but I'm curious what might be out there for water, distribution, canvassing??

Also, do any VOAD members to MEDICAL case management?

Hi Tom,

Thanks for the info below - it's really helpful. A few additional thoughts come to mind. It may be possible for the Adventists to come in and take over warehouse management, tracking and inventory - this is their area of expertise. It would free up some of the Red Cross volunteers to help with distribution, and meet the needs you have at the state level.

I will be on the NVOAD Disaster Health Committee call and will put some feelers out to these partners. If you have a minute to peruse, attached is a draft of the resources available through these partner agencies. As always, they may be flexible and responsive to unique situations like Flint as well.

What I would suggest as your best option to bring visibility, coordination and resources into the area would be to talk to Ken about setting up a joint State/MI VOAD call which we can blast out to the State and National VOAD network. The fact that you have specific "asks" at the state level, and situational awareness that you can share is super helpful to the partners. Fully ground-truthed or not, any information is better than none, and you guys are in the best position to describe the situation and needs.

Let me know what you think. Jeannie & I would be happy to get the word out and invite partners on a call.

Subject: Re: MCSC Support

Richard,

Great to hear from you.

I was asked early on to sit in on some of the community meetings. But without a declared disaster, we could not deploy any of the AmeriCorps assets. But with the declaration, we are able to offer some resources.

There will be an announcement today (Friday) that Flint United Way will be receiving a NCCC AmeriCorps team. (the information is embargoed until CNCS makes the announcement) I will forward you the Press Release and so you are aware. Jessi has forwarded it to Ron to keep him informed as well.

The NCCC team is to arrive Feb. 2 and will be here through April. United Way will be taking care of getting them their housing and provide their overall support and management. I have a call in the morning with Wendy Spencer, the CEO of the Corporation for National and Community Service and Harvey Hollins, from the Governor's Office to discuss the announcement of the team and determine if there are other resources to consider.

I am wondering who is overseeing the operations in Flint and what needs have been identified that volunteers could assist with meeting? We can make some resources available from AmeriCorps - but it is best to know what the needs are and then determine what options to use.

Once you have a clear understanding of the needs, we can determine if any of the following additional resources could be of assistance:

1. American Red Cross AmeriCorps members can be redeployed. There are currently 34 in the state, we are able to ask 17 at a time to be redeployed to Flint. They could be of help this month - if you identify there is a need.

2. American Red Cross Case Management. We have given an AmeriCorps grant to Red Cross in Detroit and they have had a tough time getting it set up because they do not have the match. This could be an opportunity for us to serve both Flint and Detroit. We could have 10 members in each community trained to work with residents and help them get the resources they need. For Flint - provide information, filters, blood level checks, other identified resources. For Detroit - provide the housing support services they need to recover from the flood. I would need to find about $100,00 in match money - but with the current concerns in Flint, there may be options to do this. The good news is Red Cross will manage the members - we just need to determine if there is a need. Chad could assist with helping to get this set up. If we stand this up - they would be full time members serving for a full year. This would be a more consistent option that could provide longer term benefits. This grant could be renewed up to three years.

3. Operation AmeriCorps - Flint received this new AC program and there may be an option to have some of the members assist if an identified need develops. They are serving in the schools and so we could think of a unique way to have them provide information and assistance to families in the school.

4. CNCS state office is determining what RSVP and Senior Corps members could do to assist with the effort.

5. Chad Veesar from MCSC is available to assist with managing the volunteer component and provide ideas regarding how AC members could be used in this situation. As you know, he has plenty of direct experience in Detroit that could be an asset.

If you could give us an indication of what you are seeing the needs are for volunteers, that would be helpful. It will give us a heads up as to how we can best offer our support. I do understand if you are still at the assessment stage.

Let me know if you would like to have a call to discuss options available and what roles everyone will take.

Gentlemen, Ginna has asked me to reach out to you. In light of the recent declaration in Flint, I want to make sure you are aware that I am here to support any state/national service and volunteer efforts. I do have my experience from the Detroit flooding to bring to bear. I know Ginna has been involved with aspects of this thus far, and we are working to support the United Way of Genesee County and the City of Flint in any of their volunteer work, should they need it.

Some of what has occurred could be part of our discussion in next week's meeting (roles and options, what I can bring to the table, and what you would need to be accomplished). If you need to contact me by phone, my cell is: 248-250-0972.

Recovery Branch:

Paul and Linda sat down and put together two things for me: one is a list of IDEAS of ways in which they and other voluntary organizations might be able to provide assistance going forward. These are ideas, so any that seem needful would need additional discussion/researching. The other is a list of local agencies in Genesee County that have been contributing so far. There is going to be a meeting next week of voluntary organizations for coordinating activities. The Genesee EOC is aware of this meeting.

Tom and Zach,
Please find attached the list of ideas you asked us to develop.

We've asked Red Cross colleagues and others to add to it, so we may send you and updated version with more ideas in the next couple of days.

I'm the Emergency Preparedness Specialist at UM-Flint, and the local colleges and universities have helped and will want to continue. I'm working to add the ways they may be able to assist to the list.

Attachments: Mike Sobocinski notes from SEOC briefing Jan 6.docx

My draft notes from this morning's 9am SEOC briefing are attached for consideration, correction, consolidation, and discussion.
Hard to catch everything, but between everyone involved we should be able to piece together and sort through a lot, and hopefully avoid any major errors.

PS: Please forward to whoever else is in the SEOC Planning section today (or the upcoming 2pm meeting). If appropriate, I can make printouts of this to provide/discuss at the meeting.

Thanks,

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Follow Up Flag: Follow up
Flag Status: Completed

I managed to print 3 sections of the Flint Master Plan (2 - Community Profile, 8 – Infrastructure and Community Facilities, and 10 – Public Safety, Health and Welfare) but was unable to do so with section 4 (Land Use).
The three sections I do have probably contain some useful information, so if you like you can stop by to look through them and mark relevant info.
For at least an hour, I'll be working from some of the books I brought in, to provide a general historical overview... So it will likely be at least a couple of hours before I look at the sections I just printed.

Hey Mike,

There should be enough there to answer the questions about the system (at least from what is available online). So after the network outage let me know if these will work. If not we may need to look at other sources as that was all I could find online.

Until then I will be working on other tasks for Tom.

Thanks,
Zach

Hey Mike,

This is what I have found in regards to the water system and quality distributed by the city of flint water department. The first link describes the system (very briefly), the two report links (2015 and Oct 15) explain more about the situation and actions taken, the final report explains in detail the actions taken in response to high THM levels last spring after the switch.

Subject: RE: City of Flint Demographics Data.xlsx

Thanks very much!

I'm wondering whether you can track down another Flint document online (or set of documents) – those that describe the water supply system for the city, possibly including the transition plans themselves in which the city switched from and back to the Detroit system. Popular news articles have referred to certain details regarding the deposition of lead in

the water, but it would be best to have an official source of info on such things rather than rely upon journalistic accounts. Perhaps do up to 30 or 60 minutes of searching online for a while and let me know what you find, if anything. If you aren't finding much then perhaps some of my existing sources can be scrutinized to produce more clues (or contact might ensue with actual city department/utility representatives).

I say 30 to 60 minutes not because there is any specific rush or time limit on this (so far), but merely to designate what might count as an initial, general web search. Anything beyond that would almost certainly be better to track down using the clues and official sources (which we might end up using anyway, but it might be possible to find the same key documents with a 10 minute casual web search, so I figured you could start with that informal search). ☺

Thanks,
Mike

Thanks! With the recent network disconnect announcement from Jim Porcello, it sounds like these things can be placed on hold for an hour or two. (I'll still be doing editing/writing from my printed sources, but it should be fine if you work on other things until the network comes back up.)

Subject: Water system/water quality

Hey Mike,

This is what I have found in regards to the water system and quality distributed by the city of flint water department. The first link describes the system (very briefly), the two report links (2015 and Oct 15) explain more about the situation and actions taken, the final report explains in detail the actions taken in response to high THM levels last spring after the switch.

Water system facts
https://www.cityofflint.com/wp-content/uploads/Water-System-Facts.pdf

Annual report 2014
https://www.cityofflint.com/wp-content/uploads/CCR-2014.pdf

Quarter water quality report (Oct 15)
https://www.cityofflint.com/wp-content/uploads/Quarterly-Water-Quality-Report_Oct-15.pdf

City of flint operational evaluation report (in response to high TMM levels)
https://www.cityofflint.com/wp-content/uploads/Flint-TTHM-Operational-Evaluation-Report-August-2015.pdf

There are also a couple more documents on the following pages but they are very specific test oriented.
https://www.cityofflint.com/public-works/water-quality-concerns/
https://www.cityofflint.com/public-works/utilitieswater/

Let me know if these will work,

Zach

Thanks very much!

I'm wondering whether you can track down another Flint document online (or set of documents) – those that describe the water supply system for the city, possibly including the transition plans themselves in which the city switched from and back to the Detroit system. Popular news articles have referred to certain details regarding the deposition of lead in the water, but it would be best to have an official source of info on such things rather than rely upon journalistic accounts. Perhaps do up to 30 or 60 minutes of searching online for a while and let me know what you find, if anything. If you aren't finding much then perhaps some of my existing sources can be scrutinized to produce more clues (or contact might ensue with actual city department/utility representatives).

I say 30 to 60 minutes not because there is any specific rush or time limit on this (so far), but merely to designate what might count as an initial, general web search. Anything beyond that would almost certainly be better to track down using the clues and official sources (which we might end up using anyway, but it might be possible to find the same key documents with a 10 minute casual web search, so I figured you could start with that informal search). ☺

Thanks,
Mike

Hello –

Take a look at attachment 1 in the document Tom had sent to us. It was a draft used in a 2014 disaster declaration, but the information used there might be re-usable today, if the years are appropriate for the information you're finding. Do you have the impression that the info for the key variables are available for each year through ACS? One of our choices involves which year to use data for. 2010, or something more recent.

I had the same problem until I converted a smaller file into a printable version; then I was able to use the Adobe search feature successfully, but only on one converted section at a time. And when I tried making the entire document printable, there was another crash!
I'll be seeing what's in the city plan, so in the meantime, you can focus on getting info from the census/ACS site...

Thanks,
Mike

Excellent. There is a set of standard census info that we need to start with, by pulling comparative figures on several variables at three scales: (1) the City of Flint, (2) the State of Michigan, and (3) the United States as a whole. I believe the official 2010 population figures would be best in most cases (i.e. no estimates or projections), but several key variables will be part of the social information collected by ACS, which as I recall is in off-years now, such as 2012. So we should ideally also have population figures from that same ACS year/source. The key starting variables are: (1) persons below poverty level, percentage, (2) median household income, (3) percent with disabilities, (4) percent unemployed (might use an alternative source of info for this, but it's worth seeing what ACS has on it).

I haven't been able to search (Ctrl + F) the Flint plan without getting internet errors, for some reason, so I'm wondering whether you are able to do so. Some of this info might already be presented in that plan.

I found a crude way to digitally search the Flint plan. For example, poverty info is in there on page 21. However, since we need to make comparisons from the same source/year, the Flint plan might mainly be useful just to verify some of the info found in census/ACS.

I believe that Flint may have annual ACS info available for most of the needed variables. Larger cities like that are supposed to have annual surveys in ACS. So if you are able to verify this, then we can decide whether to use 2010 or to choose a later year.

Thanks,
Mike

Sounds good.
I'm "pretty good" at putting together census-based descriptions. Have been doing it for at least 20 years...
Since Genesee County has declared an emergency now, do you know if the focus is still specifically and exclusively on the city of Flint? (Were there any adjacent areas that also shared the Flint water system, such as Flint Township?) That would be the first question I'd need answered.

Thanks,
Mike

Glad you asked! While the Governor has not yet made the decision, it is virtually certain we'll be going to the feds with some sort of request for assistance, even if it's not through FEMA. So I think it would be well for us to get started on the demographic component, and it makes as much sense to use our past formats for declaration request letters as anything. Here's a copy of the one used for the SE MI flooding in '14. We can meet on this tomorrow if you'd like. I figured you two could work on this together.

Nothing major this morning at the Monday meeting. The following points came up:

- Keep in mind your contributions to points within the Strategic Plan and report out on them when possible.
- The Flint County Commission met this morning and declared emergency. A request for the Governor to declare emergency was also made.
- The move is on track. Labels were passed out to everyone today. Boxes were also delivered.
- The Terrorism Tabletop was moved to January 22.
- Cap/we will be heavily involved in the response to assist Flint.

To: Weber, Thomas (MSP)
Subject: RE: Monday meeting notes

Ok. Let me know if there's any sort of document that will need to be compiled for a Flint declaration (e.g. something that includes descriptions of Flint's community need, vulnerable populations, etc.)

From: Weber, Thomas (MSP)

To: Covey, Gabriel (MSP); McCarthy, Joyce (MSP); Kuzera, Michelle (MSP); Hollaender, Henrik (MSP); Hardy, Raquel (MSP); Eickholt, Jay (MSP); Mark, Kevin (MSP); McQueen, Nate (MSP); Martinez, Mark (MSP); Roach, Billie Jo (MSP); High, Kenneth (MSP); Russo, Mark (MSP); Decastro, Michael (MSP); Brown, Don (MSP); Baker, Zachary (MSP); Graham, Mitch (MSP); Pepper, Joel (MSP); Schnepp, Matt (MSP); Sobocinski, Mike (MSP); Weber, Thomas (MSP)
Subject: Monday meeting notes

Nothing major this morning at the Monday meeting. The following points came up:

- Keep in mind your contributions to points within the Strategic Plan and report out on them when possible.
- The Flint County Commission met this morning and declared emergency. A request for the Governor to declare emergency was also made.
- The move is on track. Labels were passed out to everyone today. Boxes were also delivered.
- The Terrorism Tabletop was moved to January 22.
- Cap/we will be heavily involved in the response to assist Flint.

MEDIA MONITORING REPORT

1/4/2016

Issues:

- No issues to report.

Summary:

- The chairman of the Genesee County Board of Commissioners has declared a state of emergency in Flint because of lead in the city's water supply.
- Gov. Rick Snyder is gathering the information needed to formally declare a state of emergency in Flint over the water contamination issue, but in the meantime is "already recognizing this as an emergency," spokesman Dave Murray said Monday.
- Plans are moving forward to seek more help handling problems with Flint's water system.
- A booming rendition of the spiritual hymn "Wade in the Water" set the tone Sunday morning for what was to come during a service at the Unitarian Universalist Congregation of Flint
- Gov. Rick Snyder of Michigan apologized this week for how the water crisis in Flint has been handled. Residents there were exposed water with high levels of lead for months after the city switched water suppliers. The city has since switched back to the Detroit water system.
- A New Jersey newspaper editorial examines its state government's lack of action due to lead in drinking water.
- Civil rights groups are planning to march and shut down a stretch of Michigan Avenue Monday night to demand justice in the December fatal shooting of an unarmed Detroit man by a Dearborn police officer/
- The Michigan State Police have enacted new rules that require all Multi-Line Telephone Systems (MLTS) or Private Branch Exchange (PBX) phones systems in Michigan to provide accurate locations for phones when a user dials 911.
- Sanilac County could invest nearly $1 million to renovate a 9,840-square-foot building in Sandusky to relocate multiple departments to a space officials say better suits their needs.
- Illinois, Missouri assess damage, cleanup after flooding.
- National Weather Service forecasts: Lake Effect Snow impacting parts of the state.

Analysis:

- Heavy local coverage about Genesee County's local declaration due to the Flint water crisis.
- Lake effect snow is impacting parts of Michigan.
- Will continue to monitor the situation.

FLINT WATER

Flint water crisis emergency declaration heading to Gov. Rick Snyder

MLive, January 4, 2015

The chairman of the Genesee County Board of Commissioners has declared a state of emergency in Flint because of lead in the city's water supply.

Chairman Jamie Curtis, supported by the county board, signed the declaration today, Jan. 4, during a meeting of the commissioners, clearing the way to send the request for help to Gov. Rick Snyder.

City and county officials said the request will amount to more than $50 million, including money to replace lead service lines and make other infrastructure upgrades but said specifics of the request are still being developed.

"Its a victory, and it's a step in the right direction," said Flint Mayor Karen Weaver, who said she plans to meet with Snyder in iscuss the declaration Thursday, Jan. 7.

Weaver declared that Flint had suffered a man-made disaster because of lead in water last month, the first step in requesting state and federal assistance.

"We're not going to be ignored," Curtis said. "We're going to get the help that these people need."

Board declares state of emergency in Flint water crisis

Detroit Free Press, January 4, 2015

LANSING – Gov. Rick Snyder is gathering the information needed to formally declare a state of emergency in Flint over the water contamination issue, but in the meantime is "already recognizing this as an emergency," spokesman Dave Murray said Monday.

Murray made his comment after the Flint Journal reported the Genesee County Board of Commissioners declared a state of emergency Monday in Flint.

The board's action follows an emergency declaration by Flint Mayor Karen Weaver, who said she plans to meet this week with Gov. Rick Snyder.

Specifics of the request are being worked out, but plans call for dealing with causes and effects of lead contamination. It's also part of the process for requesting federal assistance.

Flint switched from Detroit's water system last year to Flint River water in a cost-cutting move. Residents complained about the taste, smell and appearance, and children were found to have elevated blood-lead levels. Flint returned to Detroit's system in October.

Last week, Department of Environmental Quality Director Dan Wyant resigned over the issue, as did his communications director, Brad Wurfel.

"The health and welfare of Flint residents is a top priority, and we're committed to working closely with Mayor Weaver and the Genesee County Commission on a coordinated response to health and infrastructure issues," Murray said Monday in an e-mail to the Free Press.

The Michigan State Police's Emergency Management and Homeland Security Division is working with the Genesee County Emergency Management Coordinator to gather information about the resources needed for a governor's declaration of an emergency, Murray said.

"The State Police have been closely engaged in the situation since the beginning, meeting with both county and city leaders to guide them through state and federal laws regarding the emergency management process," he said.

"Due to the uniqueness of this situation, we have to look at all possible options to help Flint residents. But prior to a formal declaration, we are recognizing this as an emergency and are working with city and county leaders to coordinate efforts, streamline communication and tap all available resources at the state's control."

Plans move forward to seek more help for Flint water system

Associated Press, January 4, 2015

Plans are moving forward to seek more help handling problems with Flint's water system.

The Flint Journal reports (http://bit.ly/1Pb62V5) Genesee County board Chairman Jamie Curtis, supported by the board, declared a state of emergency Monday in Flint.

It follows an emergency declaration by Flint Mayor Karen Weaver, who says she plans to meet this week with Gov. Rick Snyder.

Specifics of the funding request are being worked out, but plans call for dealing with causes and effects of lead contamination. It's also part of the process for requesting federal assistance.

Flint switched from Detroit's water system last year to Flint River water in a cost-cutting move. Residents complained about the taste, smell and appearance, and children were found to have elevated blood-lead levels. Flint returned to Detroit's system in October.

County OKs Flint's state of emergency declaration

Michigan Radio, January 4, 2016

Flint's state of emergency declaration is on its way to the governor's office.

The Genesee County Commission approved the declaration for the city of Flint Monday.

The declaration is tied to elevated lead levels in the city's drinking water.

The city's action plan calls for $45 million to replace 15,000 lead transmission lines that connect Flint homes to the city's water system. It also asks for $6 million to help Flint connect to a new pipeline under construction from Lake Huron.

Commission chairman Jamie Curtis says his county's needs will not be ignored.

"This is a state man-made disaster," says Curtis., "And we're going to put together a comprehensive plan and we're going to ask the state to fix their disaster."

In April, 2014, the city switched from Detroit to the Flint River as the source of its tap water. But city and state officials failed to address of the corrosiveness of the river water. Researchers say the river water damaged water pipes, and the pipes eventually leeched high levels of lead into the drinking water. The city switched back to Detroit water last fall.

However, health officials say the threat of lead exposure persists.

"Lead should never be in the body of a child," Dr. Mona Hanna-Attisha told county commissioners today. She recently published a study in a national medical journal showing childrens' blood lead levels in some Flint neighborhoods have tripled.

Health officials fear the lead problem will continue for years to come.

"It's going to be pure hell," is how County Commissioner Brenda Clark describes the effect on Flint schools, when infants who consumed formula made with lead-tainted water start kindergarten in a few years.

But coming up with a specific number for how much is needed to cover the health care costs is problematic.

Mayor Karen Weaver says that's why they've drafted a "fluid" plan to address the issue as more information is gathered.

Weaver is scheduled to sit down with Gov. Snyder on Thursday. It will be up to the governor to decide whether Flint's water problems can be submitted to the Obama administration for a federal disaster declaration.

Weaver plans to travel to Washington later this month to meet with federal officials.

State Rep. Sheldon Neeley calls out, on governor for help over Flint water

MLive, January 3, 2016

FLINT TWP, MI -- A booming rendition of the spiritual hymn "Wade in the Water" set the tone Sunday morning for what was to come during a service at the Unitarian Universalist Congregation of Flint.

The service included guest speaker Sheldon Neeley, the 34th District state House Representative from Flint, who took a hard stance against Gov. Rick Snyder and what he felt was the emergency manager's role over the water issue in Flint.

"Governor Snyder provided an apology," said Neeley to around 50 people seated in the audience. "Thank you for those words, Governor, but an apology is worthless unless your actions follow."

Neeley said the water issues stemmed from an emergency manager in place at the city.

County commissioners to take up Flint water action plan

Michigan Radio, January 3, 2016

Flint's plan to recover from its drinking water problems goes to the Genesee County commission Monday morning.

The city's use of the Flint River for its drinking water damaged the city's pipes, and exposed thousands of people to high levels of lead. The city switched back to Detroit water last Fall. But city residents are still being told to use water filters.

Mayor Karen Weaver is asking the county commission to give its OK to Flint's plan to fix the problem.

Open Letter to Gov. Rick Snyder: Too Late to Apologize About Flint's Water Crisis

DailyKos, January 4, 2016

Should Apologies be Accepted When The Act Was Intentional? Should Apologies Present Sense of Instant Relief -- Regardless if a Long List of Repeated Cover Ups Are Revealed?

What About Standards?

Should a Governor Who Set His Standards So High He Proudly Signed A Bill Twice Over Ensuring Full Control of Cities, Townships, Villages, Counties and School Districts-- That Fails To Meet His High Standards -- Be Easily Forgiven With an "Apology" for Allowing Flint's Residents to Drink Toxic Water for years on end?

Governor Rick Snyder, the answer is a resounding no. No, Flint Residents should not accept your "apology" nor should they — as YOU continued structure that allowed for repeated lies about safety of the water.

Lead Poisoning In Michigan Highlights Aging Water Systems Nationwide

WBEZ-FM 91.5 (Chicago), January 4, 2016

Gov. Rick Snyder of Michigan apologized this week for how the water crisis in Flint has been handled. Residents there were exposed water with high levels of lead for months after the city switched water suppliers. The city has since switched back to the Detroit water system.

Snyder also said the state has to learn from Flint, as many other cities in Michigan also have an aging infrastructure.

Robert Puentes, director of the Metropolitan Infrastructure Initiative at the Brookings Institution, tells NPR's Scott Simon that the problem of aging water systems plagues many suburbs and smaller cities in the United States.

Editorial: Poisoned children are an outrage in Michigan – but not New Jersey?

Star-Ledger (Newark, New Jersey), January 3, 2016

Imagine if thousands of children were being poisoned, in many cases causing permanent brain damage. Parents would be in a state of panic. The headline would be stripped across every news channel.

That's what's happening in Michigan. The mayor of Flint has declared a state of emergency to address lead poisoning in the city's water supply. The proportion of children with elevated lead in their blood has nearly doubled, putting them at risk of irreversible cognitive damage. Two top officials have resigned. Now, the governor is apologizing.

Except that thousands of children are being poisoned in New Jersey, too, and there is no public outcry. Thousands more will fall victim next year, and we'll hear hardly a peep about it. Worst of all, our public officials saw all this coming, and could have saved many of these children. But they didn't, because it wasn't a priority.

Sorry kids, but you're going to have to live with brain damage, because Chris Christie and his predecessors had budget gaps to fill.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

March aims to shut down Michigan Avenue in Dearborn

Detroit Free Press, January 1, 2016

Civil rights groups are planning to march and shut down a stretch of Michigan Avenue Monday night to demand justice in the December fatal shooting of an unarmed Detroit man by a Dearborn police officer.

The march will begin at 6:30 p.m. at Michigan Avenue and Greenfield in the Kroger parking lot in Dearborn and continue a few blocks to the Dearborn Police Department, organizers said. The event is being organized by the National Action Network. Community organizations such as Take On Hate and Black Lives Matter are planning to participate.

Kevin Matthews, a 35-year-old Detroit resident, was shot multiple times Dec. 23 on Detroit's west side by a Dearborn police officer following a foot chase. The shooting is being investigated by Detroit police, who did not immediately return a call for comment Sunday.

New rules to improve emergency response time

Hillsdale Daily News, January 1, 2016

HILLSDALE — The Michigan State Police have enacted new rules that require all Multi-Line Telephone Systems (MLTS) or Private Branch Exchange (PBX) phones systems in Michigan to provide accurate locations for phones when a user dials 911.

The rules went into effect on Dec. 31, 2015.

"(The Michigan State police) have been pushing for that for a long time," Doug Sanford, emergency management director and Hillsdale 911 director, said.

Sanford said that the location of the 911 caller is vital for a quick response.

Sanilac putting $900K into emergency center

Port Huron Time-Herald, January 3, 2106

Sanilac County could invest nearly $1 million to renovate a 9,840-square-foot building in Sandusky to relocate multiple departments to a space officials say better suits their needs.

Administrator Kathy Dorman said departments including buildings and grounds and Central Dispatch have run into space issues, making the move priority for the county.

The exterior of the county-owned building at 95 Dawson St. — that officials have pegged its new Emergency Operations and Training Center — will remain largely as is, but Dorman said its interior will receive "quite extensive" remodeling.

She said that includes removing or rearranging walls and installing a new roof, heating and cooling system and security system.

Illinois, Missouri assess damage, cleanup after flooding

Associated Press, January 4, 2015

KINCAID, Ill. (AP) - Sharon Stivers mustered a smile as a visitor walked into her muddy yard.

"Welcome to my flood sale," Stivers joked, nodding to a tall stack of water-soaked furniture, appliances and belongings pulled from her home and piled high by the road in the flat central Illinois town of Kincaid. "You can have the whole thing for 50 cents."

The Mississippi River and most other waterways in Missouri and Illinois flooded last week after 10-14 inches of rain fell over a wide swath of the two states. The water receded in most places Sunday but continued to rise in a few. Cleanup and damage assessment was only beginning, and could take weeks.

Twenty-five deaths in the two states were blamed on flooding, nearly all of them the result of vehicles driving over flooded roadways. The death toll rose Sunday when the body of a second teenager missing for several days was found near Kincaid, a town of about 1,400 residents along the South Fork Sangamon River near Springfield.

The Mississippi River was receding except in the far southern tip of both states. After that, flooding is expected to worsen in Arkansas, Kentucky, Tennessee and other southern states, though the breadth of the flooding there isn't expected to match what happened in Missouri and Illinois.

Oregon militia standoff: Ranchers due at prison and what else to expect Monday

Oregon Live, January 4, 2015

The two father and son ranchers who triggered a national cry for justice over their convictions for arson were expected today to surrender themselves to federal prison, ending efforts of militants and fellow ranchers to spare them.

A family friend who asked not to be publicly identified told The Oregonian/OregonLive that Dwight Hammond Jr., 73, and Steven Hammond, 46, left Harney County over the weekend to report. He said they were traveling to California.

Their surrender closes one chapter of a controversial case that has spun into a national drama.

They leave behind a community reeling from the occupation of the Malheur National Wildlife Refuge, a sweeping reserve southeast of Burns. Militants, including the three sons of Nevada rancher Cliven Bundy, took over the empty headquarters compound on Saturday, insisting they will stay until federal land is returned to private ownership.

"We're not going to be ignored. We're going to get the help that these people need." – Genesee County Board of Commissioners Chairman Jamie Curtis

Flint water crisis emergency declaration heading to Gov. Snyder

The chairman of the Genesee County Board of Commissioners has declared a state of emergency in Flint because of lead in the city's water supply.
MLIVE COM

Erin Brockovich
2 hrs ·

Governor Snyder needs to issue this emergency declaration. An Executive branch of government's declaration of an "emergency" sends a strong message. Flint is in a state of emergency, children are suffering and all the resources available must be deployed to insure the immediate and ongoing safety of this community's children. Not declaring an emergency at this point would be a purely political move.

Subject: RE: Flint IAP

Captain,

The State Planning Unit has reviewed the IAP, and offer the following comments:

- The Incident Management Team is referred to in the document. It would be helpful to have the roster included in the document. It would also be helpful to have the roster listed in terms of a traditional ICS format, but the "function" references are workable.
- Not included in the IMT are anyone from Planning, Community & Economic Development, or Information Services. They do or could have beneficial roles in the response (documentation, CDBG, information technology logistics, and resource procurement).
- An Emergency Management Team is referenced but is not defined. It may actually be a reference to the IMT.
- The JIC and PIO "team" are referenced, but their composition and organization is unclear.
- EPA assistance with public information is mentioned. Should the state/DEQ be aware of this and communicating this to us?
- Who is "determining the total cost of damage done to the public health and infrastructure?"
- State needs to clarify with the city what any state role in replacing the whole water system may or may not include. Various funds and forgivable loans have been referenced, but the state should have (perhaps the Executive Office does have) an overall Project Manager who can coordinate all state and federal activities that are occurring.
- State should provide assistance/guidance if possible to help develop the capital improvement project for the water system
- An organization chart with contact information should be prepared by either the City or the County EM. The County EM could be serving as a coordinating/liaison role between city/county/state agencies.
- A county IAP with the City IAP as an appendix may be beneficial.
- Most of what is being requested echoes previous resources. Financial assistance is first and foremost what is being requested. Most resources (health monitoring programs) still do not have any cost projection attached. Infrastructure costs are the exception which, as noted, would need outside review for confirmation (or source of the existing estimates).

I would stress that with MSP/EMHSD, MDEQ, MCSC, MDHHS, and potentially MSHDA all providing input, the state needs a project manager for this. Which could take the form of an SEOC activation in the monitoring mode, or something less formal. But coordination is needed.

Here are the items that need clarification:

- Who comprises the Incident Management Team?
- Who comprised the Emergency Management Team?
- Who is "determining the total cost of damage done to the public health and infrastructure"?
- State needs to clarify with the city that they will not replace the whole water system and clarify what assistance we can provide (again)
- State should provide assistance/guidance if possible to help develop the capital improvement project for the water system
- Is there a JIC?
- There should be some kind of org chart/contact list with the IAP.

Subject: RE: Flint Plans

They have a Support Plan that was signed by the new mayor a few weeks ago. Genesee County also just updated their EOP, but probably has not implemented the changes recommended based on my review.
City of Flint used the older (2011) EMHSD-template, so I assume the title is "Support Emergency Operation Plan," see 2011-version of Pub 204.

I had a copy of the plan, but gave it to Michelle K. before she had a meeting in Flint. I can ask her if you need to be 1000% sure about the title.

Subject:	Media Monitoring Report -- Dec. 30, 2015
Attachments:	Media Monitoring - 2015.12.30.pdf

MEDIA MONITORING REPORT

12/30/2015

Issues:

- No issues to report.

Summary:

- Gov. Rick Snyder yesterday issued a statement in response to initial findings from the Flint Water Task Force.
- Gov. Rick Snyder apologized to the City of Flint on Tuesday for the drinking water crisis that has left children poisoned by lead and announced that he accepted the resignation of Michigan Department of Environmental Quality Director Dan Wyant.
- Michigan Department of Environmental Quality spokesperson Brad Wurfel has joined director Dan Wyant in resigning after a task force cited department failures in addressing the Flint water crisis.
- Congressman Dan Kildee again appeared on "The Rachel Maddow Show" Tuesday for a live interview with guest host Melissa Harris Perry.
- A task force appointed by Gov. Rick Snyder says Michigan's environmental regulatory agency is primarily responsible for the state's failure to ensure safe drinking water for Flint residents.
- The City of Flint took another major step Tuesday in addressing the current water "State of Emergency" declared earlier this month by Mayor Karen Weaver.
- Michigan Public Broadcasting has posted the letter to Gov. Rick Snyder from the Flint Water Advisory Task Force.
- Columnist Larry Gabriel posted an article for Detroit Metro Times on Gov. Snyder's role in Flint water crisis.
- Flint Journal Editor Bryn Mickle posted a MLive article regarding Gov. Snyder and the state's role in Flint water crisis.
- Mayor Karen Weaver and other local leaders say the resignation of Michigan Department of Environmental Quality Director Dan Wyant and release of Flint Water Task Force findings Tuesday are the first steps toward holding people accountable for Flint's water crisis.
- State regulators should have required Flint to treat its corrosive drinking water to keep lead from leaching from service lines into people's homes but did not purposely mislead federal officials about the lack of corrosion control, Michigan's auditor general said in a preliminary report released Monday.

- An increased number of mass shootings and natural disasters across the United States has put a greater demand on Lenawee County Emergency Management Coordinator Curtis Parsons' time on a local level, according to Lenconnect.com.
- New York City ramps up security for New Year's Eve.
- Homes all across Michigan are still without power in Lenawee County after Monday's winter storm.
- Several hundred people are in the dark Tuesday afternoon after a winter storm pushed through West Michigan on Monday.
- While Monday's winter storm resulted in snow and dangerous ice conditions in much of Lower Michigan, the impact in Monroe County was mostly property damage on the Lake Erie shoreline in addition to street flooding at the height of the storm.
- Flint City Councilman Joshua Freeman announced Tuesday he will no longer represent the city's fourth ward.
- There's a push in Michigan's Congress to reverse some efforts to limit voter access to the polls.
- National Weather Service forecast updates.
- TV clips: State at fault in Flint water crisis; MDEQ Director and Spokesman resign after Snyder apologizes.

Analysis:

- Media coverage is negative and neutral.
- Flint Water Advisory Task Force released their finding to reveal MDEQ is mostly at fault for the Flint water issues.
- Gov. Rick Snyder issued an apology and accepted MDEQ Direct Dan Wyant's resignation.
- MDEQ Spokesman Brad Wurfel has announced his resignation.
- Flint Mayor Karen Weaver submitted an "Incident Action Plan" on Flint water crisis to Genesee County Emergency Management and Homeland Security Office.
- Will continue to monitor the situation.

Subject: Additional DCDS Coding - City of Flint
Attachments: Activity Tab DCDS.png

Good Afternoon:

The State Budget Office (SBO) has requested some additional coding in DCDS for staff that work on the City of Flint Water Emergency. We will still be coding all overtime costs to PCA 28670. But at their request, we will also be utilizing the "Activity" code in DCDS.

To enter Activity Code

- Open Employee Data Collection
- Click on **Activity Tab** of DCDS timesheet
- On the Unit Entry tab, under Activity column at left, enter F in drop down box and select **FDWP** when it appears.
- Enter total of "**regular and overtime hours**" related to the Flint Water emergency in cell for each date worked.
- These hours should match the total hours for each day you have entered into your timesheet.
- Save when you have entered your activity hours.

Again, this is only for hours spent working on the City of Flint Emergency and should begin with this current pay period. Please let me know if you have questions.

Thanks,
Penny

Thanks Jeannie,

Not to throw too much of a wrench in. I forgot to add the Flint PD service centers. They are on the attached revised spreadsheet.

No addresses, no map – clear.
If there's any way I could have it by 11am tomorrow that would be great (for the 1pm meeting)
Socio-economic... since I'm not sure what's available...any thoughts or ideas? I don't want the map too busy, but we might take a look at poverty rates, but that may make the map too busy. Any other ideas that would allow it to maintain easy reading?

Thanks Tom,
We can do this. Just so we're clear:

- You don't want to overlay any socio-economic info? There was chatter about that last meeting.
- When do you need this by?
- Those without address (there's 7) won't be mapped

Thanks,
Jeannie

Subject: FW: DAILY numbers

Hi Zach,

Looping you into the conversation that I had with Amanda yesterday evening, regarding our numbers for the Governor's Daily Report. The data from MDHHS on blood lead testing and testing results **will not change over the weekend.** Attached is the testing data, and below is the data on the results. My email to Amanda explains why these two number sets are different and I offered how it might be best to include them in the report, so that it's simple and straight forward.

1. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
        *this data is updated bi-weekly
2. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22

Please let me know if you have any questions.

Thank you,
Jennifer

Subject: RE: DAILY numbers

Amanda,

This information that you provided below (from the Governor's Report template) is in regards to the "people" tested as opposed to the number of "tests" performed, which is the data depicted in the report that I sent you from the CHECC. Because of the way that the data is processed, we can only provide the number of "people" on a weekly basis. The only information that we can provide on a daily basis is in regards to the number of "tests" performed. This data is currently de-identified, so we can't simply add the number of tests to the numbers of people previously provided (there would be duplicates, etc.). Sorry, I know this is confusing. I would be happy to discuss it with you further if you have questions. As for the Governor's update tonight, if we could simply attach the document I sent you to the his report for now, then perhaps in the future we could separate that subsection of the report into, "weekly blood lead levels reported" and another section for "daily blood lead tests performed," it may help reflect this information accurately and simplistically.

Will that work?

Thank you,
Jennifer Lixey Terrill
MDHHS, EMC

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Hey Tom,

Attached is my edits to the declaration. Also here is the info you requested.

Declarations

- Public Health-Oct 1
- City-Dec 14th
- County-Jan 4th
- Request to Governor-Jan 4th

Water Switch

- Switch to Flint River-April 25th, 2014
- Flint notified in violation of Safe Water Drinking Act-Jan 2nd, 2015
- Switch Back to Detroit Water and Sewerage-Oct 16th

Let me know if you need anything else,

Hey Mike,

Here is the data for Flint, Michigan, and the US for the mentioned topics (see attached). I also included info on the Total population for 2012 and 2014 and there have been a decline in flint but still just above 100,000.

Let me know what you would like me to find next.

Zach

Glad you asked! While the Governor has not yet made the decision, it is virtually certain we'll be going to the feds with some sort of request for assistance, even if it's not through FEMA. So I think it would be well for us to get started on the demographic component, and it makes as much sense to use our past formats for declaration request letters as anything. Here's a copy of the one used for the SE MI flooding in '14. We can meet on this tomorrow if you'd like. I figured you two could work on this together.

Subject: Monday meeting notes

Nothing major this morning at the Monday meeting. The following points came up:

- Keep in mind your contributions to points within the Strategic Plan and report out on them when possible.
- The Flint County Commission met this morning and declared emergency. A request for the Governor to declare emergency was also made.
- The move is on track. Labels were passed out to everyone today. Boxes were also delivered.
- The Terrorism Tabletop was moved to January 22.
- Cap/we will be heavily involved in the response to assist Flint.

Subject: RE: Flint water crisis impacts
Importance: High

Good afternoon.
The Michigan Department of Talent and Economic Development (MTED) is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

Our combined efforts are focused on short and long-term assistance to the City of Flint and/or Genesee County through various grants and potential infrastructure assistance. MSHDA has identified allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources, MTED has assessed potential impacts to the economy of Flint resulting from the water crisis. We developed the attached analysis that looked at 4 potential long term costs associated with certain blood lead levels, which are:

- Lifetime earnings loss total
- Lead Health Care Treatment Costs
- ADHD Treatment Costs
- Special Education Costs

This analysis was based on a study by the University of Michigan Risk Science Center and the Michigan Network for Children's Environmental Health. The study, linked below, cited studies that showed the direct correlation in loss of IQ with elevated lead levels. This loss of IQ was directly correlated to loss of lifetime income potential, as well as costs for treatment, costs for special education, and ADHD treatment for cohorts under 5 years old.

The excel chart uses the findings from this study and applies it to Flint's population of 0-5 year olds. We're not sure what number to use in the field labeled "estimated percent of population impacted", but it's saved at 6% of 0-5 year olds impacted. Depending on the lead levels, the lifetime earnings loss ranges from $33 Million to over $89 Million if 6% of 0-5 year olds were impacted. The % of population can be changed for each blood lead level to get the impact.

http://www.riskscience.umich.edu/wp-content/uploads/2013/12/Economic-Impact-of-Lead-in-Michigan-Web.pdf

Again, this analysis is based on the study linked above. If the findings and methodology of the study aren't acceptable, then the attached Excel calculations shouldn't be used. Also, we have not reached out to UM to see if any of their assumptions have changed since this was done in 2014 or if our correlations and methodology are acceptable. With additional time, we would confirm our method with the UM team.

With input from the Department of Treasury, we assessed that the most significant immediate negative impact will be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water like restaurants will be hurt), lost employment, population loss (renters will leave the city). Residents and businesses are also having to pay extra for bottled water, so the extra spending on water will take away from other spending. It is relatively easy for residents to move some of their economic/spending activity outside the city, so the Flint economy will be hurt. These impacts will create an economic downturn in Flint. In terms of personal income losses, a three to four percent loss in nominal personal income in the City of Flint seems reasonable, which would equal a negative impact of $85 million to $115 million per year in lost economic activity. Long-term there would be the cost of a new water system, which would have a significant cost. Direct health related costs would be on top of this estimate.

This is a very rough estimate. With additional time and information/data, we can develop a more thorough estimate.

Subject: Flint water crisis impacts

Good morning all,

We are preparing the draft of the letter from the governor to the president to request assistance. We are attempting to send this as quickly as humanly possible.

What we need from each agency is a complete but as brief as possible summary of the impacts to the people and economy of Flint resulting from the water crisis, prepared by the best qualified person in your agency.

This would include quantification of past, current, and future or potential future impacts including:

Health
Economic
Insurance (is there any coverage on the part of individuals, or the city or state that might help to cover damages?)
Contributions of voluntary agencies
Environmental; and
Infrastructure

There will be an opportunity to review the entire draft as it is pieced together, to make sure we are including every potential impact that will help to describe the severity of this crisis to the City of Flint and State of Michigan.

If there's any chance of getting summaries by the end of today (let me know what the minimum timeline is that you need), that would be great.

Thanks very much for your assistance,

>
> Penny,
>
> I wanted to also mention that the costs incurred by the County are above and beyond what is in the County's operating budget. As a result, the County is forced to use its "rainy day" fund to absorb these costs, which are now approaching $1 million and counting. Furthermore, the County is in the process of issuing $60 million of bonds to finance its water treatment plant, and the County's bond rating is heavily dependent on having an adequate "rainy day" fund. The County has been cautioned against dipping into its rainy day fund as doing so could adversely affect the County's bond rating. Moody's rating service will be reviewing the County's bond rating at end of February. Given these factors, obtaining reimbursement for the costs incurred by the County is critical to sustaining the ongoing financial viability of the County.

Subject: Flint: VRC Overview and Notes from 1-13-16 Calls

As of January 15th, there are more updates to follow. Mary, Secretary/Treasurer MiVOAD, 313-247-0792

From: VeeserC@michigan.gov
To: msmarylloyd@hotmail.com; kennysutter@hotmail.com; justin.bays2@redcross.org
CC: HolmesV@michigan.gov; HunterJ8@michigan.gov; MartusD@michigan.gov
Subject: VRC Overview and Notes from 1-13-16 Calls
Date: Wed, 13 Jan 2016 21:28:50 +0000

1. The overview is good detail to use re: the VRC. Please send along to the group.

2. Notes (my apologies for innacuracies):

- Jeannie – Region 5 FEMA Val. Will be out of the country and Katie Halliday will fill in for the interim.
- Zach Baker – State Police/Homeland Security. Update on current big picture details.
- Peter Plumb – United Methodists. Have multiple sites at churches in the Flint area. Would like help getting word out. JIC needs info, and 211 could also list as a partner.
- Annette and Raven Wright – Alafia. Starter water distribution last year, and have partnered with Pierce Elementary.
- Nick Meijer – Hope Animal-Assisted Crisis Response. Can have teams come in to volunteer. K-9 support (3 teams). Alafia would like support. *Is there housing for volunteers?* Justin to look in to this
- Virginia Zimmerman – DHHS/EMS Emergency Response and Medical Reserve Corps. Level 2 activation. Info gathering now. Mon-Sun availability, 8am-8pm. Willing to support door-to-door, data entry, etc. Medical and general volunteer lists. 8000 in total database state-wide, 83 general category in Genesee. *Need official request from SEOC to activate.*
- Diana Brook – Adventists Community Services. 300+ volunteers available. Also have water. Would like to send along water (see below).
- Ken Sutter – MDS and President of MI VOAD. Gene Rivers and LDS Church has water and volunteers. Chad gave details earlier (and see below).
- Mary Lloyd – Presbyterians and Secretary MI VOAD. Will notify Presbyterians and will work w/ Peter re: communications of United Methodist Church sites. Peter to help w/ language for release of info.
- Justin Bays – Red Cross. Review of VRC and general job opportunities – as many as possible (for now) to staff *firehouse (just found out the hand over timing and amounts are in flux as of this moment), door-to-door canvassing, data entry, Community VRC staffing, and more to come!*
- Chad Veeser – MCSC. Will send details (here). Supporting response and will facilitate volunteer requests and job descriptions from EOCs to and from VRC.

3. Details re: water donations:

Subject: SEMIFRG EC Meeting MINUTES and TASKS

Importance: High

1. Here are the minutes from today and the 2. Volunteer Committee notes last week. Also, I have included the 3. executive summary and 4. details from AHV about the cost and their services.

010716 VC Notes.docx

SEMIFRG EC Meeting Minute...

Executive Summary

- Bob – Support AHV. Work w/ Becky if church connection is an issue
- Bob – work to meet with Charlie Beckham and Jerry Norcia
- Ky and team – Stories to generate for media outlets. See notes (Lyke idea)
- Chad – confirm address w/ MNA (for correspondence)
- Chad – work with Rev. Roberts and Ginna to have the two meet (call)
- Greg – reach out to Faith Fowler

To the point of AHV ending operation at the end of January w/o money, here are some details from Reuben:

It costs us approximately $32k per month for direct costs in Detroit. This does not include materials or subcontractors. Nor does it include any overhead from the main office. All $32k is for Detroit specific costs. To date, All Hands has spent more money in Detroit than we have raised.

Since the beginning of Project Detroit in August, 2014 there have been 887 unique volunteers who represent 32 different nationalities. In the response phase from August, 2014 February, 2015 there were 489 volunteers who contributed 14,633 hours to gut and sanitize 401 homes. In the first rebuild phase, January and February of 2015, there were 28 unique volunteers who contributed 1,109 hours to rebuild/repair five in-home childcare centers in Northwest Detroit.

Since May 25th, 2015, the second rebuild phase, there have been 395 volunteers who have completed 11,863 volunteer hours. (Note, 17 of these 395 volunteers are duplicates from the previous phases). We have rebuilt 3 flood damaged homes with funding from 5th/3rd Bank and partnered with Motor City Blight Busters to boost capacity in blight removal in the Brightmoor neighborhood. In our partnership with the Northwest Detroit Flood Recovery Project (funded by UMCOR), we have repaired 31 flood damaged homes and mucked/gutted 67 homes for Detroit residents recovering from the August, 2014 floods.

Bullet Points:

- Mucked/gutted/sanitized 401 homes in Detroit from August, 2014 February, 2015.
- Mucked/gutted/sanitized 67 homes in Detroit since September, 2015.
- Rebuilt 5 inhome daycare centers in Northwest Detroit in January February, 2015.
- Through AHV support and guidance, 11 homeowners successfully completed a grant application and received up to $15,000 to repair their flood damaged home.
- Rebuilt 3 flood damaged single family homes through the 5th/3rd program.
- Rebuilt 31 flood damaged single family homes in the NwDFRP/UMCOR program.
- Volunteers assisted O'Hair Park with the board up of 38 houses in their community in July.
- AHV joined Team Rubicon in the field August 9th/10th in response to the high wind damage in Traverse City
- Team leaders in the Motor City Blight Busters / Team Leader Training program mobilized 855 SUV

Subject: RE: Lead Health Impacts

Would it be possible to get also the summary (narrative) of the health department response to the crisis (one or two paragraphs) today to accompany these numbers (which are extremely helpful, thank you!)?

Hi Tom,

Thanks for the info below - it's really helpful. A few additional thoughts come to mind. It may be possible for the Adventists to come in and take over warehouse management, tracking and inventory - this is their area of expertise. It would free up some of the Red Cross volunteers to help with distribution, and meet the needs you have at the state level.

I will be on the NVOAD Disaster Health Committee call and will put some feelers out to these partners. If you have a minute to peruse, attached is a draft of the resources available through these partner agencies. As always, they may be flexible and responsive to unique situations like Flint as well.

What I would suggest as your best option to bring visibility, coordination and resources into the area would be to talk to Ken about setting up a joint State/MI VOAD call which we can blast out to the State and National VOAD network. The fact that you have specific "asks" at the state level, and situational awareness that you can share is super helpful to the partners. Fully ground-truthed or not, any information is better than none, and you guys are in the best position to describe the situation and needs.

Let me know what you think. Jeannie & I would be happy to get the word out and invite partners on a call.

Subject: RE: water

Thanks for this, Tom.

Katie is going to reach out to the Disaster Health Committee for NVOAD to see what's possible. As for long-term needs, I think you're right to think of All Hands, Mennonites, etc. Is Ken looped into all of this?

More soon!

Subject: RE: water

Tomorrow morning would be almost impossible. It's our planning day, and I'm the planning chief rather than the VAL, which we don't technically have at this point (me and Richard and Zach amongst our other duties).

I could probably make either Zach or Amanda Bresler available for a call. They've been working mostly on the resources and tracking, but we're getting very little good data from the field.

There are a few areas where I can see needs: the most pressing being acquisition and distribution of water. We have five fire stations and some secondary distribution points, plus city hall and the water department itself.

We also have limited people with any sort of logistical experience to help track inventory and report out when trigger points to order more water has been reached. There's currently one main distribution warehouse, and they are also short staffed, but that's where the Red Cross logistics team will report.

The care dogs might deploy, and there will be a lot of long term case management for health care and lead poisoning, but I don't know if the medical side of things would be practical at all for any voluntary organizations other than those that are long term parts of the community.

Also, there are faucet replacement programs and eventually replacing pipes in the homes, that will be interesting, but it might end up being something some of the groups like All Hands, Southern Baptists or Mennonites might be able to help with?

Hey Tom,

Let us do a little research. What kind of needs short and long-term are there that voluntary agencies might help with.

Any chance we could grab you for a phone call tomorrow morning? We want to get a better idea of what's going on out there so we can try to find you some help.

well, Michigan's at it again. Have you gotten any requests from Ginna, Richard, or Ken?
We're struggling with water supply. Red Cross is going to bring in a warehouse management team. They are also setting up a VRC. I think we're beginning to get water rolling in on a more continual basis, but I'm curious what might be out there for water, distribution, canvassing??

Also, do any VOAD members to MEDICAL case management?

Tom and Zach,
Please find attached the list of ideas you asked us to develop.

We've asked Red Cross colleagues and others to add to it, so we may send you and updated version with more ideas in the next couple of days.

I'm the Emergency Preparedness Specialist at UM-Flint, and the local colleges and universities have helped and will want to continue. I'm working to add the ways they may be able to assist to the list.

Washington, D.C. 20472

Through: Mr. Andrew Velasquez III
Regional Administrator
FEMA Region V
536 South Clark St
Chicago, IL 60605

Dear Ms. Zimmerman,

I am writing to appeal your January 22, 2016 denial of my request that the emergency declaration FEMA-3375-EM be modified to provide federal assistance for Category B emergency protective measures, the Individuals and Households program, and the Hazard Mitigation Grant Program for the City of Flint ~~affected by the water contamination incident~~. Respectfully, I disagree with the determination that the nature of this event was not of such severity and magnitude to warrant further public assistance for the reasons expressed herein. ~~The water contamination, which affected the water supply of 30,188 customers, was unprecedented, and the long-term impact of the contamination has been continuous.~~

Genesee County and particularly the City of Flint, experience poverty rates significantly higher than both the national and state average. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is nearly double the county. Household income is significantly below the median income at the national, state, and county level, and the city is less than half the national median income.

The city of Flint also has a large turnover rate, in that every 30 days about 20% of the population moves. This makes determining residency in the city of Flint much more difficult and we face the added challenge of commuter traffic and taxing on city resources. It is estimated that the population of the city increases by 34,000 every day and these individuals place added stresses on the city's limited services and infrastructure.

To exacerbate the impact of lead, which impacts young children so significantly, the percentage of children under 5 in Flint exceeds the national, state, and county rates. The percent of disabled is also 8.1 percentage points above the national rate. Unemployment in Flint is also significantly higher than national and state rates. The table below shows the unemployment rate in Flint has been nearly 3 times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

Formatted: Centered

Formatted: Centered

	Average of	Median	Percent	Percent	Percent	Percent

	Persons Below Poverty Level*	Household Income*	Children under 5	Elderly*	Disabled*	Pre-Disaster Unemployment*
US Average	15 6%	$53,482	6 4%	13 7%	12 3%	9 2%
State of Michigan	16 9%	$49,087	5 9%	14 6%	13 9%	11 4%
Genesee County	21 2%	$41,879	6 2%	14.7%	16 1%	15 5%
City of Flint	41 6%	$24,679	7 8%	11 7%	20 4%	26 3%

The combination of the above factors ~~combination of the above factors~~ has greatly hindered the speed and effectivity at which response and recovery efforts can provide necessary change in the community.

The water contamination, which affected the water supply of 30,188 active water customers, ~~was~~is unprecedented, and the long term impact~~s~~ of the contamination ~~has been~~are continuous and not fully understood.

Formatted: Not Highlight

_The President recognized the significance of this event when he granted my request for an emergency declaration. _Federal Emergency Management Agency (FEMA) officials designated the type of assistance granted to ~~us~~ the City of Flint and the State of Michigan as Public Assistance Category B, "~~e~~Emergency ~~p~~Protective ~~m~~Measures,"; limited to direct federal assistance. The ~~far-reaching~~broad impact of this event ~~was beyond our initial expectations~~far exceeds anyone's comprehension ~~when~~ when we requested a declaration for ~~I requested, in consultation with FEMA officials,~~ assistance to combat this incident.

In the weeks since the emergency declaration for this event of national significance, we have responded in ~~true~~ partnership with all agencies~~p~~. At my request, FEMA supplied ~~bottled water~~limited direct federal assistance in the form of water, water filters, ~~replacement~~ water filter cartridges, ~~and~~ water test kits, and other necessary related items for ~~the~~ state and ~~our~~ partners to distribute to ~~citizens in need~~the citizens of Flint. ~~In this incident t~~TheWith our ~~assistance~~support and coordination, the whole community has come together, ~~especially~~ particularly the voluntary agencies, to quickly and generously respond with donations of water, water resources, and time. Unfortunately, needs continue to exceed donations and voluntary assistance received.

Even ~~with~~ as the incident begin~~s~~ning to stabilize, it has become clear that there will be many ongoing ~~aspects~~ concerns that will continue to demand public assistance for months to come. _The state and local agencies, including the county of Genesee, the Michigan Department of Environmental Quality (MDEQ), the Michigan Department of Health and Human Services (MDHHS), ~~and~~ the Michigan Department of Technology, Management, and Budget (MDTMB), Licensing and Regulatory Affairs (LARA) and the Michigan State Police, continue to incur significant costs. While the distribution rate for these items has slowed over the course of the incident we still need to supply water and replacement cartridges for a minimum of 10 more months. These costs are projected to cost the state an estimated $200,000,000 from the beginning of the incident to December 31, 2016.

Formatted: Not Highlight

Formatted: Not Highlight

Formatted: Not Highlight

Formatted: Highlight

The Centers for Disease Control (CDC), the Environmental Protection Agency (EPA), along with MDHHS and MDEQ have issued statements regarding safe levels of ~~the~~ lead. Continued water sampling ~~tests~~ throughout the community ~~is~~are necessary to ensure ~~the~~ water quality ~~is meeting~~meets EPA standards. Following the addition of Corrosion Control Treatments (CCT) to the water supply, high lead and copper levels have been recorded in various areas, requiring additional testing and intervention. Due to the discoloration of the unfiltered water in some locations, even the filtered water from taps ~~was~~ is objectionable long after filters have been supplied.

Further testing has become necessary to enhance the situational awareness of targeted areas ~~which~~ posinge a threat to public health and safety at significant expense to the state and local agencies.

The EPA and MDEQ ~~are~~have partnered to ~~created teams that are has provided useful guidance on the safe levels of the chemical, and is~~ working to collect and process samples to target homes ~~that exceeding the~~ EPA standards. The teams are comprised of a combination of representatives from the MDEQ, EPA, US DHHS, the Genesee County ~~Local~~ Health Department, LARA hired plumbers, and ~~a~~ community partners. Once ~~the~~ homes with contaminated water supply have been identified, the teams work with homeowners to *place interventions and sampling those homes until levels fall below* ~~the~~ EPA standards ~~to ensure the public that these levels are being met or addressed or are intervening to ensure these standards will be met. Thorough information about the consequences of the water contamination and corrosion on the home water infrastructure is essential to addressing this threat.~~

Formatted: Not Highlight
Formatted: Not Highlight

I strongly urge you to reconsider your denial of the additional Category B costs for Michigan in this emergency. The expenses incurred by the state and local agencies prior to the limited- direct federal assistance were necessary ~~and responsible~~to meet immediate public health and safety needs. ~~Since the attack on September 11, 2001, the protection of our country's water supply has been an issue of targeted concern and national discussion.~~ Our ongoing response to this ~~contamination~~incident, continuous studies, and test results will serve as future guidance not only for exposure to the specific contaminants involved in this incident, but for any water system contamination in the nation. The work we are conducting will fill a void in the scientific and public health knowledge ~~base with much needed information.~~base.

Formatted: Not Highlight
Formatted: Highlight

The quantity of resources purchased and expended during the continued response to this incident has placed a severe financial burden on the state. The combination of recent *governor's declarations and the political pressures of this incident have put severe* financial and political strains on the state. Michigan and its subdivisions lack the resources necessary to cover 100 percent of the costs expended to eliminate the threats to public health and safety caused by the water contamination. Since the beginning of the incident, we have distributed over 686,000 water resources into the city of Flint.

Formatted: Highlight

For the past 27 days our average ~~burn~~ distribution rate for commodities has been ~~the following~~:

Water-Liters*	118,092
Water-Cases*	9,841
Filters-Faucet	488
Replacement Filter cartridges	1,094
Filters-Pitcher	5
Water Test Kits	759

*Water is presented in liters and cases for comparison but is the same value.

[redacted]

The results of our evaluation of the direct and indirect costs of this event are attached. These costs are documented, and we have attempted to be conservative in our estimated regarding eligible reimbursement costs under Category B of the Public Assistance program. At this time, estimated losses to the economy of the affected county are estimated at $XX,XXX,XXX. The total economic impact will ~~likely~~ undoubtedly be greater.

- The sectors of the economy ~~primarily~~ affected included restaurant, ~~and~~ hotel, and other businesses that use water as part of their customer work activities. The contamination and stigma of the water have caused proprietors to lose revenue and scale back operations. ~~have lost revenue and were forced to scale back operations due to the contamination and stigma of the Flint water.~~ Many of these employees~~employees of these businesses~~ earn low wages, and, in the case of restaurant servers, depend on tips to make a living wage. The losses for this incident ~~were severe~~were severe enough to warrant a Small Business Administration (SBA) Economic Injury Disaster Loan Program for the affected area. Typically~~but~~ this support ~~traditionally~~ covers only a small portion of the total ~~business~~businessess in the disaster area.
- Businesses ~~that temporarily closed due to the lack of potable water showed remarkable determination to reopen as soon as possibl~~have been working with the Department of Agriculture and Rural Development to meet standards~~e~~, and have incurred additional costs in order to meet the standards set by the health officials to ~~reopen using alternate~~add inline and faucet filters to water sources. To this day many businesses, especially those serving food, are incurring additional costs to provide assurances to their customers that no unfiltered tap water is being used in the food preparation ~~or cleansing of the silverware, plates, or glasses. The losses were severe enough to warrant a Small Business Administration (SBA) Economic Injury Disaster Loan Program for the affected area, but this support traditionally covers only a small portion of the total businesses in the disaster area.~~
- Nursing homes and other long-term care facilities had to use filtered water to ~~develop alternatives to car~~inge for their patients, and the local health department faced a considerable increase in responsibilities and workload.

- The educational community was also impacted by this water contamination. During this event state agencies have worked with the schools to replace older fixtures and update ~~outdated~~ water infrastructure to meet standards. The Michigan Department of Education has also taken steps to provide guidance and education on nutrition and is ensuring that USDA Child Nutrition programs in the area are using the proper preparation ~~The~~techniques. The agencies and SEOC continue to ~~have also worked to~~ ensure that necessary water resources ~~were~~are provided to schools.
- ~~The education community was also impacted by the water outage. While this unusually harsh winter caused students to miss several instructional days, this event caused schools in the affected areas to close for no less than a week, and in some cases, longer. Genesee County estimate they have lost over $X,XXX,XXX in instructional time because of the water outage.~~

The response to this disaster was a community effort. With your supplemental assistance and programs we can continue our survivor centric~~to~~ response to this incident and~~nd~~ to each new aspect ~~of the event~~ as it arises.

The attached "EM-3375-Category B Assessment-as of X/X/XX" was developed with guidance from experienced MSP/EMHSD staff that have scrutinized the data provided by state and local agencies to determine the eligible costs for Stafford Act Public Assistance reimbursement. Their conclusions are based on a much more careful analysis of the provided information than is normally done during a Preliminary Damage Assessment process, and the figures may be exceeded when actual Project Worksheets are developed. Their estimate of more than $X,XXX,XXX in probable eligible Public Assistance Costs plus the over $5,000,000 cost of direct federal assistance means the Category B expenditures in our joint response to this Event of National Significance were over $X,XXX,XXX. This is ~~more than Double~~almost double our Public Assistance impact indicator for a Major Disaster Declaration of ~~$X,XXX,XXX,XX~~13,935,932.

Formatted: Highlight
Formatted: Highlight

The financial impact of this event is significant and widespread. The estimated $XX,XXX,XXX economic loss noted above added to the total impact noted on the attachment exceeds $XX,XXX,XXX. ~~This figure does not include our ongoing study, on which we will spend over $XXX,XXX, and the continued response to this event.~~ It also does not include the donations from members of the community and partners which add over $XXX,XXX to the total. The total estimated costs and losses are equal to a $XXX per capita impact on the ~~XXX,XXX~~102,434 people directly affected by this crisis.

I understand FEMAs original decision to limit the Public Assistance Category B to direct federal assistance. However, the unique characteristics of this incident combined with the severe financial impact warrant further assistance in the form of the Individual and Households Program, Category B reimbursement, and the Hazard Mitigation Grant Program to protect public health and safety.

Formatted: Not Highlight
Formatted: Not Highlight
Formatted: Not Highlight

~~I understand FEMAs original decision to limit the Public Assistance Category B to direct federal assistance. However, as subsequent events have demonstrated, this was a true~~

~~emergency that demanded the best efforts of all levels of government, non-profit, and community partners to protect public health and safety.~~

Thank you for your consideration and your attention in this matter. Any questions regarding this appeal or requests for additional documentation should be directed to ~~XX.XXXX X. XXXXXX~~Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management & Homeland Security Division whom I have appointed as State Coordinating Officer for this ~~disaster recovery operation~~request.

The President recognized the significance of this event when he granted my request for an emergency declaration. Federal Emergency Management Agency (FEMA) officials designated the type of assistance granted to ~~us~~ the City of Flint and the State of Michigan as Public Assistance Category B, "eEmergency pProtective mMeasures,", limited to direct federal assistance. The ~~far-reaching~~broad impact of this event ~~was beyond our initial expectations~~far exceeds anyone's comprehension ~~when~~ when we requested a declaration for ~~I requested, in consultation with FEMA officials,~~ assistance to combat this incident.

In the weeks since the emergency declaration for this event of national significance, we have responded in true partnership. At my request, FEMA supplied ~~bottled water~~limited direct federal assistance in the form of water, water filters, ~~replacement~~ water filter cartridges, ~~and~~ water test kits, and other necessary related items for ~~the~~ state and ~~our~~ partners to distribute to ~~citizens in need~~the citizens of Flint. ~~In this incident t~~TheWith our assistance and coordination, the whole community has come together, ~~especially~~ particularly the voluntary agencies, to quickly and generously respond with donations of water, water resources, and time. Unfortunately, needs continue to exceed donations and voluntary assistance received.

Even ~~with~~ as the incident begin~~s~~ning to stabilize, it has become clear that there will be many ongoing ~~aspects~~ concerns that will continue to demand public assistance for months to come. The state and local agencies, including the county of Genesee, the Michigan Department of Environmental Quality (MDEQ), the Michigan Department of Health and Human Services (MDHHS), ~~and~~ the Michigan Department of Technology, Management, and Budget (MDTMB), Licensing and Regulatory Affairs (LARA) and the Michigan State Police continue to incur significant costs.

The Centers for Disease Control (CDC), the Environmental Protection Agency (EPA), along with MDHHS and MDEQ have issued statements regarding safe levels of ~~the~~ lead. Continued water sampling ~~tests~~ throughout the community ~~is~~are necessary to ensure ~~the~~ water quality ~~is meeting~~meets EPA standards. Following the addition of Corrosion Control Treatments (CCT) to the water supply, high lead and copper levels have been recorded in various areas, requiring additional testing and intervention. Due to the discoloration of the unfiltered water in some locations, even the filtered water from taps ~~was~~ is objectionable long after filters have been supplied.

Further testing has become necessary to enhance the situational awareness of targeted areas ~~which~~ posinge a threat to public health and safety at significant expense to the state and local agencies.

The EPA and MDEQ ~~are~~have partnered to created teams ~~that are has provided useful guidance on the safe levels of the chemical, and is~~ working to collect and process samples to target homes ~~that~~ exceeding ~~the~~ EPA standards. The teams are comprised of a combination of representatives from the MDEQ, EPA, US DHHS, the Genesee County~~Local~~ Health Department, LARA hired plumbers, and ~~a~~ community partners. Once ~~the~~ homes with contaminated water supply have been identified, the teams work with homeowners to place interventions and sampling those homes until levels fall below the EPA standards ~~to ensure the public that these levels are being met or addressed or are intervening to ensure these standards will be met. Thorough information about the consequences of the water contamination and corrosion on the home water infrastructure is essential to addressing this threat.~~

I strongly urge you to reconsider your denial of the additional Category B costs for Michigan in this emergency. The expenses incurred by the state and local agencies prior to the limited- direct federal assistance were necessary ~~and responsible~~to meet immediate public health and safety needs. ~~Since the attack on September 11, 2001, the protection of our country's water supply has been an issue of targeted concern and national discussion.~~ Our ongoing response to this ~~contamination~~incident, continuous studies, and test results will serve as future guidance not only for exposure to the specific contaminants involved in this incident, but for any water system contamination in the nation. The work we are conducting will fill a void in the scientific and public health knowledge ~~base with much needed information.~~base.

The quantity of resources purchased and expended during the continued response to this incident has placed a severe financial burden on the state. -Michigan and its subdivisions lack the resources necessary to cover 100 percent of the costs expended to eliminate the threats to public health and safety caused by the water contamination. Since the beginning of the incident, we have distributed over 686,000 water resources into the city of Flint.

For the past 27 days our average ~~burn~~ distribution rate for commodities has been ~~the following~~:

Water-Liters*	118,092
Water-Cases*	9,841
Filters-Faucet	488
Replacement Filter cartridges	1,094
Filters-Pitcher	5
Water Test Kits	759

*Water is presented in liters and cases for comparison but is the same value.

[redacted]

The results of our evaluation of the direct and indirect costs of this event are attached. These costs are documented, and we have attempted to be conservative in our estimated regarding eligible reimbursement costs under Category B of the Public Assistance program. At this time, estimated losses to the economy of the affected county are estimated at $XX,XXX,XXX. The total economic impact will ~~likely~~ undoubtedly be greater.

- The sectors of the economy ~~primarily~~ affected included restaurant, ~~and~~ hotel, and other businesses that use water as part of their customer work activities. The contamination and stigma of the water have caused proprietors to lose revenue and scale back operations. ~~have lost revenue and were forced to scale back operations due to the contamination and stigma of the Flint water~~ Many of these employees~~employees of these businesses~~ earn low wages, and, in the case of restaurant servers, depend on tips to make a living wage. The losses for this incident were severe enough to warrant a Small Business Administration (SBA) Economic Injury Disaster Loan Program for the affected area. Typically~~but~~ this support ~~traditionally~~ covers only a small portion of the total businesses in the disaster area.
- Businesses that temporarily closed due to the lack of potable water showed remarkable determination to reopen as soon as possible and incurred additional costs in order to meet the standards set by the health officials to reopen using alternate water sources. To this day many businesses, especially those serving food, are incurring additional costs to provide assurances to their customers that no unfiltered tap water is being used in the food preparation ~~or cleansing of the silverware, plates, or glasses. The losses were severe enough to warrant a Small Business Administration (SBA) Economic Injury Disaster Loan Program for the affected area, but this support traditionally covers only a small portion of the total businesses in the disaster area.~~

- Nursing homes and other long-term care facilities had to use filtered water to ~~develop alternatives to caringe~~ for their patients, and the local health department faced a considerable increase in responsibilities and workload.
- The educational community was also impacted by this water contamination. During this event state agencies have worked with the schools to replace older fixtures and update outdated water infrastructure. The agencies and SEOC have also worked to ensure that necessary water resources were provided to schools.
- ~~The education community was also impacted by the water outage. While this unusually harsh winter caused students to miss several instructional days, this event caused schools in the affected areas to close for no less than a week, and in some cases, longer. Genesee County estimate they have lost over $X,XXX,XXX in instructional time because of the water outage.~~

Formatted: Highlight

Formatted: Not Highlight

The response to this disaster was a community effort. With your supplemental assistance we can continue to respond to each new aspect of the event as it arises.

The attached "EM-3375-Category B Assessment-as of X/X/XX" was developed with guidance from experienced MSP/EMHSD staff that have scrutinized the data provided by state and local agencies to determine the eligible costs for Stafford Act Public Assistance. Their conclusions are based on a much more careful analysis of the provided information than is normally done during a Preliminary Damage Assessment process, and the figures may be exceeded when actual Project Worksheets are developed. Their estimate of more than $X,XXX,XXX in probable eligible Public Assistance Costs plus the over $5,000,000 cost of direct federal assistance means the Category B expenditures in our joint response to this Event of National Significance were over $X,XXX,XXX. This is more than double our Public Assistance impact indicator for a Major Disaster Declaration of $X,XXX,XXX.XX.

Formatted: Highlight

The financial impact of this event is significant and widespread. The estimated $XX,XXX,XXX economic loss noted above added to the total impact noted on the attachment exceeds $XX,XXX,XXX. ~~This figure does not include our ongoing study, on which we will spend over $XXX,XXX, and the continued response to this event.~~ It also does not include the donations from members of the community and partners which add over $XXX,XXX to the total. The total estimated costs and losses are equal to a $XXX per capita impact on the ~~XXX,XXX~~102,434 people directly affected by this crisis.

I understand FEMAs original decision to limit the Public Assistance Category B to direct federal assistance. However, as subsequent events have demonstrated, this was a true emergency that demanded the best efforts of all levels of government, non-profit, and community partners to protect public health and safety.

Thank you for your consideration and your attention in this matter. Any questions regarding this appeal or requests for additional documentation should be directed to XX.XXXX X. XXXXXX whom I have appointed as State Coordinating Officer for this disaster recovery operation.

Ms. Elizabeth A. Zimmerman
Associate Administrator
Office of Response and Recovery
Federal Emergency Management Agency
U.S. Department of Homeland Security
500 C Street, SE
Washington, D.C. 20472

Through: Mr. Andrew Velasquez III
Regional Administrator
FEMA Region V
536 South Clark St
Chicago, IL 60605

Dear Ms. Zimmerman,

I am writing to appeal your January 22, 2016 denial of my request that the emergency declaration FEMA-3375-EM be modified to provide federal assistance for Category B emergency protective measures for the City of Flint ~~affected by the water contamination incident~~. Respectfully, I disagree with the determination that the nature of this event was not of such severity and magnitude to warrant further public assistance for the reasons expressed herein. ~~The water contamination, which affected the water supply of 30,188 customers, was unprecedented, and the long-term impact of the contamination has been continuous.~~

Genesee County and particularly the City of Flint, experience poverty rates significantly higher than both the national and state average. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is nearly double the county. Household income is significantly below the median income at the national, state, and county level, and the city is less than half the national median income.

To exacerbate the impact of lead, which impacts young children so significantly, the percentage of children under 5 in Flint exceeds the national, state, and county rates. The percent of disabled is also 8.1 percentage points above the national rate. Unemployment in Flint is also significantly higher than national and state rates. The table below shows the unemployment rate in Flint has been nearly 3 times the national average over the past 5 years

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%

Formatted: Centered
Formatted: Centered
Formatted: Centered
Formatted: Centered
Formatted: Centered

County						
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

* U.S. Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)

Formatted: Centered

The combination of the above factors has hindered the speed and effectivity at which response and recovery efforts can provide necessary change in the community.

The water contamination, which affected the water supply of 30,188 active water customers, ~~was~~is unprecedented, and the long term impact~~s~~ of the contamination ~~has~~ ~~been~~are continuous and not fully understood.

Formatted: Not Highlight

The President recognized the significance of this event when he granted my request for an emergency declaration. Federal Emergency Management Agency (FEMA) officials designated the type of assistance granted to ~~us~~ the City of Flint and the State of Michigan as Public Assistance Category B, "eEmergency pProtective mMeasures,"; limited to direct federal assistance. The ~~far-reaching~~broad impact of this event ~~was beyond our initial expectations~~far exceeds anyone's comprehension ~~when~~ when we requested a declaration for ~~I requested, in consultation with FEMA officials,~~ assistance to combat this incident.

In the weeks since the emergency declaration for this event of national significance, we have responded in ~~true~~ partnership with all agencies~~p~~. At my request, FEMA supplied ~~bottled water~~limited direct federal assistance in the form of water, water filters, ~~replacement~~ water filter cartridges, ~~and~~ water test kits, and other necessary related items for ~~the~~ state and ~~our~~ partners to distribute to ~~citizens in need~~the citizens of Flint. ~~In this incident t~~*The With our assistance support and coordination, the whole* community has come together, ~~especially~~ particularly the voluntary agencies, to quickly and generously respond with donations of water, water resources, and time. Unfortunately, needs continue to exceed donations and voluntary assistance received.

Even ~~with~~ as the incident begins~~ning~~ to stabilize, it has become clear that there will be many ongoing ~~aspects~~ concerns that will continue to demand public assistance for months to come. The state and local agencies, including the county of Genesee, the Michigan Department of Environmental Quality (MDEQ), the Michigan Department of Health and Human Services (MDHHS), ~~and~~ the Michigan Department of Technology, Management, and Budget (MDTMB), Licensing and Regulatory Affairs (LARA) and the Michigan State Police *continue to incur* significant costs. While the distribution rate for these items has slowed over the course of the incident we still need to supply water and replacement cartridges for a minimum of 10 more months. ~~These costs are projected to cost the state an estimated $200,000,000 from the beginning of the incident to December 31, 2016.~~

The attached "EM-3375-Category B Assessment-as of X/X/XX" was developed with guidance from experienced MSP/EMHSD staff that have scrutinized the data provided by state and local agencies to determine the eligible costs for Stafford Act Public Assistance. Their conclusions are based on a much more careful analysis of the provided information than is normally done during a Preliminary Damage Assessment process, and the figures may be exceeded when actual Project Worksheets are developed. Their estimate of more than $X,XXX,XXX in probable eligible Public Assistance Costs plus the over $5,000,000 cost of direct federal assistance means the Category B expenditures in our joint response to this Event of National Significance were over $X,XXX,XXX. This is more than double our Public Assistance impact indicator for a Major Disaster Declaration of $X,XXX,XXX.XX.

Formatted: Highlight

The financial impact of this event is significant and widespread. The estimated $XX,XXX,XXX economic loss noted above added to the total impact noted on the attachment exceeds $XX,XXX,XXX. ~~This figure does not include our ongoing study, on which we will spend over $XXX,XXX, and the continued response to this event.~~ It also does not include the donations from members of the community and partners which add over $XXX,XXX to the total. The total estimated costs and losses are equal to a $XXX per capita impact on the ~~XXX,XXX~~102,434 people directly affected by this crisis.

I understand FEMAs original decision to limit the Public Assistance Category B to direct federal assistance. However, as subsequent events have demonstrated, this was a true emergency that demanded the best efforts of all levels of government, non-profit, and community partners to protect public health and safety.

Thank you for your consideration and your attention in this matter. Any questions regarding this appeal or requests for additional documentation should be directed to XX.XXXX X. XXXXXX whom I have appointed as State Coordinating Officer for this disaster recovery operation.

WE ARE ONE MICHIGAN

GOVERNOR RICK SNYDER

DISCUSSION POINTS
FY 2017 Budget Recommendation
February 10, 2016

Budget Facts

- Budget total: $54 9 billion (up 0.8% or $438 million)
- General Fund budget: $10.2 billion (up 1.5% or $145 million)
- School Aid Fund: $12.5 billion

Key Points

- We are one Michigan. The FY 2017 budget recommendation reflects the right plan for Michigan's continued growth and strength.
- Michigan's economic forecast remains positive, but we realize the state faces unique challenges that require immediate attention. This budget recommendation makes critical investments toward the Flint water crisis and the financial and educational crisis in Detroit Public Schools.
- Over the last five years, Michigan has made smart, fiscally-responsible decisions that have led to a strong economy and an improved economic climate statewide. These decisions allow us today to come together as a state to provide necessary resources to the children and families in Flint.
- Michigan has faced tough challenges before and we have remained strong. The crises facing Flint and Detroit are monumental but not insurmountable. Our focus is centered on the Flint water crisis, statewide infrastructure needs, and the Detroit Public Schools. We will address these challenges and we will fix them.
- Today's announcement calls for a $165 million deposit into a newly created Michigan Infrastructure Fund for strategic improvements for local infrastructure. An additional $25 million is recommended specifically for Flint. Funding originally targeted for the rainy day fund is now recommended for statewide infrastructure needs.
- Even with these big challenges, the values and priorities of our state have not changed and our key priorities such as economic growth, education, public safety and fiscal responsibility

can be seen throughout this budget recommendation. This plan provides a balanced approach to addressing our special challenges while continuing to pay off debt, save money for the future, and make needed investments in critical areas.

- With a growing economy and unemployment at its lowest rate in more than 15 years, Michigan's future economic forecast remains bright. More than 440,000 new private sector jobs have been created since December 2010 and personal income for families across Michigan is on the rise.

- This budget recommendation doesn't lose sight of the need for fiscal responsibility and it is built on the same fiscal disciplines and long-term view of budgeting as the governor's first five budgets. Paying our debts and planning for the future remain key principles in this plan.

- This marks the governor's sixth budget recommendation. The days of stalled budgets and government shutdown are long gone. The practice of getting the budget done early in June will continue so that schools, local governments, and others depending on state funding can have timely information to plan their budgets.

- This plan fully restores aggregate funding for higher education to fiscal year 2011 levels and brings total operating funds for universities to over $1.4 billion.

- This budget plan includes the full expansion of the Healthy Kids Dental program to all of Michigan's 83 counties, ensuring that every eligible child has access to dental care which has been proven to lead to a lifetime of better health outcomes. The $25.6 million investment will bring the number of children with access to dental care to an estimated 826,800, compared to 285,000 who were covered in fiscal year 2011.

- Three-fourths of the recommended budget is devoted to education and health and human services. This critical investment in Michigan's people creates an environment in which all residents can succeed, regardless of their stage in life. The vision is focusing government on people rather than programs.

- The governor's budget recommendation includes the assumption that the sunset on the Health Insurance Claims Assessment (HICA) will be extended and passed by the Legislature. Without a HICA extension, this budget recommendation does not balance and cuts to the plan will be required.

Flint Water Crisis

- The top priority for Governor Snyder and his administration is ensuring every Flint resident has access to clean, safe drinking water. We are committed to providing affected children and families access to medical and educational resources to ensure long-term care and treatment.

- The Flint water crisis has been a systemic failure of government at all levels. The governor has held himself and his government accountable, and when coupled with the supplemental funding already provided to the city, this budget recommendation brings total funding for the Flint water crisis to more than $230 million.

- Governor Snyder and his administration are committed to working in partnership with Flint Mayor Karen Weaver, independent experts, and the federal government to ensure both short-term and long-term solutions.

- The residents of Flint are our top priority, and this budget plan provides the funding necessary for the families of Flint to obtain the resources necessary in the areas of safe drinking water, physical health, food and nutrition, and social and developmental needs including education.

- An infrastructure study will be conducted in Flint to determine the long-term need for pipe replacement. In the meantime, the governor is calling for $25 million in funding to be set aside to prioritize the immediate infrastructure needs for Flint.

- In addition to the investments already made to provide emergency response for Flint's most immediate needs, this budget recommendation offers more investments to resolve the longer term needs of the city and the future health and well-being of the people of Flint. The path forward for Flint will require continued investment from the state not only in this budget, but in the years to come, to ensure Flint residents receive the care and services necessary for a healthy future.

- The investments for Flint in this budget recommendation are spread out across several state agencies and will be used to address various needs, including nurses and epidemiologists and the ongoing treatment of children.

- According to calculations by the state demographer, the number of children in City of Flint ages 0 to 9 totals 11,484, as follows.

  Age 0: 1,219
  Age 1: 1,223
  Age 2: 1,243
  Age 3: 1,288
  Age 4: 1,264
  Age 5: 995
  Age 6: 1,050
  Age 7: 1,060
  Age 8: 1,067
  Age 9: 1,075

- The population in the City of Flint is 99,000, with a total number of 39,125 occupied homes.

Funding for Detroit Public Schools

- All of Michigan's children deserve a quality education that prepares them for future success. The financial stress currently facing the Detroit Public Schools must be resolved in order to

ensure Detroit's schoolchildren have the same opportunities for success as other children in our state.

- Schools throughout the Detroit Public Schools system are struggling both academically and financially to provide Detroit children with the education they need to succeed. Test scores of all Detroit high schoolers show that just 6 percent of high school students are proficient in math, 4 percent are proficient in science and two-thirds are not proficient in reading. With declining enrollment, losing nearly 100,000 students in the last decade, and projected accumulation of nearly $515 million in debt by summer, Gov. Snyder understands the

  severity of the challenges the district is facing and how desperately systemic change is needed.

- The governor's plan to help turnaround the district involves maintaining the current district to pay off the district's debt; establishing a new district to operate the schools; and a new commission that would hire an education manager to oversee all traditional and charter public schools in the city and manage universal services, such as security, for all buildings.

- Carrying a debt load that will hit $515 million by this coming summer, under the governor's plan, the Detroit Public Schools would use the existing local millage – about $72 million per year – to pay off debt. The governor is extremely concerned that the debt requires more than $1,100 per student to pay down what is owed – money that would be better spent in the classroom helping students learn. That is why the governor's budget recommendation provides $72 million a year for 10 years from Michigan's tobacco settlement proceeds to offset the loss of locally generated money. These funds will help get the school district back on firmer financial footing and more importantly, help ensure Detroit children are receiving a quality education, setting them on a path toward a brighter future.

Education Highlights

- The goal of building one Michigan rests firmly on the foundation of ensuring our children and young adults have the education they need to succeed. The governor's sixth budget once again prioritizes education funding.

- Since 2011, state funding for K-12 education has increased by **$1.4 billion!**

- This budget provides significant investment at all academic levels with a focus on long-term results.

- Preparing students to meet the needs of a global economy and changing work force demands innovative thinking and system reinvention.

K-12

- An investment of $150 million is recommended to provide a $60 to $120 per-pupil increase in the foundation allowance for schools across the state, bringing the minimum foundation allowance to $7,511 and the basic foundation allowance to $8,229 per pupil.

- A total of nearly $12.1 billion in state funding is recommended for K-12 education, a $1.4 billion funding increase from fiscal year 2011.

- Evidence shows that early learning before kindergarten is an indicator for success in life. The governor's budget recommends nearly $240 million to provide preschool programs for

at-risk 4-year-old children. A total of $24 million is continued for early literacy to help ensure children are reading at grade level by third grade.

- The funding recommendation for the school employee retirement system is set at $1 billion for K-12 schools, providing fiscal relief to schools for their retirement obligations and helping to ensure that retirement promises made to school employees can be kept.

- To help ensure all schools have safe drinking water, the governor's plan calls for $9 million to be designated for reimbursements to schools for costs associated with voluntary testing of water.

- The governor's plan also recommends funding to ensure our students and educators are prepared, including $10 million for training and professional development related to educator evaluation tools, $15 million for the expansion of career and technical education, and $2.4 million for STEM initiatives.

Post-Secondary Education

- The plan calls for an increase in operations funding for state universities of 4.3% or $61.2 million, and restores aggregate university funding to fiscal year 2011 levels. Also included is an increase in operations funding for community colleges of 2.4% through an additional $7.5 million.

- The recommendation calls for limiting tuition increases to 4.8 percent or less in order for universities to receive the funding increase.

Capital Outlay

- The governor's 2016 recommended capital outlay projects for three university and two community colleges are pending before the Legislature and include total project costs of $240 million for the following projects:

    - Lake Superior State University· Center for Freshwater Research and Education
    - University of Michigan – Dearborn: Engineering Laboratory Building Replacement
    - University of Michigan – Ann Arbor: School of Dentistry Renovation & Addition
    - Delta College: Saginaw Center
    - C.S. Mott Community College: Southern Lakes Branch Center Renovation

- The governor's capital outlay recommendations for fiscal year 2017 includes 9 projects totaling $403 million and includes the following projects:

    - U of M Flint – Murchie Science Building Expansion
    - Saginaw Valley State University – College of Business and Management Expansion
    - Wayne State University – STEM Innovation Learning Center
    - Eastern Michigan University – Strong Hall Renovation
    - Kellogg Community College – Regional Manufacturing Technology Center
    - Wayne County Community College – Eastern Campus Upgrade
    - Northwestern Michigan College – West Hall Innovation Center Expansion

- DNR – Coolwater Rearing Hatchery Improvements
- DTMB – Jackson State Office Building

Job Growth Highlights

- The governor envisions one Michigan where any resident who wants employment can find it. That's why he is focused on growing the state's economy and reducing unemployment.
- Continuing the governor's focus on skilled trades, an additional $10 million in restricted funds is recommended, bringing total program funding to $35.6 million.
- The budget recommendation calls for one-time funding of $8.8 million for the Statewide Data System Integration project which will help Michigan meet new workforce data reporting requirements and integrate data across workforce and education programs.
- To help the structurally unemployed pursue career opportunities and maintain employment in Detroit, Flint, Saginaw, and Pontiac, $9.8 million in general fund is recommended for the Community Ventures program. An additional $2 million is recommended in challenge match funding to encourage foundations and other organizations to support the program.
- The Rising Tide initiative will continue to be a priority in 2017 as work continues with communities in each of the state's ten prosperity regions. Rising Tide provides economically challenged communities with needed resources to develop a thriving community and attract business investment and talent.

Healthier Families Highlights

- A healthier Michigan is good for the individual, good for the economy, and good for all taxpayers.
- The budget plan includes an investment of $3.4 billion in federal funds for the Healthy Michigan Plan to continue expanded Medicaid coverage. More than 600,000 Michigan residents now have health coverage through the Healthy Michigan Plan.
- Michigan is getting healthier. With more than 600,000 residents now enrolled in the Healthy Michigan Plan, men and women around the state are now the recipient of primary care and preventive care visits through the Healthy Michigan Plan.
- The budget recommendation provides another $25.6 million for the Healthy Kids Dental program and achieves the governor's goal of fully expanding the program to cover all eligible children in all of the state's 83 counties. The investment will bring the number of children with access to dental care to an estimated 826,800, compared to 285,000 who were covered in fiscal year 2011, providing a vital building block to a lifetime of better health.

- The governor's plan calls for $30 million in general fund dollars to be set aside in a reserve for the future need for specialty medications. Specialty medications are changing and improving lives across Michigan. For example, patients with Hepatitis C and Cystic Fibrosis are experiencing drastic improvements in quality of life through new medications, and additional medications to help patients with other conditions are now in the pipeline.
- As part of a series of recommendations from Lt. Governor Calley's Michigan Prescription Drug and Opioid Task Force, the budget plan calls for $4.5 million to upgrade the Michigan Automated Prescription System (MAPS), a statewide database that assists in the prevention of prescription drug abuse through better tracking The enhancement of MAPS will allow for better coordination between health professionals and law enforcement when investigating prescription drug and opioid abuse.

Human Services Highlights

- The governor's budget calls for continued support of behavioral and mental health services with $3.25 billion in gross funding including the Mental Health and Wellness Commission, Medicaid mental health services, and Medicaid substance abuse treatment.
- Funding for autism services is recommended at $63 million and expands coverage of applied behavioral analysis to the age of 21.
- The governor is recommending an increase in the funding for the children's clothing allowance through an additional $6.1 million. The current $140 clothing allowance, paid once a year to approximately 20,000 children, will be increased to $200 a year to cover 45,000 children.
- An investment of $7.6 million in general fund dollars is recommended for the expansion of the Center for Forensic Psychiatry for persons identified as Not Guilty by Reason of Insanity and Incompetent to Stand Trial. This expansion will assist in moving individuals currently waitlisted and housed in other hospitals to a facility better suited to address their mental health needs.
- The DHHS budget recommendation includes $22.3 million in gross funding to support the implementation of the statewide IT system (MiSACWIS) to help ensure the state and private welfare agencies are effectively monitoring child protective services, foster care, and adoption cases.

Infrastructure/Transportation/Technology/Government Efficiency Highlights

- With passage of a new comprehensive transportation package in 2015, there is a long-term plan in place for funding the state's crumbling infrastructure. The new plan will dedicate an extra $1.2 billion a year, when fully implemented in fiscal year 2021, to maintain and repair roads and bridges across the state.
- The governor's plan for fiscal year 2017 features $533.3 million in dedicated transportation revenue, which includes $189 million for the State Trunkline Fund, $283 million for local

road agencies and $61 million for rail and public transit. The budget proposal also includes $57.5 million in new federal funds from the Fixing America's Surface Transportation (FAST) Act to be used for local road agencies, state trunklines, and transit.

- Investing in the maintenance of state facilities is the fiscally responsible thing to do. Too often, these investments are delayed or eliminated, resulting in higher costs down the road. This budget recommendation includes $16.5 million space consolidation and for building maintenance, including armories.

- Investments in information technology (IT) are a key driver for improved government efficiency and cost savings for taxpayers. Gov. Snyder has been a strong supporter and advocate for investing in IT and those investments are making state government more efficient safe. The fiscal year 2017 budget recommendation calls for an additional $133

  million in IT investment, including $5 million for cybersecurity to protect state systems and networks

- The governor's budget recommendation provides $2.8 million in general fund for development and implementation of an internet individual electronic file system to allow residents to e-file their Michigan tax returns free of charge.

- Funding of $10 million in general fund is provided for the purchase and replacement of voting systems, voting devices, and elections management systems for counties, cities and townships to ensure reliable and uniform statewide voting systems.

Protecting the Public Highlights

- Michigan must be a safe place to live and work. Safe cities and neighborhoods improve our overall quality of life and our economy

- To increase the strength of the Michigan State Police ranks, the governor's budget recommendation calls for $9.5 million to support a trooper recruit school aimed at producing 85 graduates. Residents across the state will benefit from having more troopers trained and sworn to protect and serve the public

- Following impressive results from the Secure Cities program, which has reduced violent crime in four of the state's larger cities (Detroit, Flint, Pontiac and Saginaw), the governor's plan calls for an investment of $1.5 million to expand the program to the communities of Benton Harbor, Hamtramck, Harper Woods, Highland Park, Inkster and Muskegon Heights.

- Other public safety investments include $8.5 million to run an academy to train and graduate 350 new corrections officers; $4 million aimed at supporting a safe learning environment for students; $2.2 million to enhance efforts to combat the rising tide of digital crime; $500,000 for a higher education sexual assault prevention and education initiative; and nearly $1 million to purchase new ballistic vests to help keep probation and parole agents safe while on field duty.

- The governor's ongoing commitment to justice for rape victims is supported with $1.7 million for sexual assault law enforcement efforts with the Attorney General budget. Additionally, a comprehensive plan to fight human trafficking is supported with nearly $400,000.

- The budget plan calls for $750,000 in general fund to develop a statewide strategy and implementation plan for energy assurance that will identify necessary actions to effectively respond to potential long-duration power outages.

Stronger Communities Highlights

- Michigan is only as strong as its communities. Whether it's a small community or one of our urban cores, Michigan's future depends on leadership and success at the local level.
- The county revenue sharing and incentive program funding is set at $215.2 million, an increase of $467,500, as two additional counties are added this year, bringing the total number of counties to 78.
- Constitutional revenue sharing payments for cities, villages, and townships is increased by $29.4 million, 3.9 percent, to $781.5 million, based on estimated sales tax collections.
- Distressed municipalities will be eligible for $5 million in grant funding to help reduce unfunded accrued liabilities, reduce general fund debt, transition to shared services and repair publicly-owned critical infrastructure.
- Local units of government across the state can apply for $11 million available through a competitive grant assistance program to encourage the consolidation of services and programs.

Fiscal Responsibility Highlights

- With already scheduled deposits to the rainy day fund in fiscal year 2016, the balance in the state's savings account will increase from the current $498 million to $611 million. This equates to a $609 million increase since 2011, when the fund contained a mere $2.2 million.
- The governor's commitment to solving the state's pension and retiree health care obligations cannot be understated. These long-term debts are strangling other states, while Michigan is now on a sustainable path to resolving the liabilities while ensuring the promises to state and school employees can be kept. Reforms made to both the school employee retirement system and the state employee retirement system have reduced the state's long-term debt by more than $20 billion.
- Funding for the school employee retirement system is recommended at $1 billion for K-12 schools, which equates to over $660 per K-12 student. This investment provides fiscal relief to schools for retirement obligations and helps ensure retirement promises made to employees can be kept.
- A $730,000 million increase and a total of $5.9 million in ongoing funds is recommended within higher education to provide for costs above a proposed rate cap for 7 participating universities in the Michigan Public School Employees Retirement System (MPSERS). Community colleges receive a recommended $3 7 million increase and total ongoing funds of $74.9 million, to provide for costs above the rate cap for MPSERS. Capping costs for universities and community colleges is another example of Gov. Snyder's commitment to fiscal responsibility.

HICA

Background: Legislation that created the Health Insurance Claims Assessment (HICA) Act effective Jan. 1, 2012, requires certain third party administrators, carriers and self-insured entities to pay an assessment on certain paid health care claims. HICA was enacted to replace the HMO Use Tax, intended to generate funds that will be used to leverage federal Medicaid matching funds. The assessment was levied at the rate of 1 percent and now stands at 0.75

percent of the "paid claims" of the covered carrier, third party administrator, or self-insured entity and was designed to produce revenue of approximately $400 million. HICA revenues have consistently fallen short of $400 million, and with Use Tax going away in 2017, we must act to implement a long-term solution that guarantees our full Medicaid match

- HICA was enacted as a bipartisan answer to replace the HMO Use Tax. However, collections have fallen short of expectations and in order to ensure Michigan receives all federal dollars, a solution is still needed. Legislation to extend the sunset for HICA beyond 2017 is necessary and assumed in order to keep this budget recommendation in balance. If an extension is not passed, cuts to this recommendation will be necessary.

Schedule for tomorrow

I spoke with Alicia this morning regarding FEMA's concerns with long term commodities. While we are two months away from the termination date of their involvement, we need to make calls on how much of each type of commodity we will need to order to maintain an adequate supply for the foreseeable future. Any decision is complicated by uncontrollable variables where we find ourselves either short of supplies or in possession of massive quantities with nowhere to unload them. Our decision is further complicated by the inevitable audits to come. My recommendations follow.

Documentation

Any decision we make must be based on the best data available. Due to the unknown variables, we will need to make assumptions. If we sufficiently document our course of action leading to our decision, we may be criticized, but only for our assumptions. If these are based on data based trends, we are on solid ground.

Key Variables

How many residences have lead service lines?

- We cannot determine the number of residences with lead service lines. While there are cards that indicate which residences have lead lines, Department of Public Works personnel have stated there is no way to truly know what is there until excavation is complete.
- Without knowing how many residences have lead service lines, there is no way to gauge how many filters, how many cartridges, and how much water will be needed to sustain users of the Flint water system.

Will the entire Flint water system be replaced?

- The Flint mayor has demanded the entire water distribution system be replaced. No one knows the answer to this question.
- If system replacement is the call, the project will last for many years. The City of Lansing embarked on replacement of lead service lines over 10 years ago. The project has yet to be completed.
- Replacement activity would result in sediment being released into the water system. Sediment may or may not include lead.

When, if ever, will the EPA or MDEQ pronounce the Flint water system safe for all uses, including for infants and other highly susceptible populations? Or, when will the EPA or MDEQ pronounce the Flint water system safe for some subset of the population using the Flint water system?

- Declaring any portion of the system safe for all uses will have significant impacts on the need for bottled and filtered water.
- If no decision is made, we can proceed on our current course.

The SEOC mission is to provide three commodities to users of the Flint water system: bottled water, filters, and filter cartridges. Each commodity has its own set to variables.

- Bottled water
    - Much of the public does not believe what they are being told, opting only to drink bottled water.

    - While messaging indicates that filters render water safe for consumption by all, it also notes that infants should only consume bottled water.
    - It is not possible to gauge what the public will find acceptable in the future and if a decision contrary to public opinion would ever be made.
- Filter cartridges
    - Much of the public does not believe what they are being told, opting only to bathe in and drink bottled water, while others opt only to bathe in filtered water.
    - The uncertainty around the need to use filtered water renders any estimate of how many filters will be required in the future to being a guess.
- Filters
    - The number of filters needed per residence will ultimately be a decision of the residents. While government may suggest two filters per residence, practical matters dictate otherwise; for example, when a home is divided into multiple living quarters by occupants.

Assumptions

1. All residences will be supplied with bottled water and filters until December 31, 2016. The situation will be reevaluated at this time.
2. Each residence will need one case of water per week. This is based on...
3. Each residence will need four water filters. This is based on...
4. Water filters will be replaced every two weeks. This is based on..

Good morning,

I hope everyone had a lovely weekend!

Coming off a four day weekend, there is a rather long list of homes to visit, which is located below. It is up to the Genesee County Health Department to prioritize these homes; however, please feel free to call me for clarification or any questions you may have.

Please note, due to the home's extremely high lead levels, an EPA team with a CDC health consultant visited 924 Barney Ave on 2/12/2016. The attempt at contact was unsuccessful, but the team left a door hanger with contact information.

Additionally, the following items are attached:

- **Updated log:** *This includes data combined from the DEQ, GCHD, and EPA. The "Overview Dashboard"* tab provides some summary data about the water testing.
- **Home visit check-off sheet**
- **Printed info materials provided to the residents including a "sorry we missed you" letter in case someone isn't home**

I am proud to be able to assist the work of the Genesee County Health Department and please feel free to reach out to me with questions or clarification!

Best,

Rosemary Pearson-Clarke

SEOC FOIA Print Plan
Tips for Printing

Print Plan – Thru Friday, February 19

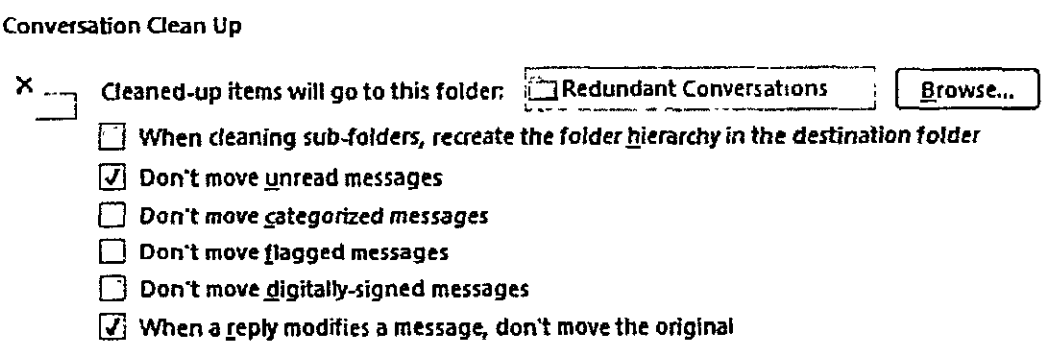
- When printing emails/documents, make sure to **change your default printer** to the following printer:
  - EOC_F1COMM_RI3054 on EOC084M1OAPF502 (located in the Communications Room)
  - *Additional helpful hints for each document type below*
- SEOC IT staff will set up to "Print to Hold" for each PC in the SEOC.
- Be sure to print/copy all documents **Single Sided.**
- Advise the SEOC Operations Section Chief prior to printing. **Do not interrupt someone else's print job.** The SEOC Operations Section Chief will ensure coordinated printing efforts.
- When at the printer, select Print > Select your agency name > Select All > Print.
- Test printing a couple of emails before printing out a large quantity.
- Once all items have been printed/copied, give all to Oralya Garza or Jodie Frese (daily staff) located just outside Governor's Conference Room A in the SEOC. **Do not go direct to FOIA Unit staff working in the conference room.** They will reach out if they have any questions.
- Make sure to clip or rubber band your information to keep separate from others information being turned in.
- *Sources:* Emails, Documents, S drive, Desktop, Cell phone/text messages, Copies of handwritten notes, DCDS, Invoices, Photos
- SEOC IT Staff will be responsible for printing all documentation from MI CIMS.
- For any IT issues, contact IT Staff in the SEOC. This is usually Jaclyn Barcroft or Rich Law. GIS staff should be contacted only if both of them are unavailable.

How to Recover Deleted Emails

- In Outlook, select the Folder Tab.
- On the top, select Recover Deleted Items.
- Recover any items pertinent to the Flint Water response.
- You may need to select various folders on the left side in order to recover everything possible.

How to Clean up Redundant Email Conversations

- In Outlook, click on the File tab.
- Click Options.
- Click Mail.
- Under the Conversation Clean Up section, change the location where conversations will go. Select Browse. Click on "Cabinet" in the list. Select "New Folder" and name it "Redundant Conversations." Ensure the options are identical to the below:



- In Outlook, on the Home tab, in the Delete group, click Clean Up.
- Select Clean Up Folder. Click Clean Up Folder.

SEOC FOIA Print Plan
Tips for Printing

Tips for Printing Emails

- For State Agency SEOC personnel, **only** print emails from your SEOC email address.
- Print emails by selecting **up to 100 at a time** (select one, hold shift, click on the last one).
    - Select the File Tab > Print > Click Print Options button > Select Memo Style and Check Box for "Print Attached Files" (bottom left corner of pop up) > Select Print
- Attachments will not show up in the preview, but will print out with the emails

Tips for Printing Documents from Desktop, S Drive, My Documents (wherever files are saved)

- Make sure documents are formatted correctly for printing prior to moving to the next steps (Excel files tend to be the most troublesome).
- Sort documents in folders by "Type".
- Highlight "like" file types (Adobe Acrobat Document, Microsoft Excel Worksheet, etc.).
- Right click, select Print.

Tips for Printing Text Messages

- Android
- iPhone

Email – After All Your Files are Printed

- Send a CC to the following email address when sending items from the SEOC:
    - MSP-FOIAProject@michigan.gov
    - For State Agency SEOC personnel, **only** CC emails from your SEOC email address
- Send all documents created to the same email address

LONG TERM DISTRIBUTION
COA BRIEF

DRAFT PREDECISIONAL

PREDECISIONAL
NOT FOR FURTHER
DISTRIBUTION

Long-Term Distribution COA Facts & Assumptions

Facts

- Move to long term distribution plan in 2-4 weeks
- EM Dec expires 14 April 2016
- FEMA can only procure H20 for 90 day
- One filter in every residence
- Stewardship {reports, oversight}
- Restore Confidence in Government at the Federal/State/Local level
- Desire to move to direct distribution of:
  - H2O filters
  - H2O Cartridges
  - Pitchers
  - H2O would still be at Pods

Assumptions

- Move State Distribution
- State will maintain commodities past 90 days?
- Does state want to pre-purchase commodities other than water?

DRAFT PREDECISIONAL

PREDECISIONAL
NOT FOR FURTHER
DISTRIBUTION

Long-Term Distribution COA Criteria

- **Ease of Sustainability (5)**
  - **Must be sustainable for a year or longer with no disruption of service to the affective population. (less is better = fewest days of disruption)**
- **Ease of Implementation (5)**
  - **Time and effort to operationalize COA (less is better = least amount of time and effort)**
- **Cost (1)**
  - **Ability to implementation and sustain (less is better = fewer $$$)**
- **Public Perception (3)**
  - **Public has confidence in the long term distribution plan (less is better = measured as # of negative social media posts)**
- **Survivor Centric (4)**
  - **Most convenience to population (less is better = distance and available hours to pop)**

DRAFT PREDECISIONAL

PREDECISIONAL
NOT FOR FURTHER
DISTRIBUTION

Long-Term Distribution COA Evaluation

DRAFT PREDECISIONAL

	Ranking	**2**	**5**	**4**	**1**	**3**

COA #1: IS26

- **One Point of Distribution (POD) per Ward**
- **IS26 compliant checklist to identify locations**
- **Minimum Staffing: 9 per POD for 81 personnel**
- **Staffing would be provided all or in part by workforce development grants**
- **Location based upon**
  - Fixed Location (parking lots)
  - Utilize semi/box truck w/just in time commodities
  - Parking lot next to bus route &/or transportation route
- **Full Service POD:**
  - H2O, Filters, cartridges, test kits (only advertise H2O, cartridges and test kits) + Recycling
- **Rapid Response Teams for 211:**
  - 1 x 16' Penske
  - 2 personnel per POD to address vulnerable population in this COA
  - Approx. 3,000 vulnerable people; many are not mobile

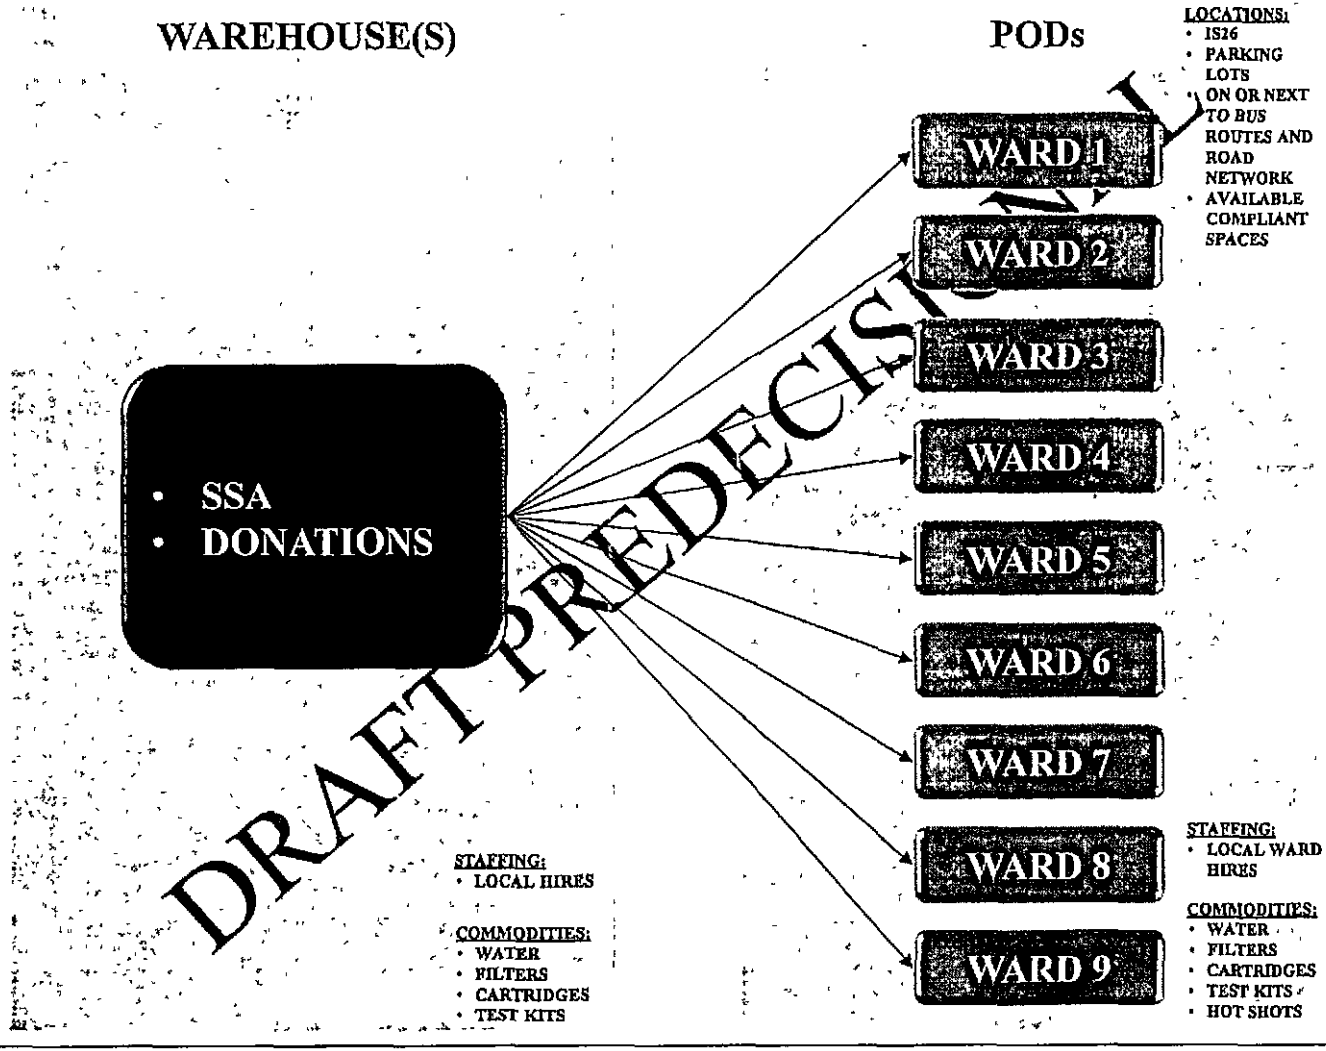
PREDECISIONAL NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #1



NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #1 Talking Points

STRENGTHS

- JUST-IN-TIME DELIVERY
- EFFICIENT, DEVELOPED, AND PROVEN SYSTEM
- ACCOUNTABILITY OF RESOURCES
- EASILY LOCATED
- MORE ABLE TO TRACK BURN RATES
- FOLLOWS FEMA-APPROVED GUIDELINES
- BUY IN AT ALL LEVELS OF GOVERNMENT
- ON-LINE TRAINING (EMI-IS)
- SCALABLE & FLEXIBLE
- WARD BASED
- BRIDGING STRATEGY USING NATIONAL GUARD & VOLUNTEERS W/IN LESS THAN 7 DAYS
- ROLE FOR FAITH BASED ORGANIZATIONS
- SUSTAINABLE LOCAL JOBS FOR 12 MONTHS
- PROVEN DISTRIBUTION STRATEGY
- # OF LARGE SITES TO PICK FROM
- STIMULATE FLINT ECONOMY
- ON BUS/TRANSPORTATION ROUTES
- *NO PREDETERMINED SITES*
- COUNCILMEN ACTIVE PARTNERS

RISKS

- POLITICAL RAMIFICATIONS
- STAFFING
  - TRAINING
  - RETENTION
  - VETTING

WEAKNESSES

- TRAINING AND CERTIFICATION
- TRACKING OF COMMODITIES
- HIGH COST OF BRIDGING STRATEGY ~$1M FOR 71 NG PERSONNEL PER MONTH
- STAFF SCALIBILITY LIMITED TO GRANT
- UNKNOWN BURN RATE
- WOULD REQUIRE MOU

EQUIPMENT, POLICY, PROCEDURES, ETC.

- SEE EQUIP. LIST FOR IS26
- ADA COMPLIANCE
- ACCOUNTABILITY SYSTEM
- CREDENTIALING
- SKILL-SETS AND TRAINING
- MIOSHA
- USER AGREEMENTS

DRAFT PREDECISIONAL

PREDECISIONAL

NOT FOR FURTHER DISTRIBUTION

COA #2:Faithbased – 9 Wards - 9 Hubs /36 Sub Hubs

- **Staff: Volunteers**
- **This plan is based on distribution centers to faith based organizations utilizing Food Bank and Red Cross distribution**
- **9 Wards; 1 Hub in each ward; 4 Sub-hubs in each ward**
- **Hubs:**
  - 4 commodities
  - Mobile lead testing clinic twice per week
    - For individuals without insurance; to include lead awareness testing, nutrition, and education
- **Sub hubs**
  - Recycling center
  - will do water distribution only
  - Transportation to senior citizen complexes in the ward

DRAFT PREDECISIONAL

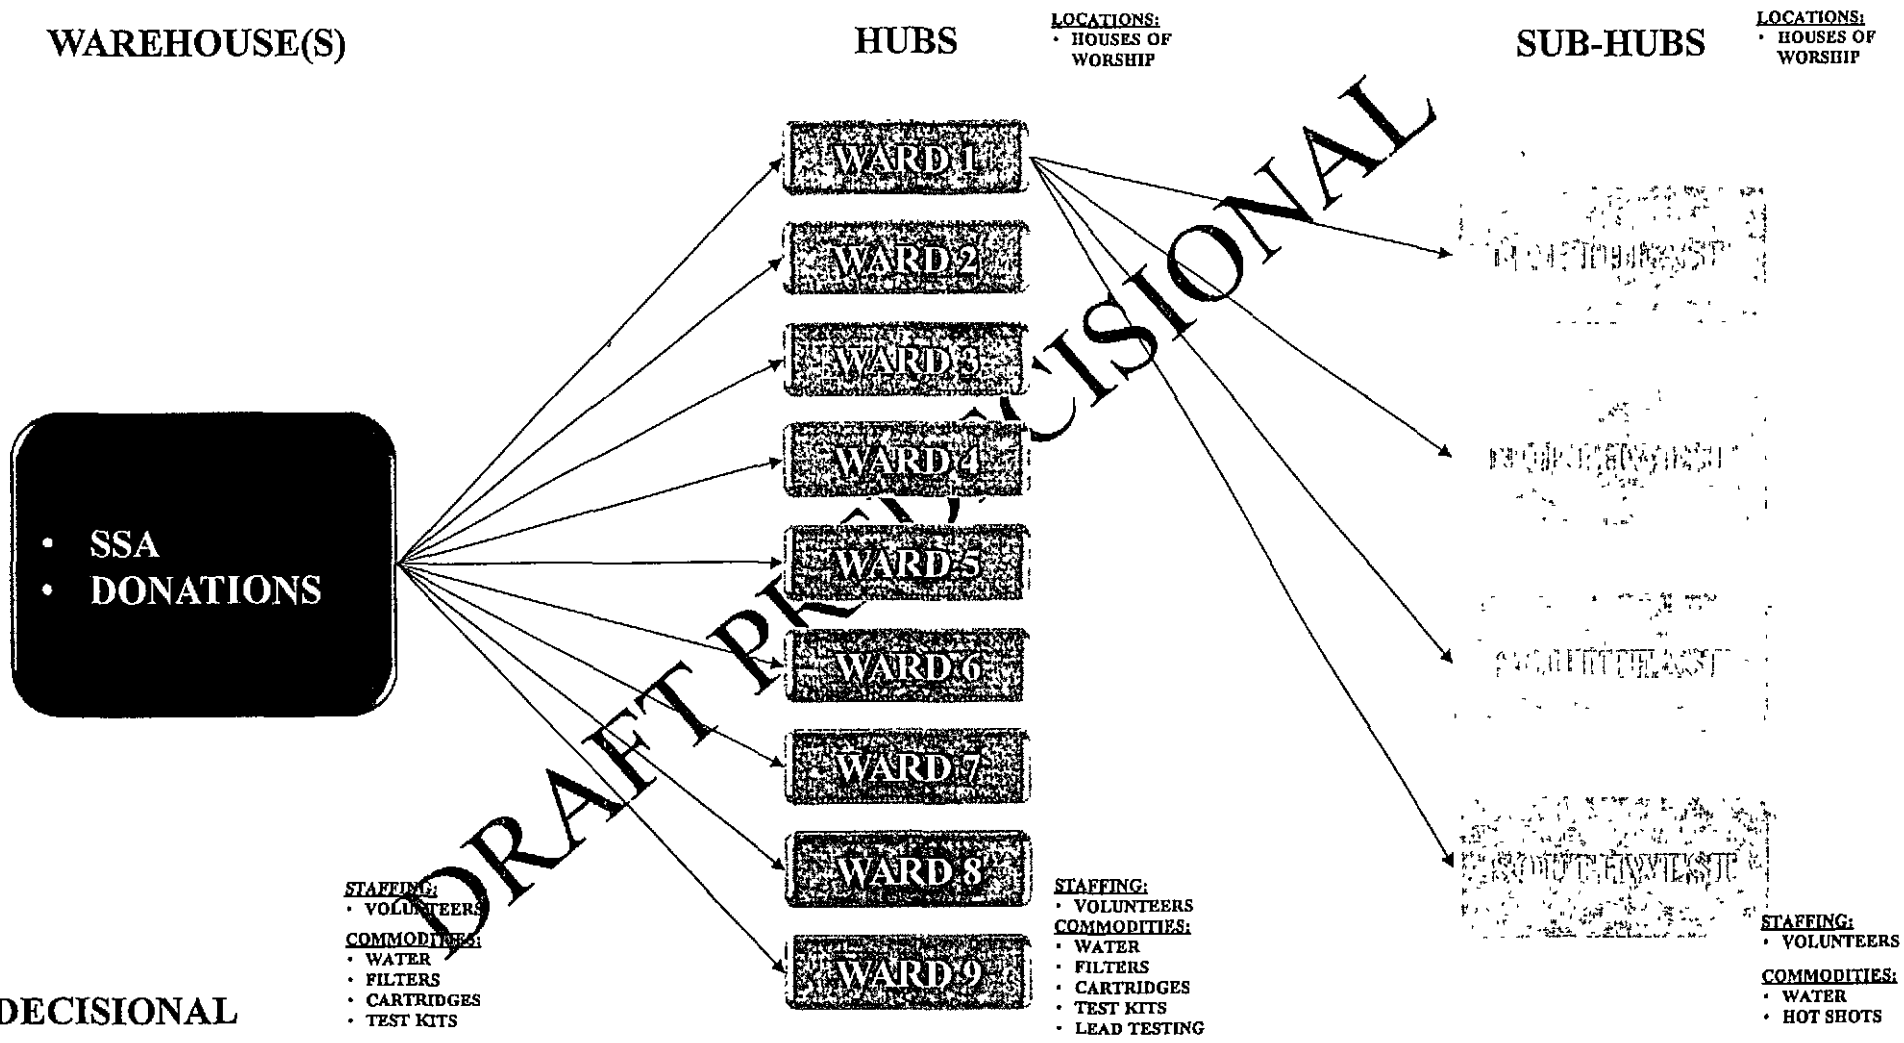
Long-Term Distribution COA #2



DRAFT PRE-DECISIONAL

PREDECISIONAL

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #2 Talking Points

STRENGTHS

- *WHOLE COMMUNITY*
- ACCESS TO POPULATION
- LARGER GROUP VIABLE PROPERTY
- STATE INVESTMENT AND COMMUNITY ORGANIZED
- COMMUNTY GENERATED PLAN
- NO LABOR COSTS
- INCORPORATES STRATEGIC PARTNERS
- REDUCES TRAVEL TIME FOR RESIDENTS
- SURVIVORS CAN BE VOLUNTEERS

RISKS

- LOCATION SELECTION/AVAILABILITY: QUANTITY OF SITES
- RELIGIOUS SENSITIVITY (Internal discord among interfaith network)
- POLITICAL RAMIFICATIONS (Competing political interests)
- APPEARANCE THAT STATE IS WALKING AWAY AND GIVING MISSION TO FAITH BASED
- COMMUNITY BUY-IN MAY BE AFFECTED BY DISRUPTIONS TO LOCAL COMMUNITY ACTIVITIES

WEAKNESSES

- *STAFFING OF 459 VOLUNTEERS (ABILITY TO SUSTAIN)*
- IDENTIFY 45 SUITABLE FACILITIES THAT MEET IS26
- VOLUNTEERS MUST BE TRAINED AND CERTIFIED
- VOLUNTEERS REQUIRE SPECIFIC SKILLS
- BACKGROUND CHECKS REQUIRED FOR RAPID RESPONSE TEAMS
- HOST ORGANIZATION MUST COMPLY WITH VOLUNTARY LABOR LAWS
- LACK OF CONTINUITY IN STAFF
- DIFFICULT TO MAINTAIN A SUPPLY CHAIN *ACCOUNTABILITY OF COMMODITIES*
- RAPID RESPONSE TEAMS WOULD NEED TO WORK OUT OF HUBS TO GET FILTER, CARTRIDGES, & TEST KITS
- *IMPACTS & FINANCIAL CONCERNS AT CHURCHES/COMMUNITY CENTERS*
- POTENTIAL SUDDEN TERMINATION AFFECTS OPERATIONAL STABILITY
- EXCEEDS SPAN OF CONTROL RELATED TO STAFFING AND SITES
- INTERIOR SPACE REQUIREMENTS STORAGE 10X10 CLIMATE CONTROLED ADMIN FOR 2 PERSONNEL INTERNET AND PHONE
- DISRUPTION OF *COMMUNITY TRAFFIC FLOW*
- POTENTIAL SECURITY COSTS
- BRIDGING STRATEGY UTILIZING THE NG IS NOT VIABLE
- LACK OF EQUIPMENT/WEAR AND TEAR
- RELIGIOUS SENSITIVITY

EQUIPMENT, POLICY, PROCEDURES, ETC.

- 45 SITES
- EQUIPMENT LOG LIST
- STAFFING: VOLUNTEER POLICY CONSIDERATIONS
  - AGE, ABILITY
  - INSURANCE
- OFF-SITE EBL TESTING IS NOT SUPPORTED BY MEDICAL COMMUNITY
- ADA COMPLIANCE
- ACCOUNTABILITY SYSTEM
- CREDENTIALING
- SKILL-SETS AND TRAINING
- MIOSHA
- USER AGREEMENTS
  - RENTAL
  - MOU

PREDECISIONAL

DRAFT PREDECISIONAL

NOT FOR FURTHER DISTRIBUTION

COA #3:WARDS: 9 HUBS/36 SH – LOC HIRE

- Staffing is hired full and part time
- This plan is based on distribution centers to faith based organizations utilizing Food Bank and Red Cross distribution
- Utilizing one hub in each ward and four sub hubs in each ward.
- Hubs will have all four commodities
- A mobile lead testing clinic twice per week for individuals without insurance at each hub (where they receive lead awareness testing, nutrition, and education on lead prevention tips for families)
- Sub hubs
  - Recycling center
  - will do water distribution only
  - Transportation to senior citizen complexes in the ward

- USER AGREEMENTS

DRAFT PREDECISIONAL

PREDECISIONAL

NOT FOR FURTHER DISTRIBUTION

COA #4: FILTER DIRECT DELIVERY

- Direct delivery for filters, cartridges, and pitchers
- PODS water only and recycling
- Rapid Response - could use one per Ward
- Designated Officials will arrange pickup for Franchise customers from SSA
- MI Department of Technology Management and Budget would issue request for proposals (RFP) for direct delivery of the three commodities
- Tracking and protection of Personally Identifiable Information is responsibility of contractor
- Write RFP to incorporate an upper limit per household per month
- State to provide addresses
- This COA may be supplemented by faith and community based distribution centers at their discretion
- Distribution Model
  - FEMA procured commodities delivered to SSA
  - Vender assumes commodities at SSA
  - PODs in each of 9 wards using IS26 protocol for water distribution only

DRAFT PREDECISIONAL

PREDECISIONAL

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #4 Talking Points

STRENGTHS

- TURN KEY FOR THREE COMMODITIES
- IMPROVED EFFICIENCIES, ACCOUNTING AND TRACKING
- FLEXIBLE AND RESPONSIVE
- CONVIENENT/SURVIVOR CENTRIC
- INDIVIDUAL AGENCIES' PRE-EXISTING COMPETENCIES MAXIMIZED
- MEETS ALL IS26 STRENGTHS
- AS DEMAND FOR H2O DECREASES ALLOWS A TRANSITION TO COMMUNITY LED H2O PODS

RISKS

- LOCATION SELECTION/AVAILABILITY
- POLITICAL RAMIFICATIONS
- CONTRACTOR PERFORMANCE
- STAFFING OF PODS
  - INCREASES
  - FUNDING
  - TRAINING
  - EQUIPMENT

WEAKNESSES

- COST
- DUPLICATION OF EFFORTS
- UNKNOWN BURN RATE
- WOULD REQUIRE MOU FOR PODS
- NO PREDETERMINED SITES FOR PODS
- TIME REQUIREMENTS TO START
- INCREASED POSSIBILITY FOR RETAIL FRAUD

EQUIPMENT, POLICY, PROCEDURES, ETC.

- SITE
- EQUIPMENT
- STAFFING
- ADA COMPLIANCE FOR WATER PODS
- ACCOUNTABILITY SYSTEM
- CREDENTIALING FOR PODS & RAPID RESPONSE TEAMS
- BACKGOUND CHECKS FOR RAPID RESPONSE TEAMS
- SKILL-SETS AND TRAINING
- MIOSHA
- USER AGREEMENTS

PREDECISIONAL

DRAFT PRE-DECISIONAL

NOT FOR FURTHER DISTRIBUTION

COA #5: FOOD BANK DISTRIBUTION

- Expands on Food Bank (FB) distribution model
- Expand on existing four routes per week
- Contract with Food Bank of Eastern Michigan for distribution services
- 86 existing pantry locations
- Utilizes existing community partners
- Staffing would be based upon current FB staffing model
- All four commodities at every site
- Mix of paid and volunteer staffing

QUESTIONS

- What are limitations on each site's usage; i.e., churches?
- Can limitations be waived?
- Max number of personnel to support?
- How much advance notice is required?

January 19, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

I am submitting this letter of appeal to FEMA Administrator W. Craig Fugate's letter to me dated January 16, 2016. In that letter, he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint. I respectfully submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, to request a reconsideration of that decision.

Respectfully, I appeal the determination that the event "does not meet the legal definition of a "major disaster" under 42 U.S.C. § 5122, as implemented at 44 C F.R. § § 206.2(17), the incident was not caused by a natural catastrophe, nor was it caused by fire, flood, or explosion." This unique disaster poses imminent and long-term threat to the citizens of Flint. Its severity warrants special consideration for all categories of the Individual and Public Assistance Programs, as well as the Hazard Mitigation program in order to facilitate recovery.

While the definition under 44 C.F.R. § § 206.2(17) provides examples of what might constitute a natural disaster, I submit that this disaster expands and fits within the categories of both storm and flood given that qualities within the water, over a long term, flooded and damaged the city's infrastructure in ways that were not immediately or easily detectable. These impacts will contribute to years and potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, county, or state have the capacity to conduct. I feel a more narrow reading of this definition does not adequately reflect the intentions of our "all-hazards" approach to emergency management at the federal and state levels, if our primary mechanism for relief is read in a way that limits the hazards to which we can provide relief.

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope you will determine that providing assistance beyond "appropriate assistance for required emergency measures...to save lives and to protect property and public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline.

While I greatly appreciate the emergency declaration and the assistance it provides for the city of Flint, I am disappointed that no other assistance is being offered or suggested, whether through Stafford Act measures or through programs of other federal agencies.

As additional support of this appeal, I offer the following information:

State and Local Government Capabilities

The City of Flint, County of Genesee, and State agencies have worked to provide short-term solutions to many problems related to this disaster. However, permanent solutions for much of the public water

system damages can only come about with significant federal assistance made available under a Presidential Major Disaster Declaration. While we are grateful for the limited federal assistance provided thus far by FEMA, those efforts are stop-gap measures which do not meet the long-term recovery needs of this disaster for the City of Flint.

Emergency Protective Measures

As indicated in my declaration request, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9 35 million. The City of Flint also committed $2 million, and the Charles Mott Foundation committed $4 million. The State is in the process of approving a second appropriation ...

NOTE: What do we know about the new appropriation/what can we include?

The considerable needs brought about by this disaster greatly exceed the collective funding resources of local, state and federal government. Unless a Presidential Major Disaster Declaration is granted and the Public Assistance Grant Program (PAGP) is activated there will be significant unmet needs as identified in the following areas of impacts. The only other possible option would be a special Congressional appropriation, which is unlikely.

Long Term Public Health Threats

Although strides have been made in addressing public health threats brought about by this disaster, there are considerable lingering issues. The ability of a community to recover with such a large percentage of its citizens living in poverty requires the ability of those citizens to acquire proper health care, case management, legal services, and assistance in repairing the plumbing infrastructure in their homes that may have be damaged Permanent solutions for these individuals and households will not come about in a timely manner without significant federal resources to restore, repair and stabilize their lives.

Damage to Infrastructure

The affected local communities and the State do not have the funding capacity to undertake the repair of an entire public water system. FEMA's PAGP provides the best source of funding for rebuilding these critical public facilities, and that program can only be activated through the declaration of a Major Disaster by the President Any other Federal programs of assistance would be welcome.

Mitigation

With federal disaster relief, Michigan could provide funding under the Hazard Mitigation Grant Program or PAGP to the affected utility to implement cutting edge measures to mitigate the vulnerabilities of the water system against all types of physical threats. Without such assistance, such measures will not be possible.

Economic Injury

As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment."

The economic injury to the affected communities from this disaster is significant As I indicated in my declaration request letter, impacts including further decreases in property values, lost business activity, loss of employment and further loss in population will severely impact Flint and Genesee County.

As part of the disaster declaration request, I included assistance from the Small Business Administration (SBA) to provide financial relief to the scores of businesses impacted by this disaster. If such assistance

were approved, the low-interest loans would provide much needed working capital to many businesses to allow them to continue to operate until their business picks up.

This disaster also comes on the heels of another Major Disaster (4195-DR-MI) that occurred in August of 2014. The state and those nearby counties and local municipalities are still recovering from that event and now they have another major disaster to deal with, and few available resources to address the significant impacts to the health of the citizens and damages to public facilities.

Direct Federal Assistance

The federal government is highly engaged in event responses, such as the BP Deepwater Horizon disaster. The federal government established a National Response Team of 16 federal departments and agencies, ranging from the EPA to the SBA to the Department of Labor. Such engagement was critical to restoring public confidence to avoid further economic damage from perceived contamination. In the BP case, fisheries, tourism, and other uses were afforded the benefit of technical expertise to minimize damage. In the case of Flint, residents are afraid to use water for washing because of their fear of further contamination and damage. The residents of the city of Flint need federal expertise to rebuild confidence in the use of tap water.

Conclusion

I sincerely believe that a Presidential Major Disaster Declaration is warranted due to the extraordinary circumstances involved in this disaster – the widespread and damage to public facilities, the potential long term damages to public health, and the substantial additional economic injury upon an already affected community. Therefore, I ask that you reconsider your decision in this matter and that you grant the State of Michigan the disaster relief assistance that it needs by declaring this event a Major Disaster under the Stafford Act

Capt Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division continues to be my designated State Coordinating Officer for this request. He will work with FEMA on program implementation and provide further information or justification on my behalf, as requested.

Sincerely,

Richard D. Snyder
Governor

DECLARED JANUARY 16, 2016

SUMMARY

STATE: Michigan

NUMBER: FEMA-3375-EM

INCIDENT: Contaminated Water

INCIDENT PERIOD: April 25, 2014, and continuing

DATE REQUESTED BY GOVERNOR: January 14, 2016

FEDERAL COORDINATING OFFICER: David G. Samaniego
National FCO Program

DESIGNATIONS AND TYPES OF ASSISTANCE:

The Department of Homeland Security, Federal Emergency Management Agency (FEMA), is authorized to provide appropriate assistance for required emergency measures, authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in the designated area. Specifically, FEMA is authorized to provide emergency protective measures (Category B), limited to direct federal assistance, under the Public Assistance program at 75 percent federal funding.

This emergency assistance is to provide water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days for Genesee County.

OTHER: Additional designations may be made at a later date if requested by the state and warranted by the results of further evaluation.

Note: This is an emergency declaration.

January 19, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

In response to W. Craig Fugate's letter to me dated January 16, 2016, in which he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint, I hereby respectively submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, requesting a reconsideration of that decision. While this unique disaster did not result from natural catastrophe, fire, flood or explosion, it poses imminent and long-term threat to the citizens of Flint. I believe the severity of this disaster warrants all categories of the Individual and Public Assistance Programs in order to facilitate suitable recovery. In support of this appeal, I offer the following information:

State and Local Government Capabilities

While I agree with Mr. Brown's assessment that considerable local and state resources were brought to bear in response to this situation, I strongly disagree with the assertion that "effective response does not appear to exceed the combined capabilities of the State and local governments." In fact, nothing could be farther from the truth State agencies and local governments were able to provide short-term solutions to many problems related to this flooding However, permanent solutions to much of the public facility damage and environmental degradation can only come about if significant federal assistance is made available under a Presidential Major Disaster Declaration. While we are grateful for the limited federal assistance provided thus far by the U.S. Army Corps of Engineers (USACE) and Natural Resources Conservation Service (NRCS), those efforts are simply not sufficient to meet the long-term recovery needs of this situation.

Limited Federal Assistance Has Not Addressed All Needs

The NRCS has identified eight "urgent and compelling" stream bank stabilization sites, totaling $733,000 in project costs, that it intends to address with Emergency Watershed Program (EWP) funding. The NRCS share of these eight projects would total $550,000, and the local governments would be expected to contribute the remaining $183,000. However, this assistance is only intended to provide a temporary "band-aid" for the affected sites until permanent restorative work can be completed. Unfortunately, the NRCS does not have provisions for that type of assistance under its emergency relief authorities and funding mechanisms. As a result, the affected counties are left without a ready funding source for the permanent restorative work unless the Public Assistance Grant Program (PAGP) is activated under a federal declaration.

The amount of permanent restorative work that needs to be done in the Dead River Watershed greatly exceeds available local, state and federal financial resources, absent a Presidential Major Disaster Declaration. The Central Lake Superior Watershed Partnership estimates the total flood-related damages in the Dead River Watershed to be $28.3 million. Of that total, $4 5 million is for temporary stream bank stabilization measures, $19 million is for soil restoration (1.9+ million cubic yards), $800,000 is for

sediment removal measures to be implemented over a five-year period, and $4 million is for habitat restoration projects. (It should be noted that the $19 million soil restoration estimate does not include over 1 million cubic yards of soil lost in the Silver Lake dike and Tourist Park dam. If that is included, the total soil restoration cost approaches $30 million Also, the $4.5 million in stream bank stabilization measures are for stabilizing the stream banks in their current condition and not restoring them to their original, pre-flood condition.) As you can see, the considerable environmental needs brought about by this flooding greatly exceed the collective funding resources of local, state and federal government unless a Presidential Major Disaster Declaration is granted and the PAGP is activated. The only other possible option might be a special Congressional appropriation, which is highly unlikely given the current difficult status of the federal budget.

The dredging assistance provided thus far by the USACE has been instrumental in restoring the basic navigability of the Dead River and the Marquette Harbor, but it has not removed all impediments to navigation nor permanently restored the areas ravaged by the Dead River floodwater. Again, additional federal assistance is required to restore the Dead River and Lake Superior waters to their pre-flood conditions, thereby providing an acceptable level of safety for commercial navigation interests and boating public alike

To help address a portion of the road and bridge damage in the four affected counties, the Michigan Department of Transportation (MDOT) will be submitting a formal request for $2.5 million in Federal Highway Administration (FHWA) funding assistance under the FHWA Emergency Relief Program. However, that assistance – if granted – will only address those damaged facilities that are part of the Federal-Aid System (FAS). The FAS damage amounted to approximately 50 percent of the identified $4 8 million in public road and bridge damage, leaving the remaining 50 percent of road and bridge damage (approximately $2 3 million) with no ready means of permanent repair, restoration and replacement. In addition, another $2.1 million in other public damages (under PAGP Categories A, B, D, E, F and G) have been left unfunded by the denial of our declaration request. The State of Michigan and the affected local governments do not have the available funding to address these unmet public damage needs and bring the affected facilities back to full operational status. As I indicated in my declaration request letter, the State and these same four counties are still dealing with another major flood disaster that occurred in this same area only a year earlier (1413-DR-MI) and we simply don't have the financial resources to address this additional, unexpected public facility damage.

Damage to Dams Not Completely Addressed

The Preliminary Damage Assessment (PDA) conducted for this disaster identified only $145,306 in damage to dams and other water control facilities, even though the flooding completely destroyed two publicly-owned and operated dams. I believe this damage figure is far too low and apparently does not include the complete cost of rebuilding the two dams (the Tourist Park Dam in Marquette and the Loughs Lake Dam in Baraga County) to their pre-flood condition The Marquette Board of Light and Power estimates that the cost of restoring the earthen fill to the Tourist Park Dam alone will approach $1.1 million – far in excess of the $145,306 in total damage identified under PAGP Category D in the PDA. These dams together provide valuable water control and recreation functions for the local communities and the region; therefore, it is imperative that they be rebuilt as quickly as possible.

Unfortunately, the State and the affected local communities do not have the funding at this time to undertake such a project, and as you know, funding under the National Dam Safety Program cannot be used for this purpose because physical improvements and construction activities are not eligible grant activities. The USACE and NRCS have not identified or offered ready sources of funding for the reconstruction of these two dams. I believe FEMA's PAGP provides the best source of funding for rebuilding and restoring these valuable and needed public facilities, and that program can only be activated through the declaration of a Major Disaster by the President.

Lingering Public Health, Safety, and Environmental Threats

Although strides have been made in addressing the many public safety threats and the environmental degradation brought about by this severe flooding, there are considerable lingering issues yet to be addressed. For example, local governments have done an excellent job in identifying and cordoning off unstable stream banks and other unsafe areas However, as I indicated earlier, permanent

solutions for those dangerous sites will not come about in a timely manner unless significant federal funding resources are made available to restore, repair and permanently stabilize the areas.

Similarly, while the Dead River is open for recreational use and warning signs have been posted at boat launch sites warning boaters and swimmers to be alert for dangerous conditions, those temporary preventive measures are hardly a final, permanent solution to the problem of subsurface flood debris, sedimentation, siltation, bacteria and chemical pollution brought about by the flooding. Again, permanent solutions are needed to eliminate these significant threats to public health and safety and the environment

The environmental damage to the Dead River Watershed may also adversely affect future flood control activities because the river has changed its course and characteristics in many areas upstream of and in and around the city of Marquette. Unless the failed water control structures and stream banks are replaced / restored to their pre-flood condition, it will be difficult to predict exactly how well the Watershed will handle future flooding events. It is entirely possible that previously flood-free areas and structures will now be flood prone due to the new Watershed characteristics, and the generation of hydro power may be affected as well. These are all distinct possibilities unless the Watershed is restored to its pre-flood condition. In its pre-flood condition, the Watershed performed in a predictable manner and the flood control and power generation characteristics and capabilities were well documented. In its current post-flood condition, the Watershed has unknown characteristics and capabilities that may adversely affect the citizens of the city of Marquette and Marquette County in the years to come. I do not want to take a "wait and see" attitude in this situation, and I am certain the affected local citizenry does not want to be part of such an experiment either Prompt and prudent action is called for to help rebuild and restore the environmental and hydraulic / hydrologic characteristics of the Dead River Watershed.

Unfortunately, the State and the affected local governments are in no position to provide those solutions without a significant infusion of federal disaster relief assistance. I believe that the direct federal debris removal assistance I requested in my June 4, 2003 letter would have addressed the majority of the health and safety concerns related to debris, sedimentation, siltation and water quality. Activation of the PAGP would have provided the ready means to restore many of the damaged public facilities that provide critical water control, power generation and transportation functions.

Vulnerable Power Generation and Distribution Capabilities

This flood disaster exposed the relatively fragile nature of the Upper Peninsula's power generation and distribution network. Even as bad as the situation has been, it could have been much worse had one or both of the remaining dams on the Dead River failed and severely damaged or destroyed the Presque Isle Power Plant in Marquette Fortunately, the power plant survived mostly intact from a physical standpoint, but it took a major hit from an operational standpoint The plant has been off-line for several weeks, and even now only six of the nine generating units are back on-line. As you know, the power generation situation has been precarious at best since the flooding occurred and has caused millions of dollars in economic injury to the central and western Upper Peninsula and temporarily idled two major iron ore mines that produce 20 percent of the U. S. iron ore supply.

Although the region voluntarily adjusted its power consumption to cope with the reduction in electrical power availability and it generally succeeded in that regard, had this disaster occurred in colder weather the situation could have been much more serious. To prevent that type of situation from ever occurring again and to reduce the vulnerability of this plant and the regional distribution network to all types of natural and manmade threats (up to and including acts of sabotage and terrorism), I believe that prudent mitigation measures may be called for If federal disaster relief assistance is made available, we may be able to provide funding (under the Hazard Mitigation Grant Program or PAGP) to the affected utilities in the region to undertake needed measures to mitigate the vulnerabilities of the power generation and distribution facilities to all types of physical threats. Without such assistance, those measures will not likely be taken due to lack of funding.

Economic Injury to the Region

The economic injury to the four affected counties and the region from this flood disaster is significant Only now are many of the negative economic impacts coming to light. As I indicated in my June 4 declaration request letter, the estimated economic impact to Marquette County alone is in excess of $80 million I have requested that the Small Business Administration (SBA) activate its Economic Injury Loan Program, under its own statutory authority, to provide much needed financial relief to the dozens of businesses negatively impacted by this flood disaster. That request is currently pending. Even if the request is approved, the assistance rendered will be in the form of low-interest loans which must be paid back For many struggling businesses, another loan is often the last thing that they need. However, for many other businesses the loans will provide much needed working capital and a margin of safety that will allow them to continue to operate until their business picks up.

One form of economic injury that will not be addressed by the SBA Economic Injury Loan Program is the increased costs of electric power generation and distribution brought about by this flood disaster The two private utilities primarily affected by the flooding – the Upper Peninsula Power Company (UPPCO) and Wisconsin Electric (WE Energies) – have incurred increased costs in excess of $10 million In all likelihood, the bulk of those costs will be passed on to electrical customers – individuals, families, businesses and institutions – in the form of electric rate increases allowed by the Power Supply Cost Recovery mechanism administered by the Michigan Public Service Commission That $10+ million is $10+ million that will not be spent in other segments of the local and regional economy – at restaurants, retail establishments and other businesses, at colleges / universities, at travel and tourism destinations, etc. – effectively taking the money out of widespread economic circulation.

The economic injury to public agencies in the affected area is significant as well and unfortunately is also not covered under the SBA Economic Injury Loan Program. Unless the PAGP is activated, the State and the affected local communities will not have a ready funding source for repairing, rebuilding and restoring the many critical public facilities damaged or destroyed in this disaster. As I indicated earlier, this disaster comes on the heels of another Major Disaster (1413-DR-MI) that occurred just a year earlier in these same four counties. The counties and local municipalities are still recovering from that event, and now they have yet another major flooding disaster to deal with and not much in the way of available resources to address the public facility damage and the many public health, safety, and environmental threats.

I sincerely believe that a Presidential Major Disaster Declaration is warranted in this situation due to the extraordinary circumstances involved in this flooding disaster – the catastrophic failure of two dams, the widespread and severe public facility damage and environmental degradation, the prolonged reduction in electric power generation capability, and the severe economic injury inflicted upon the affected communities and the region. Therefore, I ask that you reconsider your decision in this matter and that you grant the State of Michigan the disaster relief assistance that it needs by declaring this event a Major Disaster under the Stafford Act

I have designated First Lieutenant Ralph Hobrat of the Michigan State Police, Emergency Management Division as the State Coordinating Officer for this appeal request He can be reached by telephone at (517) 333-5048 and by e-mail at hobratr@michigan.gov. F/Lt Hobrat will work with the FEMA in conducting additional damage assessments as necessary and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

Deepwater BP Oil Spill

"To the people here in the Gulf, we are going to be standing by your side. And to Americans all across the country, come on down and visit."

Information on Spill-Related Damages and Claims

Individuals and businesses that have incurred damages as a result of the oil spill may submit a claim to the Gulf Coast Claims Facility (GCCF) for removal and cleanup costs, damage to real or personal property, lost earnings or profits, loss of subsistence use of natural resources, or physical injury or death. Claims can be submitted atwww gulfcoastclaimsfacility.com, or by calling (800) 916-4893 (toll free); (800) 916-4893 (multilingual); or (866) 682-1758 (TTY).
If, after 90 days, BP or the GCCF has not settled your claim (or any time after BP or the GCCF has denied your claim), you may present it to the National Pollution Fund Center. Information on presenting a claim to the NPFC is available at 1-800-280-7118 and athttp://www.uscg mil/npfc/Claims/.
For more information on assistance for small business owners and others in affected areas, visit RestoreTheGulf gov.

What You Can Do

- Request volunteer information and register to volunteer:**(866)-448-5816**
- Submit your vessel as a vessel of opportunity skimming system or submit alternative response technology, services or products:
  (281) 366-5511
- Report oiled or injured wildlife. **1-866-557-1401**
- Report oil on land. **1-866-448-5816**

State specific volunteer opportunities:

- Louisiana
- Mississippi
- Florida
- Alabama

Federal Response Resources

Department of Homeland Security (DHS)

Since the moments after the oil rig explosion on the night of April 20, DHS has played a lead role in federal response efforts—deploying the U.S. Coast Guard to search and rescue the 126 people aboard the rig, and quickly leading efforts to establish a command center on the Gulf Coast to address the potential environmental impact of the event and to coordinate with all state and local governments. Secretary Napolitano leads the National Response Team, an organization of 16 federal departments and agencies responsible for coordinating emergency preparedness and response to oil and hazardous substance pollution events.

U.S. Coast Guard
The Coast Guard has played a major role from the very beginning, when it responded to the explosion on a search and rescue mission to save lives Pursuant to the National Contingency Plan, Rear Admiral Mary Landry was named the Federal On-Scene Coordinator to lead a Regional Response Team which was stood up that included DHS, DOC/NOAA, DOI and the EPA, as well as state and local representatives. As the event escalated, Coast Guard Admiral Thad Allen was announced as the National Incident Commander for the administration's continued, coordinated response—providing additional coordinated oversight in leveraging every available resource to respond to the oil spill and minimize the associated environmental risks.

Department of the Interior (DOI)
The morning after the explosion, Secretary of the Interior deployed Deputy Secretary David J. Hayes to the Gulf Coast to assist with coordination and response to the event, and provide hourly reports back to the administration Since then, DOI has played a vital role in overseeing BP's response efforts while—at the President's request—working to deliver a report with recommendations on what, if any, additional safety measures should be required for offshore operations Secretary Salazar has announced that inspections of all deepwater rigs and platforms are underway.

Environmental Protection Agency (EPA)
Since the Deepwater BP Oil Spill, EPA has provided full support to the U S. Coast Guard and is monitoring and responding to potential public health and environmental concerns. Environmental data, including air quality and water samples, will be posted and frequently updated on this site as it is collected and validated by EPA's response teams along the impacted coastlines This data is meant to determine potential risks to public health and the environment· http://www.epa.gov/bpspill

National Oceanic and Atmospheric Administration
As the nation's leading scientific resource for oil spills, NOAA has been on the scene of the Deepwater Horizon oil spill from the start, providing coordinated scientific weather and biological response services to federal, state and local organizations·http://response.restoration.noaa.gov/deepwaterhorizon
Weather Forecast: http·//www.srh.noaa.gov/lix/

Small Business Administration
SBA is making low-interest loans available to small businesses in the Gulf Coast regions of Alabama, Florida, Louisiana and Mississippi suffering financial losses following the April 20 Deepwater BP oil spill that shut down commercial and recreational fishing in the Gulf of Mexico. SBA's Economic Injury Disaster Loans (EIDL) are available immediately in designated counties and parishes of each of the four states to help meet the financial needs of qualifying small businesses following the oil spill·http://www.sba.gov/services/disasterassistance/

Department of Defense (DOD)
DOD continues to support the ongoing response effort by lending Naval and Air Force bases to provide vital staging areas for boom deployments and other activities, and providing C-130 aircraft equipped with Modular Aerial Spray Systems, which dispense chemical dispersant—capable of covering up to 250 acres per flight DOD also plays a significant role in the National Response Team, helping to lead the coordination of response actions for the federal government. Secretary of Defense Gates has authorized use of Title 32 status for up to 17,500 National Guard members in four states: Alabama (3,000), Florida (2,500), Louisiana (6,000) and Mississippi (6,000).

Department of Labor
A number of agencies within the Department of Labor are working every day for the health, safety, and well-being of those involved in the oil spill response and cleanup operations The Occupational Safety and Health Administration (OSHA) is evaluating the safety at worksites around the Gulf, covering the vessels of opportunity, beach cleanup, staging areas, decontamination, distribution and deployment sites. Worker exposure data and requirements for training and personal protective equipment are posted on OSHA's website The Employment and Training Administration (ETA) supports a number of One Stop Career Centers in the area, and is helping to facilitate retraining and re-employment assistance to help workers who have been displaced find new work opportunities. In addition, DOL is providing resources to area workers regarding wage laws and federal contract compliance http://www.dol.gov/dol/gulf.htm

Department of the Interior's Fish and Wildlife Service
The Fish and Wildlife Service continues to support the joint agency response to the Deepwater Horizon oil spill in the Gulf of Mexico with experienced specialists, land managers, and support personnel. Booms to capture and deflect anticipated oil are being deployed at Breton National Wildlife Refuge, where

thousands of brown pelicans and shorebirds are currently nesting. The Service also is initiating Natural Resource Damage Assessment and Restoration activities in this incident to assess and address the long-term damage to impacted resources:http://www fws gov/home/dhoilspill

Department of the Interior's National Park Service

The National Park Service is focused on human safety and resource protection in eight national parks in the Gulf area. These parks are working to assess resources, collect baseline data, coordinate boom placements, plan for responsible cleanup, install barriers for shore bird and turtle nest protection, and plan for potential park closures, if necessary: http //www nps.gov/aboutus/oil-spill-response htm

National Institute for Occupational Safety and Health

Oil spill response workers may be exposed to many different chemical, physical, biological, and psychological hazards. These hazards vary depending on the type and location of the oil spill, type and stage of response, degree of coordination between entities involved in response and recovery, and the workers' specific tasks. Therefore, occupational and environmental hazards need to be identified, assessed, and monitored in each oil spill response.http://www cdc.gov/niosh/topics/oilspillresponse

Daily Updates

The latest in the Ongoing Administration-Wide Response to the Deepwater BP Oil Spill including additional resources and the response by the numbers is available here.

Information on Air, Food, and Water Safety

Air EPA continues air monitoring effort to ensure the safety of local residents and track any developing air quality changes

Food Consumers need to know that seafood from the open waters of the Gulf of Mexico is safe and fishermen need to be able to sell their products with confidence. That's why there's an aggressive, *comprehensive, coordinated, multi-agency program to ensure the safety of Gulf seafood* – working across federal agencies and with state and local officials, and the seafood industry, to closely monitor the effects of the oil spill and its potential impact on seafood safety. This includes rigorous testing and protocols throughout the process of bringing safe Gulf seafood to market – from active monitoring of the Gulf fisheries where seafood is caught to the inspection of companies that catch and sell Gulf seafood to the frequent testing of seafood caught in the Gulf to ensure that all seafood that goes to market is safe.

Water: With the ongoing reopening of Gulf fisheries, fishermen are going back to work and Americans can confidently and safely enjoy Gulf seafood again.

Ms. Elizabeth Zimmerman
Associate Administrator
Office of Response and Recovery
500 C Street, SW
Washington, DC 20472

Through: Mr Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL 60605

Dear Ms. Elizabeth Zimmerman,

I am submitting this letter of appeal to Associate Administrator for the Office of Response and Recovery Elizabeth Zimmerman's letter to me dated January 22, 2016. In that letter, she indicated that the State of Michigan has been denied in its request for the Individual and Households Program and reimbursement for emergency protective measures (Category B) under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint I respectfully submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, to request a reconsideration of that decision.

Respectfully, I appeal the determination that "additional Stafford Act assistance, beyond that which has been authorized under FEMA-3375-EM, is not appropriate for this event". Given the unique characteristics of this disaster pose an imminent and long-term threat to the citizens of Flint that warrants special consideration for the Individuals and Households Program and reimbursement under the Public Assistance program for Genesee County. This unique disaster poses imminent and long-term threat to the citizens of Flint and warrants special consideration for all categories of the Individual and Households Program, as well as reimbursement under the Public Assistance program in order to facilitate recovery.

Over the past 5 years FEMA has approved 55 emergency declarations for various events across the country and territories. Of the 55 declarations only 7 (including this declaration) have been for man-made events and of those only the West Virginia chemical spill is a close comparison to this event. In that incident they faced a similar instance where the tap water was contaminated and unusable. They were faced with similar conditions and were granted Category B funding under the declaration to reimburse the costs incurred.

These impacts will contribute to years and potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, county, or state have the capacity to conduct. I feel a more narrow reading of this definition does not adequately reflect the intentions of our "all-hazards" approach to emergency management at the federal and state levels, if our primary mechanism for relief is read in a way that limits the hazards to which we can provide relief.

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope you will determine that providing assistance beyond "appropriate assistance for required emergency measures...to save lives and to protect property and public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline

While I greatly appreciate the emergency declaration and the assistance it provides for the city of Flint, I am disappointed that no other assistance is being offered or suggested, whether through Stafford Act measures or through programs of other federal agencies.

As additional support of this appeal, I offer the following information.

My thoughts on EPA...

During the BP Oil Spill, the US Environment al Protection Agency (EPA) engaged to perform numerous actions The following is taken from the EPA website:

- To date, no chemicals have exceeded human health benchmarks. However, people should heed warnings from their local health officials regarding oil-impacted beaches and water. As an added safety precaution, if people see or smell oil in the water or beach area, they should avoid the oil-impacted area.

- EPA's water sampling process includes the collection of the sample, laboratory analyses and data verification (which ensures high quality data). These steps take about 7 to 10 days to complete before the data can be posted on EPA's website. As such, the data EPA posts is not representative of current conditions but rather is a snapshot in time for a given location. We continue to take water samples and will post data as soon as it becomes available.

- EPA contaminant data are compared to technical benchmarks to determine the potential effects of contaminants on human health and aquatic life. Sample results are also being compared to EPA water quality criteria guidelines and State water quality standards, when available.

- In areas where contaminant levels exceed benchmarks, it is important to remember that historical contamination may exist in some sampling locations and may not be related to the BP spill.

- EPA, in partnership with states, oversees the National Coastal Condition Assessment (NCCA). NCCA reports describe the ecological and environmental conditions in U.S. coastal waters. When possible, EPA is comparing data collected during the BP spill response to the NCCA data.

OSHA offered the following:

- To determine whether or not workers were exposed to dangerous levels of toxic chemicals, OSHA conducted its own independent air monitoring, both on shore and on the cleanup vessels, and reviewed data from BP, the Environmental Protection Agency (EPA) and the National Oceanic and Atmospheric Administration (NOAA). No air sampling by OSHA detected any hazardous chemical at levels of concern. See more information on OSHA's sampling strategy, detailed findings, and evaluations. Read our frequently asked questions on health hazards and protections, including information on respirators and other personal protective equipment.

As indicated by the above, the federal government was highly engaged in event response, which was critical to restoring public confidence to avoid further economic damage due to perceived contamination. In the BP case, fisheries, tourism, and other uses were afforded the benefit of technical expertise to minimize damage. In the case of Flint, residents are afraid to use water for washing because of their fear of further contamination and damage. The residents of the city of Flint need federal expertise to rebuild confidence in use of tap water.

In response to W. Craig Fugate's letter to me dated January 16, 2016, in which he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint, I hereby respectively submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, requesting a reconsideration of that decision While this unique disaster did not result from natural catastrophe, fire, flood or explosion, it poses imminent and long-term threat to the citizens of Flint Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I am hoping you will choose to provide assistance beyond "*appropriate assistance for required emergency measures...to save lives and to protect property* and public health and safety." As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline. While I am greatly appreciative of the emergency declaration and the assistance it provides for the city of Flint, I am disappointed no other assistance is being offered or suggested, whether through Stafford Act measures or through programs of other federal agencies. My appeal through Stafford Act measures follows, but I respectfully request assistance beyond providing "water, water filters, water filter cartridges, water test kits, and other *necessary related items for a period of no more than 90 days.*"

FY 2015-16 SUPPLEMENTAL APPROPRIATIONS: FLINT WATER
Summary: As Reported by the House Appropriations Committee
Senate Bill 136 (H-1)

HFA Director: Mary Ann Cleary
HFA Deputy Director: Kyle I. Jen

Bill Description

Senate Bill 136 (H-1) contains a single appropriation of **$30.0 million GF/GP**, appropriated in the Department of Treasury budget, for the Flint Declaration of Emergency.

Pursuant to **Section 301** of the bill, the funds would be allocated to reimburse the City of Flint's Water Enterprise Fund in an amount equal to credits posted to customers' accounts under section 302. This section would also require quarterly reports on the distribution of the funds.

Section 302 of the bill would provide for the following:

- Prohibit the removal or expenditure of any administration charges from the appropriation in the bill.
- Prohibit any expenditures from the funds appropriated without specific authorization by the State Treasurer.
- Specify that any unexpended funds as of September 30, 2016, would lapse to the General Fund.
- Provide for credits to customer's accounts to be equal to the following:
    - For residential customers, 65% of the amount billed for water from the billing period containing April 30, 2014 to the end of the billing period containing the date upon which the declaration of disaster under Senate Concurrent Resolution (SCR) 23 expires. (SCR 23 extended the original declaration of emergency for the City of Flint through April 14, 2016.)
    - For other customers (i.e , commercial customers), 20% of the amount billed for water during the same time period.
- Provide that credits for sewer service are not to be reimbursed.
- Require the credits for water service to be calculated based on rates consisted with the rates paid at the time of billing.
- Allow the State Treasurer and the Auditor General to audit transactions under the bill at their discretion.

Subsequent to initial legislative action, the funding in this bill has now been formally requested by the State Budget Office under supplemental request 2016-6 (in the Department of Environmental Quality section), which was submitted in conjunction with the FY 2016-17 Executive Budget Recommendation.

Total Appropriations for Flint Emergency to Date

The table below summarizes FY 2015-16 appropriations for the Flint water emergency, including this bill, to date:

Appropriations Act	Gross	Federal	Restricted	GF/GP
PA 143 of 2015 (HB 4102)	$9,350,100	$0	$2,200,000	$7,150,000
PA 3 of 2016 (HB 5220)	28,028,500	2,845,000	2,552,000	22,631,500
State Police boilerplate authorization (Disaster Emergency Contingency Fund)	3,871,100	0	3,871,100	0
SB 136 as Passed by the Senate	30,000,000	0	0	30,000,000
TOTAL	**$71,249,700**	**$2,845,000**	**$8,623,100**	**$59,781,500**

Descriptions of the specific funding items in the two previous acts can be found at these links:

http://www.legislature.mi.gov/documents/2015-2016/billanalysis/House/pdf/2015-HLA-4102-6154428F.pdf.

January 19, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

I am submitting this letter of appeal in response to FEMA Administrator W. Craig Fugate's letter to me dated January 16, 2016. In that letter, he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint. I respectfully submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, to request a reconsideration of that decision.

Respectfully, I appeal the determination that the event "does not meet the legal definition of a 'major disaster' under 42 U.S.C. § 5122." This unique disaster poses imminent and long-term threat to the citizens of Flint. Its severity warrants special consideration for all categories of the Individual and Public Assistance Programs, as well as the Hazard Mitigation program in order to facilitate recovery

While the definition under 44 C.F R. § § 206.2(17) provides examples of what might constitute a natural disaster, I submit that this disaster is analogous to the flood category, given that qualities within the water, over a long term, flooded and damaged the city's infrastructure in ways that were not immediately or easily detectable. Likewise, this disaster is a natural catastrophe in the sense that the contamination arose from the natural decay of Flint's aging infrastructure. These impacts will contribute to years and potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, county, or state have the capacity to conduct A narrow reading of this definition, restricting the hazards to which we can provide relief, does not adequately reflect the intentions of our "all-hazards" approach to emergency management at the federal and state levels

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope you will determine that providing assistance beyond "appropriate assistance for required emergency measures...to save lives and to protect property and public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline.

As additional support of this appeal, I offer the following information:

State and Local Government Capabilities

The City of Flint, County of Genesee, and State agencies have worked to provide short-term solutions to many problems related to this disaster. However, permanent solutions for much of the public water system damages can only come about with significant federal assistance made available under a Presidential Major Disaster Declaration. While we are grateful for the limited federal assistance provided thus far by FEMA, those efforts are stop-gap measures which do not meet the long-term recovery needs of this disaster for the City of Flint.

Emergency Protective Measures

As indicated in my declaration request, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million The City of Flint also committed $2 million, and the Charles Mott Foundation committed $4 million. The State is in the process of approving a second appropriation.

The considerable needs brought about by this disaster greatly exceed the collective funding resources of local and state government. Unless a Presidential Major Disaster Declaration is granted and the Public Assistance Grant Program (PAGP) is activated there will be significant unmet needs as identified in the following areas of impacts. The only other possible option would be a special Congressional appropriation.

Long Term Public Health Threats

Although strides have been made in addressing public health threats brought about by this disaster, there are considerable lingering issues. The ability of a community to recover with such a large percentage of its citizens living in poverty requires the ability of those citizens to acquire proper health care, case management, legal services, and assistance in repairing the plumbing infrastructure in their homes that may have be damaged Permanent solutions for these individuals and households will not come about in a timely manner without significant federal resources to restore, repair and stabilize their lives.

Damage to Infrastructure

The affected local communities and the State do not have the funding capacity to undertake the repair of an entire public water system. FEMA's PAGP provides the best source of funding for rebuilding these critical public facilities, and that program can only be activated through the declaration of a Major Disaster by the President. Any other Federal programs of assistance would be welcome.

Mitigation

With federal disaster relief, Michigan could provide funding under the Hazard Mitigation Grant Program or PAGP to the affected utility to implement cutting edge measures to mitigate the vulnerabilities of the water system against all types of physical threats Without such assistance, such measures will not be possible

Economic Injury

As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment "

As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment."

The economic injury to the affected communities from this disaster is significant. As I indicated in my declaration request letter, impacts including further decreases in property values, lost business activity, loss of employment and further loss in population will severely impact Flint and Genesee County.

As part of the disaster declaration request, I included assistance from the Small Business Administration (SBA) to provide financial relief to the scores of businesses impacted by this disaster. If such assistance were approved, the low-interest loans would provide much needed working capital to many businesses to allow them to continue to operate until their business picks up.

This disaster also comes on the heels of another Major Disaster (4195-DR-MI) that occurred in August of 2014. The state and those nearby counties and local municipalities are still recovering from that event

and now they have another major disaster to deal with, and few available resources to address the significant impacts to the health of the citizens and damages to public facilities.

Direct Federal Assistance

The federal government is highly engaged in event responses, such as the BP Deepwater Horizon disaster. The federal government established a National Response Team of 16 federal departments and agencies, ranging from the EPA to the SBA to the Department of Labor. Such engagement was critical to restoring public confidence to avoid further economic damage from perceived contamination. In the BP case, fisheries, tourism, and other uses were afforded the benefit of technical expertise to minimize damage. In the case of Flint, residents are afraid to use water for washing because of their fear of further contamination and damage. The residents of the city of Flint need federal expertise to rebuild confidence in the use of tap water.

Conclusion

I sincerely believe that a Presidential Major Disaster Declaration is warranted due to the extraordinary circumstances involved in this disaster – the widespread and damage to public facilities, the potential long term damages to public health, and the substantial additional economic injury upon an already affected community. Therefore, I ask that you reconsider your decision in this matter and that you grant the State of Michigan the disaster relief assistance that it needs by declaring this event a Major Disaster under the Stafford Act.

Capt. Chris A Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, continues to be my designated State Coordinating Officer for this request. He will work with FEMA on program implementation and provide further information or justification on my behalf, as requested.

Sincerely,

Richard D. Snyder
Governor

Melissa Mays "We're not gonna be able to sell it for one, because it's not legal to sell your home with known copper and lead problems until you replace those problems," she said. So there's that thousands of dollars to do the service line and indoor plumbing. And yeah, nobody wants to buy a poison water house."

Erin Brockovich "Once again... I beg, plead... cry for the USEPA to get into the Flint drinking water investigation and stop with the denial; your continued silence has proven deadly."

Edwards criticized the U.S. Environmental Protection Agency for its slow response to the crisis in Flint The EPA's Miguel del Toral tried to get the state to address the corrosion treatment question. In email and memos, he consistently spelled out his many concerns about the lead corrosion problem in Flint. Edwards says del Toral was essentially sidelined by his own agency.
"The EPA buried this problem. The record is absolutely clear. They've been in this up to their eyeballs since early July," Edwards says.
In fact, he tells us, much of the blame falling on Governor Snyder and former Flint Mayor Dayne Walling can be directly traced to the actions of the EPA Region 5 Administrator.
"[Del Toral is] not just any employee, he is recognized as the foremost expert on the Lead and Copper Rule in the United States. And his concerns were completely buried and brushed off, and EPA never communicated to either the governor or to the mayor of Flint that his concerns should be taken seriously. Instead they apologized for what he did "

SENATE BILL No. 136

(As amended February 4, 2016)

February 17, 2015, Introduced by Senator HILDENBRAND and referred to the Committee on Appropriations.

A bill to make, supplement, and adjust appropriations for various state departments and agencies for the fiscal year ending September 30, 2016; and to provide for the expenditure of the appropriations.

THE PEOPLE OF THE STATE OF MICHIGAN ENACT:

PART 1

LINE-ITEM APPROPRIATIONS

Sec. 101. There is appropriated for various state departments and agencies to supplement appropriations for the fiscal year ending September 30, 2016, from the following funds:

<<APPROPRIATION SUMMARY

GROSS APPROPRIATION	$ 30,000,000
Total interdepartmental grants and intradepartmental transfers	0
ADJUSTED GROSS APPROPRIATION	$ 30,000,000
Total federal revenues	0
Total local revenues	0
Total private revenues	0
Total other state restricted revenues	0
State general fund/general purpose	$ 30,000,000

Sec. 102. DEPARTMENT OF TREASURY

(1) APPROPRIATION SUMMARY

SENATE BILL No. 136

Senate Bill No. 136 as amended (2 of 2)

GROSS APPROPRIATION	$	30,000,000
Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	30,000,000
Federal revenues:		
Total federal revenues		0
Special revenue funds:		
Total local revenues		0
Total private revenues		0
Total other state restricted revenues		0
State general fund/general purpose	$	30,000,000
(2) GRANTS		
Flint declaration of emergency	$	30,000,000
GROSS APPROPRIATION	$	30,000,000

Appropriated from:

State general fund/general purpose..... $ 30,000,000>>

PART 2

PROVISIONS CONCERNING APPROPRIATIONS

GENERAL SECTIONS

Sec. 201. In accordance with the provisions of section 30 of article IX of the state constitution of 1963, total state spending from state resources in this appropriation act for the fiscal year ending September 30, 2016 is <<$30,000,000.00 and state appropriations>> paid to local units of government are $0.

Sec. 202. The appropriations authorized under this act are subject to the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594.

<<DEPARTMENT OF TREASURY

Sec. 301. (1) From the funds appropriated in part 1 for Flint declaration of emergency, $30,000,000.00 shall be allocated to help cover the cost of water bills for residents of the city of Flint.

(2) The department shall report quarterly to the chairs of the senate and house appropriations committees on the distribution of the funds allocated pursuant to part 1.

Sec. 302. (1) There shall be no administrative charges, from any entity, removed or expended from the appropriations in part 1.

(2) There shall be no expenditures from the funds appropriated in part 1 without specific authorization from the state treasurer.

(3) All unexpended funds, as of September 30, 2016, from the appropriations in part 1 shall be returned to the department of treasury.

(4) Any allocation to an entity receiving funds from the appropriations in part 1, other than a specific water and sewer customer, must be specifically approved by the state treasurer in each instance.>>

Potential Local Hire Program
Meeting Notes – 2/12/16

Participants
Alisha Tate-Nadeau, FEMA
Jeannie Moran, FEMA
Tom Weber, MSP/EMHSD
Zach Baker, MSP/EMHSD
Brianna Briggs, MSP/EMHSD
LTC Seely, National Guard
Jason Gamble, FEMA
Maggie Sayles, MTED

Notes

Workforce Innovation and Opportunity Act (WIOA)
National Dislocated Worker Grant/National Emergency Grants

- Handles the humanitarian effort to include training, workforce money for unemployed, temporary work assignments
- Grant funding could be used to support attire, equipment leases, etc.
- Should be thinking about apprenticeships and training for positions that could turn into long-term hiring
- Timeline - USDOL has indicated, with the Presidential Declaration, turnaround could be as quick as 48 hours
- TEGL 2-15 is the guidance document
- Training and background checks could be paid under this grant
- Maximum award? – No indications there is a maximum
    - Estimates put us around at least $12 million, potentially $15 million

Who can be the employer of record?

- It can be a governmental entity (city or county)
- Employer of record would write paychecks
- MI Works would provide case management to employees

Need to identify employer of record (very important next step**)

- Maggie to provide a list of criteria we could use when approaching potential employers to provide details on what this would entail (would be based on the Fair Labor Standards Act)
- *No matter who the employer of record is, the employee should be working closely with MI Works*
- Could have multiple employers of record, if needed

General MI Works Information

- Often Workforce Development Agency has a work/school based employment
    - 35 hours works, 5 hours school (training/work enhancement opportunities), generally
- LTC Seely will provide Maggie with information for the Youth Conservation Corps
    - Could potentially fit as one employer of record
    - Focuses on youth hires (16-24 years of age)

**-Action items for MSP/EMHSD

    - Would hire locally in Flint
- Other grants currently being used by MI Works could be realigned to assist in the short term in getting people out there doing some of this work
- MI Works (GST Works – locally) has space in their facility that could be used for training or meeting space for these operations

**Need to work on list of jobs with descriptions
- MI Works could help determine appropriate pay scale for jobs

Maggie – Research
- Reached out to California (received $18 million previously) and received information
- Reached out to Missouri on Joplin tornado response and received some information from them

**-Action items for MSP/EMHSD

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

In response to W. Craig Fugate's letter to me dated January 16, 2016, in which he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint, I submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, requesting a reconsideration of that decision.

Respectfully, I appeal the determination that the event "does not meet the legal definition of a "major disaster" under 42 U.S.C. § 5122, as implemented at 44 C.F.R. § § 206.2(17), the incident was not caused by a natural catastrophe, nor was it caused by fire, flood, or explosion." This unique disaster poses imminent and long-term threat to the citizens of Flint. Its severity warrants special consideration for all categories of the Individual and Public Assistance Programs, as well as the Hazard Mitigation program in order to facilitate recovery.

While the definition under 44 C.F.R. § § 206.2(17) provides examples of what might constitute a natural disaster, I submit that this disaster expands and fits both within the categories of a storm and flood given that it was qualities within the water that, over a long term, flooded and damaged the city's infrastructure in a way that was not immediately or easily detectable and will contribute to years and potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, county, or state have the capacity to conduct. A more narrow reading of this definition I feel does not adequately reflect the intentions of our "all-hazards" approach to emergency management at the federal and state levels, if our primary mechanism for relief is read in a way that limits the hazards to which we can provide relief.

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope that you will determine that providing assistance beyond "appropriate assistance for required emergency measures...to save lives and to protect property and public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline.

While I greatly appreciate the emergency declaration and the assistance it provides for the city of Flint, I am disappointed that no other assistance is being offered or suggested, whether through Stafford Act measures or through programs of other federal agencies.

As additional support of this appeal, I offer the following information:

State and Local Government Capabilities

The City of Flint, County of Genesee, and State agencies have worked to provide short-term solutions to many problems related to this disaster. However, permanent solutions to much of the public facility

damage can only come about with significant federal assistance made available under a Presidential Major Disaster Declaration. While we are grateful for the limited federal assistance provided thus far by FEMA, those efforts are stop-gap measures which do not meet the long-term recovery needs of this disaster for the City of Flint.

Emergency Protective Measures

As indicated in my declaration request, the State made an emergency appropriation to return Flint to Detroit water and is preparing a second. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. The City of Flint also committed $2 million, and the Charles Mott Foundation committed $4 million.

NOTE: What do we know about the new appropriation/what can we include?

The considerable needs brought about by this disaster greatly exceed the collective funding resources of local, state and federal government unless a Presidential Major Disaster Declaration is granted and the Public Assistance Grant Program (PAGP) is activated. The only other possible option would be a special Congressional appropriation, which is unlikely.

Long Term Public Health Threats

Although strides have been made in addressing public health threats brought about by this disaster, there are considerable lingering issues. The ability of a community with such a large percentage of its citizens living in poverty to recover requires the ability of those citizens to acquire proper health care, case management, legal services, and assistance in repairing the plumbing infrastructure in their homes that may have be damaged. Permanent solutions for these individuals and households will not come about in a timely manner without significant federal resources to restore, repair and stabilize their lives.

Damage to Infrastructure

The affected local communities and the State do not have the funding capacity to undertake the repair of an entire public water system. FEMA's PAGP provides the best source of funding for rebuilding these critical public facilities, and that program can only be activated through the declaration of a Major Disaster by the President. Any other Federal programs of assistance would be welcome.

Mitigation

With federal disaster relief, Michigan could provide funding under the Hazard Mitigation Grant Program or PAGP to the affected utility to implement cutting edge measures to mitigate the vulnerabilities of the water system against all types of physical threats. Without such assistance, such measures will not be possible.

Economic Injury

As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment "

The economic injury to the affected communities from this disaster is significant. As I indicated in my declaration request letter, impacts including further decreases in property values, lost business activity, loss of employment and further loss in population will severely impact Flint and Genesee County.

As part of the disaster declaration request, I included assistance from the Small Business Administration (SBA) to provide financial relief to the scores of businesses impacted by this disaster. If such assistance were approved, the low-interest loans would provide much needed working capital to many businesses to allow them to continue to operate until their business picks up.

This disaster also comes on the heels of another Major Disaster (4195-DR-MI) that occurred in August of 2014. The state and those nearby counties and local municipalities are still recovering from that event and now they have another major disaster to deal with and few available resources to address the damages to health and public facilities

Direct Federal Assistance

The federal government is highly engaged in event responses, such as the BP Deepwater Horizon disaster. The federal government established a National Response Team of 16 federal departments and agencies, ranging from the EPA to the SBA to the Department of Labor. Such engagement was critical to restoring public confidence to avoid further economic damage from perceived contamination. In the BP case, fisheries, tourism, and other uses were afforded the benefit of technical expertise to minimize damage. In the case of Flint, residents are afraid to use water for washing because of their fear of further contamination and damage. The residents of the city of Flint need federal expertise to rebuild confidence in the use of tap water.

Conclusion

I sincerely believe that a Presidential Major Disaster Declaration is warranted due to the extraordinary circumstances involved in this disaster – the widespread and damage to public facilities, the potential long term damages to public health, and the substantial additional economic injury upon an already affected community Therefore, I ask that you reconsider your decision in this matter and that you grant the State of Michigan the disaster relief assistance that it needs by declaring this event a Major Disaster under the Stafford Act.

Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division continues to be my designated State Coordinating Officer for this request. He will work with FEMA on program implementation and provide further information or justification on my behalf, as requested.

Sincerely,

Richard D. Snyder
Governor

U.S. Department of Homeland Security
500 C Street, SW
Washington, DC 20472

FEMA

JAN 16 2016

The Honorable Rick Snyder
Governor of Michigan
111 South Capitol Avenue
Lansing, Michigan 48909

Dear Governor Snyder:

This is in response to your January 14, 2016, request for an expedited major disaster declaration for the State of Michigan as a result of water contamination described in your request as beginning on April 25, 2014, and continuing. You specifically requested Individual Assistance and Public Assistance, including direct federal assistance for Genesee County and Hazard Mitigation statewide.

Based on our review of all of the information available, a major disaster declaration under the Stafford Act is not appropriate. The request does not meet the legal definition of a "major disaster" under 42 U.S.C. § 5122, as implemented at 44 C.F.R. §§ 206.2(17). The incident was not a result of a natural catastrophe, nor was it caused by a fire, flood, or explosion.

This denial may be appealed within 30 days after the date of this letter. Any appeal pursuant to 44 CFR § 206.46, along with additional information justifying the appeal, should be submitted to the President through Andrew Velasquez III, Regional Administrator, FEMA Region V, located at 536 South Clark Street, Chicago, Illinois 60605.

Sincerely,

W. Craig Fugate
Administrator

DEPARTMENT OF HOMELAND SECURITY
FEDERAL EMERGENCY MANAGEMENT AGENCY

OMB No. 1660-0009 Expires March 31,2016

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION MAJOR DISASTER OR EMERGENCY

1. Request Date Jan 14, 2016

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0009). NOTE: Do not send your completed form to this address.

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R., §§ 206.35 and 206.36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U.S.C. § 5122) or Indian tribal government requesting declaration.	2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s).
Michigan	9,883,640

3. Governor's or Tribal Chief Executive's Name	4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number
Richard D. Snyder	Captain Chris A. Kelenske Office: 517-333-5042 Cell:

5. Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number

Mr. Anthony Katarsky Office: 517-336-2686 Cell

6 Declaration Request For: ☒ Major Disaster (Stafford Act Sec. 401) ☐ Emergency (Stafford Act Sec. 501(a))

7. Incident Period: Beginning Date Apr 25, 2014 End Date ____ or ☒ Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e g , United States Geological Survey for seismic incidents, the National Weather Service for flooding).

7b. Type of Incident (Check all that apply)

☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☐ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide

☐ Severe Storm (rain, high water, wind-driven rain, hail, lightning) ☐ Snowstorm (Must include Enclosure D: Historic and Current Snowfall Data) ☐ Straight-Line Winds

☐ Tidal Wave ☐ Tornado ☐ Tropical Depression ☐ Tropical Storm ☐ Tsunami ☐ Volcanic Eruption ☐ Winter Storm

☒ Other (please specify) Contamination and Damage to Public Water System

8. Description of damages (Short description of impacts of disaster on affected area and population) Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

On April 25, 2014, the City of Flint switched from the Detroit Water System (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Executive. Based on U.S. census data, the population of the City of Flint is 99,002. Census data puts the percentage of the total population under the age of 5 at 8% or approximately 8,200. Children under age 6 are in a high-risk stage of growth for lead exposure. Approximately 2,642 residents have been tested for lead blood levels as a result of this incident with 50 exhibiting elevated blood lead levels. The 2010 census data identifies 40,017 households and 51,321 housing units within the City of Flint. All of these households obtain their potable water from the city.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

All appropriate local, regional and state resources were used to their maximum in responding to and recovering from this public health emergency. This included equipment, personnel, materials and supplies, facilities, technical expertise (including emergency contracting, as appropriate), and financial resources. When local and regional resources (including partner voluntary relief organizations and other community-based organizations) were not sufficient to address incident conditions, or very specialized resources were required to perform specialized response and/or recovery functions, State of Michigan resources were activated to address capability shortfalls. State agencies actively involved in the response and recovery activities in the SEOC and/or field include the Michigan Departments of State Police, Agriculture and Rural Development, Attorney General, Civil Rights, Corrections, Education, Environmental Quality, Health and Human Services, Insurance and Financial Services, Licensing and Regulatory Affairs, Military and Veterans Affairs, Natural Resources, and Talent and Economic Development. Details are in the cover letter.

10. Joint Preliminary Damage Assessment*

☐ Individual Assistance Dates Performed Requested _____ Start _____ End _____

Individual Assistance Accessibility Problems (Areas that could not be accessed, and why)
Expedited Major Disaster Declaration Request

☐ Public Assistance Dates Performed Requested _____ Start _____ End _____

Public Assistance Accessibility Problems (Areas that could not be accessed, and why)
Expedited Major Disaster Declaration Request

11. Programs and Areas Requested

Individual Assistance ☐ N/A ☒ Individuals and Households Program ☒ Crisis Counseling Program ☒ Disaster Unemployment Assistance

☒ All ☒ Disaster Case Management ☒ Disaster Legal Services

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)) If additional space is needed, please enclose additional documentation).

Townships of Flint, Genesee and Mt. Morris; Cities of Burton and Flint; County of Genesee

We request all available programs. The Individual Assistance programs will be needed to assist residents/water service customers with an estimated cost as much as $54,619,500 to repair damaged lead service lines on private property. The damage estimate is based on damage assessments conducted by the City of Flint with the Genesee County Equalization Department.

For States, Identify Federally-recognized Tribes in the requested counties (if applicable).
N/A

Please see **Enclosure A: Supplemental Information for Individual Assistance** for additional information in support of this request*.

**Not Required for Emergency Declaration Request*

11. Programs and Areas Requested (Continued)

Public Assistance ☐ N/A ☒ Debris Removal (Category A) ☒ Emergency Protective Measures (Category B) ☒ Permanent Work (Categories C-G)* (not available for Emergency Declaration Requests)

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)). If additional space is needed or your request includes different categories of work for different jurisdictions; please enclose additional documentation.

Townships of Flint, Genesee and Mt. Morris; Cities of Burton and Flint; County of Genesee
We request all available programs. Emergency Protective Measures have been and will continue to be implemented with estimated costs which could be in the range of $41,000,000. The need is estimated for 90 days for water distribution ($10,335,808) and 1 year for the balance for filters, cartridges, and water test kits. Damage assessments conducted by the City of Flint with the Genesee County Equalization Department concluded that the total potential damages to the City of Flint water distribution infrastructure is estimated at $712,800,000.

For States, identify Federally-recognized Tribes included in the requested counties (if applicable).
N/A

Please see Enclosure B: Supplemental Information for Public Assistance for additional information in support of this request*.

Indemnification for Debris Removal Activity

☐ I do not anticipate the need for debris removal.

☒ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and:

a. I request the following type(s) of assistance:
Emergency work and protective measures to save lives, protect public health and safety and to protect property, for state and local governments; including but not limited to the provision of food, water and other consumable commodities. Assistance from CDC, EPA, HHS, HUD, SBA and any other agencies with responsibilities related to health, nutrition, and water infrastructure.

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services.
State and local resources can not meet the demand for filters, cartridges, water, and water testing at each residence; or the physical and mental health or nutrition needs of the affected population of 40,509 households with approximately 99,002 residents. The city is not able to repair its water system and the state has responded, but the response needs far exceed the state's capability, in addition to continuing response to other disasters, including the 2014 flooding in metro Detroit.

c. In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance: (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work; (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work, (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement ; and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

☒ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).
N/A

Please see Enclosure D: Historic and Current Snowfall Data for additional information in support of this request.*

*Not Required for Emergency Declaration Request

11. Programs and Areas Requested (Continued)

Hazard Mitigation* ☒ Statewide OR

For the following specific counties, parishes, independent cities or tribes and/or tribal areas.
N/A

12. Mitigation Plan Information*

a. Mitigation Plan Expiration Date April 23, 2019 b. Type of Plan ☐ Enhanced ☒ Standard

13. Other Federal Agency Programs

☐ I do not anticipate requirements from Other Federal Agencies ☒ I do anticipate requirements from Other Federal Agencies

Please see Enclosure C: Requirements for Other Federal Agency Programs for additional information in support of this request*.

14. Findings and Certifications

☒ I certify the following:

a. I have determined that this incident is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local government or Indian tribal government and that supplementary federal assistance is necessary.

b. In response to this incident, I have taken appropriate action under State or tribal law and have directed the execution of the State or Tribal Emergency Plan on Jan 5, 2016 in accordance with the Stafford Act.

c. The State and local governments, or Indian tribal government will assume all applicable non-Federal share of costs required by the Stafford Act.

15. List of Enclosures and Supporting Documentation

☒ Cover Letter ☐ Enclosure A (Individual Assistance)* ☐ Enclosure B (Public Assistance)*

☐ Enclosure C (Requirements for Other Federal Agency Programs) ☐ Enclosure D (Historic and Current Snowfall Data)

☐ Additional Supporting Documentation _____

Governor's or Tribal Chief Executive's Signature

Jan 14, 2016
Date

If anyone except the Governor or Tribal Chief Executive signs this document, please provide the documentation that establishes that this individual has the legal authority to act on behalf of the Governor or Tribal Chief Executive.

Not Required for Emergency Declaration Request

STATE OF MICHIGAN
EXECUTIVE OFFICE
LANSING

RICK SNYDER
GOVERNOR

BRIAN CALLEY
LT. GOVERNOR

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Titles IV and V of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121 *et seq.* (Stafford Act), I request that you declare an Expedited Major Disaster with a Preliminary Damage Assessment to follow if a disaster declaration occurs, and an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint, which was demonstrated in October, 2015.

Impact and Trauma

The City of Flint switched its water source from the Detroit system to the Flint River on April 25, 2014. Thereafter, in 2015, through cooperative monitoring efforts by the City of Flint, State of Michigan, and the Environmental Protection Agency (EPA)—and the painstaking work of physicians at Hurley Medical Center—elevated blood lead levels (EBLLs) were discovered in the City of Flint. As a consequence, Genesee County issued a "Do Not Drink" advisory on October 1, 2015. Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, we recognize that the full community of Flint must be the focus and the Michigan Department of Health and Human Services (MDHHS) is treating this as a population-wide exposure in its public health response. As of the most recent update 2,642 Flint residents have been tested for blood lead levels. Of those tested, fifty residents have exhibited elevated blood lead levels. Twenty eight of the persons found to have elevated blood lead levels are children under the age of six, the most likely age group to experience a long-term impact from lead exposure. One child was hospitalized, treated, and released. No other hospitalizations and no deaths have been associated with this emergency.

The MDHHS has also observed a spike of Legionella in the Flint area, which occurred in roughly the same time frame. This too will be investigated for any potential link to the water system.

This emergency has had a significant economic and psychological impact on the community. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the population. Mistrust in government is at a heightened level. Thus, while the tap water is safe for non-consumptive uses, people are understandably concerned, and we are assuming it cannot be used for potable purposes. Special populations are especially vulnerable in this emergency as they are often unable to access vital nutrition or water resources. Assistance with the Individuals Assistance Program will be essential to recovery.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate.

The American Red Cross has established a Disaster Recovery Operation and also is providing warehousing management. On January 13, 2016, a Volunteer Reception Center (VRC) was established, and the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) conducted a conference call to determine how it can more fully activate. Several of its member organizations have already activated. Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

Pursuant to Michigan's Public Act 390, the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2016, respectively. I then declared a State of Emergency on January 5, 2016, for the County of Genesee and City of Flint. This emergency assumes that there has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities.

While we do not currently know the extent of any permanent damage to the City of Flint's water supply infrastructure, it has estimated the cost of replacing its water supply infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate compiled by the Genesee County Department of Equalization, which assumes a cost of $25 per linear foot to remove and replace private service lines. Both Individual Assistance, and Public Assistance, will be crucial to helping the city and its residents recover. The State has already invested over $10 million in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

The jurisdictions that are the subject of this request have recognized their responsibility to make their community as disaster-resilient as possible. They currently have in place a FEMA-approved Hazard Mitigation Plan that is compliant with the Disaster Mitigation Act of 2000. The plan was adopted January 26, 2015. Under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included within Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has made a strong commitment to mitigate hazards and has met all applicable federal standards. On April 23, 2014, FEMA approved Michigan's Hazard Mitigation Plan as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information addresses the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households. The EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – Geographic Information System Unit (GIS)

On Friday, January 8, 2016, GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present need significant updating before an accurate picture can be created.

DPW estimates that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, GIS staff have noted that newer sections of the city (post 1950) tend to be

copper piping and do not have a prevalence of lead. In contrast, older sections of the city tend to have sparse concentrations of lead, but the records for these areas are often incomplete.

In order to effectively determine the scope of the affected area, EMHSD is working with DPW and the University of Michigan–Flint to digitize many of DPW's old analog maps in order to extract the pipe status. Even when this process is complete, however, it will remain unclear whether the information will be accurate, given the age of the source data. With the comprehensive water testing plan that the Michigan Department of Environmental Quality (MDEQ) is implementing, problem areas for the city will be identified to allow for manual inspections of the underground pipes to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The National Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services (MDHHS) – Health Division

The MDHHS is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. This emergency potentially could impact the capacity of the MDHHS to continue to undertake its public health work in other areas of the state.

The MDHHS continues to work closely with local partners to ensure that potentially impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). This includes working closely with the local primary care provider community and Women/Infants/Children (WIC) clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The MDHHS updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October 2015, MDHHS initiated community outreach for distribution of educational materials to parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready-to-Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

While the extent of the impact is unknown, a worst-case-scenario impact of this emergency could result in significant future health costs to the impacted population, for direct medical needs, secondary and tertiary medical expenses, and secondary and tertiary prevention (education and nutrition).

Department of Health and Human Services – Human Services Division

The City of Flint is categorized as a food desert. The Human Services Division of the MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods: MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card (SNAP assistance) but still require additional healthy fruits and vegetables beyond what they can obtain through

the SNAP program. Other residents who have had elevated blood lead levels may not have a Bridge Card, but purchasing fresh fruits and vegetables still can be a burden due to higher costs.

The plumbing in some homes is in poor condition. As a result, the faucet filters may not fit. The cost of paying for city water that the residents cannot drink is also significant. Some residents may have to make a choice between buying food or to paying for water to flush toilets, bathe, and wash clothes. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of four, with leaks, etc., it could amount to more than $150 per month.

Additional ongoing testing will be required for those with EBLLs. Other potential long-term expenses may include treatment, tutoring, behavior specialists, and mental health services.

Flint is one of the most impoverished areas in Michigan. State and city poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially between 2006 (25.4%) and 2012 (31.8%).
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP) increased from 35.4% in 2006 to 47% in 2013.
- 21.8% of students did not graduate on time in 2013.
- The following table, "MDHHS Program Data," shows the numbers of recipients of benefit programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP) [SNAP]	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Talent and Economic Development (MDTED)

The MDTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

The MDTED's combined efforts are focused on short- and long-term assistance to the impacted communities through various grants and potential infrastructure assistance. MSHDA has identified allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources and studies, the MDTED determined potential long-term impacts to the economy of Flint and its residents resulting from the water crisis. Potential long term costs associated with certain blood lead levels could include lifetime earnings loss, lead health care treatment costs, ADHD treatment costs, and special education costs.

With input from the Department of Treasury, the MDTED assessed that the most significant potential negative impact may be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters may leave the city). Residents and businesses may also have to continue to pay extra for bottled water, so the extra spending on water could take away from other spending. It would be relatively easy for residents to move some of their economic/spending activity outside the city, which could contribute to an economic downturn in Flint. Long-term, there may be the significant cost of a new water system over and above the health related costs, estimated by the MDHHS.

Department of Environmental Quality (MDEQ)

The MDEQ has been granted primary enforcement authority in Michigan by the EPA for regulatory oversight of all public water supplies, pursuant to the federal Safe Drinking Water Act. The City of Flint began using the Flint River for drinking water on April 25, 2014.

On October 1, 2015 the State Chief Medical Executive confirmed Hurley Children's Hospital blood lead level data. On this same day, the Genesee County Health Department issued a "Do Not Drink" advisory to the customers of the Flint Water Treatment Plant. On October 15, 2015 the Michigan State Legislature authorized $9.35 million to help fund the City's return to purchasing treated water from the Detroit Water System (DWSD), and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services. On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karagnondi Water Authority is scheduled to be completed in mid to late 2016.

The MDEQ estimates its cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The MDEQ staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Agriculture and Rural Development (MDARD)

Part of the MDARD's coordinated outreach includes contact with businesses, particularly food-related businesses, to evaluate the safety of the water they use in their products. Water safety also impacts animals. As a precautionary measure, the MDARD included pets, service animals, and other domestic animals in their messages to families about water. They have also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). All establishments received a letter in October 2015 with guidance and will receive revised guidance over the next few days. There are 97 gas stations within the city which are within those food license numbers. We are planning additional outreach to them as part of our efforts.

No animal licensed shelters exist in the water service area. The current focus is on residences where they may also have pets. There are two veterinary clinics in the City, and we have made individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

The MDARD has been in close coordination with the MDEQ, The MDHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. The MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Education (MDE)

The MDE is monitoring all child nutrition program providers operating in the Flint area. MDE food service program staff is working with all school meal operators and child and adult care operators to ensure they take all proper precautions if they have unsafe water.

Department of Insurance and Financial Services (DIFS)

The DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer. The potential losses experienced in Flint may not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the MDEQ of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Licensing and Regulatory Affairs (LARA)

Beginning this week, state employees from LARA's Bureau of Construction Codes/Plumbing Division will conduct a pilot program at Freeman Elementary and will install new water faucets and plumbing associated with the nine faucet outlets that showed elevated lead exposure following MDEQ's initial testing. Twenty-two outlets did not show elevated lead exposure, but the nine faucets that did come back with initially high results involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. Following the installation of the new faucets, DEQ will retest Freeman identically to the original test of the school. Following the results of this pilot program, the initiative could be broadened to other schools throughout Flint and will affect the State of Michigan's long term strategy for ensuring clean drinking water in the city.

Replacement of faucets and piping are to be certified with no lead.

- Sink faucets $200
- Water supply valves/pipe fittings $100
- Labor/installation $625

With 29,943 customers on this water line and a minimum of 2 faucets per customer, (one bathroom, one kitchen), we are estimating replacement costs which could be as much as $55 million.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges. Seven trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits. More of the above resources are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- *Truckloads of water – 32; Equating to gallons, this is approximately 250,000 gallons over two* days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014. In response to these disasters, in addition to Stafford Act assistance from DR-4195, the State has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau have successfully addressed the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit to continue rebuild efforts and even muck-outs from the flooding of 2014. *Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet* needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG), in cooperation with the Urban Studies Center at Wayne State University, estimates that there remain 14,992 homes still in need of intervention resulting from the *2014 flood, with estimated repairs reaching as much as $144,477,500.*

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is more than double the national rate. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially with lead which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5-year average, a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6 4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

* U S. Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)

Public and Individual Assistance

In the October, 2015, to December, 2015, time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures require approximately $9.55 million to keep Flint on Detroit water until Karagnondi water is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, the need could be as much as $53 million to help individuals eliminate lead service lines on their properties.

The City's water system has been affected by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source appears to have decomposed and it is likely that some of the underlying lead pipes and lead solders began to leach into the water. Ultimately, this may have contributed to significant EBLL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The University of Michigan–Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is potentially of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that federal relief assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies with resources and expertise that can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

EXECUTIVE OFFICE
LANSING

BRIAN CALLEY
LT. GOVERNOR

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Titles IV and V of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121 *et seq.* (Stafford Act), I request that you declare an Expedited Major Disaster with a Preliminary Damage Assessment to follow if a disaster declaration occurs, and an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint, which was demonstrated in October, 2015.

Impact and Trauma

The City of Flint switched its water source from the Detroit system to the Flint River on April 25, 2014. Thereafter, in 2015, through cooperative monitoring efforts by the City of Flint, State of Michigan, and the Environmental Protection Agency (EPA)—and the painstaking work of physicians at Hurley Medical Center—elevated blood lead levels (EBLLs) were discovered in the City of Flint. As a consequence, Genesee County issued a "Do Not Drink" advisory on October 1, 2015. Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, we recognize that the full community of Flint must be the focus and the Michigan Department of Health and Human Services (MDHHS) is treating this as a population-wide exposure in its public health response. As of the most recent update 2,642 Flint residents have been tested for blood lead levels. Of those tested, fifty residents have exhibited elevated blood lead levels. Twenty eight of the persons found to have elevated blood lead levels are children under the age of six, the most likely age group to experience a long-term impact from lead exposure. One child was hospitalized, treated, and released. No other hospitalizations and no deaths have been associated with this emergency.

The MDHHS has also observed a spike of Legionella in the Flint area, which occurred in roughly the same time frame. This too will be investigated for any potential link to the water system.

This emergency has had a significant economic and psychological impact on the community. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the population. Mistrust in government is at a heightened level. Thus, while the tap water is safe for non-consumptive uses, people are understandably concerned, and we are assuming it cannot be used for potable purposes. Special populations are especially vulnerable in this emergency as they are often unable to access vital nutrition or water resources. Assistance with the Individuals Assistance Program will be essential to recovery.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate.

The American Red Cross has established a Disaster Recovery Operation and also is providing warehousing management. On January 13, 2016, a Volunteer Reception Center (VRC) was established, and the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) conducted a conference call to determine how it can more fully activate. Several of its member organizations have already activated. Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

Pursuant to Michigan's Public Act 390, the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2016, respectively. I then declared a State of Emergency on January 5, 2016, for the County of Genesee and City of Flint. This emergency assumes that there has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities.

While we do not currently know the extent of any permanent damage to the City of Flint's water supply infrastructure, it has estimated the cost of replacing its water supply infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate compiled by the Genesee County Department of Equalization, which assumes a cost of $25 per linear foot to remove and replace private service lines. Both Individual Assistance, and Public Assistance, will be crucial to helping the city and its residents recover. The State has already invested over $10 million in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

The jurisdictions that are the subject of this request have recognized their responsibility to make their community as disaster-resilient as possible. They currently have in place a FEMA-approved Hazard Mitigation Plan that is compliant with the Disaster Mitigation Act of 2000. The plan was adopted January 26, 2015. Under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included within Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has made a strong commitment to mitigate hazards and has met all applicable federal standards. On April 23, 2014, FEMA approved Michigan's Hazard Mitigation Plan as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information addresses the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households. The EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – Geographic Information System Unit (GIS)

On Friday, January 8, 2016, GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present need significant updating before an accurate picture can be created.

DPW estimates that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, GIS staff have noted that newer sections of the city (post 1950) tend to be

copper piping and do not have a prevalence of lead. In contrast, older sections of the city tend to have sparse concentrations of lead, but the records for these areas are often incomplete.

In order to effectively determine the scope of the affected area, EMHSD is working with DPW and the University of Michigan–Flint to digitize many of DPW's old analog maps in order to extract the pipe status. Even when this process is complete, however, it will remain unclear whether the information will be accurate, given the age of the source data. With the comprehensive water testing plan that the Michigan Department of Environmental Quality (MDEQ) is implementing, problem areas for the city will be identified to allow for manual inspections of the underground pipes to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The National Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services (MDHHS) – Health Division

The MDHHS is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. This emergency potentially could impact the capacity of the MDHHS to continue to undertake its public health work in other areas of the state.

The MDHHS continues to work closely with local partners to ensure that potentially impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). This includes working closely with the local primary care provider community and Women/Infants/Children (WIC) clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The MDHHS updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October 2015, MDHHS initiated community outreach for distribution of educational materials to parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready-to-Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

While the extent of the impact is unknown, a worst-case-scenario impact of this emergency could result in significant future health costs to the impacted population, for direct medical needs, secondary and tertiary medical expenses, and secondary and tertiary prevention (education and nutrition).

Department of Health and Human Services – Human Services Division

The City of Flint is categorized as a food desert. The Human Services Division of the MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods: MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card (SNAP assistance) but still require additional healthy fruits and vegetables beyond what they can obtain through

the SNAP program. Other residents who have had elevated blood lead levels may not have a Bridge Card, but purchasing fresh fruits and vegetables still can be a burden due to higher costs.

The plumbing in some homes is in poor condition. As a result, the faucet filters may not fit. The cost of paying for city water that the residents cannot drink is also significant. Some residents may have to make a choice between buying food or to paying for water to flush toilets, bathe, and wash clothes. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of four, with leaks, etc., it could amount to more than $150 per month.

Additional ongoing testing will be required for those with EBLLs. Other potential long-term expenses may include treatment, tutoring, behavior specialists, and mental health services.

Flint is one of the most impoverished areas in Michigan. State and city poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially between 2006 (25.4%) and 2012 (31.8%).
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP) increased from 35.4% in 2006 to 47% in 2013.
- 21.8% of students did not graduate on time in 2013.
- The following table, "MDHHS Program Data," shows the numbers of recipients of benefit programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP) [SNAP]	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	*460*	*n/a*
Medicaid (MA)	52,735	82,117

Department of Talent and Economic Development (MDTED)

The MDTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

The MDTED's combined efforts are focused on short- and long-term assistance to the impacted communities through various grants and potential infrastructure assistance. MSHDA has identified allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources and studies, the MDTED determined potential long-term impacts to the economy of Flint and its residents resulting from the water crisis. Potential long term costs associated with certain blood lead levels could include lifetime earnings loss, lead health care treatment costs, ADHD treatment costs, and special education costs.

With input from the Department of Treasury, the MDTED assessed that the most significant potential negative impact may be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters may leave the city). Residents and businesses may also have to continue to pay extra for bottled water, so the extra spending on water could take away from other spending. It would be relatively easy for residents to move some of their economic/spending activity outside the city, which could contribute to an economic downturn in Flint. Long-term, there may be the significant cost of a new water system over and above the health related costs, estimated by the MDHHS.

Department of Environmental Quality (MDEQ)

The MDEQ has been granted primary enforcement authority in Michigan by the EPA for regulatory oversight of all public water supplies, pursuant to the federal Safe Drinking Water Act. The City of Flint began using the Flint River for drinking water on April 25, 2014.

On October 1, 2015 the State Chief Medical Executive confirmed Hurley Children's Hospital blood lead level data. On this same day, the Genesee County Health Department issued a "Do Not Drink" advisory to the customers of the Flint Water Treatment Plant. On October 15, 2015 the Michigan State Legislature authorized $9.35 million to help fund the City's return to purchasing treated water from the Detroit Water System (DWSD), and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services. On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karagnondi Water Authority is scheduled to be completed in mid to late 2016.

The MDEQ estimates its cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The MDEQ staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification

Department of Agriculture and Rural Development (MDARD)

Part of the MDARD's coordinated outreach includes contact with businesses, particularly food-related businesses, to evaluate the safety of the water they use in their products. Water safety also impacts animals. As a precautionary measure, the MDARD included pets, service animals, and other domestic animals in their messages to families about water. They have also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). All establishments received a letter in October 2015 with guidance and will receive revised guidance over the next few days. There are 97 gas stations within the city which are within those food license numbers. We are planning additional outreach to them as part of our efforts.

No animal licensed shelters exist in the water service area. The current focus is on residences where they may also have pets. There are two veterinary clinics in the City, and we have made individuallzed follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

The MDARD has been in close coordination with the MDEQ, The MDHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. The MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Education (MDE)

The MDE is monitoring all child nutrition program providers operating in the Flint area. MDE food service program staff is working with all school meal operators and child and adult care operators to ensure they take all proper precautions if they have unsafe water.

Department of Insurance and Financial Services (DIFS)

The DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer. The potential losses experienced in Flint may not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the MDEQ of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Licensing and Regulatory Affairs (LARA)

Beginning this week, state employees from LARA's Bureau of Construction Codes/Plumbing Division will conduct a pilot program at Freeman Elementary and will install new water faucets and plumbing associated with the nine faucet outlets that showed elevated lead exposure following MDEQ's initial testing. Twenty-two outlets did not show elevated lead exposure, but the nine faucets that did come back with initially high results involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. Following the installation of the new faucets, DEQ will retest Freeman identically to the original test of the school. Following the results of this pilot program, the initiative could be broadened to other schools throughout Flint and will affect the State of Michigan's long term strategy for ensuring clean drinking water in the city.

Replacement of faucets and piping are to be certified with no lead.

- Sink faucets $200
- Water supply valves/pipe fittings $100
- Labor/installation $625

With 29,943 customers on this water line and a minimum of 2 faucets per customer, (one bathroom, one kitchen), we are estimating replacement costs which could be as much as $55 million.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges. Seven trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits. More of the above resources are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- Truckloads of water – 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014. In response to these disasters, in addition to Stafford Act assistance from DR-4195, the State has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau have successfully addressed the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit to continue rebuild efforts and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG), in cooperation with the Urban Studies Center at Wayne State University, estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is more than double the national rate. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially with lead which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5-year average, a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

* U.S. Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)

Public and Individual Assistance

In the October, 2015, to December, 2015, time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures require approximately $9.55 million to keep Flint on Detroit water until Karagnondi water is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, the need could be as much as $53 million to help individuals eliminate lead service lines on their properties.

The City's water system has been affected by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source appears to have decomposed and it is likely that some of the underlying lead pipes and lead solders began to leach into the water. Ultimately, this may have contributed to significant EBLL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The University of Michigan--Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is potentially of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that federal relief assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies with resources and expertise that can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

OMB No. 1660-0009/FEMA Form 010-0-13

DEPARTMENT OF HOMELAND SECURITY
FEDERAL EMERGENCY MANAGEMENT AGENCY

OMB No. 1660-0009 Expires March 31,2016

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION MAJOR DISASTER OR EMERGENCY

1. Request Date Jan 14, 2016

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0009). **NOTE: Do not send your completed form to this address.**

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R. §§ 206.35 and 206.36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U.S.C. § 5122) or Indian tribal government requesting declaration.	2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s).
Michigan	9,883,640

3. Governor's or Tribal Chief Executive's Name	4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number
Richard D. Snyder	Captain Chris A. Kelenske Office: 517-333-5042 Cell:

5. Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number

Mr. Anthony Katarsky Office: 517-336-2686 Cell:

6. Declaration Request For: ☐ Major Disaster (Stafford Act Sec. 401) ☒ Emergency (Stafford Act Sec. 501(a))

7. Incident Period: Beginning Date Apr 25, 2014 End Date _____ or ☒ Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e.g., United States Geological Survey for seismic incidents, the National Weather Service for flooding).

7b. Type of Incident (Check all that apply)

☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☐ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide
☐ Severe Storm (rain, high water, wind-driven rain, hail, lightning) ☐ Snowstorm (Must include Enclosure D: Historic and Current Snowfall Data) ☐ Straight-Line Winds
☐ Tidal Wave ☐ Tornado ☐ Tropical Depression ☐ Tropical Storm ☐ Tsunami ☐ Volcanic Eruption ☐ Winter Storm
☒ Other (please specify) Contamination and Damage to Public Water System

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

On April 25, 2014, the City of Flint switched from the Detroit Water System (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Executive. Based on U.S. census data, the population of the City of Flint is 99,002. Census data puts the percentage of the total population under the age of 5 at 8% or approximately 8,200. Children under age 6 are in a high-risk stage of growth for lead exposure. Approximately 2,642 residents have been tested for lead blood levels as a result of this incident with 50 exhibiting elevated blood lead levels. The 2010 census data identifies 40,017 households and 51,321 housing units within the City of Flint. All of these households obtain their potable water from the city.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

All appropriate local, regional and state resources were used to their maximum in responding to and recovering from this public health emergency. This included equipment, personnel, materials and supplies, facilities, technical expertise (including emergency contracting, as appropriate), and financial resources. When local and regional resources (including partner voluntary relief organizations and other community-based organizations) were not sufficient to address incident conditions, or very specialized resources were required to perform specialized response and/or recovery functions, State of Michigan resources were activated to address capability shortfalls. State agencies actively involved in the response and recovery activities in the SEOC and/or field include the Michigan Departments of State Police, Agriculture and Rural Development, Attorney General, Civil Rights, Corrections, Education, Environmental Quality, Health and Human Services, Insurance and Financial Services, Licensing and Regulatory Affairs, Military and Veterans Affairs, Natural Resources, and Talent and Economic Development. Details are in the cover letter.

10. Joint Preliminary Damage Assessment*

☐ Individual Assistance Dates Performed Requested _____ Start _____ End _____

Individual Assistance Accessibility Problems (Areas that could not be accessed, and why)
N/A

☐ Public Assistance Dates Performed Requested _____ Start _____ End _____

Public Assistance Accessibility Problems (Areas that could not be accessed, and why)
N/A

11. Programs and Areas Requested

Individual Assistance ☐ N/A ☒ Individuals and Households Program ☐ Crisis Counseling Program ☐ Disaster Unemployment Assistance

☐ All ☐ Disaster Case Management ☐ Disaster Legal Services

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)) If additional space is needed, please enclose additional documentation).

Townships of Mt. Morris, Flint and Genesee; Cities of Flint and Burton; County of Genesee
We request all available programs. The Individual and Households Program will be needed to assist residents/water service customers with an estimated cost as much as $54,619,500 over a period of 1 year to repair damaged lead service lines on private property.

For States, identify Federally-recognized Tribes in the requested counties (if applicable).
N/A

Please see Enclosure A: Supplemental Information for Individual Assistance for additional information in support of this request*.

**Not Required for Emergency Declaration Request*

11. Programs and Areas Requested (Continued)

Public Assistance ☐ N/A ☐ Debris Removal (Category A) ☒ Emergency Protective Measures (Category B) ☐ Permanent Work (Categories C-G)* (not available for Emergency Declaration Requests)

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)). If additional space is needed or your request includes different categories of work for different jurisdictions; please enclose additional documentation.

Townships of Mt. Morris, Flint and Genesee; Cities of Flint and Burton; County of Genesee
We request all available programs. Emergency Protective Measures have been and will continue to be implemented with estimated costs which could be in the range of $41,000,000. The need is estimated for 90 days for water distribution ($10,335,808) and 1 year for the balance for filters, filter cartridges, and water test kits.

For States, identify Federally-recognized Tribes included in the requested counties (if applicable).
N/A

Please see Enclosure B: Supplemental Information for Public Assistance for additional information in support of this request*.

Indemnification for Debris Removal Activity

☒ I do not anticipate the need for debris removal.

☐ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance
